

## **Cheryl Jorgensen**

### **About the Artist**

I was born in Trinidad and lived there for the first thirty years of my life. I always had a great passion for art but never had the opportunity to pursue this passion until moving to Denmark in 1981. I began experimenting in oils and painted in this medium until migrating to Florida in 1988. Living in Florida gave me the opportunity to return to Trinidad and the other Caribbean islands on a more frequent basis. In 1990 I began painting in watercolors and fell in love with the spontaneity and flow of this medium. The vibrant colors allow me to express my memories of my life in Trinidad and to capture the beauty of nature. My life as well as my paintings can be described as a mixture of cultures and a medley of subjects. I now teach on Anna Maria Island.
