EN Pulltex's double-lever corkscrew incorporates all the improvements of recent years in a single corkscrew. The traditional double lever, the most ergonomic and comfortable handle, the curved and micro-serrated knife with opening with a single finger, the knife positioning fin for the guided cutting of the capsule, the Teflon-coated spiral and of course, the quality of always. ALLBLACK model with black matte finish on the lever and blade.

FR Le tire-bouchon à double levier de Pulltex bénéficie de toutes les améliorations techniques effectuées sur les différents modèles de la gamme au cours de ces dernières années. Au traditionnel double levier articulé, s'ajoute un manche plus ergonomique pour une meilleure prise en main. Incurvé, le couteau s'ouvre avec un seul doigt en un mouvement au lieu de 2. Un ergot associé à la micro denture du couteau facilite la découpe sans déchirer les capsules. Spirale téflon. Modèle ALLBLACK: une finition en noir mat pour le manche, le double levier et le couteau.

IT Il nuovo cavatappi Pulltex riunisce tutti i miglioramenti fatti negli ultimi anni in un unico cavatappi. La tradizionale doppia leva, l'impugnatura ergonomica e confortevole, il coltello curvo e microseghettato con apertura facilitata, l'aletta di posizionamento del coltello per il taglio guidato della capsula, la spirale in teflon e, naturalmente, la solita qualità. Finitura nera opaca ALLBLACK su leva e lama.

DE Der neue Pulltex-Doppelhebel kornenzieher vereint alle Verbesserungen der letzten Jahre mit einem einzigen Kornenzieher. Der traditionelle Doppelhebel, der ergonomischste und bequemste Griff, das gebogene und mikroverzahnte Messer mit einer Fingeröffnung, die Positionierflosse des Messers für das geführte Schneiden der Kapsel, die Teflonspirale und natürlich die übliche Qualität. mattschwarzes ALLBLACK-Finish an Hebel und Klinge

ES El nuevo sacacorchos de doble palanca de Pulltex añade todas las mejoras de los últimos años en un solo sacacorchos. La tradicional doble palanca, la navaja curva que combina micro-sierra y hoja lisa, abertura con un solo dedo, la aleta posicionadora del cuchillo para el corte guiado de la cápsula, la espiral teflonada y por supuesto, la calidad de siempre. Acabado ALLBLACK negro mate en la palanca y navaja.

Wine Aerator AirVin

Aeration system

AirVin produces a constant flow of bubbles that aerate during filling the cup.

Silicone fit

Hermetic closure to prevent spillage

Customizable space

print area 45 x 15 mm
(pad printing)

7.848.00 | ☐ PMMA

EN The new Pulltex AirVin wine aeration device allows the wine to be aerated while it is served. The wine passes through the aerator Pulltex AirVin and thanks to the built-in internal channel system, air produces a constant flow of bubbles that aerate the wine. In addition, the oval and flat mouth allows a slower and controlled service.

FR Servir tout en aérant le vin, le nouveau 2 en 1 de PULLTEX. Le verseur biseauté permet d'assurer un service élégant tout en contrôlant le débit. Le système interne d'aération permet de générer un flux de bulles en mélangeant l'air et le vin, afin de libérer les arômes.

IT Il nuovo dispositivo di aerazione del vino Pulltex AirVin consente di aerare il vino nel momento in cui viene servito nel bicchiere. Quando esce dalla bottiglia, il vino passa attraverso l'interno dell'aeratore Pulltex AirVin, e, grazie alla disposizione del canale di aerazione posto dentro al dispositivo, si genera una corrente di aria interna che produce un flusso costante di bolle che arieggia il vino in quel momento. Inoltre, l'apertura ovale e piatta consente un servizio più piacevole e controllato nel bicchiere.

DE Mit dem neuen Pulltex AirVin Wein Belüfter & Ausgießer kann man den Wein bereits beim einschenken belüften. Der Wein läuft durch den Aerator und sein eingebautes Kanalsystem schafft die Luft, die einen konstanten Luftblasenfluss erzeugt. Damit wird der Wein gleichzeitig beatmet. Darüber hinaus ermöglicht die ovale und flache Mündung ein langsames und kontrollierteres Ausgießen.

ES El nuevo dispositivo de aireación de vino Pulltex AirVin, permite airear el vino en el mismo momento del servicio. Con el mismo movimiento elegante de servir en la copa, al salir de la botella, el vino pasa por el interior del aireador Pulltex AirVin y gracias a la disposición del canal interno de aireación del dispositivo, se genera una corriente de aire interna que produce un flujo de burbujas constante que airean el vino en ese mismo instante. Además, la forma ovalada y plana de su boca permite un servicio más pausado y controlado en la copa.

certified by

patented product

EN With the AntiOx wine stopper you can enjoy the taste of fresh wine for up to 10 days after opening the bottle. The built-in activated carbon filter stops the oxidation process and preserves all the organoleptic properties of the wine. Its patented technology is proven scientifically and approved by the best European Sommeliers. For optimal performance, please keep the bottle in vertical position.

FR Le bouchon AntiOx permet de conserver le vin d'une bouteille entamée. Le principe breveté repose sur un charbon actif qui inhibe l'effet oxydant de l'oxygène sur le vin. Plus besoin de pomper, il suffit simplement de boucher la bouteille. Le bouchon AntiOx évite ainsi la formation d'acide acétique qui détériore le vin en lui donnant la désagréable odeur et saveur du vinaigre. Pour une utilisation optimale, maintenir la bouteille en position verticale.

IT Il Tappo AntiOx antiossidante e' fornito di un dispositivo al suo interno composto da un sistema rivoluzionario brevettato che evita l'ossidazione del vino all'interno della bottiglia. Una volta che la bottiglia di vino viene chiusa con il nuovo tappo AntiOx, l'ossidazione del vino si interrompe: il vino non rimane più a contatto con l'ossigeno e non viene più prodotto l'acido acetico che danneggia il vino. Per un ottimo funzionamento mantenere la bottiglia in posizione verticale.

DE Mit dem AntiOx Weinverschluss können Sie den frischen Geschmack des Weins bis zu 10 Tagen nach dem Öffnen der Flasche genießen. Der eingebaute Aktivkohlefilter stoppt den Oxidationsprozess und auf diese Weise bleiben alle organoleptischen Eigenschaften des Weins erhalten. Die patentierte Technologie wurde wissenschaftlich bewiesen und von den besten europäischen Sommeliers anerkannt.

ES El tapón AntiOx contiene en su interior un filtro de carbono activo, especialmente formulado y patentado para evitar la oxidación del vino dentro de la botella. Una vez tapado el vino con el tapón AntiOx, el proceso de oxidación se detiene y el oxígeno deja de asociarse con el vino para formar ácido acético y dañarlo. De esta manera se evitan el desagradable olor y sabor avinagrado. Para un funcionamiento óptimo mantener la botella en posición vertical.

CLOSE

OPEN

EN Stopper and vacuum saver that maintains pressure inside the bottle once it has been opened, preserving the effervescence and flavours of the sparkling wine. Instructions for use: To close, place the stopper on the lip of the bottle and press hard to insert its inner part into the bottleneck. Then turn the rotating ring in the lower part of the stopper to the lock position, and pump up to inject air. To open, place one hand on the stopper to prevent it from being expelled due to the pressure, while turning the rotating ring back to the open position with the other hand. Keep out of reach of children.

FR Bouchon et pompe à pression pour maintenir l'effervescence des vins pétillants et conserver les arômes des bouteilles entamées. Fermer: Poser le bouchon sur le col de la bouteille en exerçant une pression afin de pouvoir tourner la bague sur le cadenas fermé. Pomper pour remettre la pression. Ouvrir: Mettre une main au-dessus du bouchon pour éviter qu'il ne soit projeté lors de l'ouverture. Avec l'autre main, tourner la bague sur le cadenas ouvert. Ne pas laisser à la portée des enfants. Produit breveté.

IT Tappo e pompetta due in uno che mantiene la pressione e l'effervescenza delle bollicine e che conserva il sapore dopo che si è aperta la bottiglia. Chiudere: mettere il tappo sulla bottiglia e spingere con forza per inserire la parte di gomma nella bottiglia. Contemporaneamente ruotare la parte girevole e fissarla al punto di chiusura. Aprire: mettere la mano sopra il tappo al fine di evitarne l'espulsione e con l'altra mano ruotare la parte girevole fino alla posizione di apertura.

DE Verschluss mit Luftpumpe, um den Druck im Innern der Sektflasche zu erhalten und somit die Kohlensäure und die Aromen in den geöffneten Flaschen zu konservieren. Bedienung: Schließen: Bringen Sie den Verschluss auf der Flasche an und drücken Sie ihn mit Kraft an, damit er gut im Flaschenhals sitzt. Anschließend drehen Sie den unteren Ring in die geschlossene Position. Befüllen Sie den Verschluss, wenn Sie Luft in die Flasche drücken. Öffnen: Halten Sie die Hand über den Verschluss, um zu vermeiden, dass er durch den Druck herauspringt und drehen Sie den unteren Ring in die geöffnete Position. Die Flasche ausserhalb der Reichweite von Kindern aufbewahren.

ES Tapón y bomba de aire para mantener la presión en el interior de la botella de cava y conservar la efervescencia y los aromas de las botellas destapadas. Modo de empleo: Para cerrar: poner el tapón sobre la botella y presionar con fuerza para que entre bien en el cuello. A continuación girar el aro inferior hacia la posición de cerrado. Bombear para inyectar aire. Para abrir colocar la mano sobre el tapón para evitar que la presión lo expulse y girar el aro inferior hacia la posición de abierto. No dejar al alcance de los niños.

EN The CoolerPot is a plastic wine cooler with a cooling gel bag inside. The gel bag can be taken out and kept in the freezer so that it does not take place and is inserted into the plastic base at the time of service. In this way we do not need ice and ice buckets, the CoolerPot occupies less space on the table, in the warehouse and in the freezer than traditional ice buckets.

FR Le CoolerPot est un refroidisseur à vin innovant, avec un sac en gel amovible à l'intérieur. Découvrez une nouvelle façon de servir le vin, à sa température idéale, en économisant de l'espace sur votre table et dans votre congélateur. Aucun glaçon n'est nécessaire, protégeant ainsi les étiquettes de vos bouteilles et évitant les gouttes d'eau sur votre nappe afin d'assurer un service impeccable. Personnalisation 360° possible, nous consulter.

IT Il nuovissimo Raffredda Bottiglie Cooler Pot di Pultex è un accessorio ideale per il servizio di vini bianchi e spumanti. Leggero, pratico e resistente, il Raffredda Bottiglie Cooler Pot è un refrigeratore in plastica con all'interno una fascia di gel refrigerante estraibile e riponibile in congelatore. In questo modo è possibile tenere a temperatura la bottiglia senza l'uso del ghiaccio, inoltre il Raffredda Bottiglie Cooler Pot occupa molto meno spazio di un tradizionale secchiello ghiaccio.

DE Der CoolerPot ist ein Weinkühler aus Kunststoff mit einem darin befindlichen Kühlgelbeutel. Der Gelsack kann herausgenommen und im Gefrierschrank aufbewahrt werden, damit er nicht stattfindet und zum Zeitpunkt der Wartung in den Kunststoffboden eingesetzt wird. Auf diese Weise benötigen wir kein Eis und keine Eiskübel, der CoolerPot benötigt weniger Platz auf dem Tisch, im Lager und im Gefrierschrank als herkömmliche Eiskübel.

ES El CoolerPot es un enfriador de vino de plástico con una bolsa de gel refrigerante en su interior. La bolsa de gel se puede sacar y conservar en el congelador para que no ocupe lugar y se introduce en la base de plástico en el momento del servicio. De esta manera no necesitamos hielo y cubiteras, el CoolerPot ocupa menos espacio en la mesa, en el almacén y en el congelador que las tradicionales cubiteras.
