

## PRODUCT GUIDE

American-Machine.com

American Machine designs and manufactures hardware to resolve active industrial leaks.

Leak repair enclosures provide a non-destructive solution for both low-high pressure and low-high temperature components.

### MODULAR LEAK REPAIR ENCLOSURE

Designed for industrial applications up to 650 PSI and 650 Degrees.

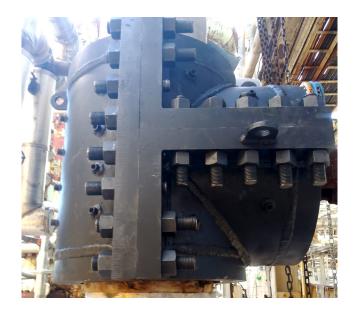

#### **Types of Modular Leak Repair Enclosures**

- Straight Line Enclosures
- 90 Degree Elbow Enclosures

#### **CUSTOM** ENCLOSURE CAPABILITIES

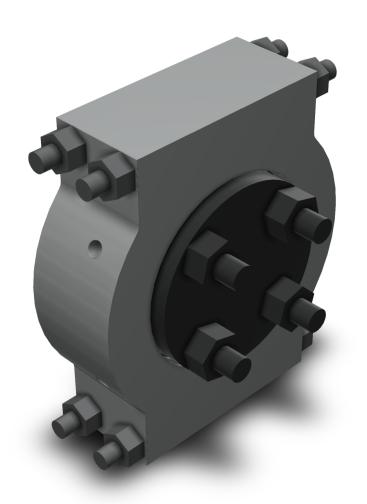

Custom enclosures can be made to encapsulate the following:

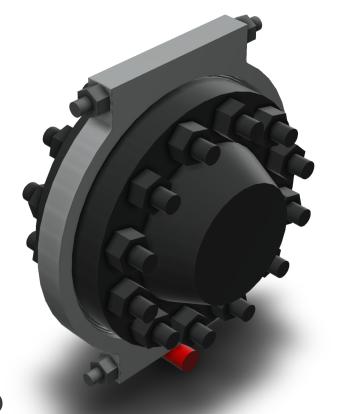

- Valves
- Pipelines
- Fittings
- Flanges
- Vessels
- Welds

- Avoid Plant Shutdowns
- Prolong the Life of Equipment

# LEAK REPAIR FLANGE **CLAMPS**

Flange Clamps isolate leaks between two flanges. Clamps are bolted on without process disruption.

## **MODULAR FLANGE** CLAMP

1/2" - 12"

Class Ratings: #150 #300

## **CUSTOM FLANGE** CLAMP

UP TO

#2500 CL FLANGE

# LINE FREEZE **JACKETS**

Line freeze jackets stop the flow of industrial lines to perform critical maintenance.

**Sizes:** ½"-36"
