

HYBRID-TOOLS

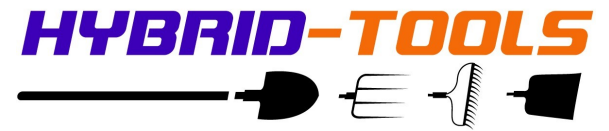

Hybrid-Tools can be mounted on any peg board, hooks, stored in a bag or tool box.

Warranty: Hybrid-Tools LLC offers a 1 year replacement on any manufactured defects. Warranty is void if any abuse on the shovel heads and handles. Tool heads and handles are not designed to use as hammers, pry bars, hammering into the ground, objects, or as a weapon. Splines on tool heads and acme adapters may get scuffed and burred up if not protected by hanging caps (supplied) when not in use. Warranty is void if any tampering, modifications, hammering, drilling, unscrewing or disassembling.

Introducing a Heavy-Duty Patented Interchangeable Multi-Tool Head. Hybrid

Tools is a unique work tool featuring interchangeable tool heads and handles. The Hybrid Tools system offers a variety of handle sizes and an assortment of tool heads, including Acme adapters that convert the handle into an existing broom, paint roller, mop, duster, or any other tool that requires an Acme thread insert.

This patented multi-tool doesn't need special storage or hanging space. All tool heads and handles can easily be mounted on a wall with a peg hook, stored in a bag, or placed in a toolbox. Each tool head comes with a hanging cap and pin for convenience.
