# Fishing for Pets

Skill: Children will follow agreed upon rules for game. (listening to others and taking turns speaking.) Children will build vocabulary.

Deal five cards to each player. Place remaining cards in a pile face down. Teacher chooses first child to go. Each child asks one player for a certain card. Example "Tami do you have a puppy?" Child must already be holding one card of the requested card. If child asked is holding the card, that child must give the person the card. Once child has a matching set he places that set in front of him.

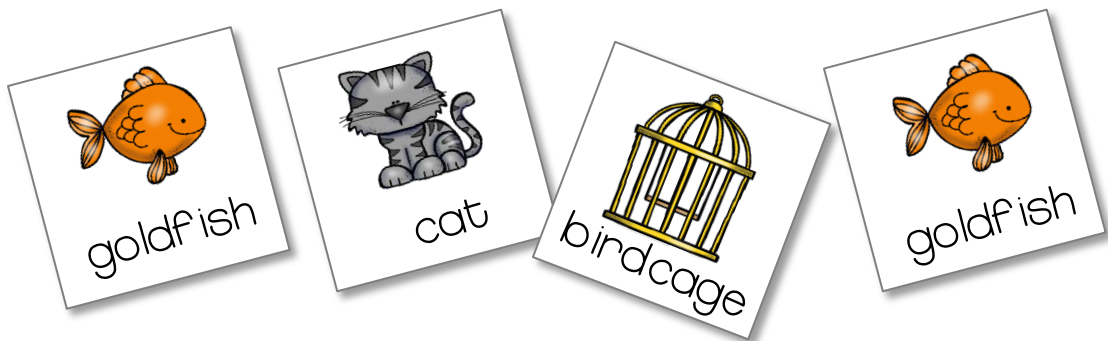

If the child asked did not have the card he would answer, "Go Fish." Then that child would draw a card from the pile. If it made a match child would place the matching set down in front of him.

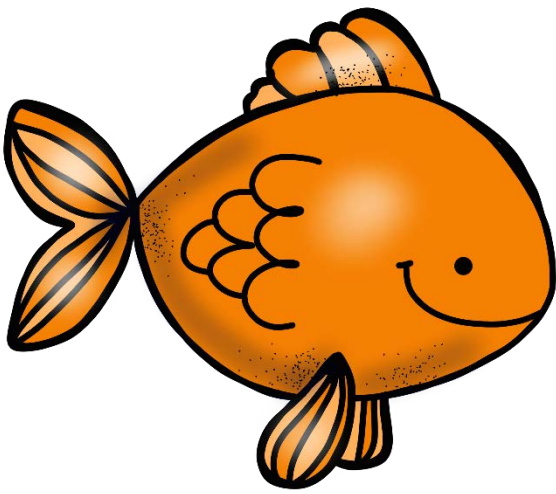

The next player is the one that said "go fish" or that had to relinquish card.

Once all of the cards have been matched game is over.

Played with 2 to 4 players

To make a card set make two copies of the pet shop cards onto cardstock and laminate for durability.
