Trinity County Waterworks will be flushing fire hydrants from April 20th through April 24th.

Flushing lines can cause cloudy water and air to enter your system. While flushing in your neighborhood, please use as little water as possible. This will help keep your lines clear. If you get dirty water, flush an outside spigot and run it until it clears. Then, run a faucet inside the house until it runs clear.

Flushing Order:

April 20th: Reservoir Road; State Highway 3 from Forest Ave. to the Seventh Day Adventist school; Highland Drive; Circle Drive; Vista Lane; Oak Street; Manzanita Ave.; Humboldt Street

April 21st: State Highway 3 from Hyampom Road to the Fairgrounds; Tule Creek Road; Felch Street; Talco Way; Cycle Street; Troy Street; Riverview Road; Glass Lane; School Street; Clinic Ave.; Brady Road; Beals Street; Blue Jay Lane; Horsewater Lane

April 22nd: Morgan Hill Road; Kingsbury Gulch; Kingsbury Road; Center Street; Pine Ave.; Madrone St.; Locust Street; Kyler Ave.; R. Jessee; Genest Street; Sebring Road; Forest Ave.; Jungwirth Subdivision

April 23rd: N. Oak; Dirt Road; Big Creed Road; Mill Ave.; Clean up

April 24th: Clean up

PLEASE DO NOT CALL IF YOU SEE RUNNING HYDRANTS UNATTENDED
