Trike Conversion Kit for the Harley-Davidson FL Touring Series

Superior Design and Performance

Independent Suspension
Proven Reliability

Adding more LIFE to your riding years... and more YEARS to your riding life!

Daytona

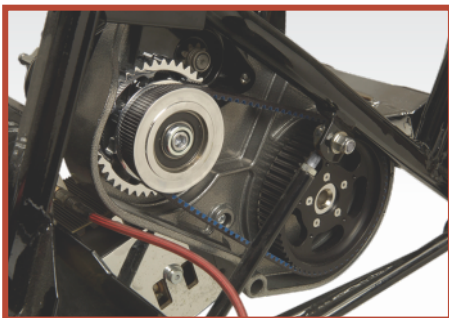

The CSC Daytona Kit is designed specifically for Harley-Davidson Touring Motorcycles. It's uniquely designed body is a great compliment to the styling features of the H-D Motorcycle and sets itself apart from other Trike kits. Our independent suspension and Power Trak combination gives superior ride, handling and comfort compared to other kits and even OEM Trikes.

17" ENKEI Wheel
Performance Brake Upgrade*

Trunk Cap*

Electric Reverse*

SUSPENSION

Independent Suspension

- Light weight & strong cast & forged aluminum structural components
- Purpose designed JRI nitrogen-charged gas shock
- Eibach 300 lb/inch spring standard - Optional spring rates are available
- Optional preloader to accommodate varying loads
- Maintenance and adjustment free components

DRIVETRAIN

Drivetrain

- Maintenance-free Gates belts, a precision jackshaft assembly which matches the OEM gear ratios, and a CSC exclusive differential

DISC BRAKE SYSTEM

Disc Brake System

- Patented, forged & CNC-machined, four piston, aluminum calipers
- Our performance upgrade offers drilled rotors with vented and red anodized calipers for improved heat dissipation
- Full ABS integration with ABS equipped motorcycles
