

JRi Daytona Fork Upgrade Kit Instructions

CSC Trike Kits for 2014-Current H-D Motorcycles

Disassembly:

1. Remove forks from trike.
2. Disassemble forks far enough to be able to change fork seals and remove all internal components including OIL LOCK PIECE. (See H-D Service Manual)

Assembly:

1. Insert JRi fork cartridge into upper fork leg.
2. Make sure supplied Jri aluminum spacer (OIL LOCK PIECE) and small spring remain in place on Jri fork cartridge. See pictures below with parts loose and installed.

3. Insert upper fork leg with JRi fork cartridge into lower fork half. Secure with OEM allen bolt.
4. Install new fork seals and hardware per H-D service manual.
5. Add supplied fork fluid. 150cc to each fork.
6. Install fork cap.
7. Reinstall forks on trike.

Enjoy the Ride
