

# Insects

## Numbers Match with Puzzle Pieces

**Match numbers to sets  
of pictures with  
a cute insect theme.**

*A Math Center Resource*

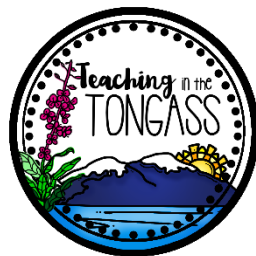

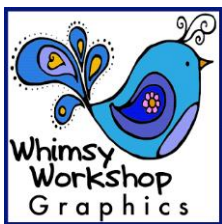

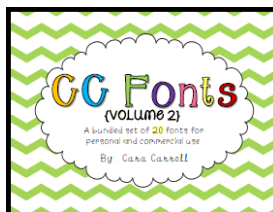

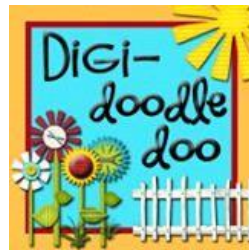

What to do:

Print onto card stock

Cutout and laminate

Place in your math center

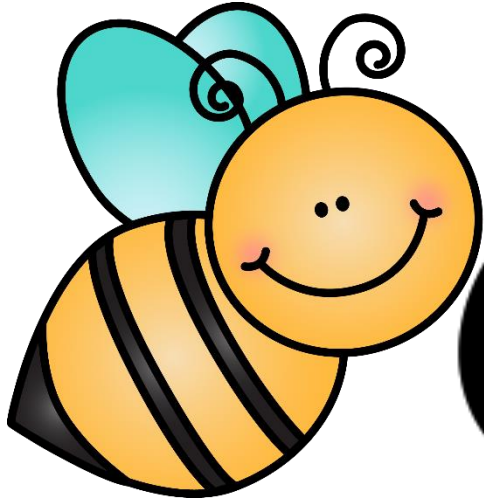

Students will match the insects to the correct number

I use these fabulous clipart artists/font creators in my work.

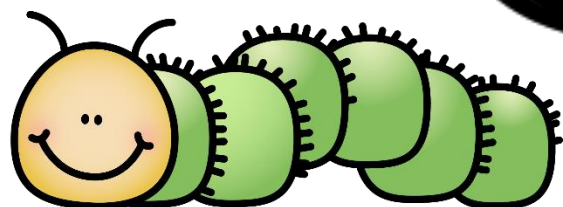

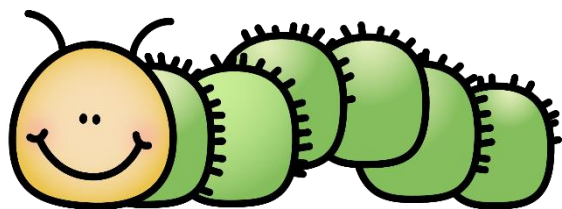

Please be kind and visit these great graphic and font artists. Consider supporting them as well. Without them, TpT would not be what it is today.

Thank you for supporting me as well. You are the best. Happy Teaching.
