"Dean is an exceptional realtor! He helped us buy our first home. From the first time we spoke with Dean he was very helpful, honest, informative, kind, and fun. He is very responsive and communicates well. We settled on our house very quickly and it was chaotic but Dean helped to keep us organized, informed, and moving forward. This process is overwhelming but our realtor made it all feel easy. I would sell and buy a house with Dean again."

"The journey to buying our first home was a long one, and we couldn't have done it without Dean! Our plans, locations, and budget changed multiple times over the years, and Dean remained patient and supportive the entire time. When we finally found the perfect home for us, Dean sealed the deal right away! Getting our first home felt overwhelming at first, but Dean made the whole process so easy and smooth for us. He helped us through every step and made sure, we had everything we needed. I'd recommend him to anyone buying or selling!"

BRIAN K.

"We were first time home buyers, and Dean was recommended to us by a friend. Could not have been a better recommendation! Dean understood our lack of knowledge in the home buying process and took the time needed to walk us through everything and make us feel comfortable. Plus, he is a down to earth guy who has some of the best stories. I could not recommend him enough!"

DYLAN M.

"Dean made the process of buying our first house stress free and as easy as it possibly could be. Whether it was 7am or midnight he was always there to answer any questions we had, bounce our ideas and thoughts off of him, or just pick his brain and become more knowledgeable about the house buying process. It was easy to tell from the beginning that Dean really cares about the people he works with and I highly recommend him for anyone looking to buy or sell a home!"

"My husband and I went through the stressful process of putting our house on the market and buying a new home at the same time. The house we were selling is quite small and appealing to only a certain type of buyer. This worried us as we thought buying would be easier than selling. Dean was able to bring a professional photographer in to show our home in the best possible way and literally took two hours to shoot our 900 foot sq. home. He also put together a fabulous brochure of our home. The results yielded the perfect buyer in about two weeks which both shocked and thrilled us. We also has some septic issues come up prior to settlement which became beyond stressful, and Dean was available at all hours to answer questions, offer guidance and forward and respond to texts. Literally at all hours we could expect a response within 2 min. When it was time to buy in this competitive market, Dean was also just as responsive. I personally am a first time home buyer and Dean was able to explain the entire process to me so that I understood exactly what was happening every step of the way without feeling lost or overwhelmed. As settlement on our new home came nearer, Dean was there to remind us to do this, do that, literally providing a to do list so that we did not miss a step that can easily be forgotten when moving and having things coming at you from every angle. Now that we are settled in our new home, it almost feels strange not to hear from Dean every day with a reminder! I feel like thank you is not enough as Dean worked tirelessly and was on call 24/7 for two months with us. If you are looking to buy or sell I could not recommend Dean enough."

Everything went easy, recommend Dean to everyone looking for a house!"

"Dean was a pleasure to work with, walked us thru the process of buying our first house. He was knowledgeable about the area's we were looking in as far as taxes and schools. He found us a great house on a nice block. I felt like I was dealing with a friend not a realtor. I would highly recommend Dean to anyone looking to buy property."

DONTEDUCK

"AWESOME!! Dean was referred to my husband and I by a family member, and it truly was the best thing that happened to us in the home buying process. As first-time home buyers in a challenging market, we knew it would be a long and difficult search, but having Dean to help us along the way, made our search that much easier. Dean took the time to get to know us and made sure he knew exactly what we were looking for in a home. He was extremely responsive and very flexible when it came to scheduling showings and really tried to work around our schedules. He is incredibly knowledgeable and educated us first-time home-buyers each step of the way. He always offered his input when we asked him, but yet he always wanted to ensure we were making any decisions for ourselves. Even when we were getting frustrated at times, Dean always alleviated our worries and provided words of encouragement. And now we are officially in our new home that we love so much and couldn't have done it without Dean. Even when our offer was accepted, he helped us with all the pre-closing steps and referred us to excellent partners of his (inspection company, title company, insurance agent) that we were very pleased with. We can't speak highly enough of Dean. We will certainly be giving him a call when we are preparing for our next move and will refer him to as many family and friends as possible."

"We expected buying our first house would be very stressful, but thanks to my Uncle Dean the process was everything but that. The whole process was easy and painless. He answered all of our many questions and was very knowledgeable about everything involved with purchasing a house. We can't thank him enough for everything he did. We strongly recommend Dean for all of your house buying needs!"

"Dean was absolutely amazing. He was personable and really listened to what we wanted. He helped us find the absolutely perfect home for us! And made the process make sense. From start to finish he made an otherwise stressful and scary event (buying our first home) a relatively easy process. I have heard nightmare stories about experiences people have when buying a home. He helped us every step of the way and was very responsive for any questions we had. No matter how silly they were. Thank you, Dean for all you've done. We couldn't be happier! The fact that you love what you do shines through in everything you do!"

"Dean helped me buy my first home in 2008. He walked with me through many houses and gave me the pros and cons of each. He would always go with me on any house I wanted to see and would provide me with any updates on new houses that opened up on the market. He is very professional, and is Highly Recommended!"

"I could not be happier with my realtor, Dean. I was recommended to Dean from numerous family and friends that used him for the following reasons: expertise (over 25 years in real estate), passion, empathy, reliability, dedication, attention to detail, and strong communication/negotiation skills. As a first-time homebuyer in their early twenties, the scariest part is that I was unsure about the entire home buying process and how everything works. From the moment that I picked up the phone and called Dean in August, I felt comforted as he led me through the entire process. On our first phone call, he spent 2 hours explaining to me each step in the process, understand what my dream home looked like, and what steps I needed to take next. During that call, he was sending me suggestions to help me understand what were non-negotiable and suggested things that a first-time homebuyer would not think about, such as would I want a guest to have their own bathroom separate from mine. During this call, Dean's attention to detail and empathy stood out to me the most as this helped me to get a better idea of what my dream home would look like. Something that stood out to me during the process was that Dean would take time out of his busy schedule to check in and communicate in advance what his schedule looked like each week that I used against mine to quickly set up showings. In addition, no matter what his schedule looked like, I always felt prioritized because I would get a call or text within minutes of sending a house or question. Overall, while looking back on my home buying process, it occurred to me that I was the first appointment or one of the first appointments with every house I saw. In addition, Dean would call each agent as we were leaving for every house I loved and was going to put an offer in for, to understand where I stood with what the buyer was looking for. The most important thing is that every offer that I put in, I was always the first offer. Another big fear of mine during the home buying process was getting an agent that was just trying to make a pretty penny and ending up with a nightmare of a house. I never had this thought not once during my experience with Dean as he was completely honest with me on things that we saw in showings which were red flags. I am not sure if I would have gotten my house if it were not for Dean being constantly proactive by communicating with sellers' agents before and during each showing. Dean had numerous calls with the seller's agents to understand what the seller was looking for and if there has been any other offers. All of that being said, Dean was able to help me find my dream home in less than 3 months in this crazy housing market! I cannot recommend Dean enough to family, friends, and coworkers as he has made this first-time home buying process a breeze and can attest to everything in his other reviews!"

"We had a great experience working with Dean throughout our home-buying journey. The market was incredibly competitive, and it took us a while to find the right fit, but Dean was patient, flexible, and supportive the entire time. He never made us feel rushed and was always willing to help us explore different options until we felt confident in our decision. Buying a home can be stressful, but Dean helped make the process feel much more manageable. He was responsive, knowledgeable, and always happy to answer our questions along the way. The very first offer we wrote up with Dean, he called us and talked us through every part of the paperwork so we would understand what we were signing. "Dean honed in on exactly what we were looking for and showed us options that fit our needs. He was great at asking probing questions to help us prioritize our wants, which helped us come to our ultimate decision on which house to buy. Dean is extremely responsive and really helped keep us on track throughout the process once our offer was accepted. I loved that Dean would provide his insight and thoughts on a property but never made us feel pressured to make a decision. "Dean & Carole provided exceptional service when helping me sell my home! They were very knowledgeable of the market and showed a keen interest in learning about the particular features of my home. As a result of their time and attention, they were able to very effectively showcase its positive attributes both in the listing (including beautiful photos) and when communicating with agents of interested buyers. They were also extremely responsive and quickly answered any texts or emails throughout the entire process. Most importantly, they were a delight—endless positive energy! I would highly recommend!"

SUZANNE S.

"Dean was first of all honest in helping us sell our home. Trust is most important to us. With Dean we could text or call anytime with questions, and he was right back to us. We were not in town for the open house and Dean came with a leaf blower and cleared the porch driveway and back patio without us even asking him to do that. The brochure he had made was perfect and the aerial and inside pictures were top notch professional! Having a professional photographer definitely was a plus in selling the house. He presented us all the offers and did not try to force us into the highest offer to make more commission. We went with the perfect growing family that we felt would appreciate the house the most. Morning after 30 years can be bittersweet, and Dean knew that and respected our wishes. That was very important to us. It was probably a month from the time we signed the agreement with Dean until the time of closing. If you want someone you can trust and has your best interest then Dean is the one for you."

"My experience with Dean was great! I'm someone that does not trust people very easily and Dean more than won my trust he won my friendship. Buying a house is a major investment and is a very stressful and scary process if you are dealing with the wrong people. Dean always made me feel as though I was his only client and would always make sure I knew exactly what was going on at all times and made things easy to understand. I was able to sell my house in the fall! (One of the hardest times to sell) and it was only on the market for two weeks! Dean later assisted us on purchasing my forever home with my family and I could not be happier. I have been in my new home for 2 months now and Dean still follows up on things we spoke about! Both of these transactions needed a lot of "hand holding" and Dean was the consummate professional throughout. “Dean is remarkable! My brother and I were selling our parents home, which was also, our childhood home, after the death of both of our parents within a few months of each other. My brother lives in another state and my own work schedule was quite busy. Dean dealt with all of our emotional and logistical issues like a champ. He priced the house perfectly and walked us through our options on the offers so that we accepted the strongest one. The photos he posted with our listing were amazing and really captured the essence of the home. His communication skills are exceptional. He coordinated with us, the buyer, our estate lawyer, and the titling company to make everything as easy as possible on us. I highly, recommend Dean!”

“Dean handled a rental property sale for me that had numerous complications (1031 Exchange, HOA, Municipal challenges, Faulty title search, etc). He was able to navigate all of these hurdles and complete a smooth sale and transition. I would recommend his services to any interested parties.”

“Dean's approach to the selling process helped my brother and I achieve what I considered a best case scenario price for the house we inherited from our father's estate. We never had to reduce the price, and instead, the price was bid up by multiple buyers, the way you want it to be, and the home sold 6 days after being listed.”

“Dean went above and beyond to help me sell my sister's house. He was always checking in. Telling me how many people looked at the house. He shared the comments prospective buyers made. Dean also went to closing on my behalf. All in all, Dean made it very easy for me to sell my sister's house. Once again Dean went above and beyond to sell my own home that I lived in for 41 years. We got above asking price and in this economy to me that's incredible! He made sure I received all comments on the viewings of the house and helped me make the right decision for selling the house. Once again, I will recommend Dean to anyone who wants to sell a house.”

KAREN R.

"We had The BEST experience working with Dean. After 32 years In our home, selling it was a huge undertaking. Dean was up to the task! He was extremely knowledgeable on our area and surrounding neighborhoods. Dean was also very patient and guided us every step of the way. I don't know what I would have done without his expertise from contracts to staging and everything in between. Dean also gave us quality guidance in our hunt for our next home as well. I was dreading this process after living in our home for so many years, but Dean made it enjoyable and memorable for all the right reasons. Whether you're looking to buy, sell, or both- I highly recommend working with Dean!! I had the pleasure of working with Dean again. In less than a year I had to have Dean help me with the sale of my childhood home! Once again, he did an amazing job and was there to answer all my questions and advise me every step of the way. He found the right people to help me with things I needed to do in the house. He works so hard for his clients. If you are looking for a GREAT realtor Dean is your guy."

"Dean's a true professional. Quick to engage clients and proactively manages the listing. Always provides timely feedback on what clients liked/disliked about the property. Was constantly giving me ideas about how to draw the right clientele given the property was in a family-friendly area with parks and recreation that would be of interest to growing families. Smart and responsive. I was pleased with his services when I rented my home, and I am retaining his services for selling the same home (repeat business is the best form of gratitude)."

“From the first phone conversation with Dean, to the time he brought us the check from the sale of my mother’s house, he showed us what working with a true professional was like. We had not bought or sold a home in many years and Dean patiently worked with us to increase our knowledge and he helped us through each step of the process. The sale was more than usually complicated because we were selling the home using a power of attorney. Dean’s experience, knowledge, made the sale of the house much, much less stressful. We recommend him without any reservations.”

"Dean was very knowledgeable, attentive, and patient. We were looking for an older home with character, so the entire process took over a year. During that time Dean continually updated us on potential properties and met us for numerous showings. The settlement was hassle-free and took less than 20 minutes. Dean made sure all the necessary paperwork and persons were there on settlement day, so the process was very streamlined. We are extremely happy with our new home and will use Dean for all of our future realtor needs! Thank you!"
