

## ANYTHING THAT FLOATS BUT A BOAT

**Acceptable building materials include:** cardboard, pool noodles, water bottles, cloth/rope/cording, barrels, light framing you can lift and transport.

NO STYROFOAM WHATSOEVER

NO GLASS WHATSOEVER.

NO MOTORS.

CANNOT BE MADE ENTIRELY OF INNERTUBES OR FLOATS.

NO FIREWORKS.

NO ACTUAL BOATS/CANOES/KAYAKS

These are general guidelines: There are many materials that can be used to create and build your craft. Keep in mind weight and strength and your goal: The craft needs to be sturdy enough to get up and down the river and be towed if necessary. Most of all: **We must keep safety a priority.**

1. All participants must stay aboard craft for the duration of the race, if any crew member falls or jumps into the water, the craft will be disqualified.
2. ALL crafts, and any sections/pieces that become unattached, must be removed from the river within 1 hour after finishing the race by the team members.
3. Each person must have a Coast Guard approved personal floatation device (PFD) on at all times. The life vest must be in excellent condition and must fit the size of the participant. (Safety First)
