# In-home checkups for your child

Together we can set goals to  
keep your health on track

Dear [Patient Name],

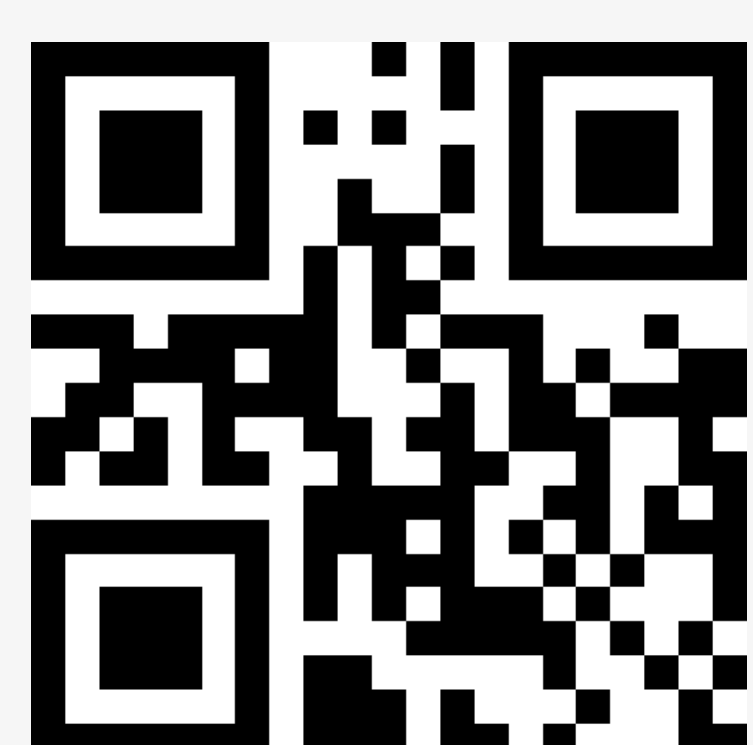

Your child is invited to join a special in-home checkup program with MedArrive at no cost as part of their Arizona Complete Health-Complete Care Plan to ensure they stay on track with their care. Better yet, you may be eligible to earn My Health Pays rewards when you complete healthy activities.

## How in-home checkups work with MedArrive:

- ✓ Call to set up your first in-home appointment. You may be seen as early as this week!
- ✓ During your well visit, also known as an EPSDT visit, a trusted health professional will come to your home, check vital signs, and discuss your child's overall health.
- ✓ They will connect you with a virtual clinician who will talk to you about your child's growth, development and any follow up care needed. They will send a health report to their primary care provider on file.

The best part about scheduling in-home checkups with MedArrive is appointments can be scheduled outside of school hours with availability in early mornings, evenings, and on Saturdays. The convenience of in-home care will save you time, money, and stress on juggling it all.
