

The HMLS+ Playbook

School Year 2022-2023

Discover **HMLS+** @SVS

MOLDING LIFE ACHIEVERS
SINCE 1979

DATES TO REMEMBER

Reservation Period

April 20 – May 15, 2022

Enrollment begins

May 16, 2022 (Monday)

Open house

June 27–July 1, 2022

Orientations

August 1– 5, 2022

Tentative Start of Classes

August 8 (Monday)

Pre-K to Grade 3

August 9 (Tuesday)

Grades 4–12

Introduction/Rationale

St. Vincent School of Quezon City and St. Vincent School of Pampanga transformed to a **fully online school in 2020** due to the COVID-19 pandemic. The two schools merged together under the Home-based Multi-Support Learning System (HMLS). The system is propped by digital technologies including school and learning management systems and various cloud-based applications as the school made an effort to strengthen its IT capability. A major component of HMLS is **Microsoft Teams**. As a learning management system, it **provides a semblance of structure to learners'** daily academic activities. As a communication platform, it helps the school to securely **deliver instruction to students** regardless of their physical residence **in the Philippine or overseas**.

At present, COVID-19 has become manageable because the virus' strains have become less severe and vaccines have become available for children from 5-17 years old and adults 18 years old onwards.

Meanwhile, UNESCO and UNICEF warned that remote learning is causing children stress due to loss of social interaction and that learning has become difficult due to the lack of tactile learning opportunities. This has prompted DepEd to advocate for limited face to face classes in both public and private schools. In January 2022, a **SVS survey** revealed that a **majority are willing to have limited face to face classes**, with only 17% willing to return to traditional face to face classes.

Taking these into consideration, St. Vincent School will launch its Home-based Multi-support Learning System Plus (**HMLS+**) for **School Year 2022-2023**. Learning will essentially be **online with enhanced school management system capabilities and limited face to face** will be provided to address instructional challenges, socialization needs, and to provide an expanded academic experience.

Features

Curriculum. The SVS curriculum under **HMLS+** remains true to its promise of learning in a safe environment, advocating inclusivity, and its **IASCEND** core values. It has and will always ensure that its graduates possess 21st century skills. It likewise complies with DepEd's Most Essential Learning Competencies (MELC).

Based on the scholarly discussion on the Blended Learning Continuum, HMLS+ mixes the Online Plus and Hybrid Learning. Online Plus Learning is mostly home-based with additional onsite learning "when it makes better sense to come to school". Hybrid Learning is a combination of face to face and remote teaching. In this set-up, the teacher can be onsite to a set of learners in school while simultaneously online to another set of learners at home or another school location. In the event where the teacher is in one school location and the learners are onsite in another location, a partner teacher shall be present to assist and monitor the learners so that activities are completed simultaneously and in real time among students in the different school locations.

SVS onsite classes will prioritize activities related to Science, Physical Education (PE), and English/Communication. Traditional textbooks will support instruction for all levels. In particular, penmanship books will be a priority for primary level onsite meetings. Complete P.E. Uniform with face mask shall be worn when coming to school.

Hybrid Learning

The teacher can be onsite to a set of learners at SVS while simultaneously online to another set of learners at home or another SVS location

Online Plus

Home-based with additional onsite learning "when it makes better sense to come to school"

Schedule. A school year is divided into four quarters. Each quarter is composed of an average of nine weeks. SVS will retain the **MTThF synchronous classes and Wednesday asynchronous classes** throughout each quarter except for twice per quarter onsite classes of the Preschool Program. For Grades 1-12, learners participating in onsite classes shall **report to school once a week during Week 5 to Week 8 only**. Those who choose fully online classes can virtually interact with their classmates and teachers who are physical in school. A sample schedule is provided in Table 1.

Online Admin Services. SVS will continue to provide online application and enrollment services. Payments can be transacted whether you are in the Philippines or overseas. To ensure parent involvement, Progress Reports and Parent-Teacher Conferences shall still be online. Learners can still access E-resources like E-books and applications to ensure enhanced learning.
