

# **ANTIFOAM SPECIAL**

## **Liquid Antifoam Agent For Hog Scald Operations**

### **DESCRIPTION**

ANTIFOAM SPECIAL is used in scald tubs to reduce top foam and in dehairing machines to eliminate foam, ensuring proper scald. Foam reduction results in proper temperature readings and reduces the amount overflow, thereby saving water.

### **DIRECTIONS FOR USE**

Pour ANTIFOAM SPECIAL directly into scald tank at a rate of ½ gallon per 1000 gallons of water. Freshen solution during operation as needed to maintain low foam level.

Contact ZEE COMPANY, INC. for further use directions.

### **PHYSICAL PROPERTIES**

Appearance:	Milky liquid
Weight per gallon:	8.34 pounds
Color:	White
Odor:	None
pH:	8
Chemical Stability:	Stable
Biodegradability:	Complete
