

FY2026

External Data Report

Exceptional Care. Always.

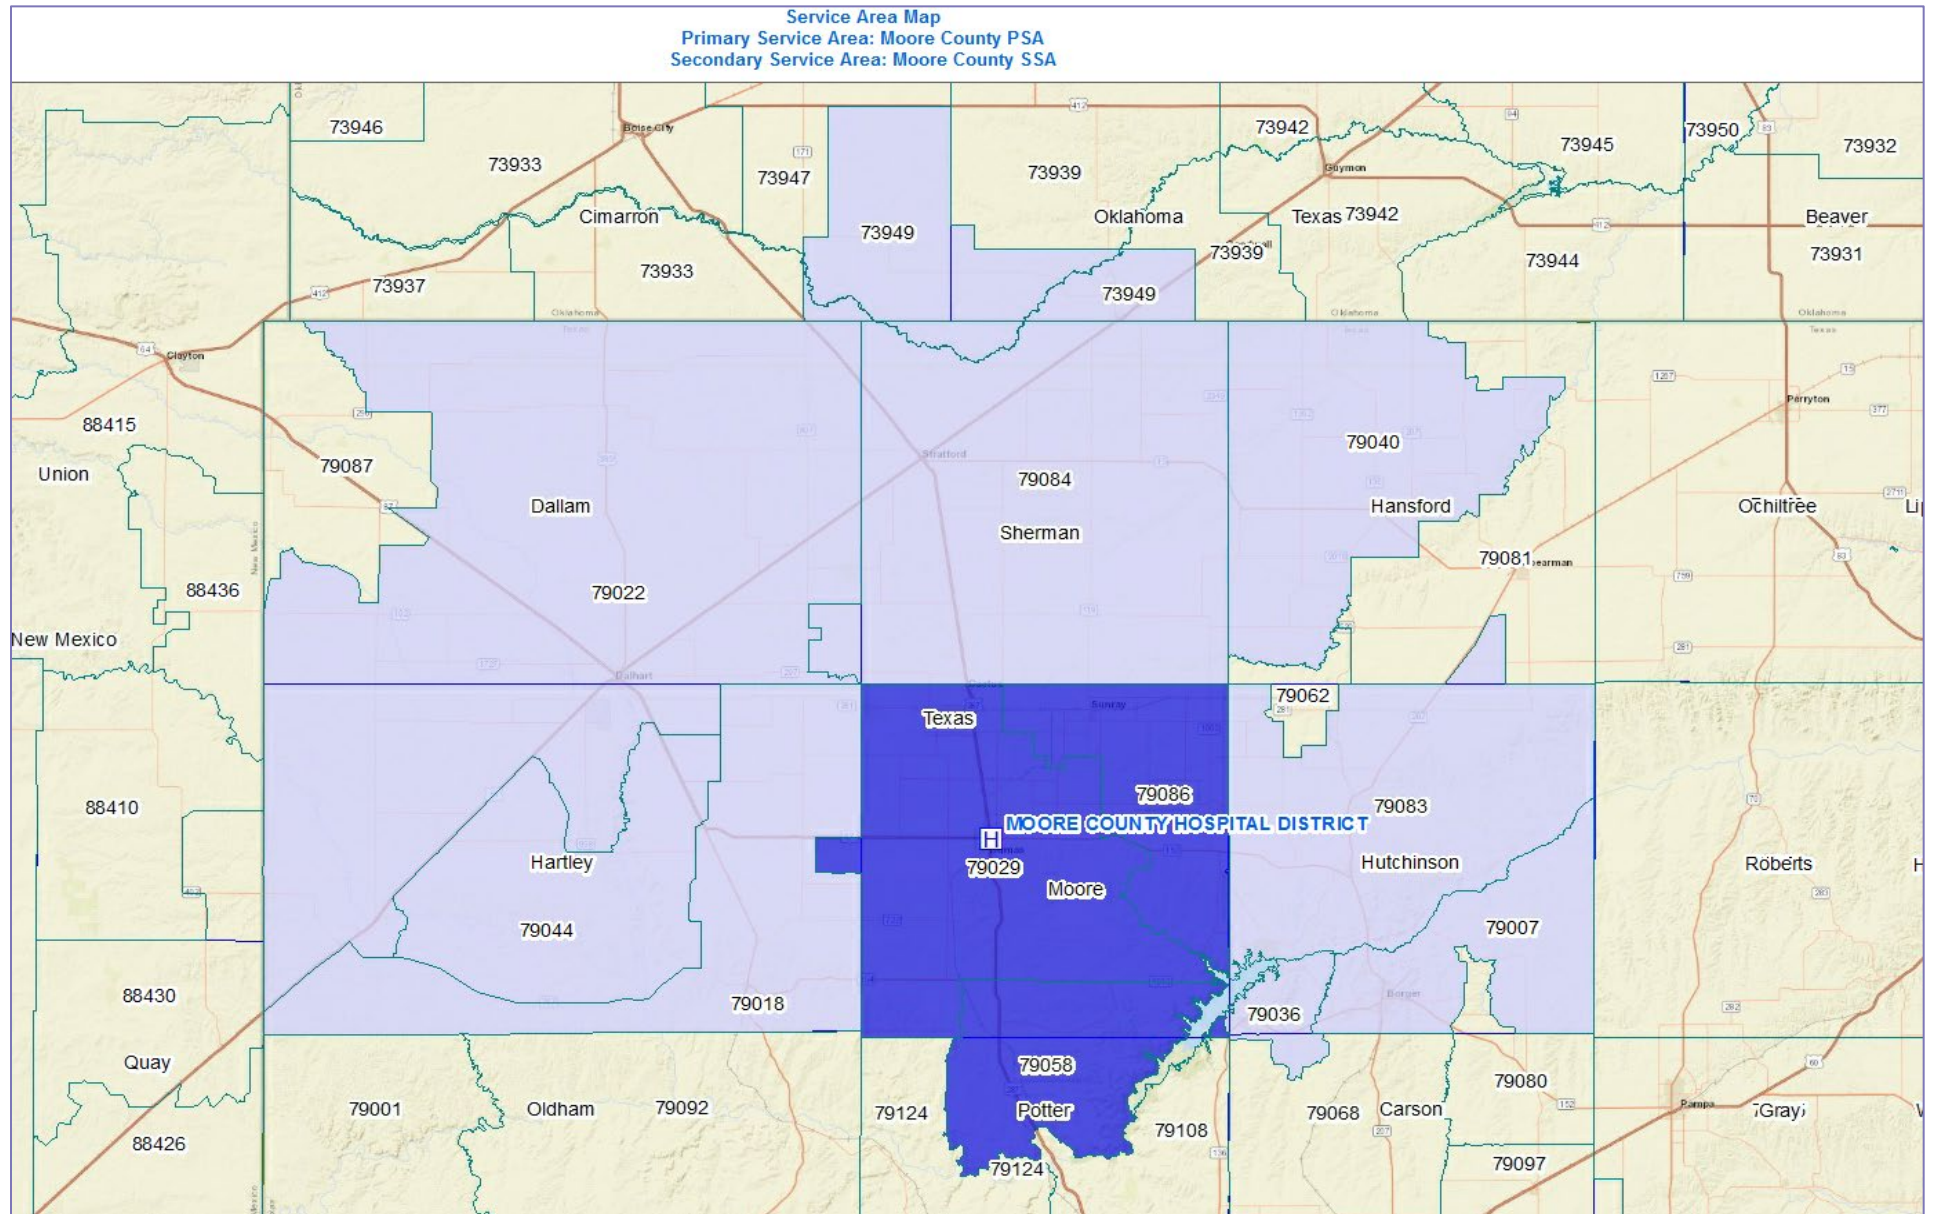

DEMOGRAPHICS AND SUMMARY OF FINDINGS

- MCHD's primary market area is comprised of Moore County, which encompasses the cities of Dumas, Cactus, Sunray, and Masterson, with an estimated total primary market area population of 21,358. This is static from prior year.
- MCHD's secondary market area is comprised of Dallam, Hansford, Hartley, Hutchinson, and Sherman Counties in Texas, and Texas County in Oklahoma, with a total secondary population of 62,565. This number is static from prior year.
- Ethnicity:
 - The primary service area population is estimated to consist 79% from a single ethnicity as follows: Caucasian – 30.43%, Hispanic – 59.21%, Asian – 4.6%, Black – 3.06%, American Indian/Pacific Islander – < 1%. 2% of the population consists of two ethnicities and less than 1% of those with three or more ethnicities.
 - The secondary service area population is estimated to consist of 96.7% from a single ethnicity as follows: Caucasian – 51.92%, Hispanic – 40.04%, Asian – 0.96%, Black – 2.68%, American Indian/Pacific Islander – 0.02%. 3.30% of the population consists of two ethnicities and less than 1% of those with three or more ethnicities.
 - The combined service area population consists of 97.06% from a single ethnicity as follows: Caucasian – 46.45%, Hispanic – 44.92%, Asian – 1.88%, Black – 2.78%, American Indian/Pacific Islander – 0.02%. 2.93% of the population consists of two ethnicities and less than 1% of those with three or more ethnicities.
- In the primary service area, approximately 76% of the population speaks English "very well" with the secondary languages predominantly being Spanish and Asian dialects. Approximately 88% of the population speaks English "very well" in the combined service area with Spanish being the dominant second language.
- All service areas have a younger distribution, male-majority population. The primary service area saw the majority of births occur in the 20-34 years old group (75.40%) with the 35-50 years old group being the second largest.
- The median household income in the primary service area is \$61,325, the secondary service area is \$70,278, and the combined service area is \$65,801. The mean household income is \$61,325 in the primary service area, the secondary service area is \$70,277, and the combined service area is \$65,801.
 - Out of a total of 27,090 combined service area households, the largest percentage of households fall in the \$50,000 - \$74,999 range at 20.09% (5,441 households) with the second largest falling in the \$100,000-\$149,000 range at 16.27% (4,408 households). Households that fall in the categories below \$34,999 make up 26.45% (7,166 households) and those that fall in the categories above \$75,000 make up 40.33% (10,925 households.) Household income is trending towards higher income brackets in the secondary area from prior year.
- As reported by the Bureau of Labor, the current 2025 (April) unemployment rate in the primary service area is 2.4%, holding from the previous year rate. The secondary service area average unemployment rate is 2.87% with counties ranging between 1.4% and 3.70%.
- MCHD Turnover is trending back up from prior year.
- MCHD Employee and Physician Satisfaction remains strong
- MCHD patient satisfaction is seeing opportunities arise from prior year in the emergency department and physician clinics.
- MCHD admissions are in slight decline but swingbed admissions are trending upwards.

EMPLOYEE RECRUITMENT & TURNOVER

- Prior to FY2016, turnover was adjusted to account for employees who were terminated in an “applaudable” manner. Beginning FY2016, all terminations were counted regardless of circumstances. Turnover remained steady during COVID 19 pandemic but economic changes beginning 2021 resulted in turnover trending higher nationwide. The younger workforce is accustomed to shorter employment stays and majority of turnover in recent years is attributed to this along with exit of employees within the 3-6 month range. Long term employees remain with the District but this population has begun the process of retirement.
- Nurse and technical education programs in the area have assisted with recruitment, but competition remains with other area hospitals and organizations that now require medical personnel.
