In affixing my signature, I acknowledge that the above information is accurate; that I have read the application as well as the Ellijay-Gilmer County Water and Sewerage Customer Agreement below and on the reverse side of this application.

_____ Date _____

Customer's Signature or Agent

The signer of this agreement hereby applies for services from Ellijay-Gilmer County Water and Sewerage Authority subject to the following terms and conditions:

1. Applicant agrees to pay a deposit to the Authority for services rendered at the listed service address. The current rate of **deposit is \$125.00 for a standard 3/4" residential meter.** Larger meters and high usage commercial meters such as restaurants require a deposit based on the current schedule of deposits in effect at the time. The deposit is subject to adjustment to be brought current with the prevailing rate; if it is considered necessary, to maintain the account. An increased deposit may be required for an overdue account. A **new service admin fee of \$50.00** will be required to activate service during normal business hours. Applications received after 4:00 PM are not guaranteed to be connected on the same day and may be required to pay an additional **after-hour service trip of \$150.00.**
2. The applicant agrees to comply with all rules and regulations applicable to such a service. These include a copy of a photo identification card and social security or Federal tax identification number for each application and service location.
3. Deposits can be transferred to a new service location and are subject to a **transfer fee of \$50.00** for each account transferred. **Any past due balance on the existing account must be paid before the new service location will be turned on and the transfer completed.**
4. Applicants agree to pay for the full amount of water registered by the meter, at the rate that is in effect during the service period, whether the amount is due to usage, waste, leakage, or any other cause that is not the fault of the water system. **All payments are due by the 20th of each month** or the next working day if the 20th falls on a non-working day. **Failure to receive a bill does not entitle delayed payment.**
5. Payments received after the due date will be subject to a **late fee of \$10.00 or 10% of the overdue balance**, whichever is greater. **Overdue accounts are subject to immediate disconnection for nonpayment.** The Authority does not offer

RESIDENTIAL / COMMERCIAL CONTRACT – TERMS & CONDITIONS

uninterruptible service. Disconnected accounts will be subject to an **administrative charge for disconnection, which is currently \$50.00 per overdue account.** A reconnection charge of \$75 will be required for accounts that are reconnected during regular working hours, which are 8:00 am through 4:00 pm, on working days. Overdue accounts that are paid before 4pm will be reconnected the same day, whenever possible. However, same day reconnection cannot be guaranteed due to circumstances beyond Authority control. **You understand and agree that any balance due should be paid promptly and in accordance with terms and agreements and that in the event of default to pay, the Authority may add reasonable collection charges and/or court costs and attorney fees.**

6. Reconnection that is requested after 4pm will be considered an after-hours reconnection and will be charged an **after-hours fee of \$150.00.** A signature will be required for an after-hours agreement at the time of reconnection and requires the overdue amount and related charges to be paid by 1pm on the following working day. If not paid by 1pm, the service will be disconnected and a second charge, equivalent to the after-hours reconnect fee, will be added to the account. No reconnects will be made between 8pm and 8am.
7. Service calls, for problems on the customer's side of the water meter, such as to turn off the water due to a leak in the customer's plumbing, may be billed a water service trip charge. The current water service trip charge is \$25.00 between the hours of 8am and 3pm and \$150.00 for after hours and weekends. Water service that has been turned off due to a leak in the customer's piping will require the installation of a "Customer Cut-Off Valve", where one does not already exist, before the service will be turned back on. A Customer Cut-Off Valve is a valve that the customer can use to turn off their service line and it is placed between the water meter and the customer service line. This valve can be installed by a certified plumber or Authority service personnel. The current charge for a **Customer Cut-Off Valve is \$250.00 per installation.** Service calls, for problems with the customer's sewer service line, where the problem is found to be no fault of the public collection system piping, will be billed a **sewer service charge of \$75.00 between the hours of 8am and 3pm and \$150.00 for after-hours & weekends.**
8. The applicant agrees that in connection with the services provided, the Authority shall not be liable for damages to any property of the applicants by reason of any action on the part of the Authority or the State of Georgia, or their duly authorized officers, agents, servants, or employees. The Authority's responsibility is in the right-of-way or easement adjacent to the customer's property and not on the customer's property. Duly authorized agents of the Authority shall have access at all hours to the premises of the consumer for the purpose of installing or removing Authority property, inspecting piping, reading, and testing meters or for any other purpose in connection with the water service and its facilities.
9. The Authority will install backflow devices/assemblies on all new taps. After installation, the device/assembly will be the owner's responsibility to maintain and test if the unit is testable.
10. The applicant agrees that the water service, to be rendered by the Authority, is limited to the use of only one (1) family dwelling (house, mobile home, etc.) or commercial building. The applicant agrees not to sell, furnish, or permit water to be used through the meter by other parties or to connect the service to other properties or services. Violation of this condition shall be considered a breach of contract and will result in immediate termination of service, without prior notice.
11. Applicants agree to not tamper with the meter device in accordance with Authority policies. The applicant agrees to immediately contact the Authority in connection with any service issues under this contract. Anyone found to have tampered with the meter or related devices located within the meter box will be subject to a **tampering fee of \$1,000.00 per incident.**
12. The Authority cannot regulate nor guarantee water pressure on the customers side of the meter; therefore, the Authority recommends that all customers protect their plumbing with a properly sized pressure reducing valve.
13. **Applicants agree and understand their responsibility to notify EGCWSA of all changes of address, contact information and/or phone numbers.**
14. Written notification is required for cancellation of service along with identity proof as outlined by FTC Identity Theft Prevention regulations.
15. **All fees, charges and penalties represented in this form are what is in effect at the time of this agreement and are subject to change. This agreement refers to the application of the fees, charges and penalties that are in force during the service period in which they occur.**

SPECIAL DISTRICT FEES	WATER	SEWER
Coosawattee River Resort	\$3.00	N/A

FIRELINE	WATER (per 1000 gallons)	SEWER
Minimum Charge	\$15.00	N/A
Any Usage	\$8.00	N/A

Residential is defined as a single household with an individual meter.

Commercial is for businesses or multi-unit households off a single meter.

Industrial is defined as a plant, factory, or agricultural producer.

Transfer is for sales to other permitted systems through a master meter.

Special District Fee is a monthly fee to cover debt on a special project.

Fireline is a commercial customer with a designated meter that should be used solely for fire service.

BILLING POLICY:

Payments are due by the 20th of each month and past due accounts are subject to a late charge of \$10 or 10% of the past due amount, whichever is greater. Accounts are subject to disconnection for nonpayment on the 10th of the month following the due date. Disconnected services must have an account deposit of \$125 to be reconnected. If the existing deposit is less, the difference must be paid prior to reconnection of service. All billings for sewer usage will be based on water usage of the location. In our efforts to enforce Georgia's Water Conservation Implementation Plan, irrigation meters are not installed.

ELLIJAY-GILMER COUNTY WATER & SEWERAGE AUTHORITY

**Ellijay-Gilmer County Water & Sewerage Authority
Tampering Policy**

The Ellijay-Gilmer County Water & Sewerage Authority will prosecute any individual or company engaged in unauthorized tampering.

Tampering means the unauthorized interference with the equipment, monitoring devices, treatment devices, fire hydrants, manholes, pump stations, tanks, valves, and any appurtenances used to provide water and sewer service.

This shall include the theft of water by any unauthorized manner, including through metering devices or bypassing such a device, also the unauthorized entry or discharge into the wastewater collection system.

The theft shall be reported to the law enforcement in the jurisdiction of occurrence. For each event reported the fee shall be \$1,000 with the possibility of criminal charges filed.

ADOPTED September 30, 2002

Director, Gary McVey
