Teacher Directions

Setting: Small Group or Literacy Centers

Objective: Recognize and name letters of the alphabet

Materials Needed:

- Printer and ink
- Laminator and laminating film
- Scissors
- Small toy cars

Directions:

These alphabet road mats are designed to help children develop muscle memory.

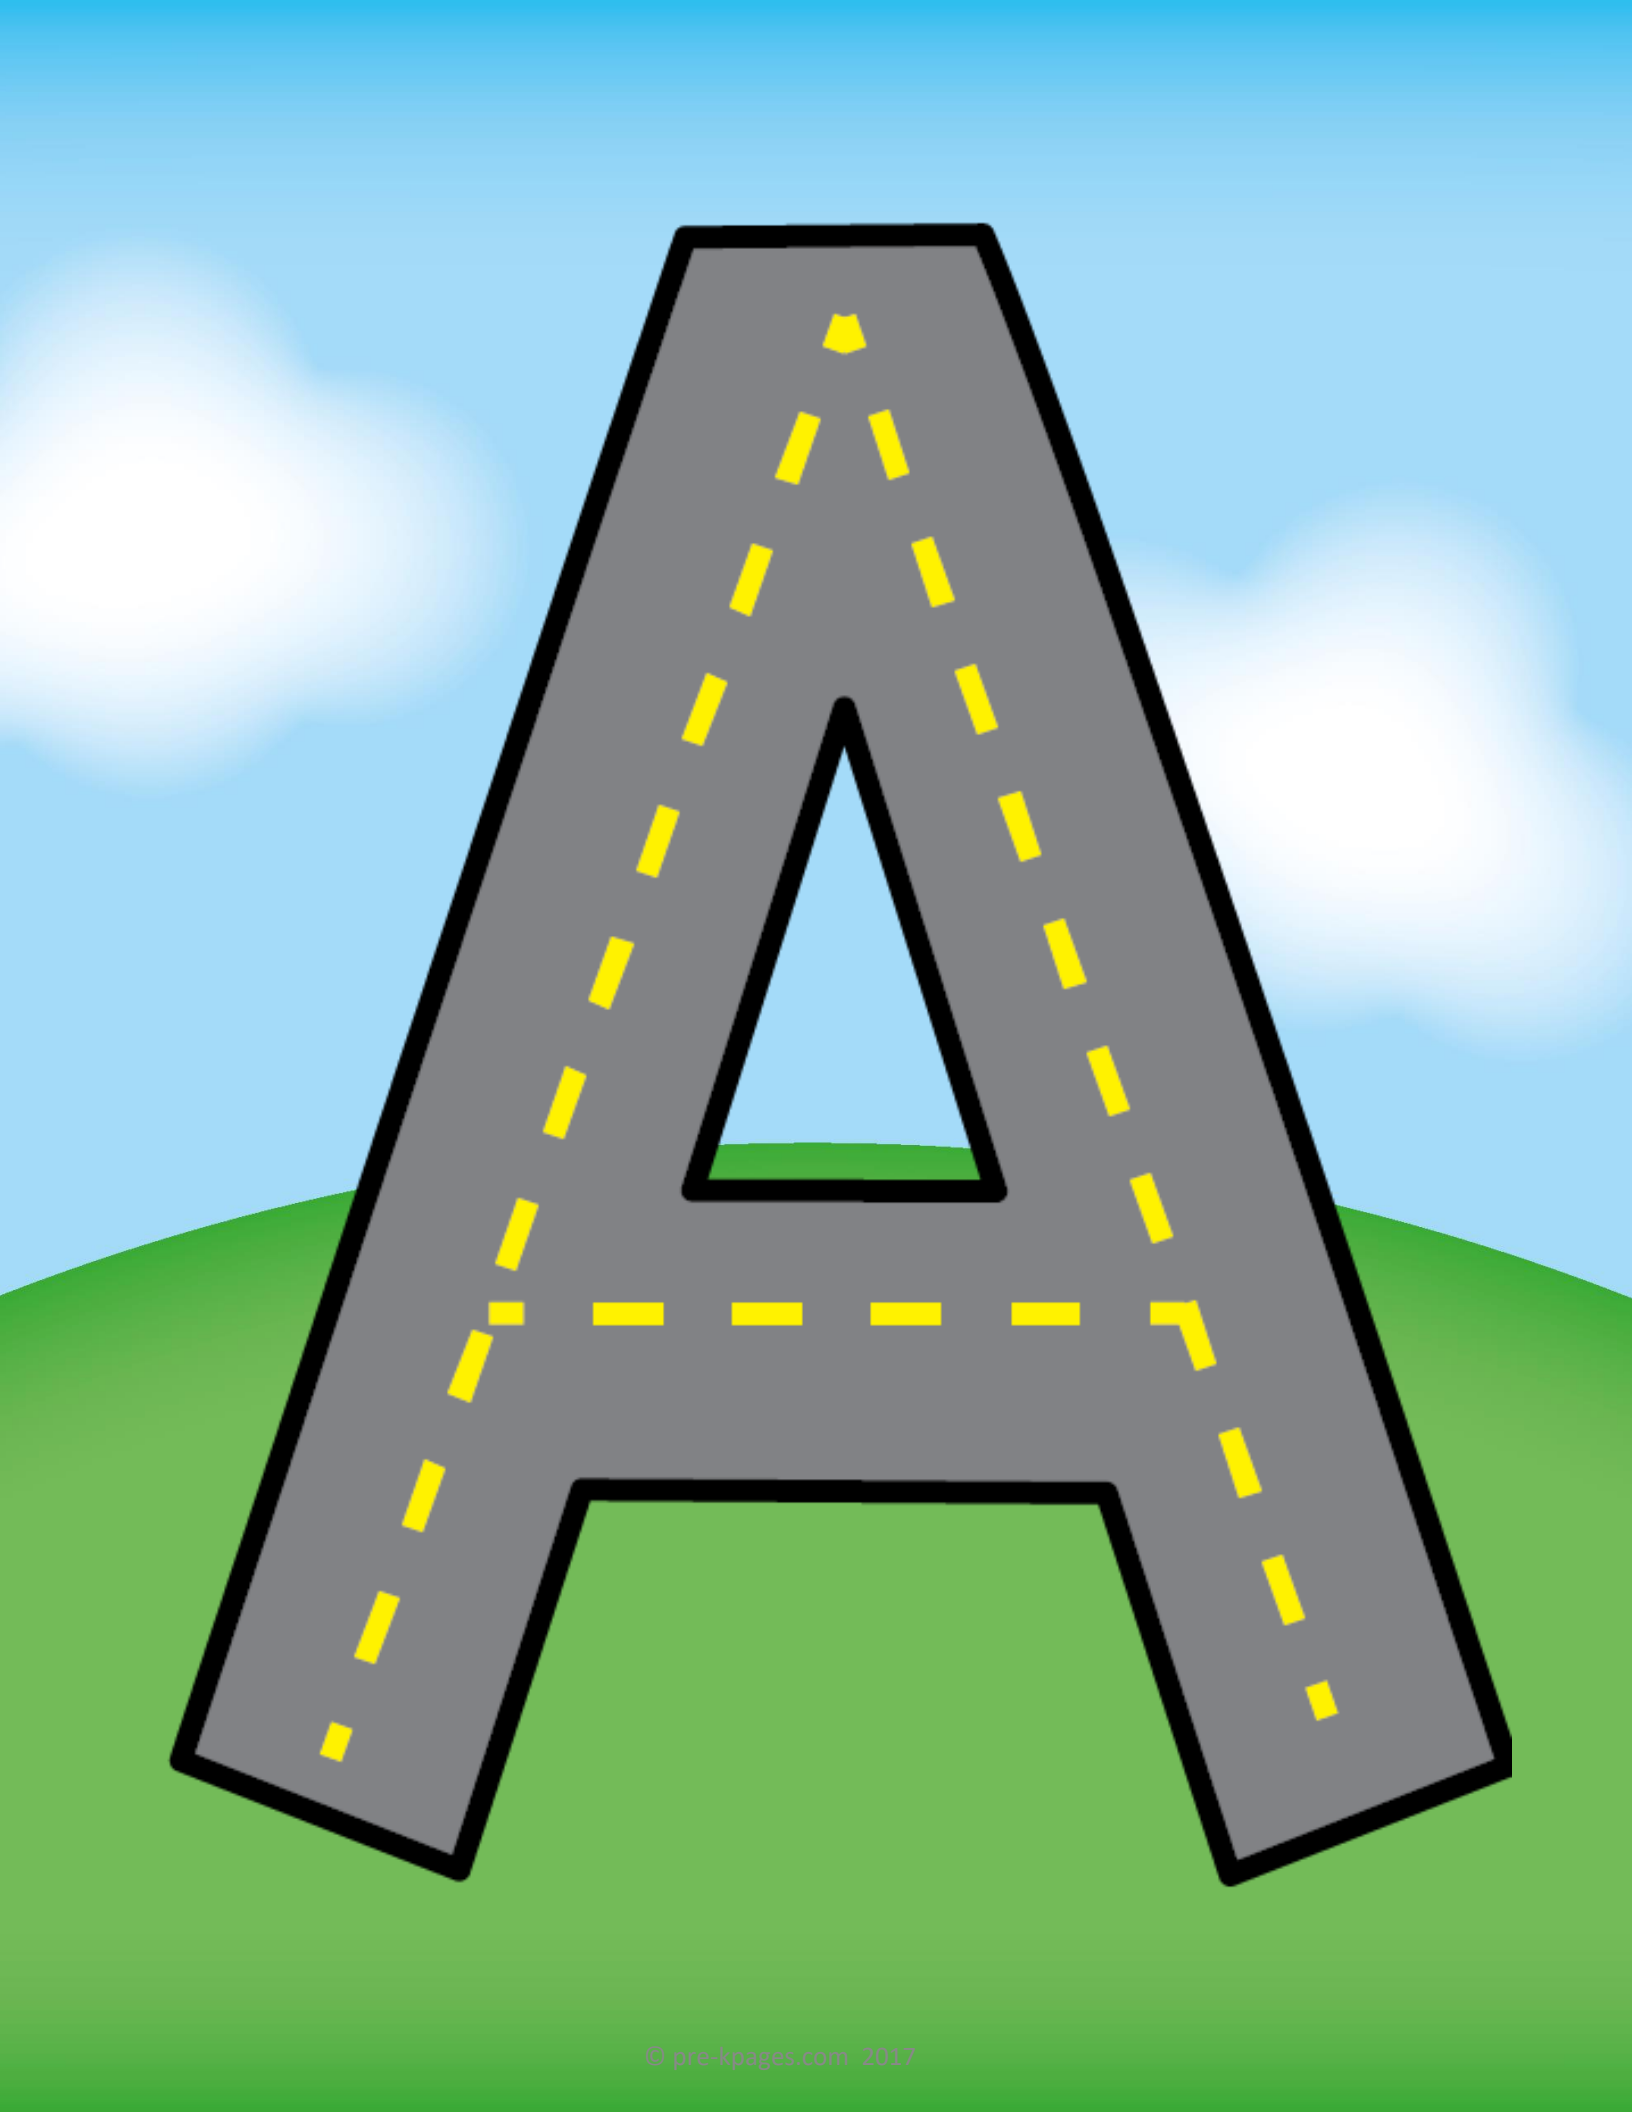

To use these mats, select the set that best meets the needs of you and your students. I have included several different sets for differentiation purposes.

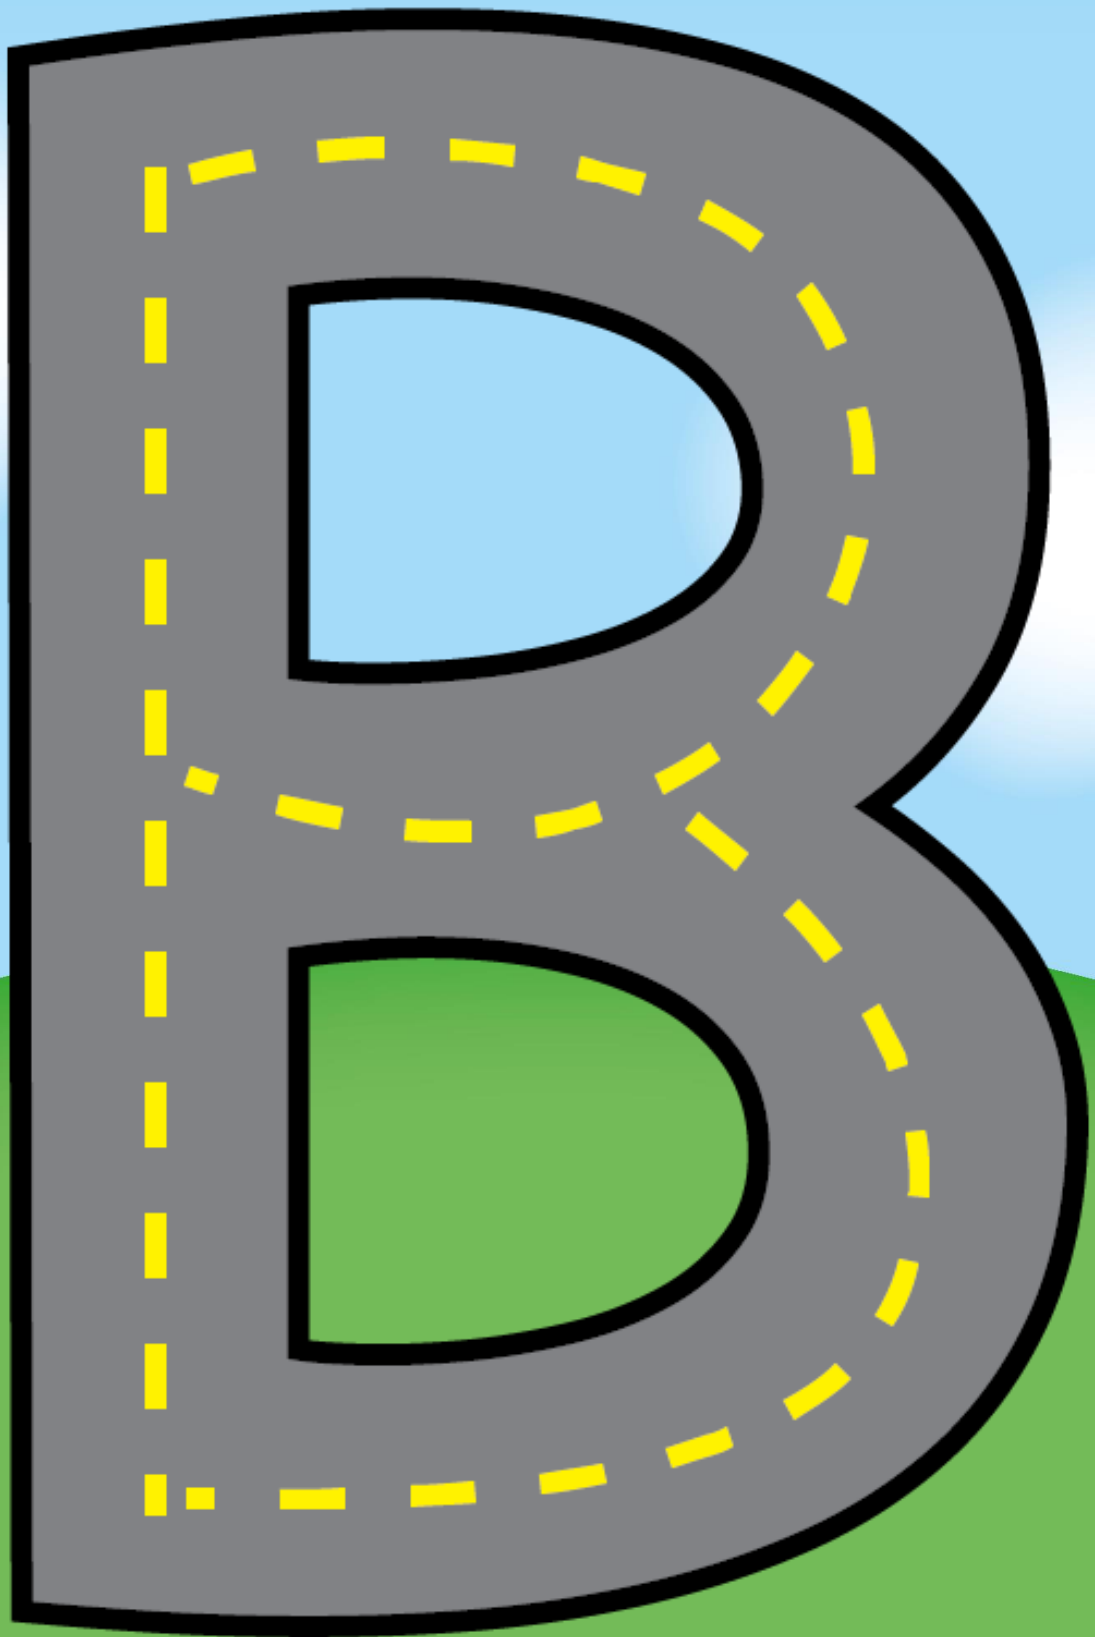

Next, print the mats and laminate for durability.

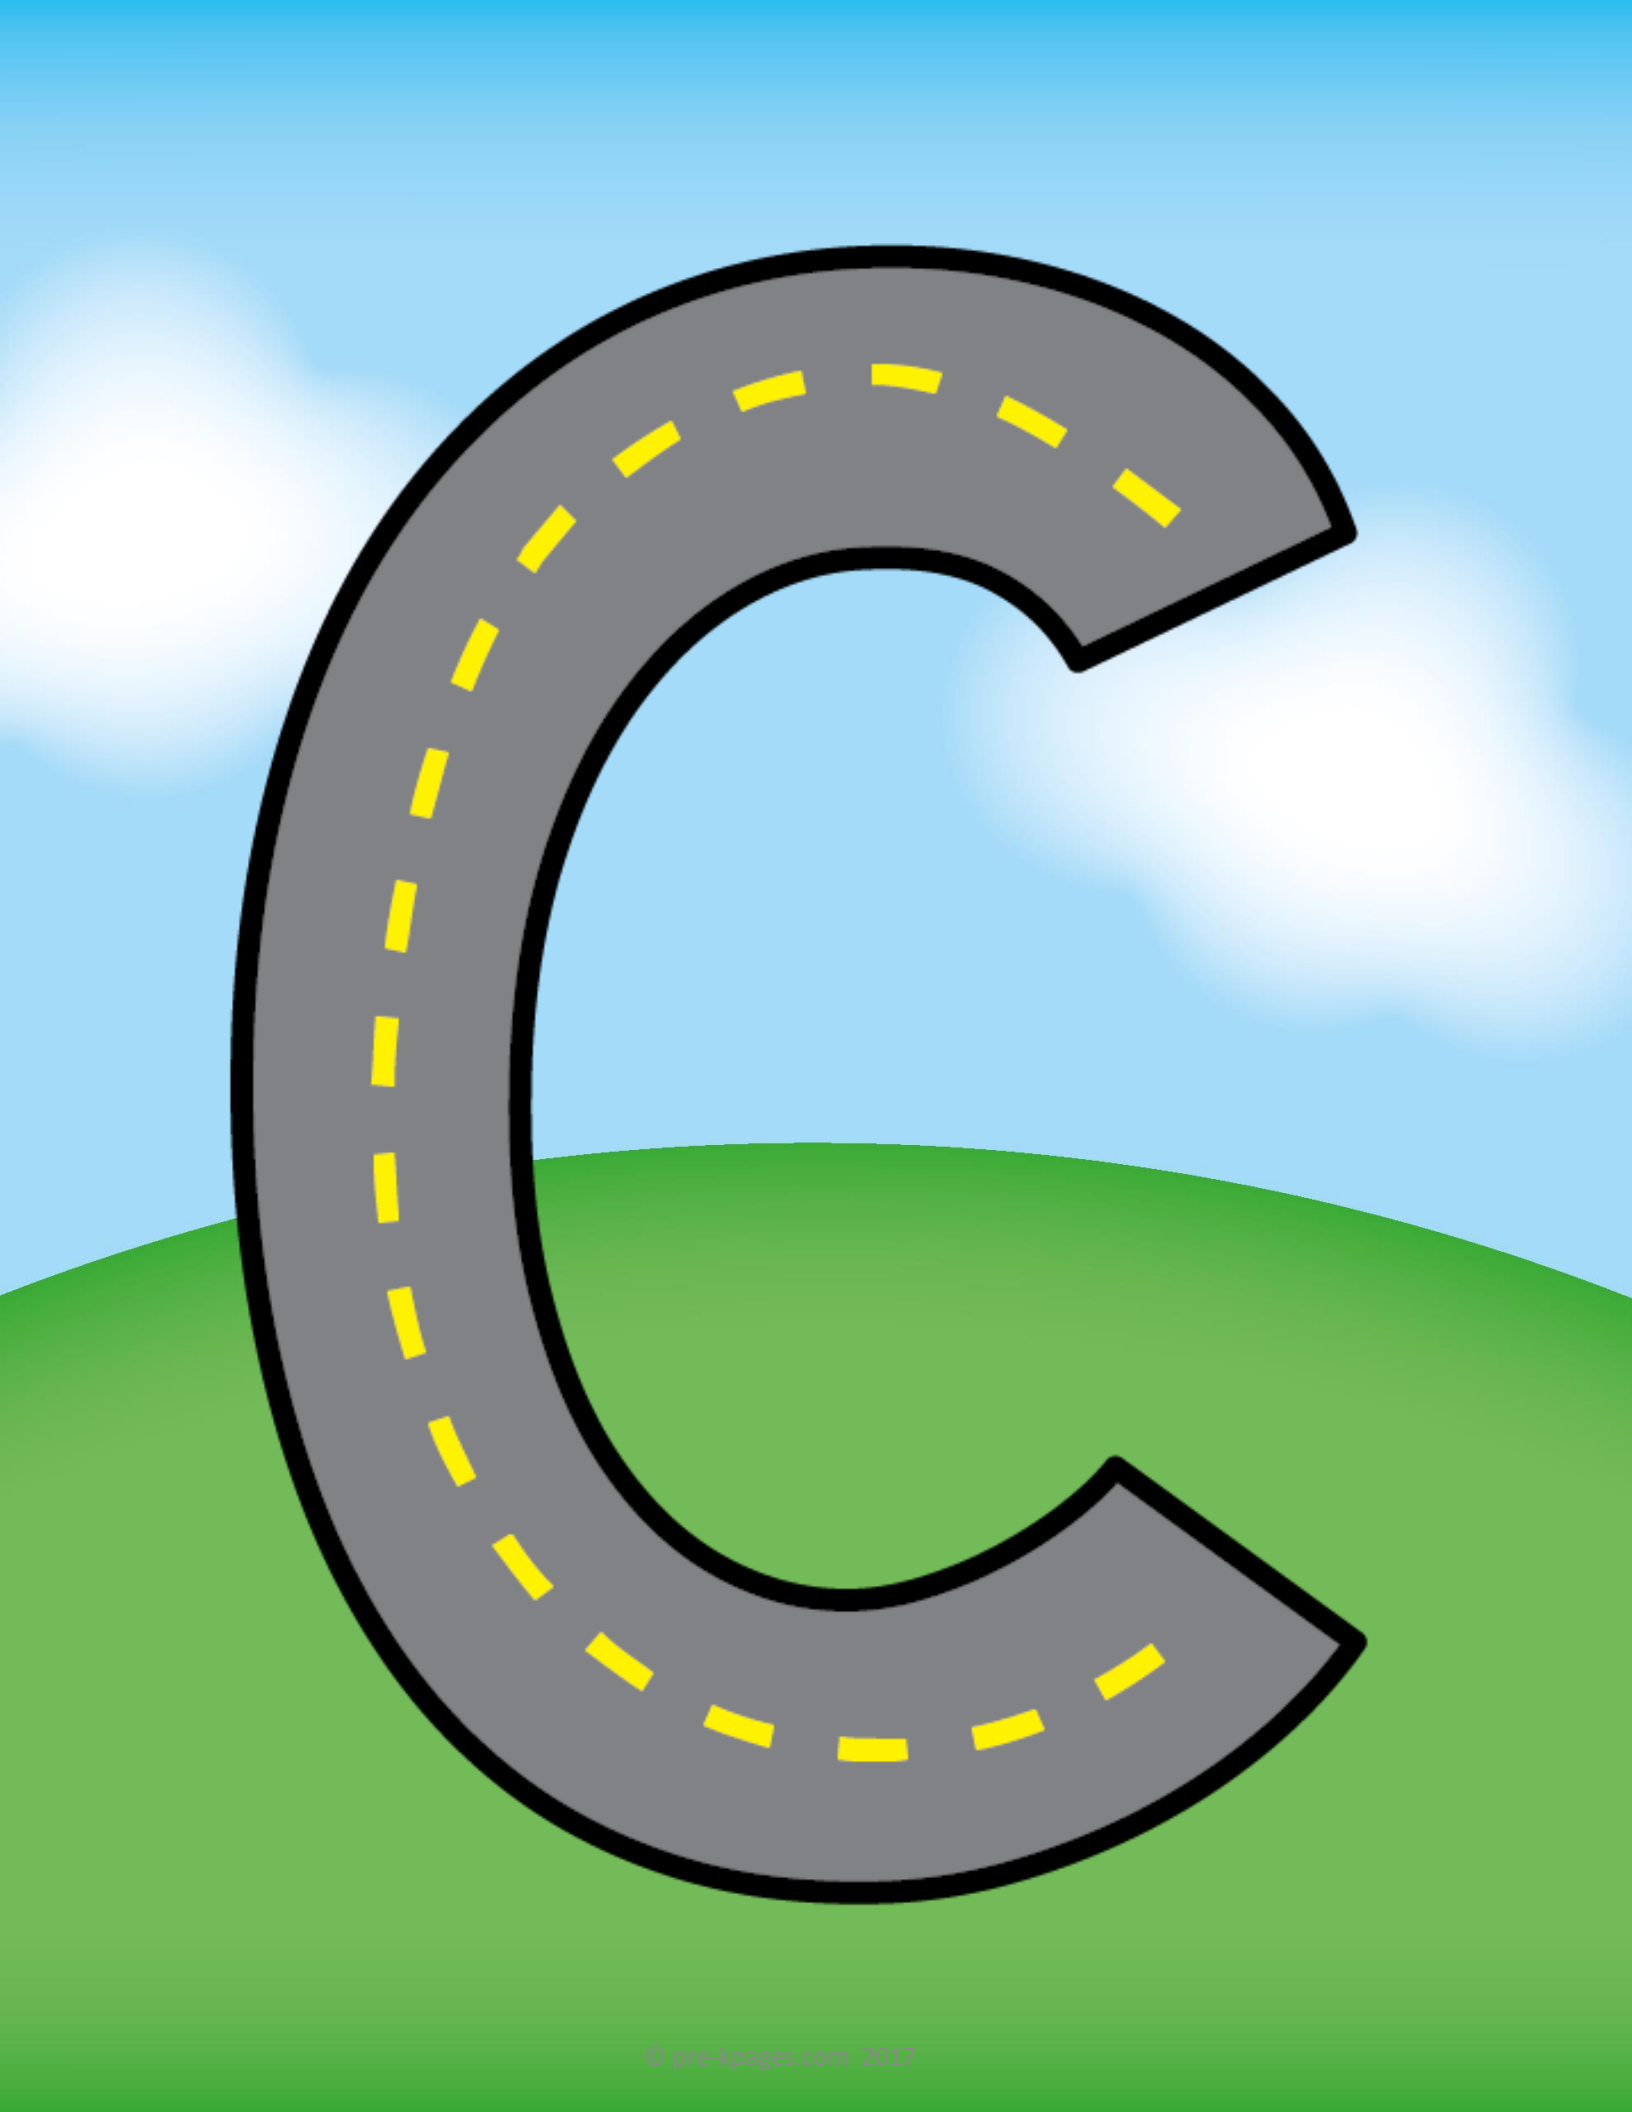

Introduce the mats to children in small groups so you can introduce the activity, scaffold for support, and reinforce proper letter formation.

You may wish to add red and green dot stickers from the office supply store to the mats to indicate where the children should start and stop moving their cars to reinforce proper muscle memory.

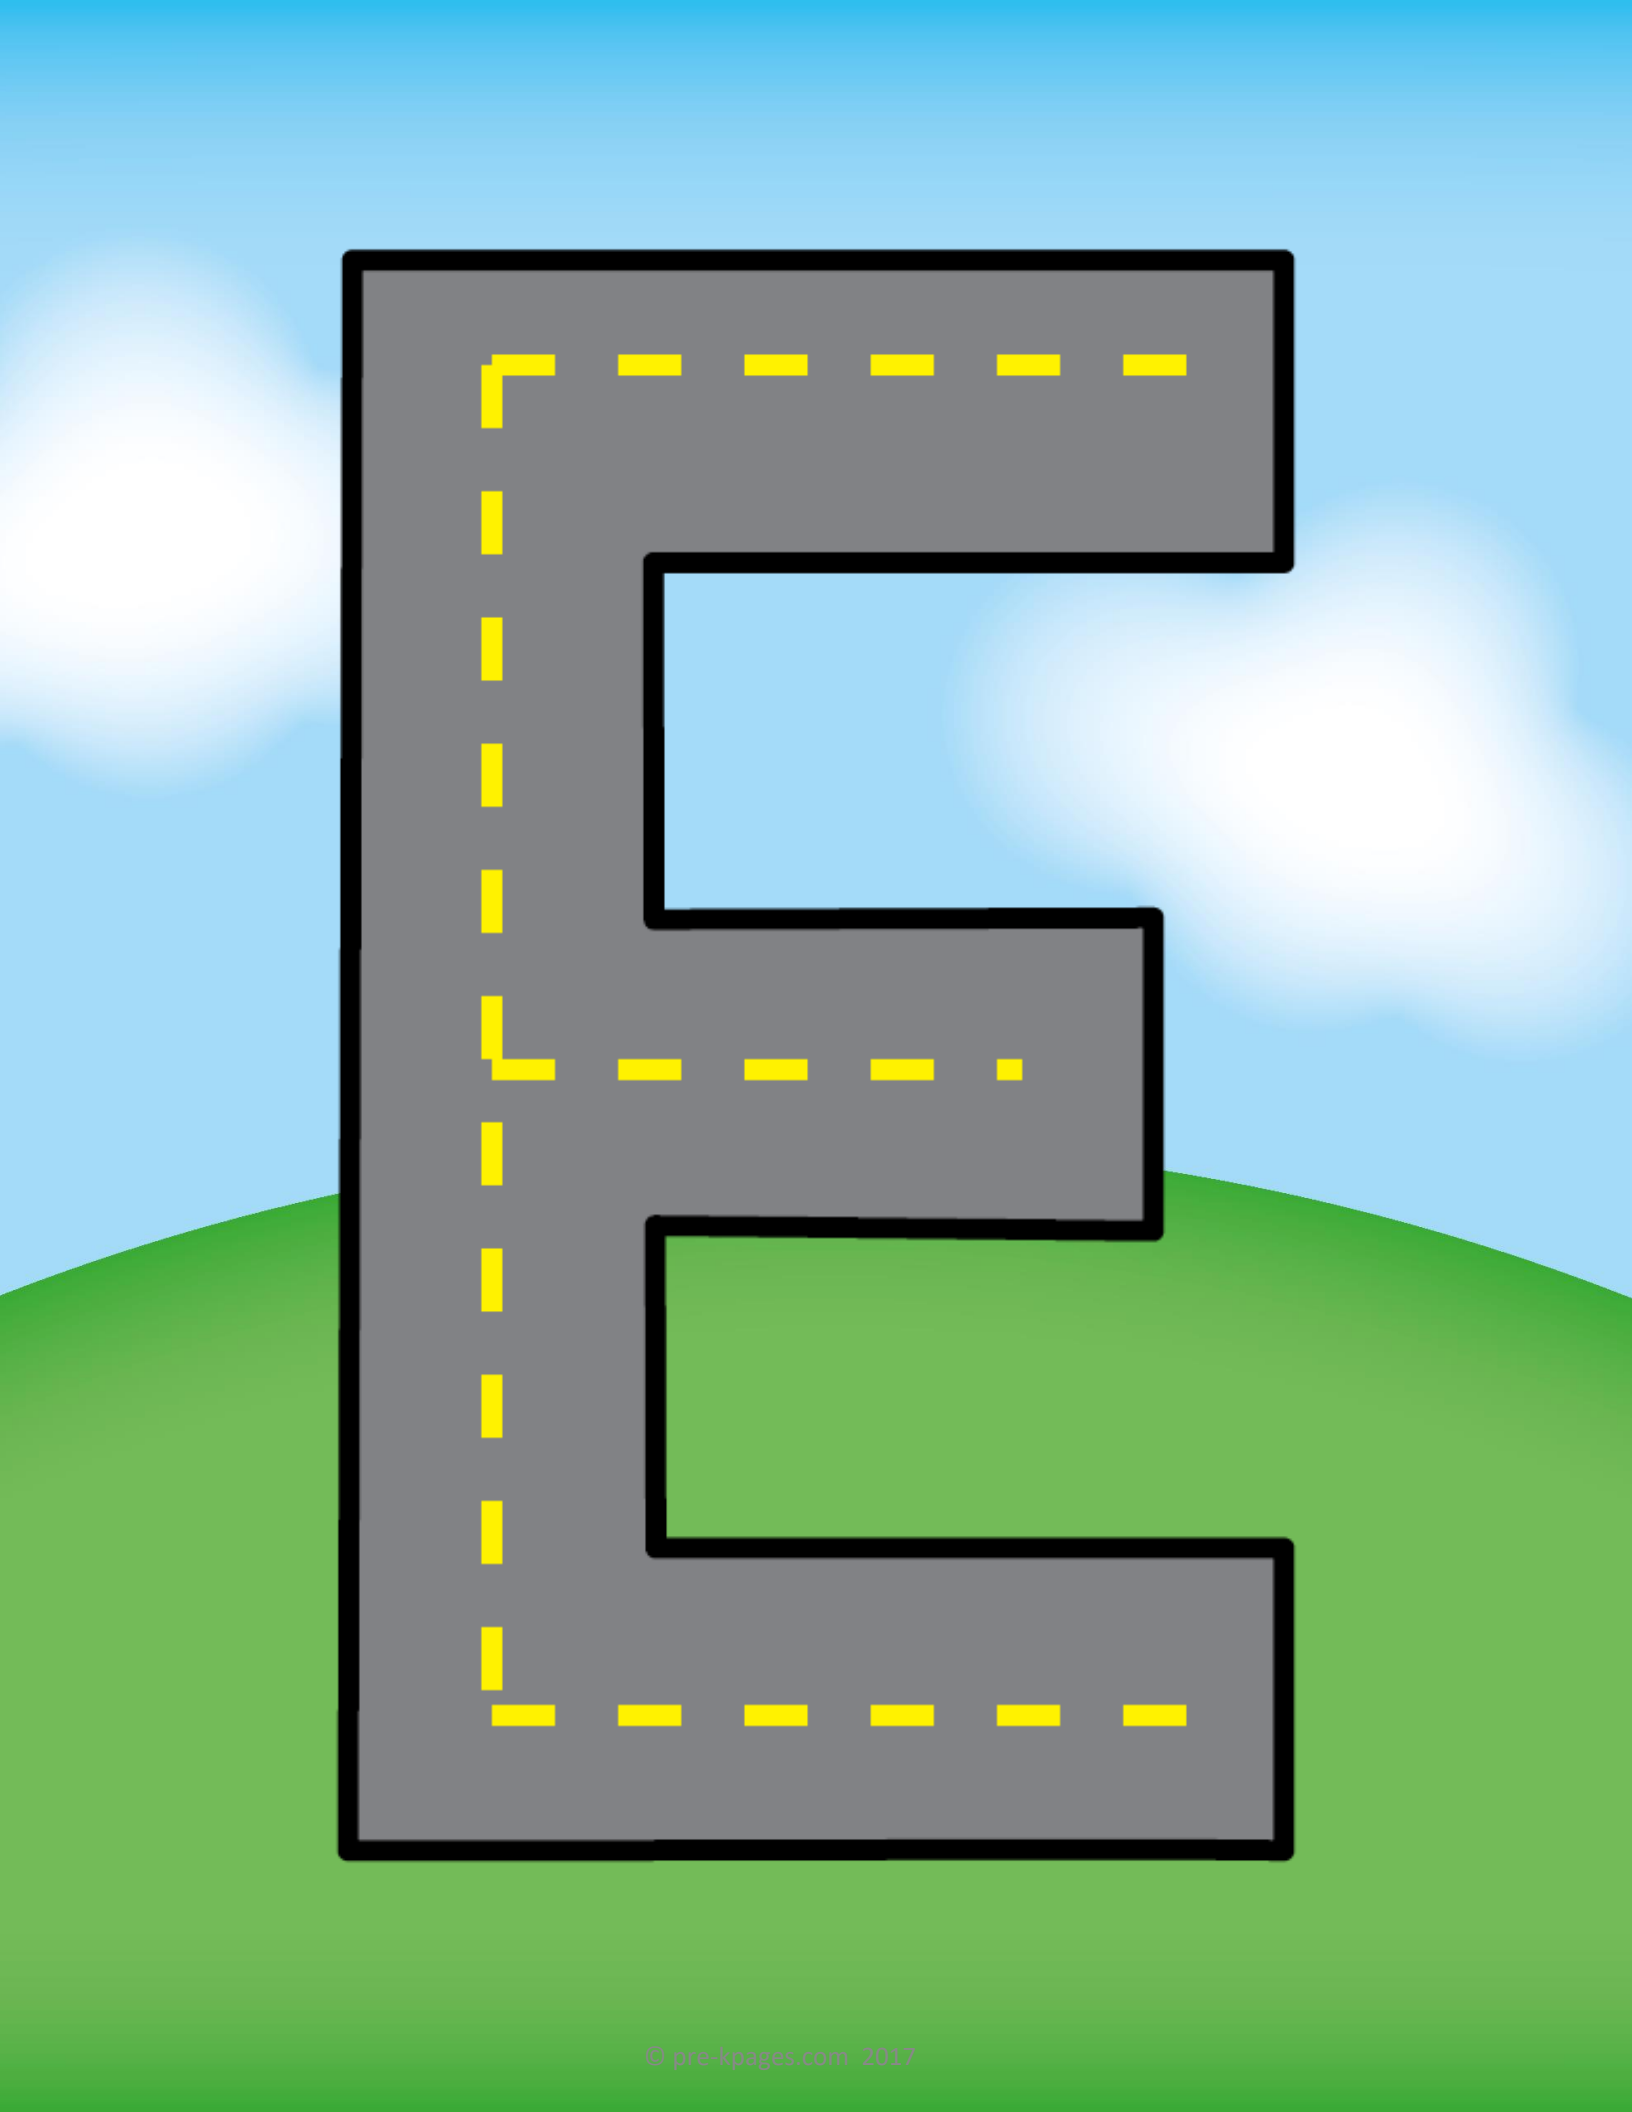

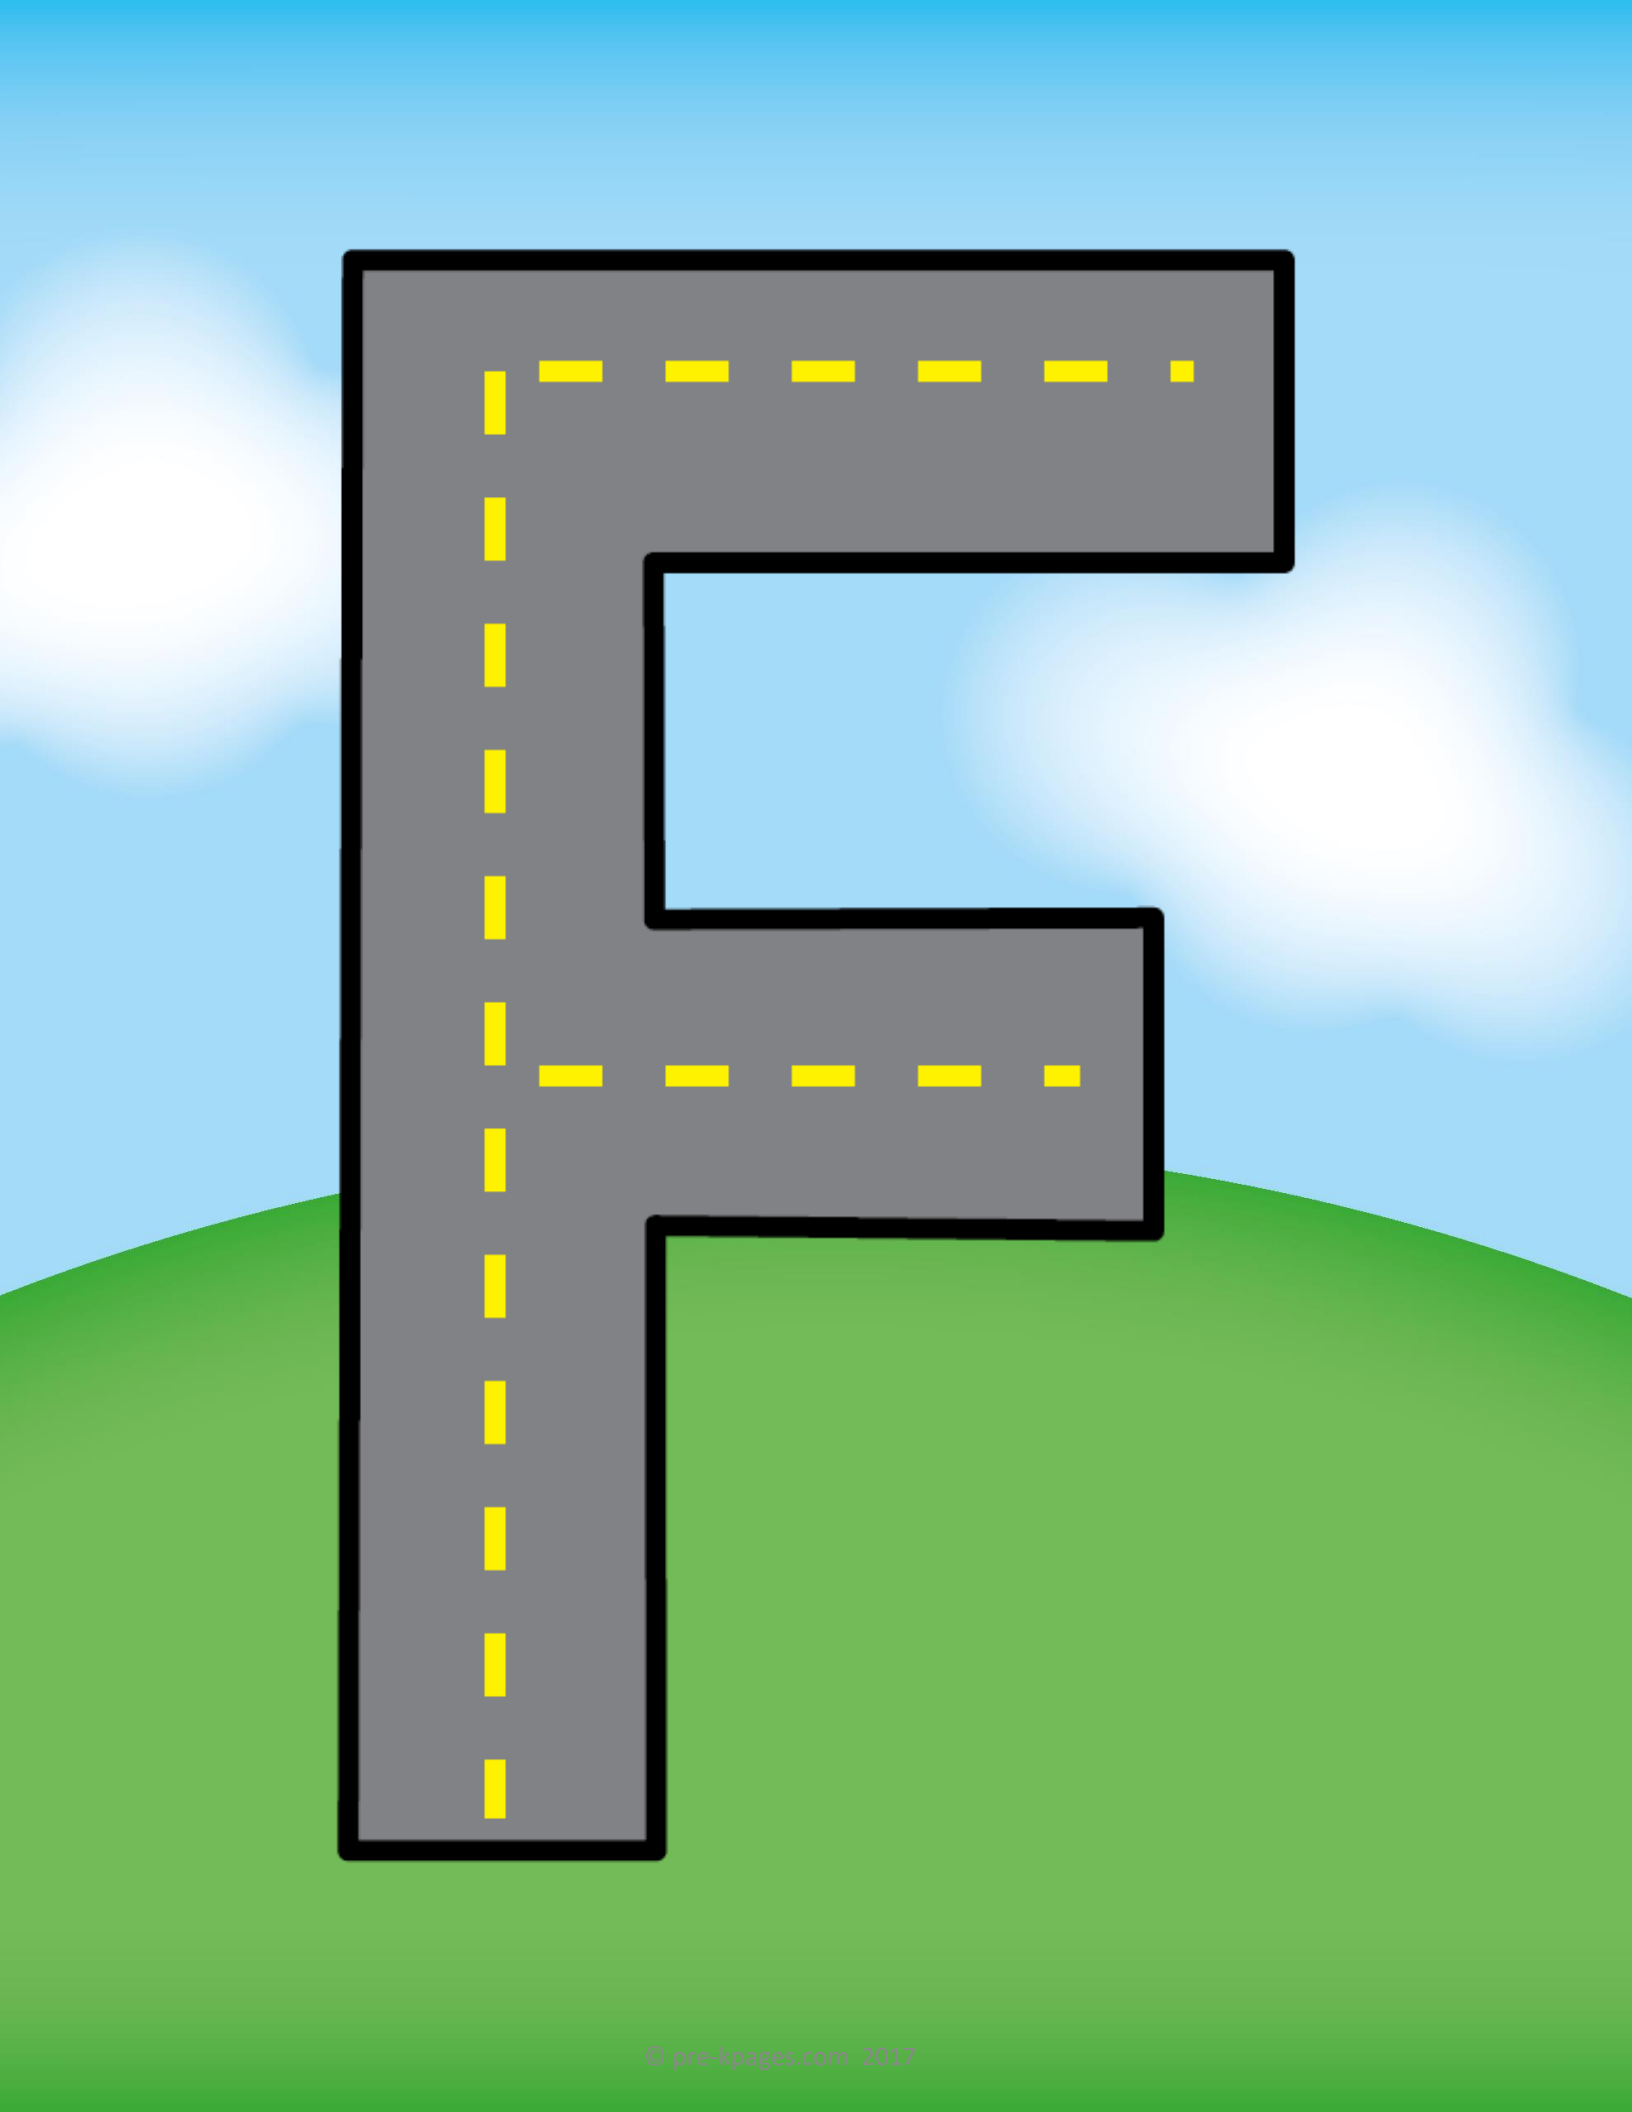

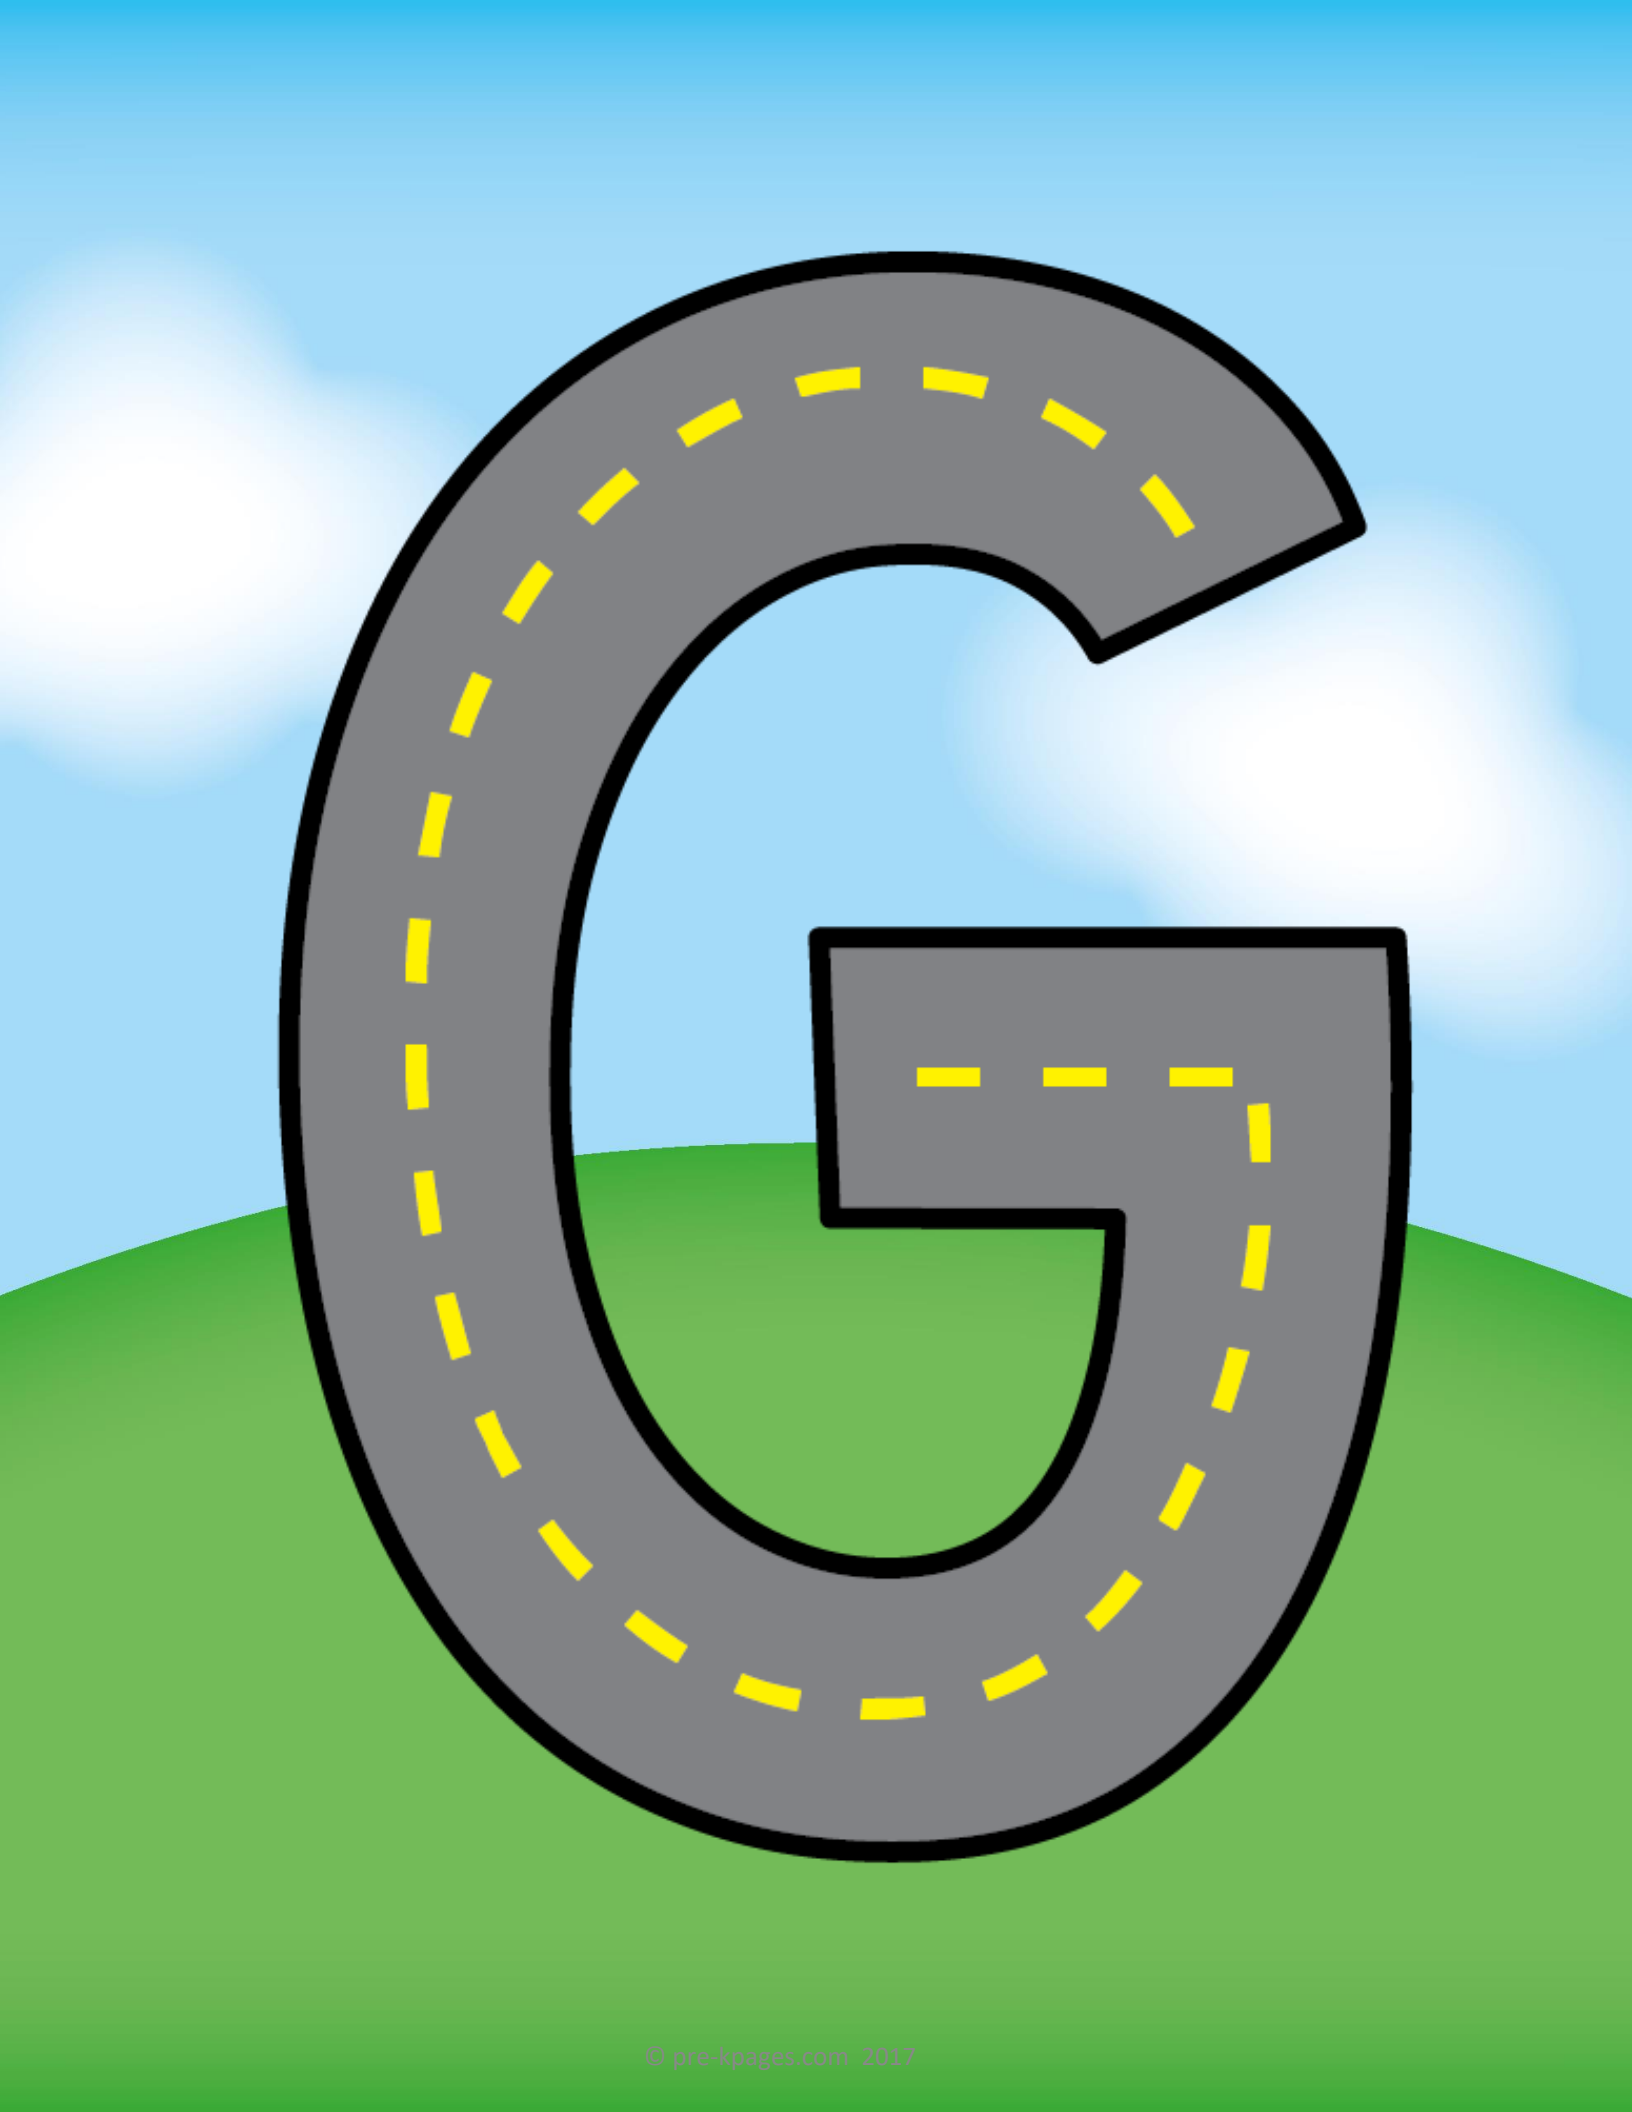

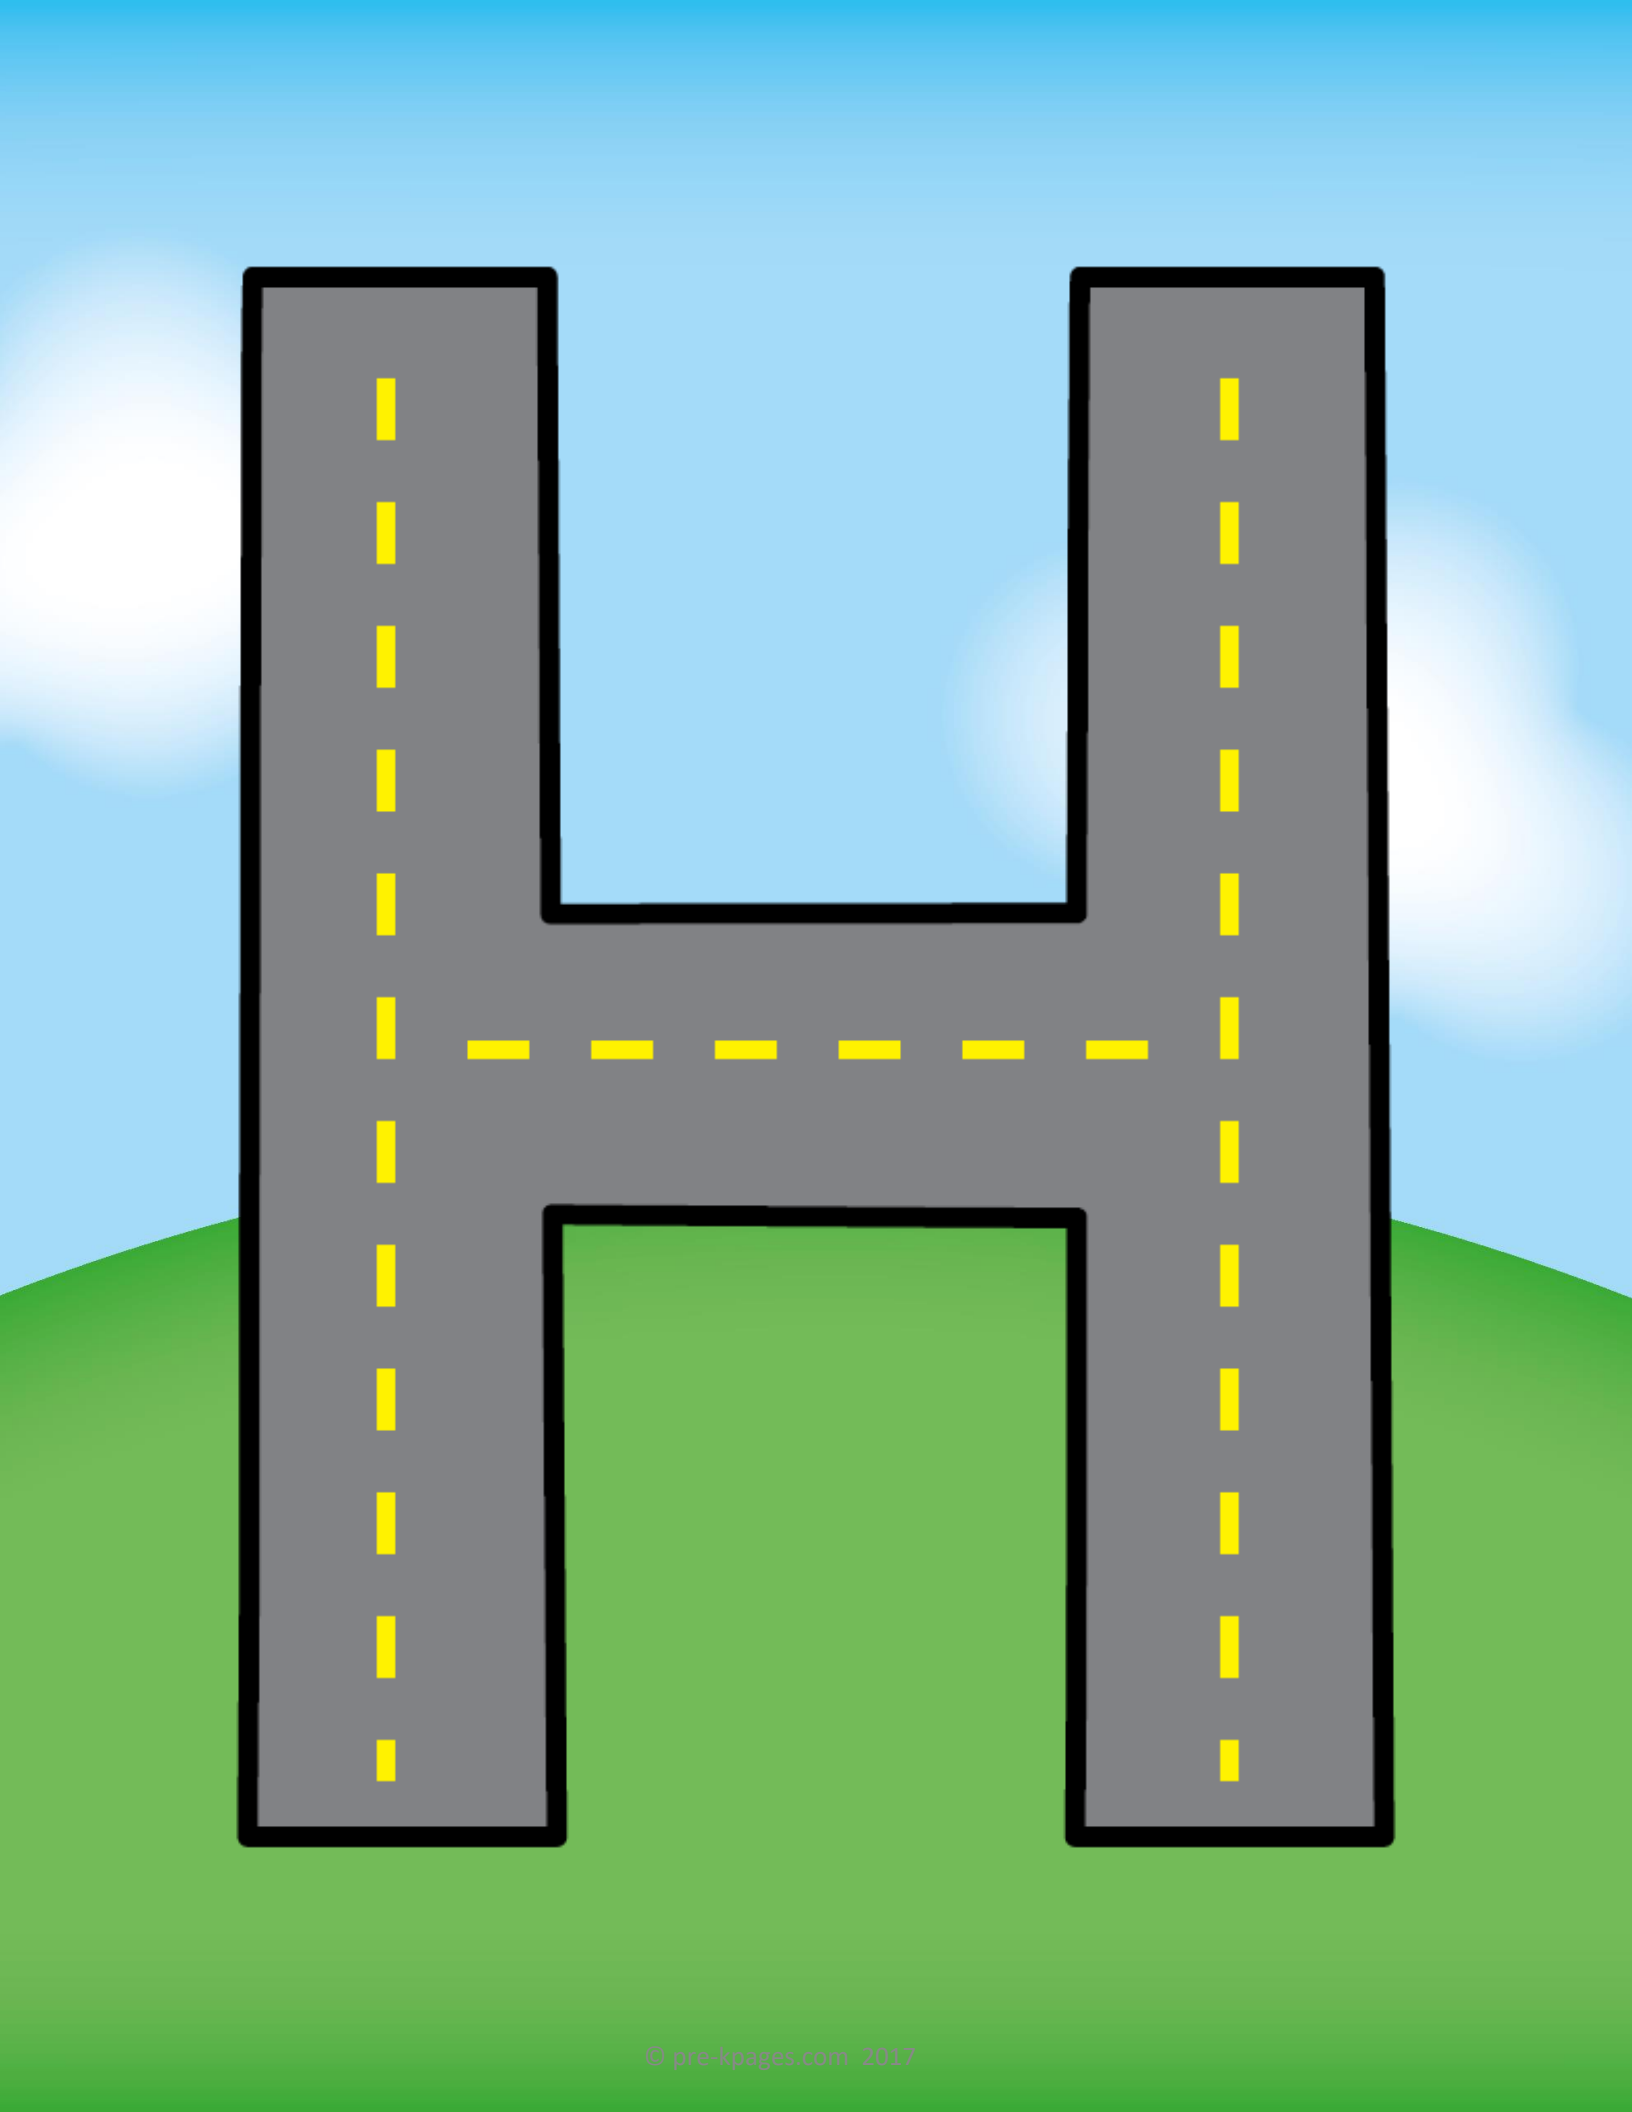

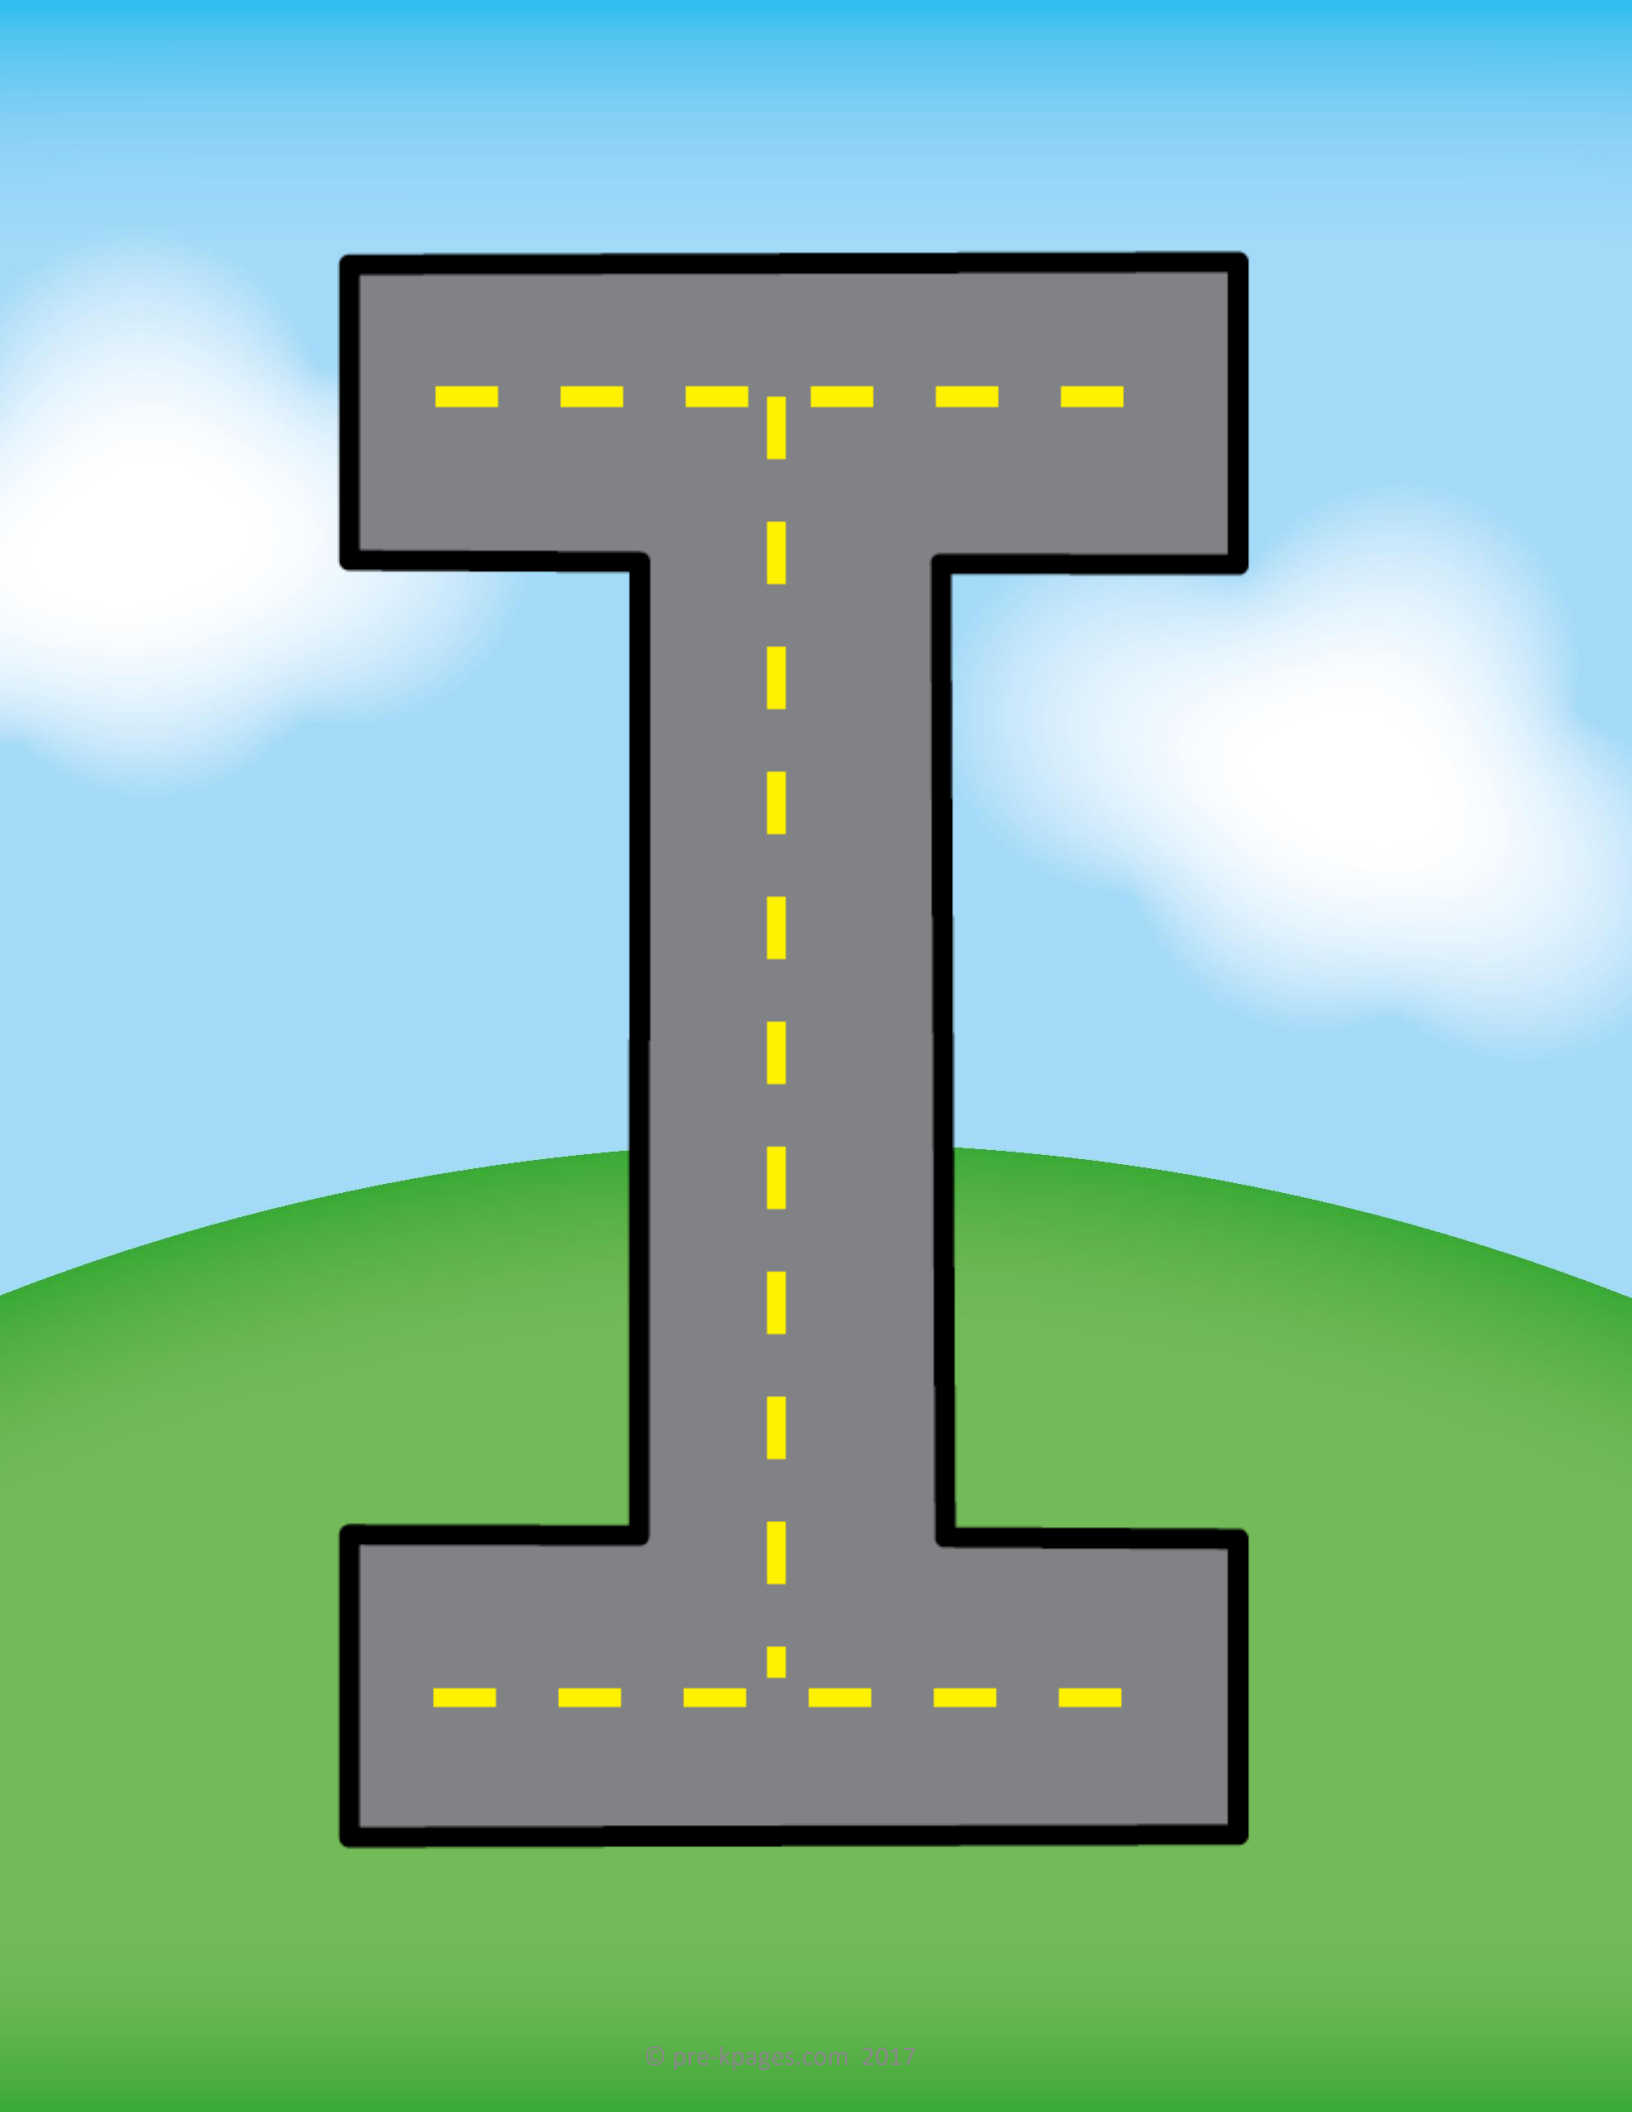

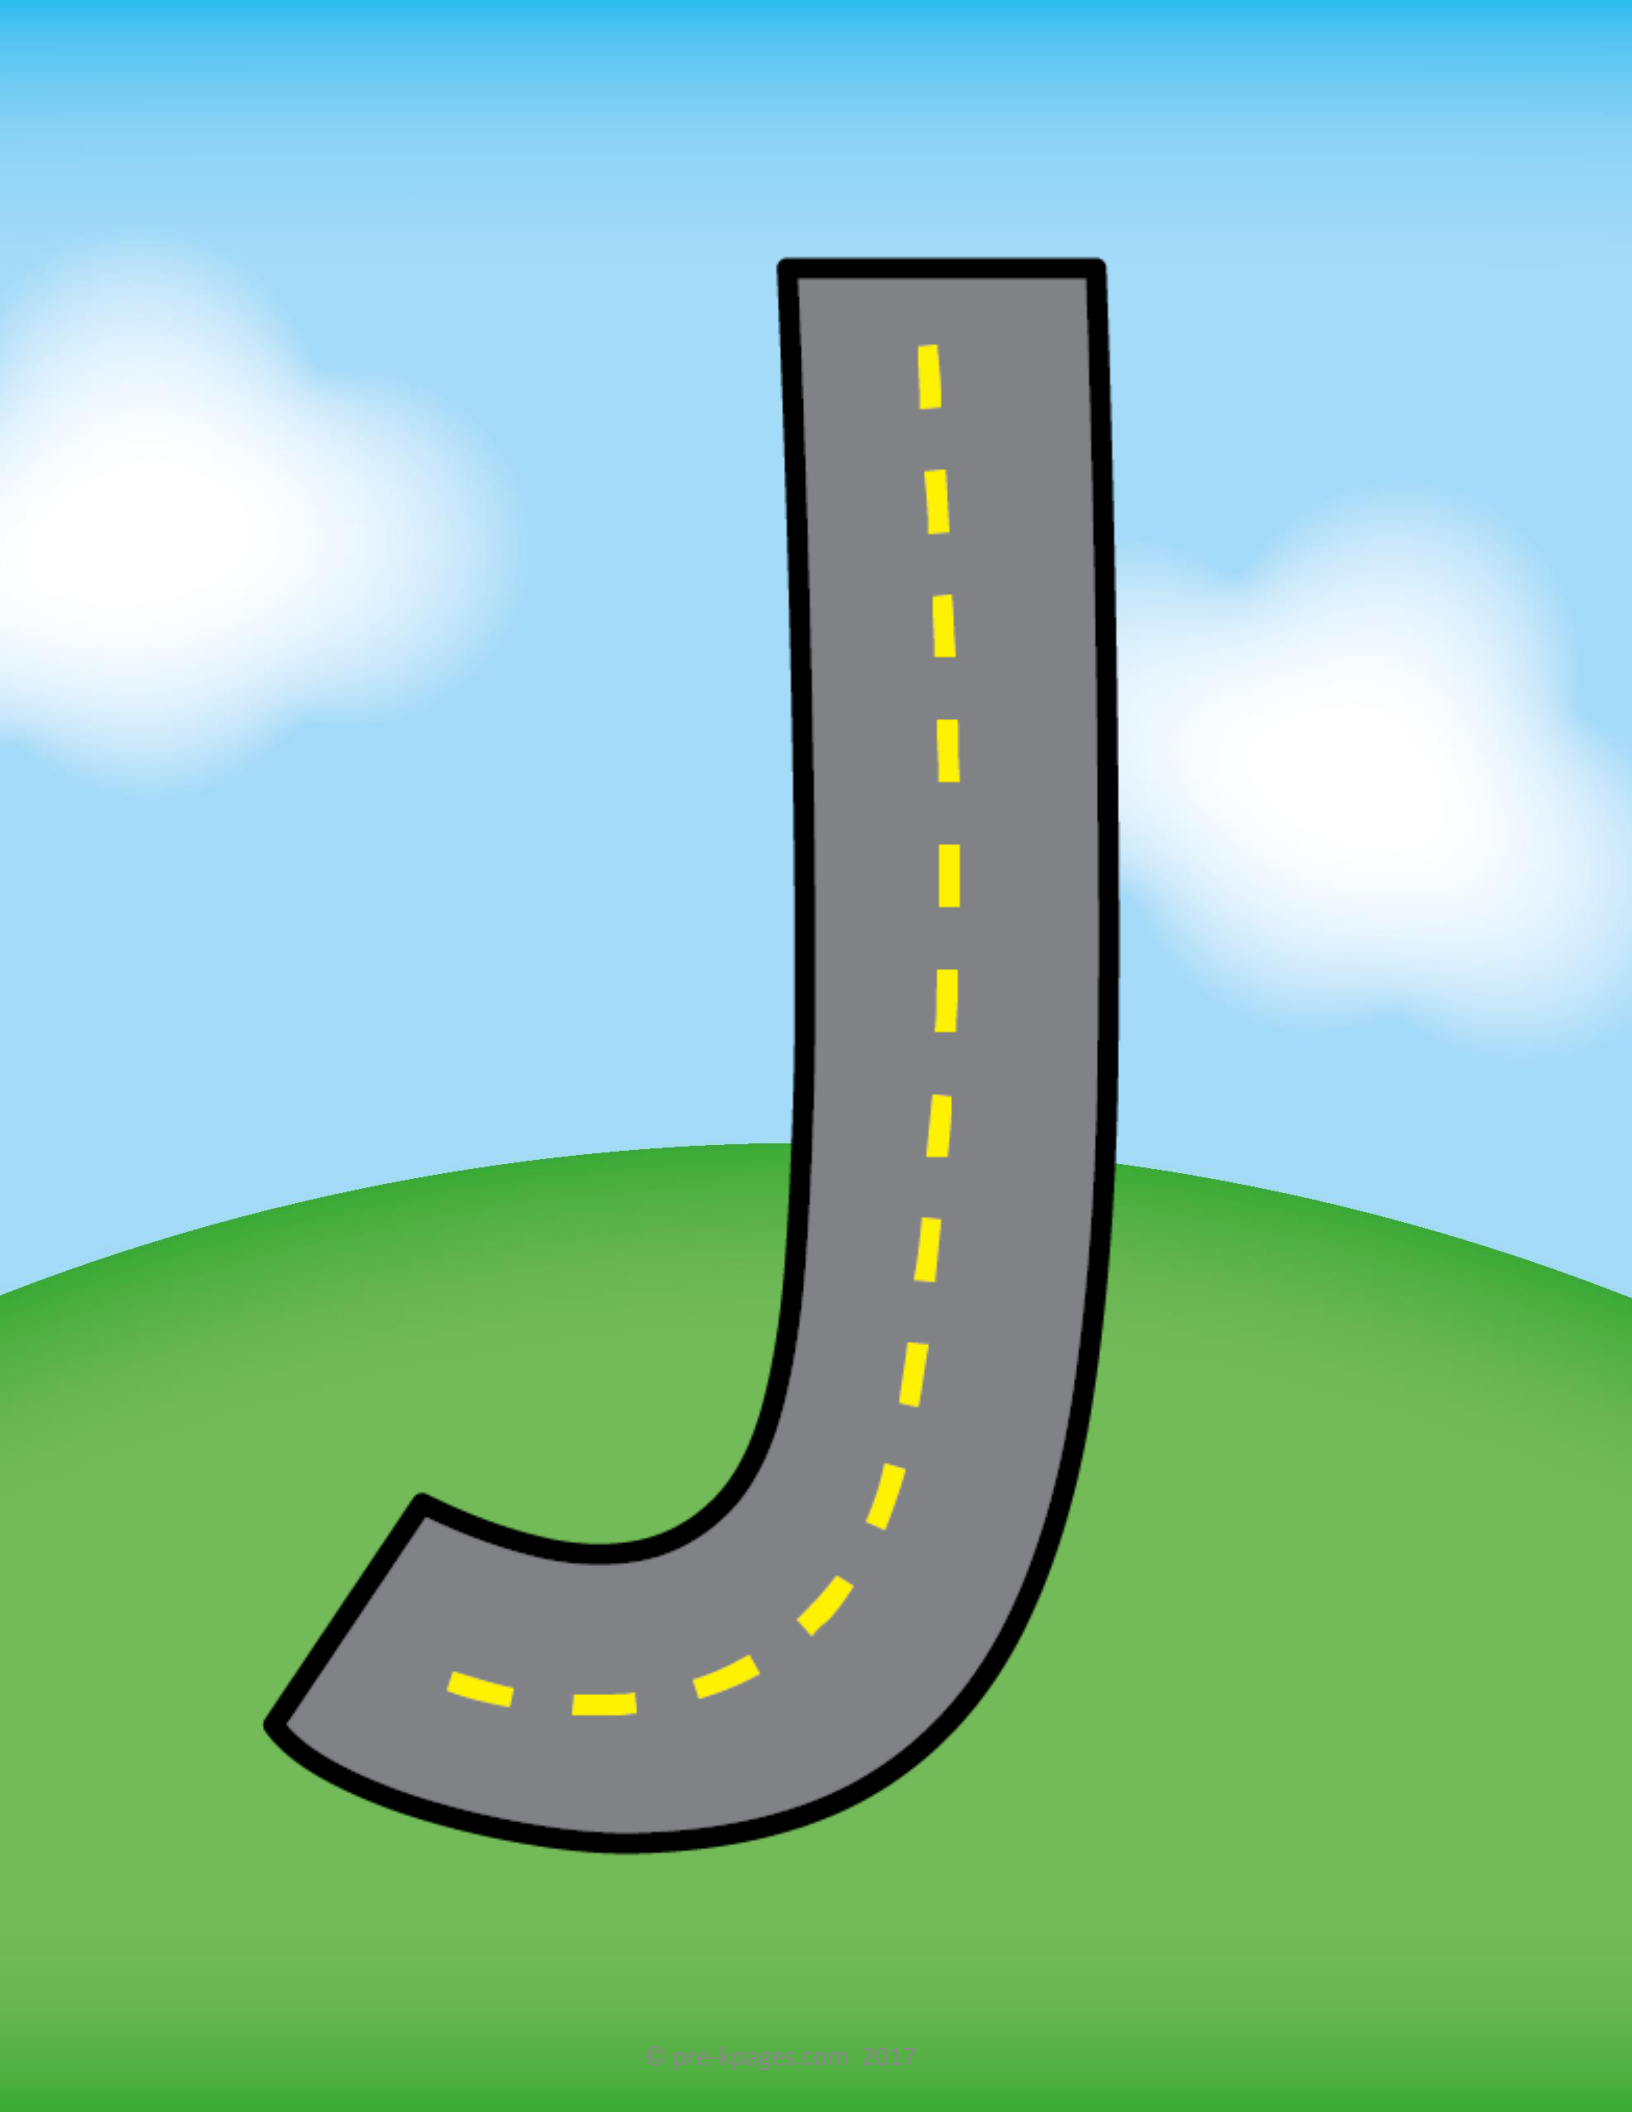

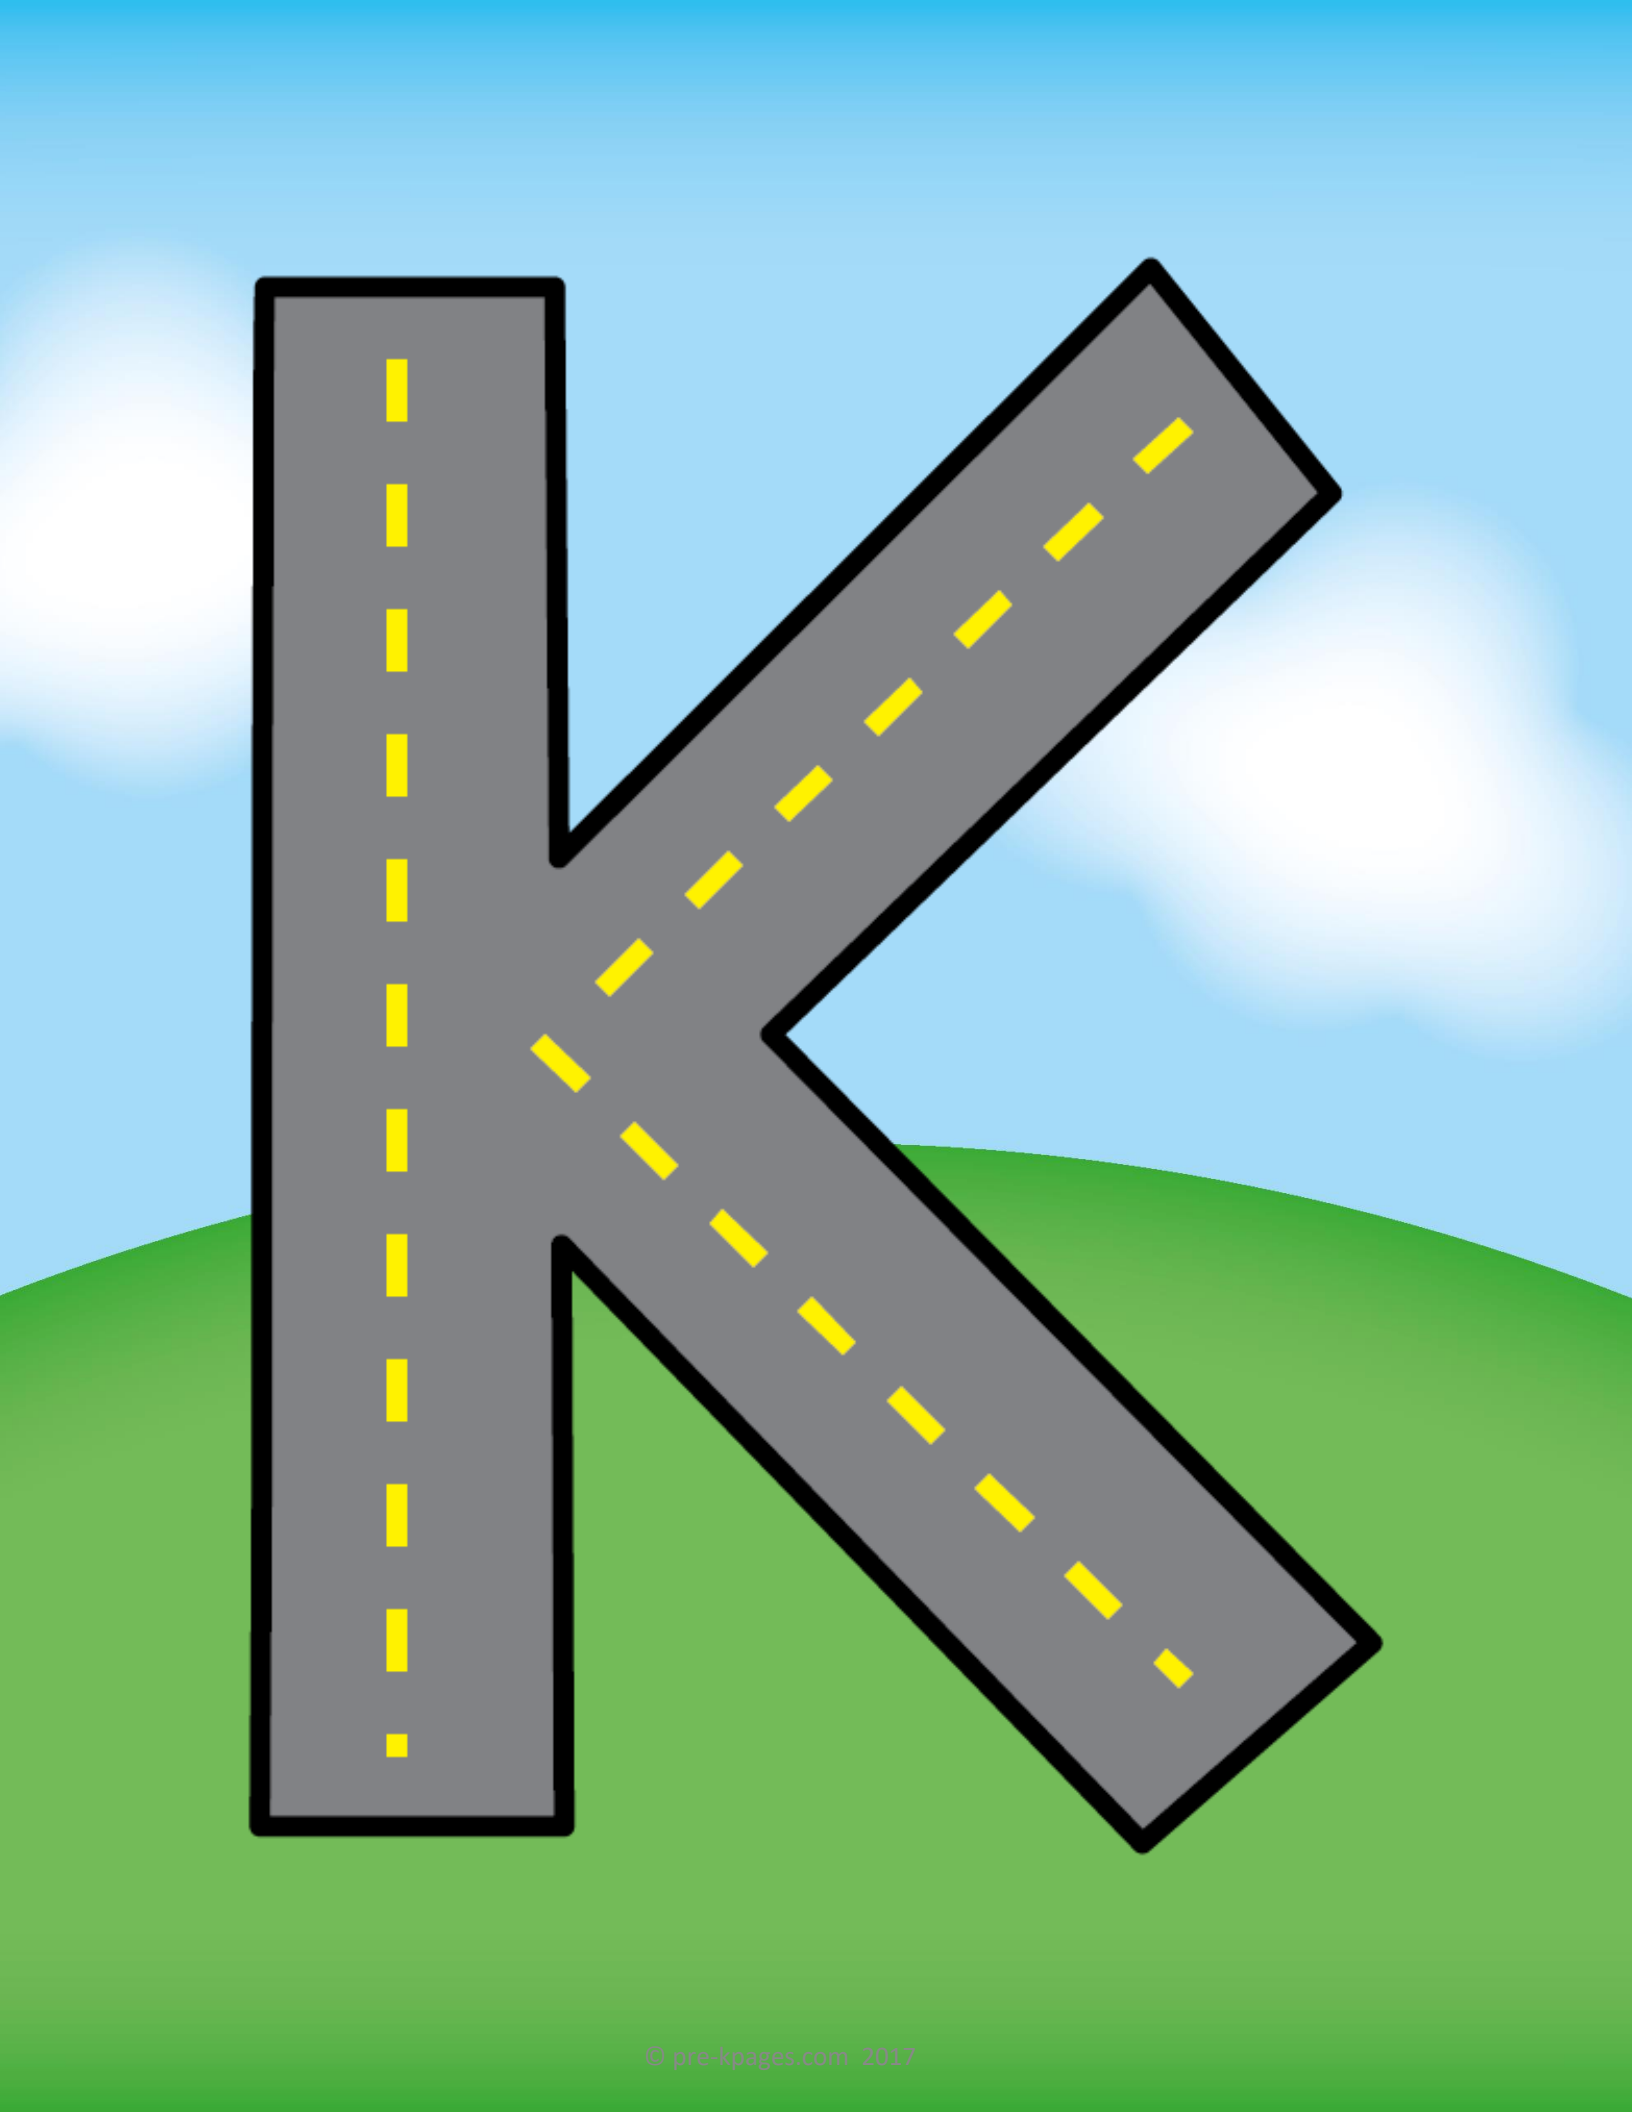

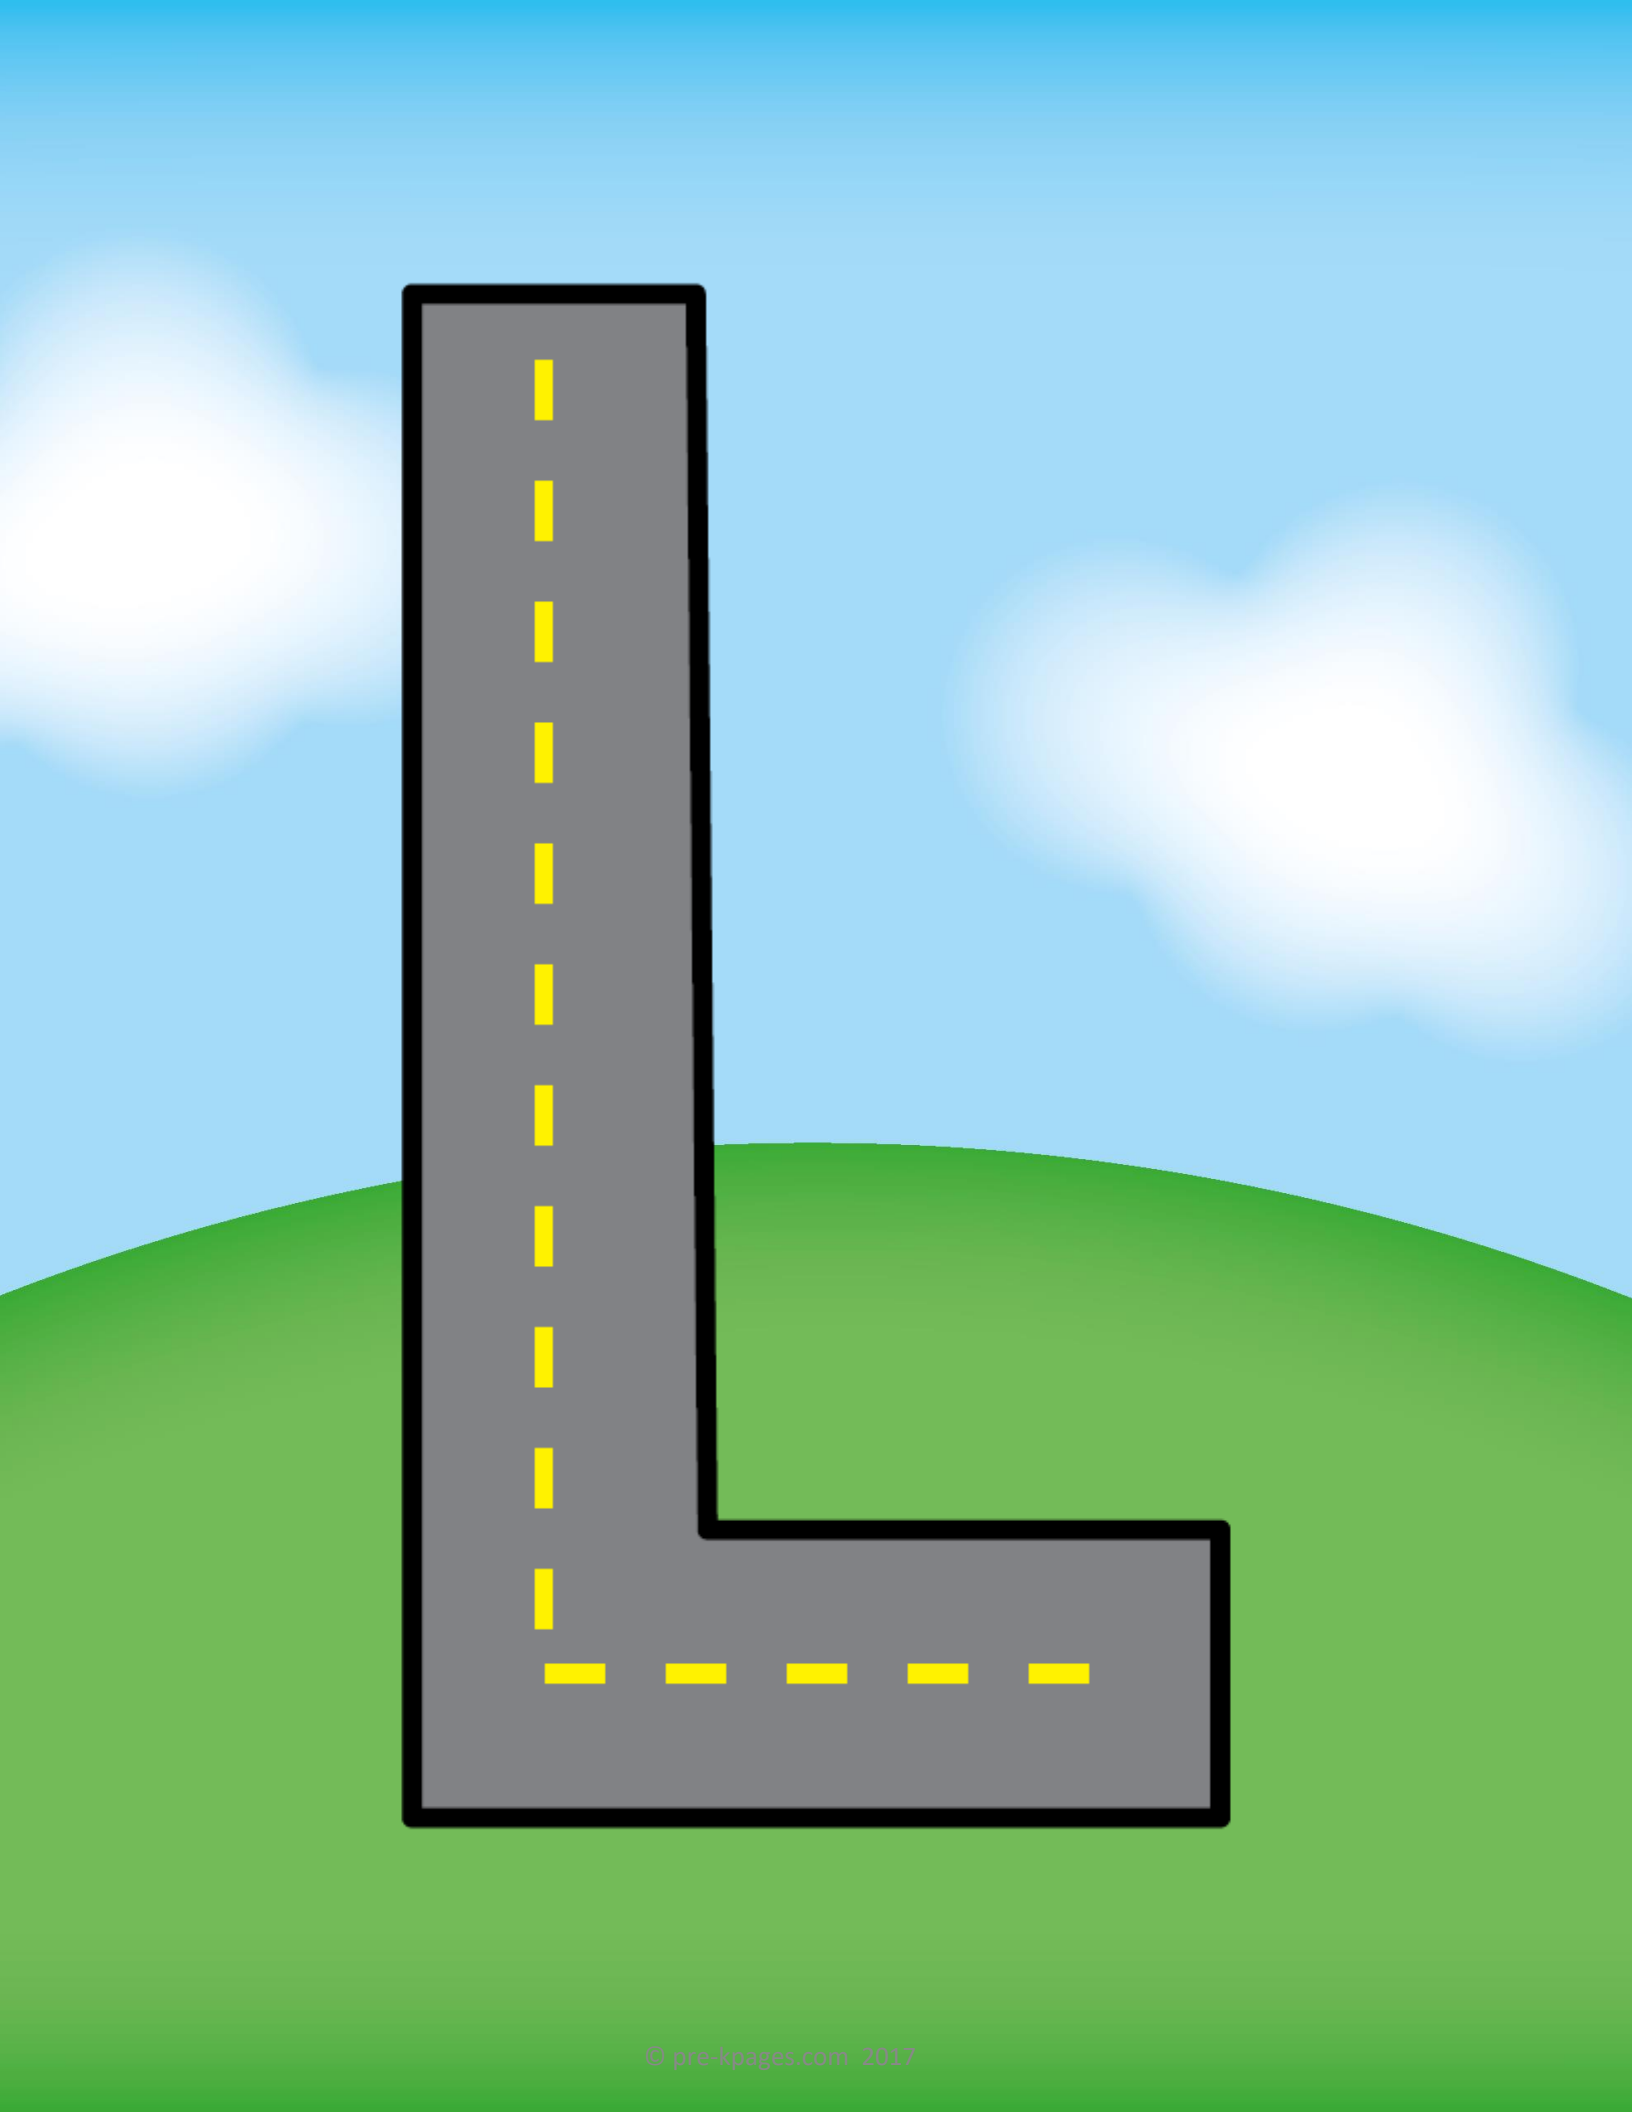

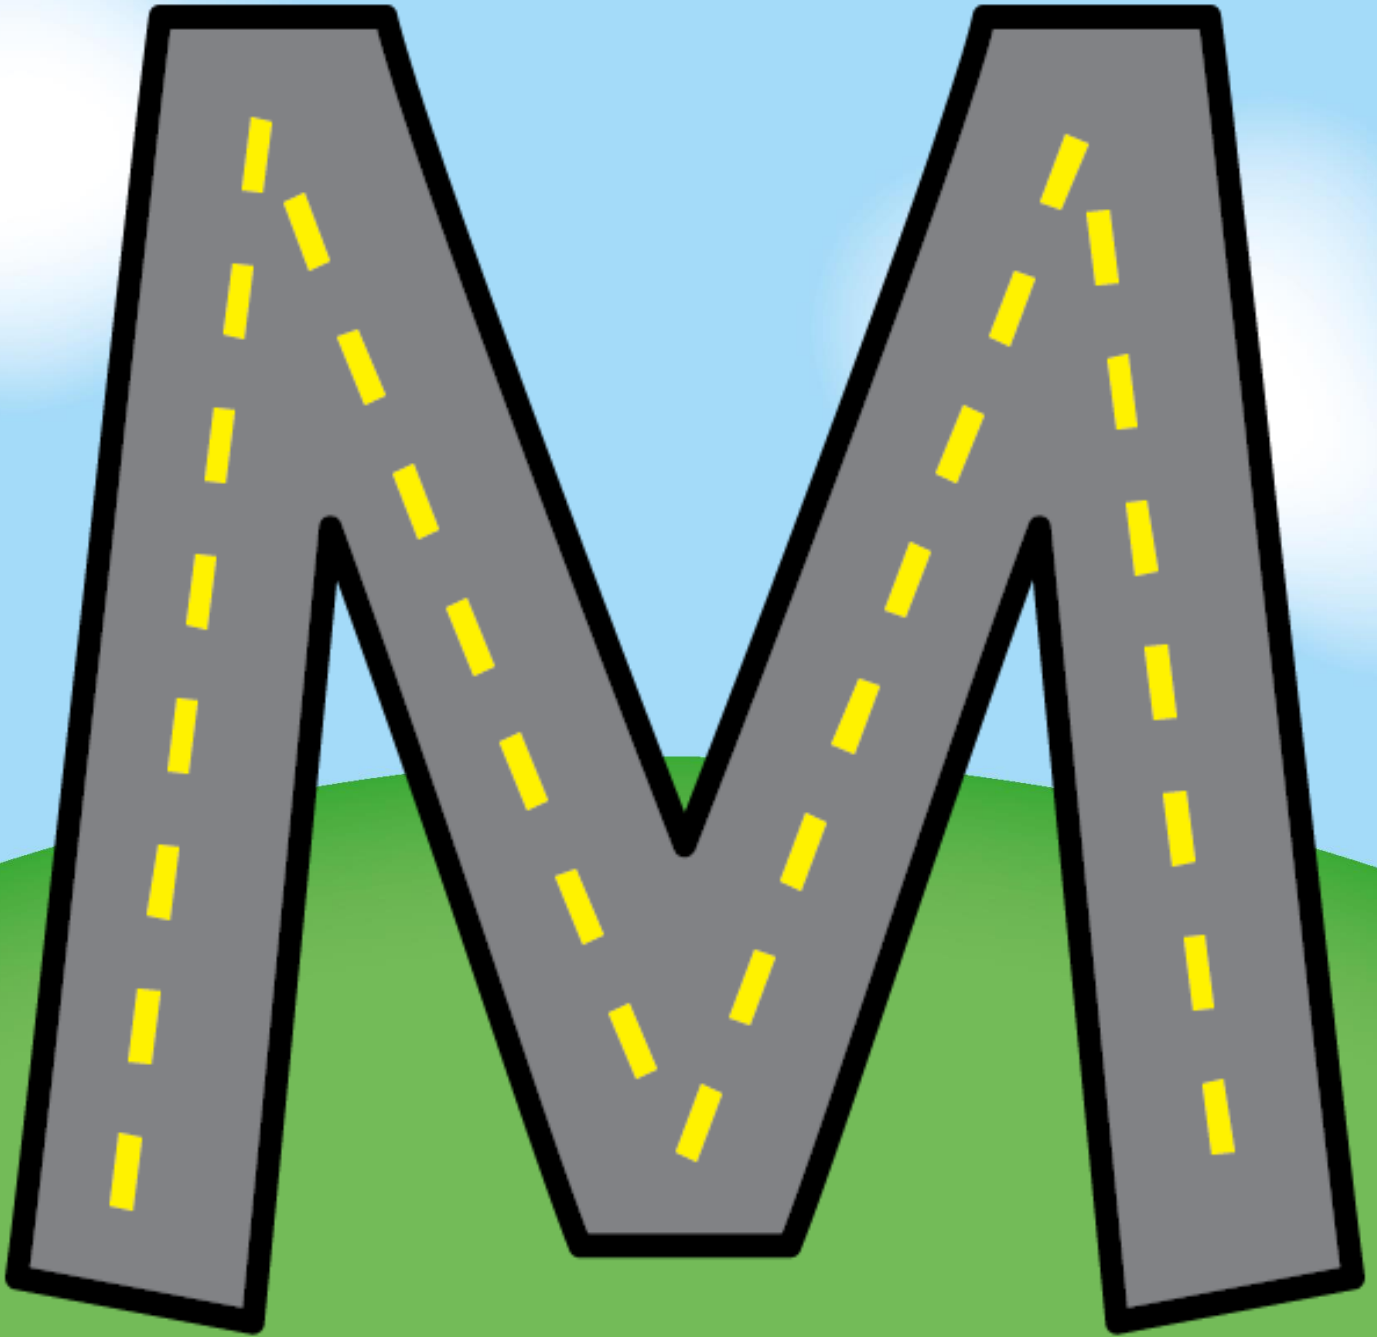

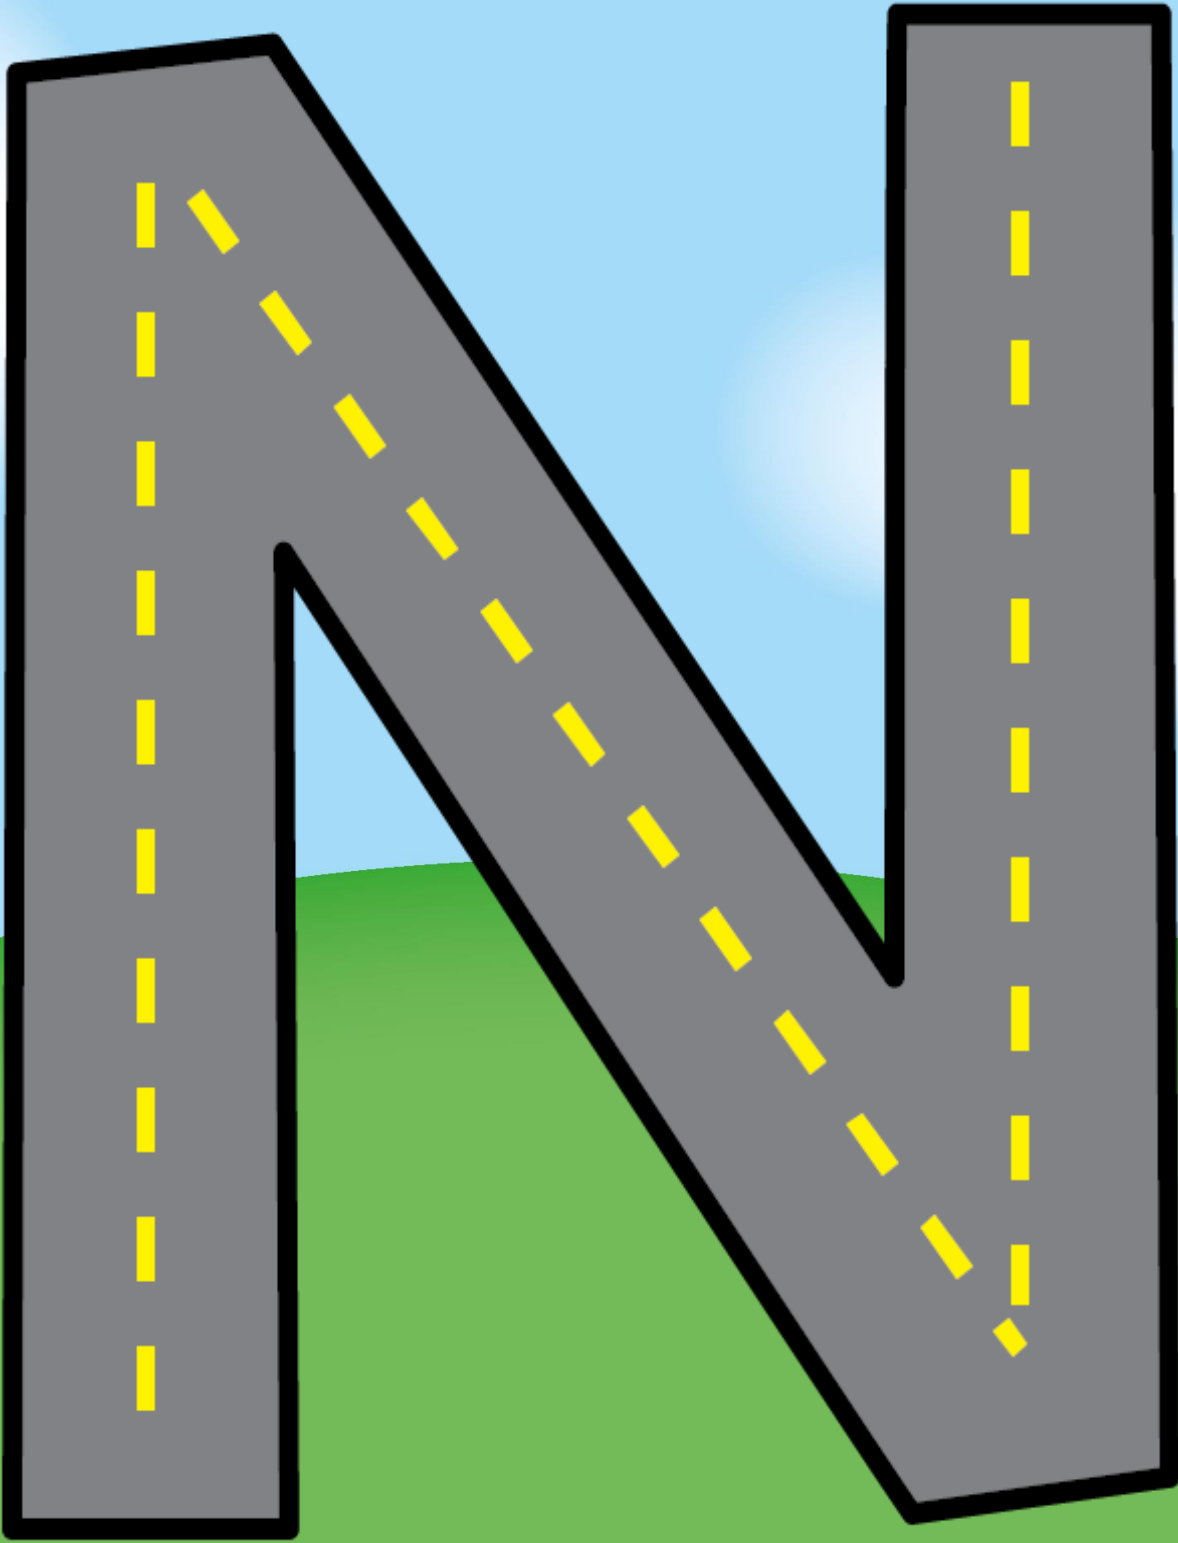

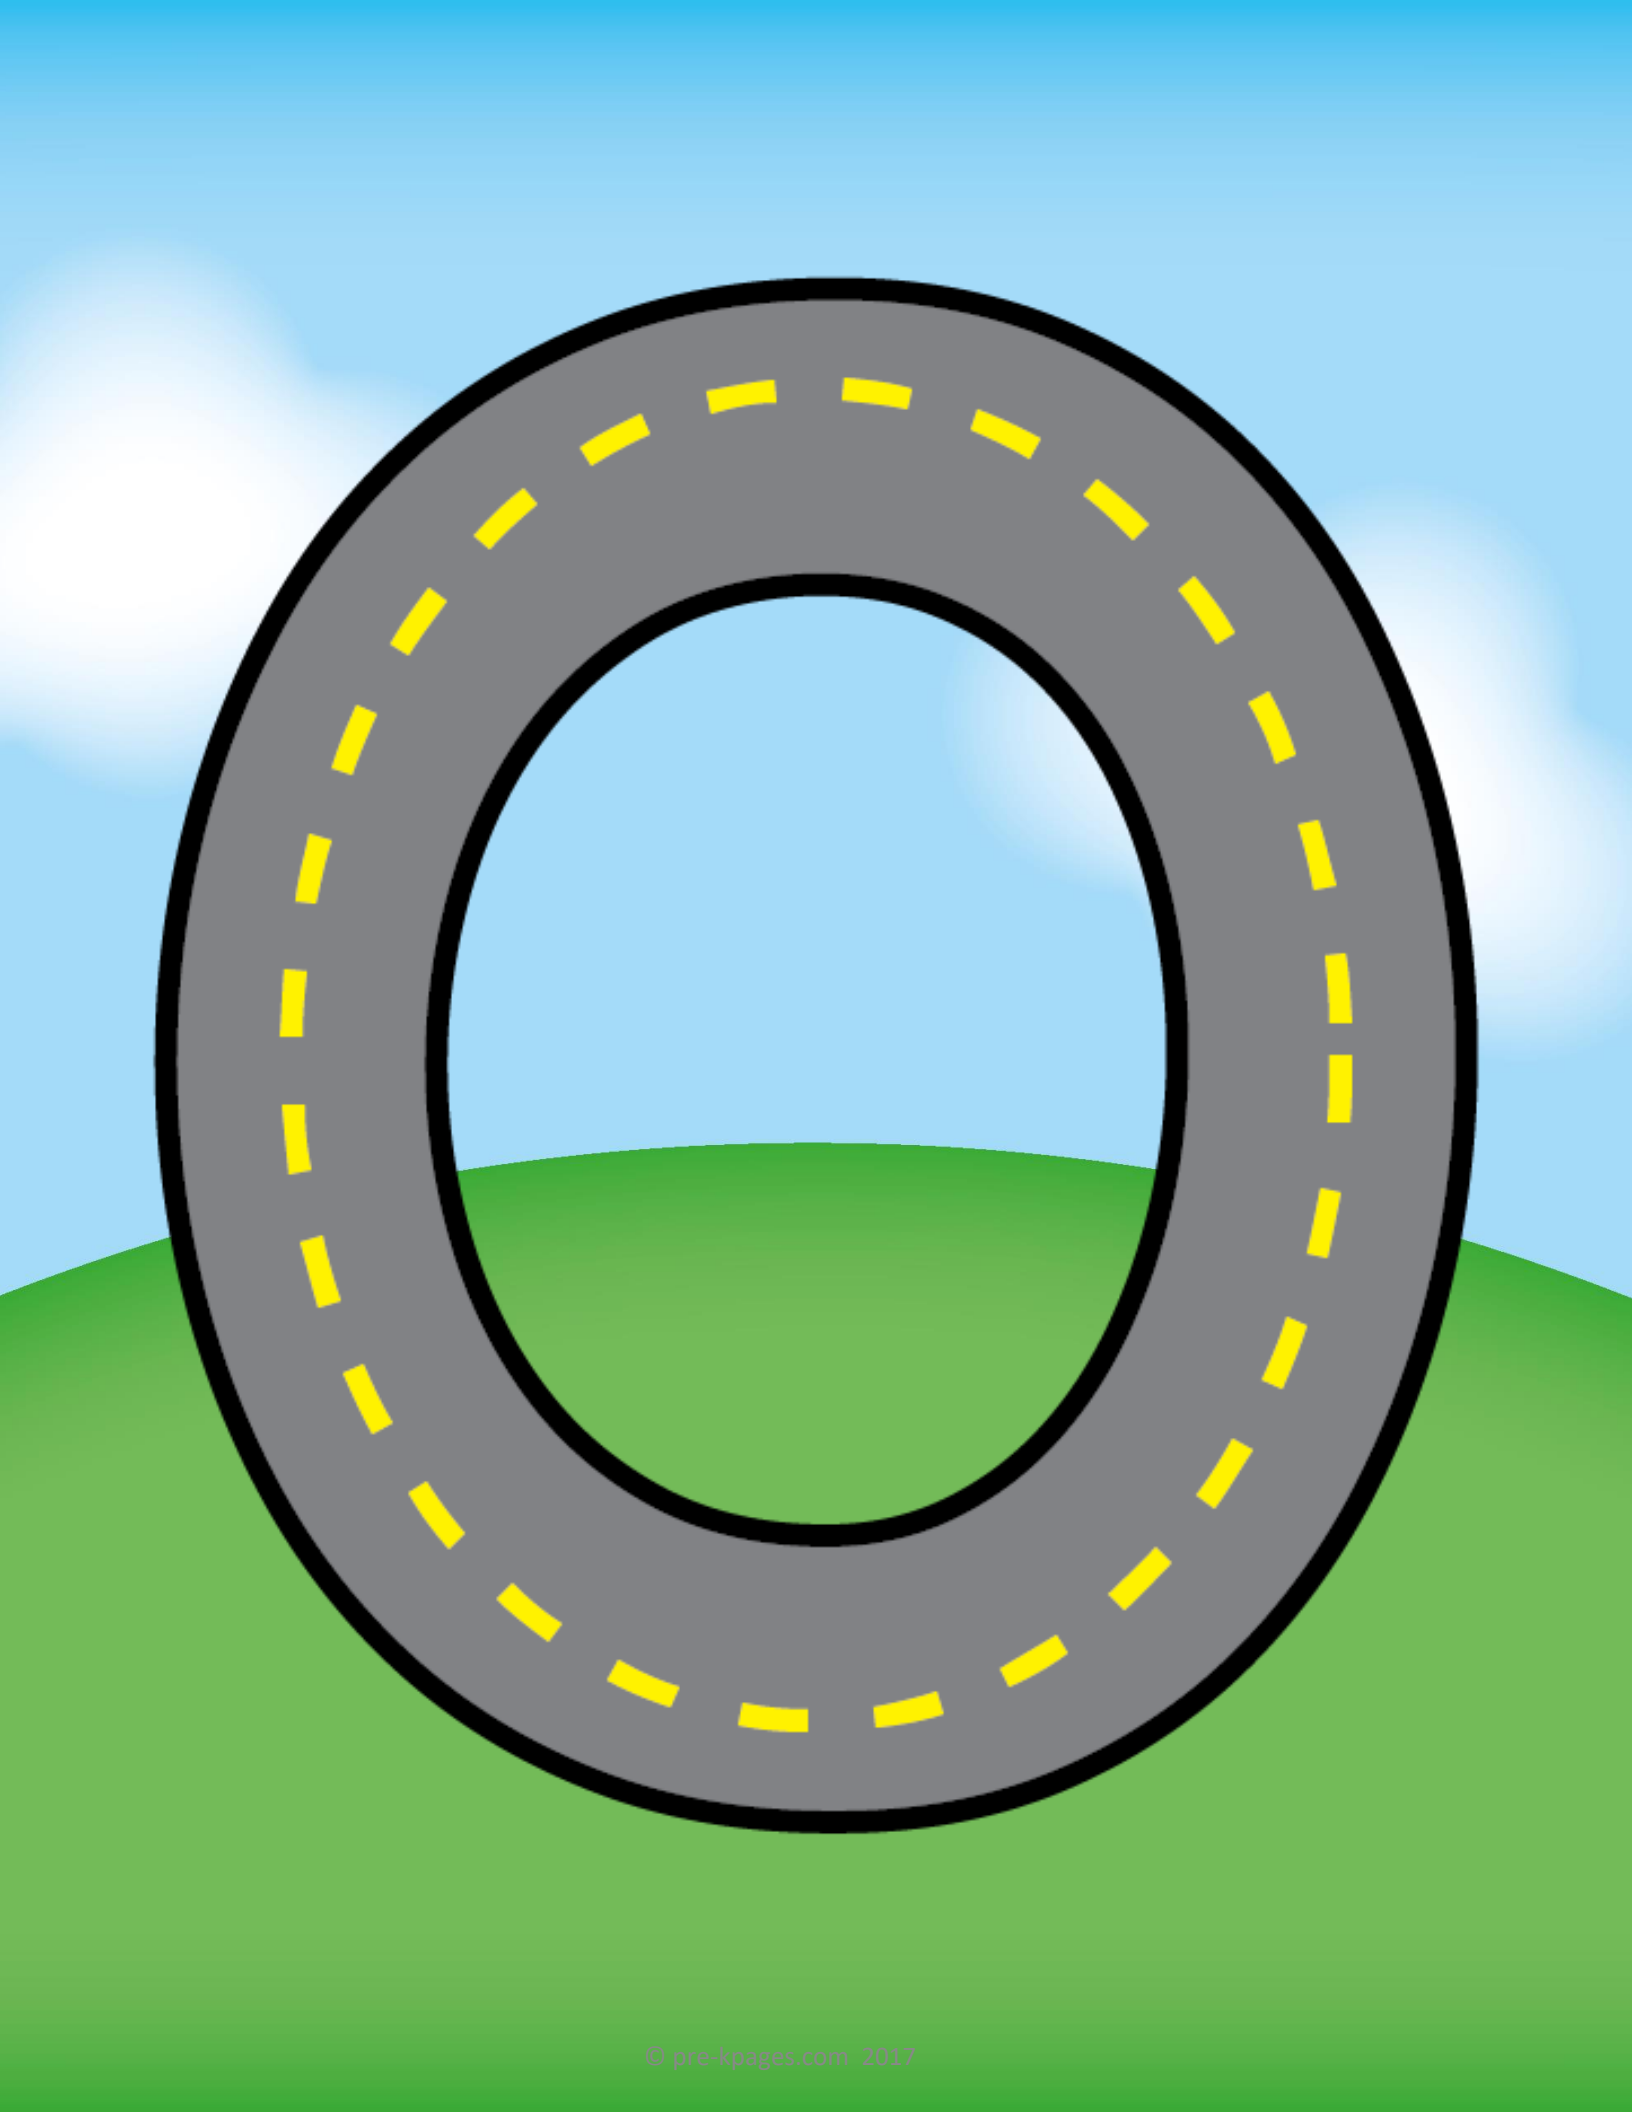

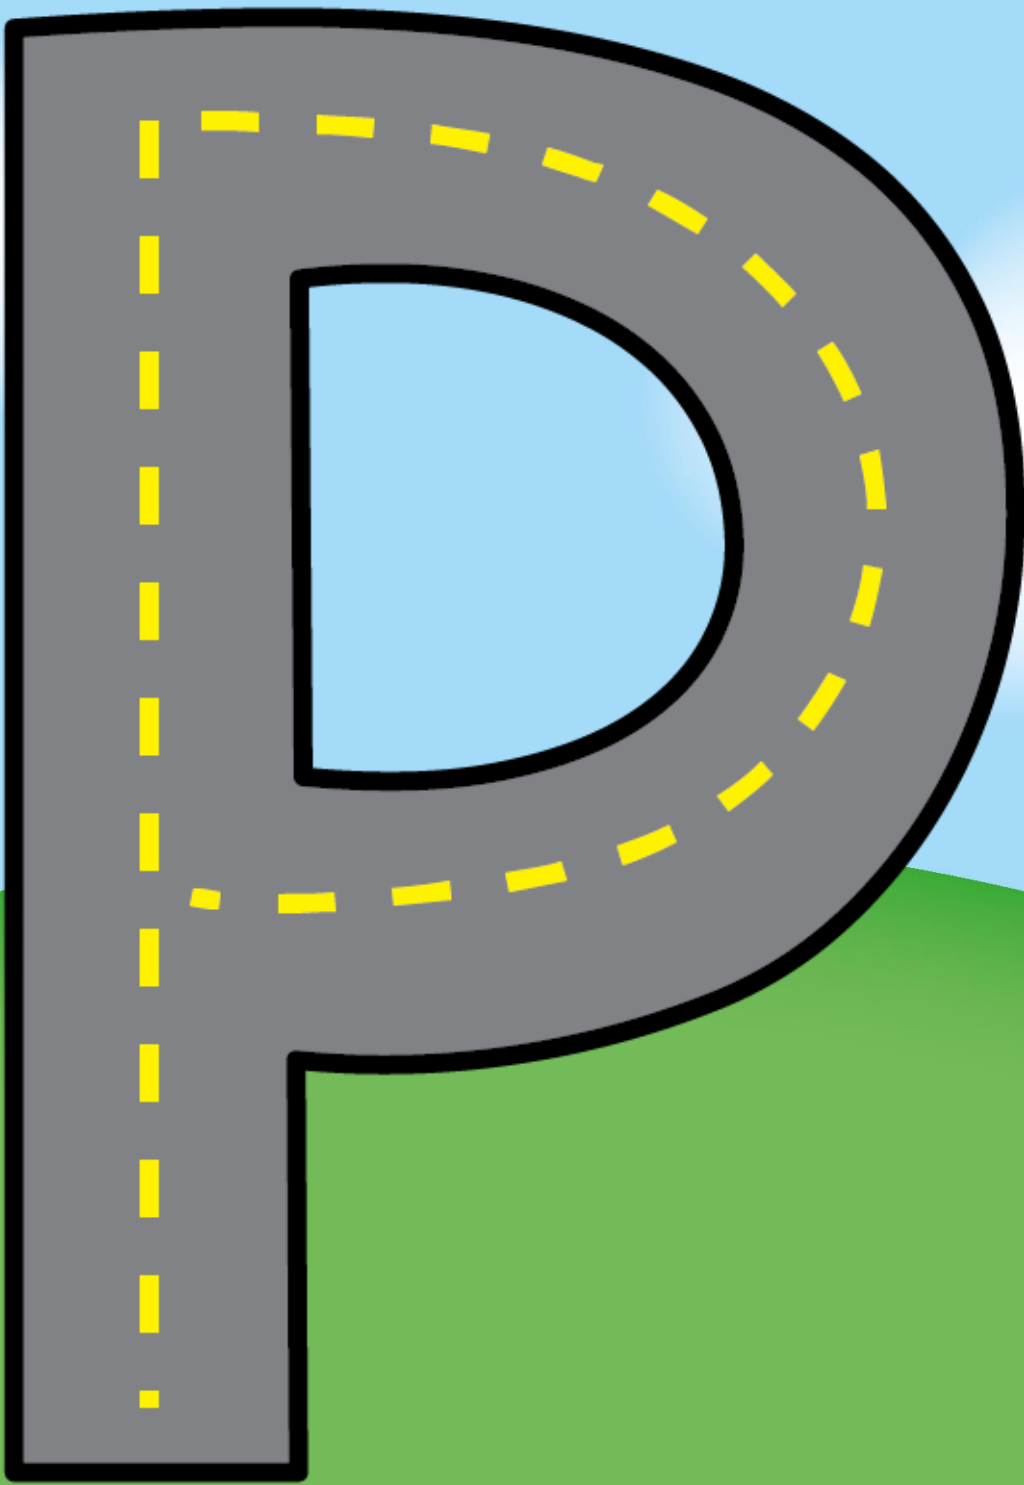

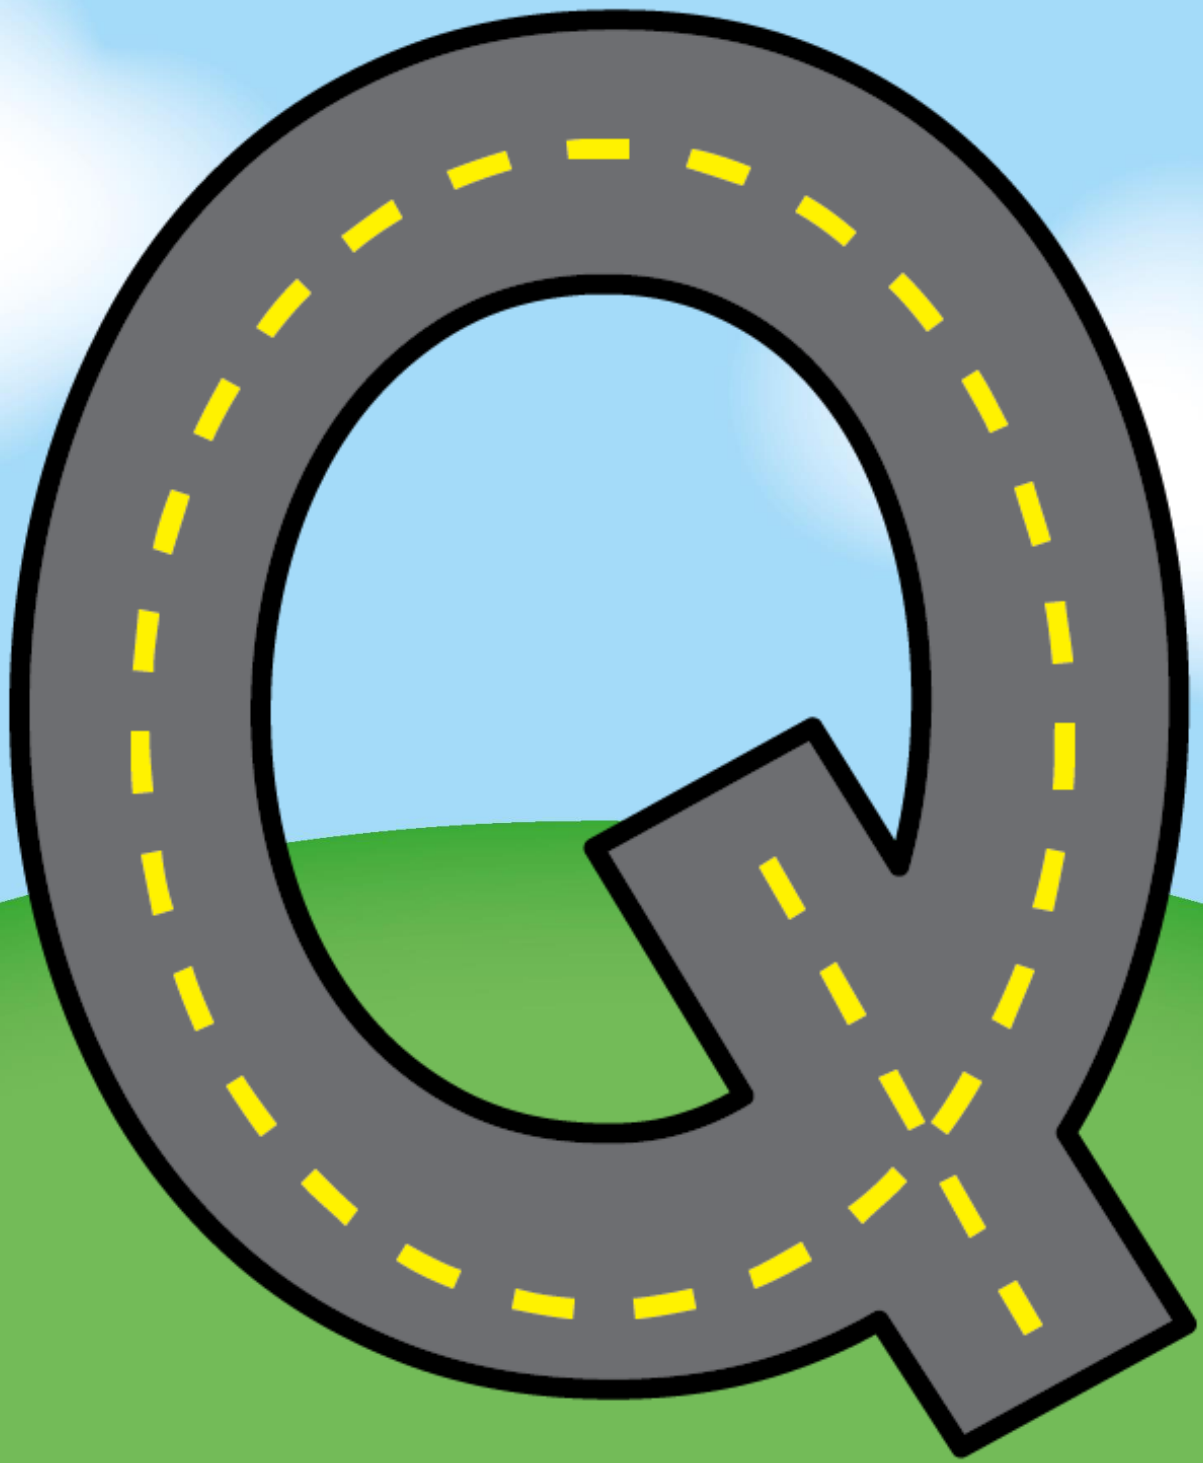

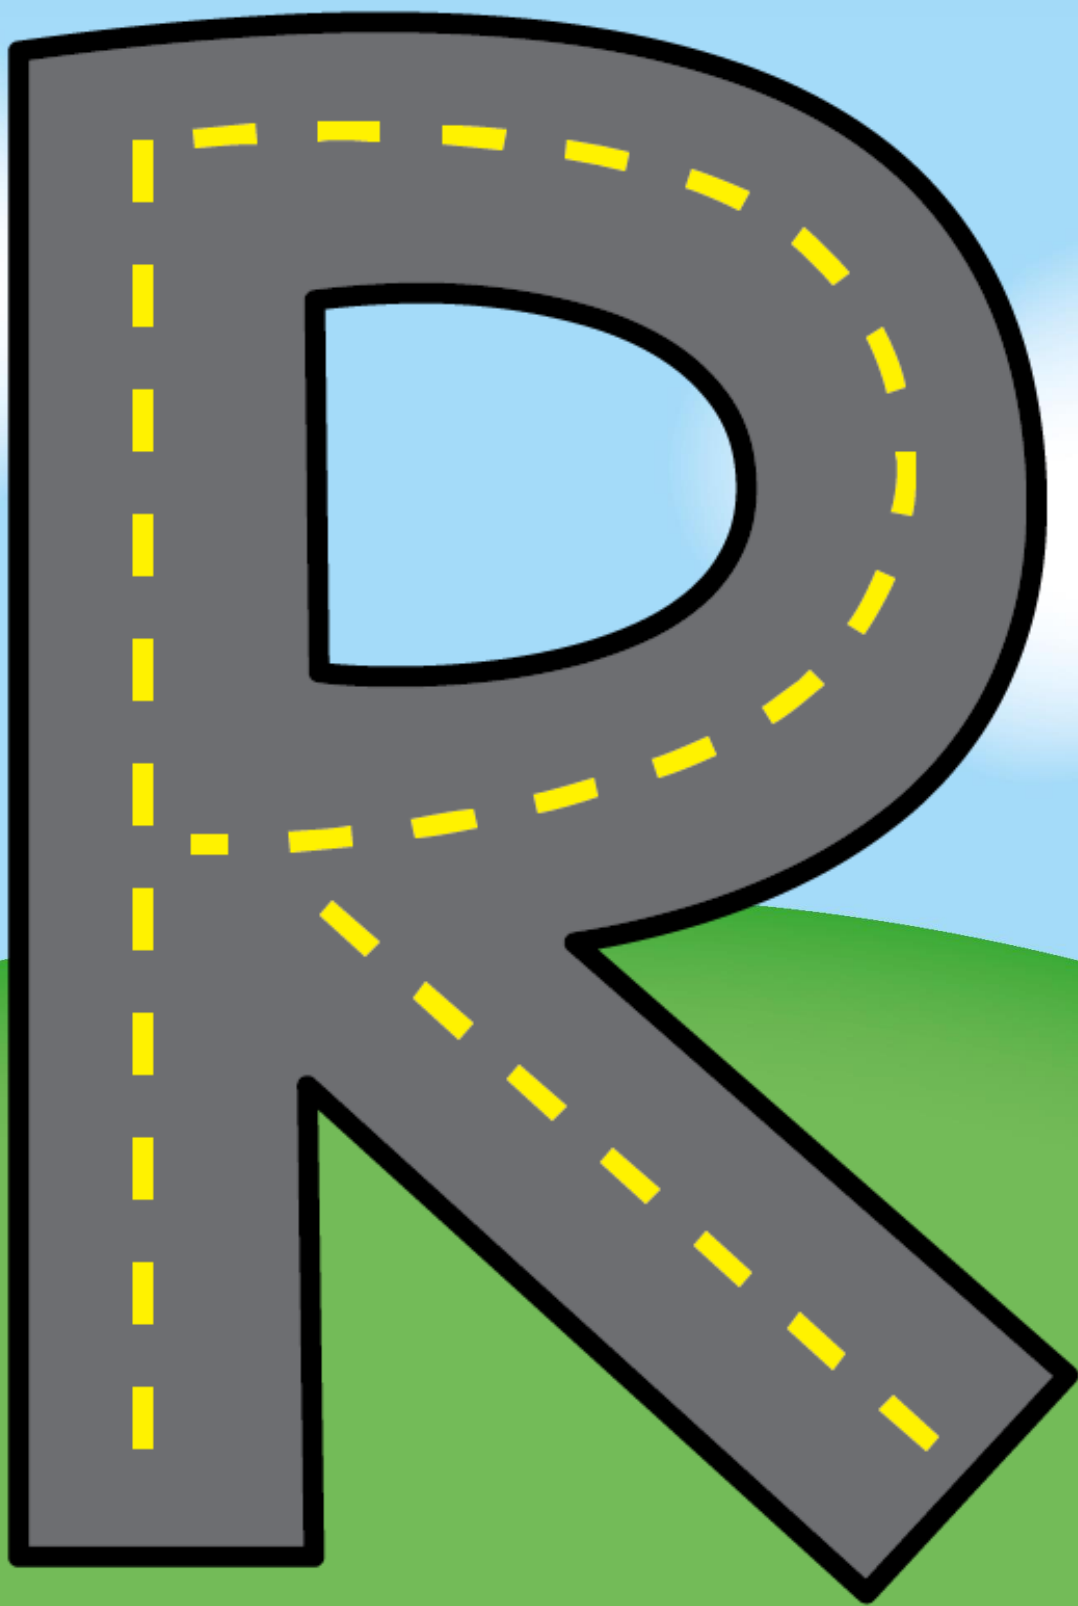

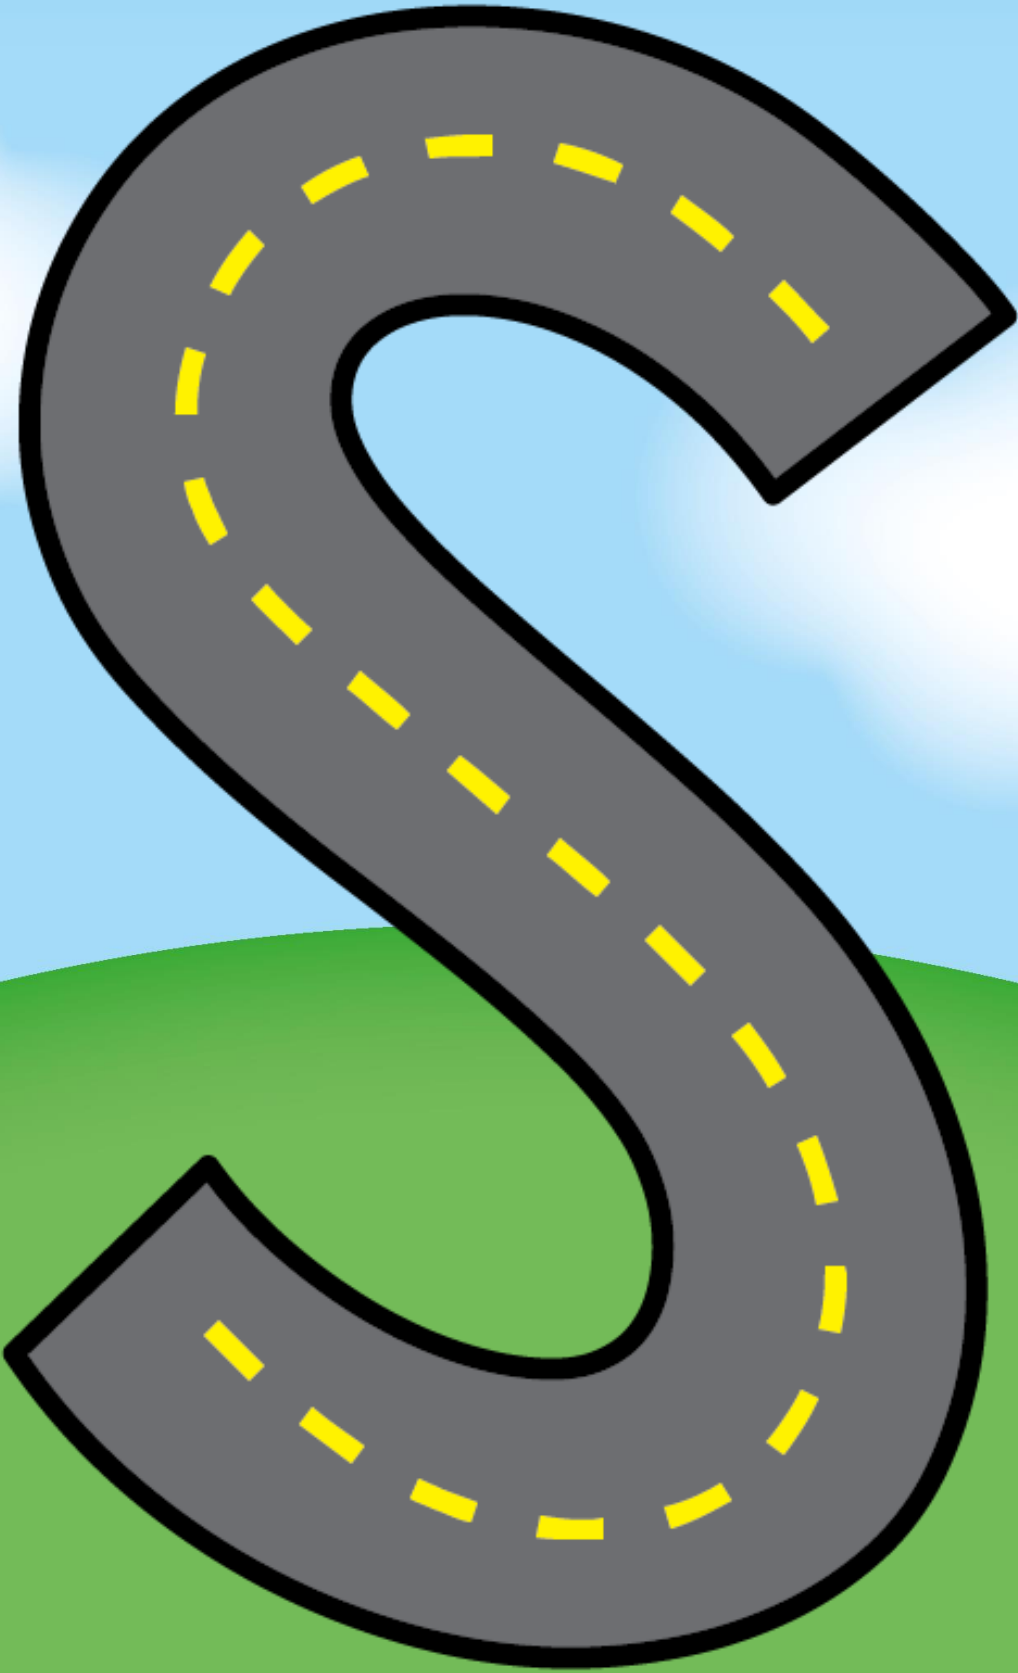

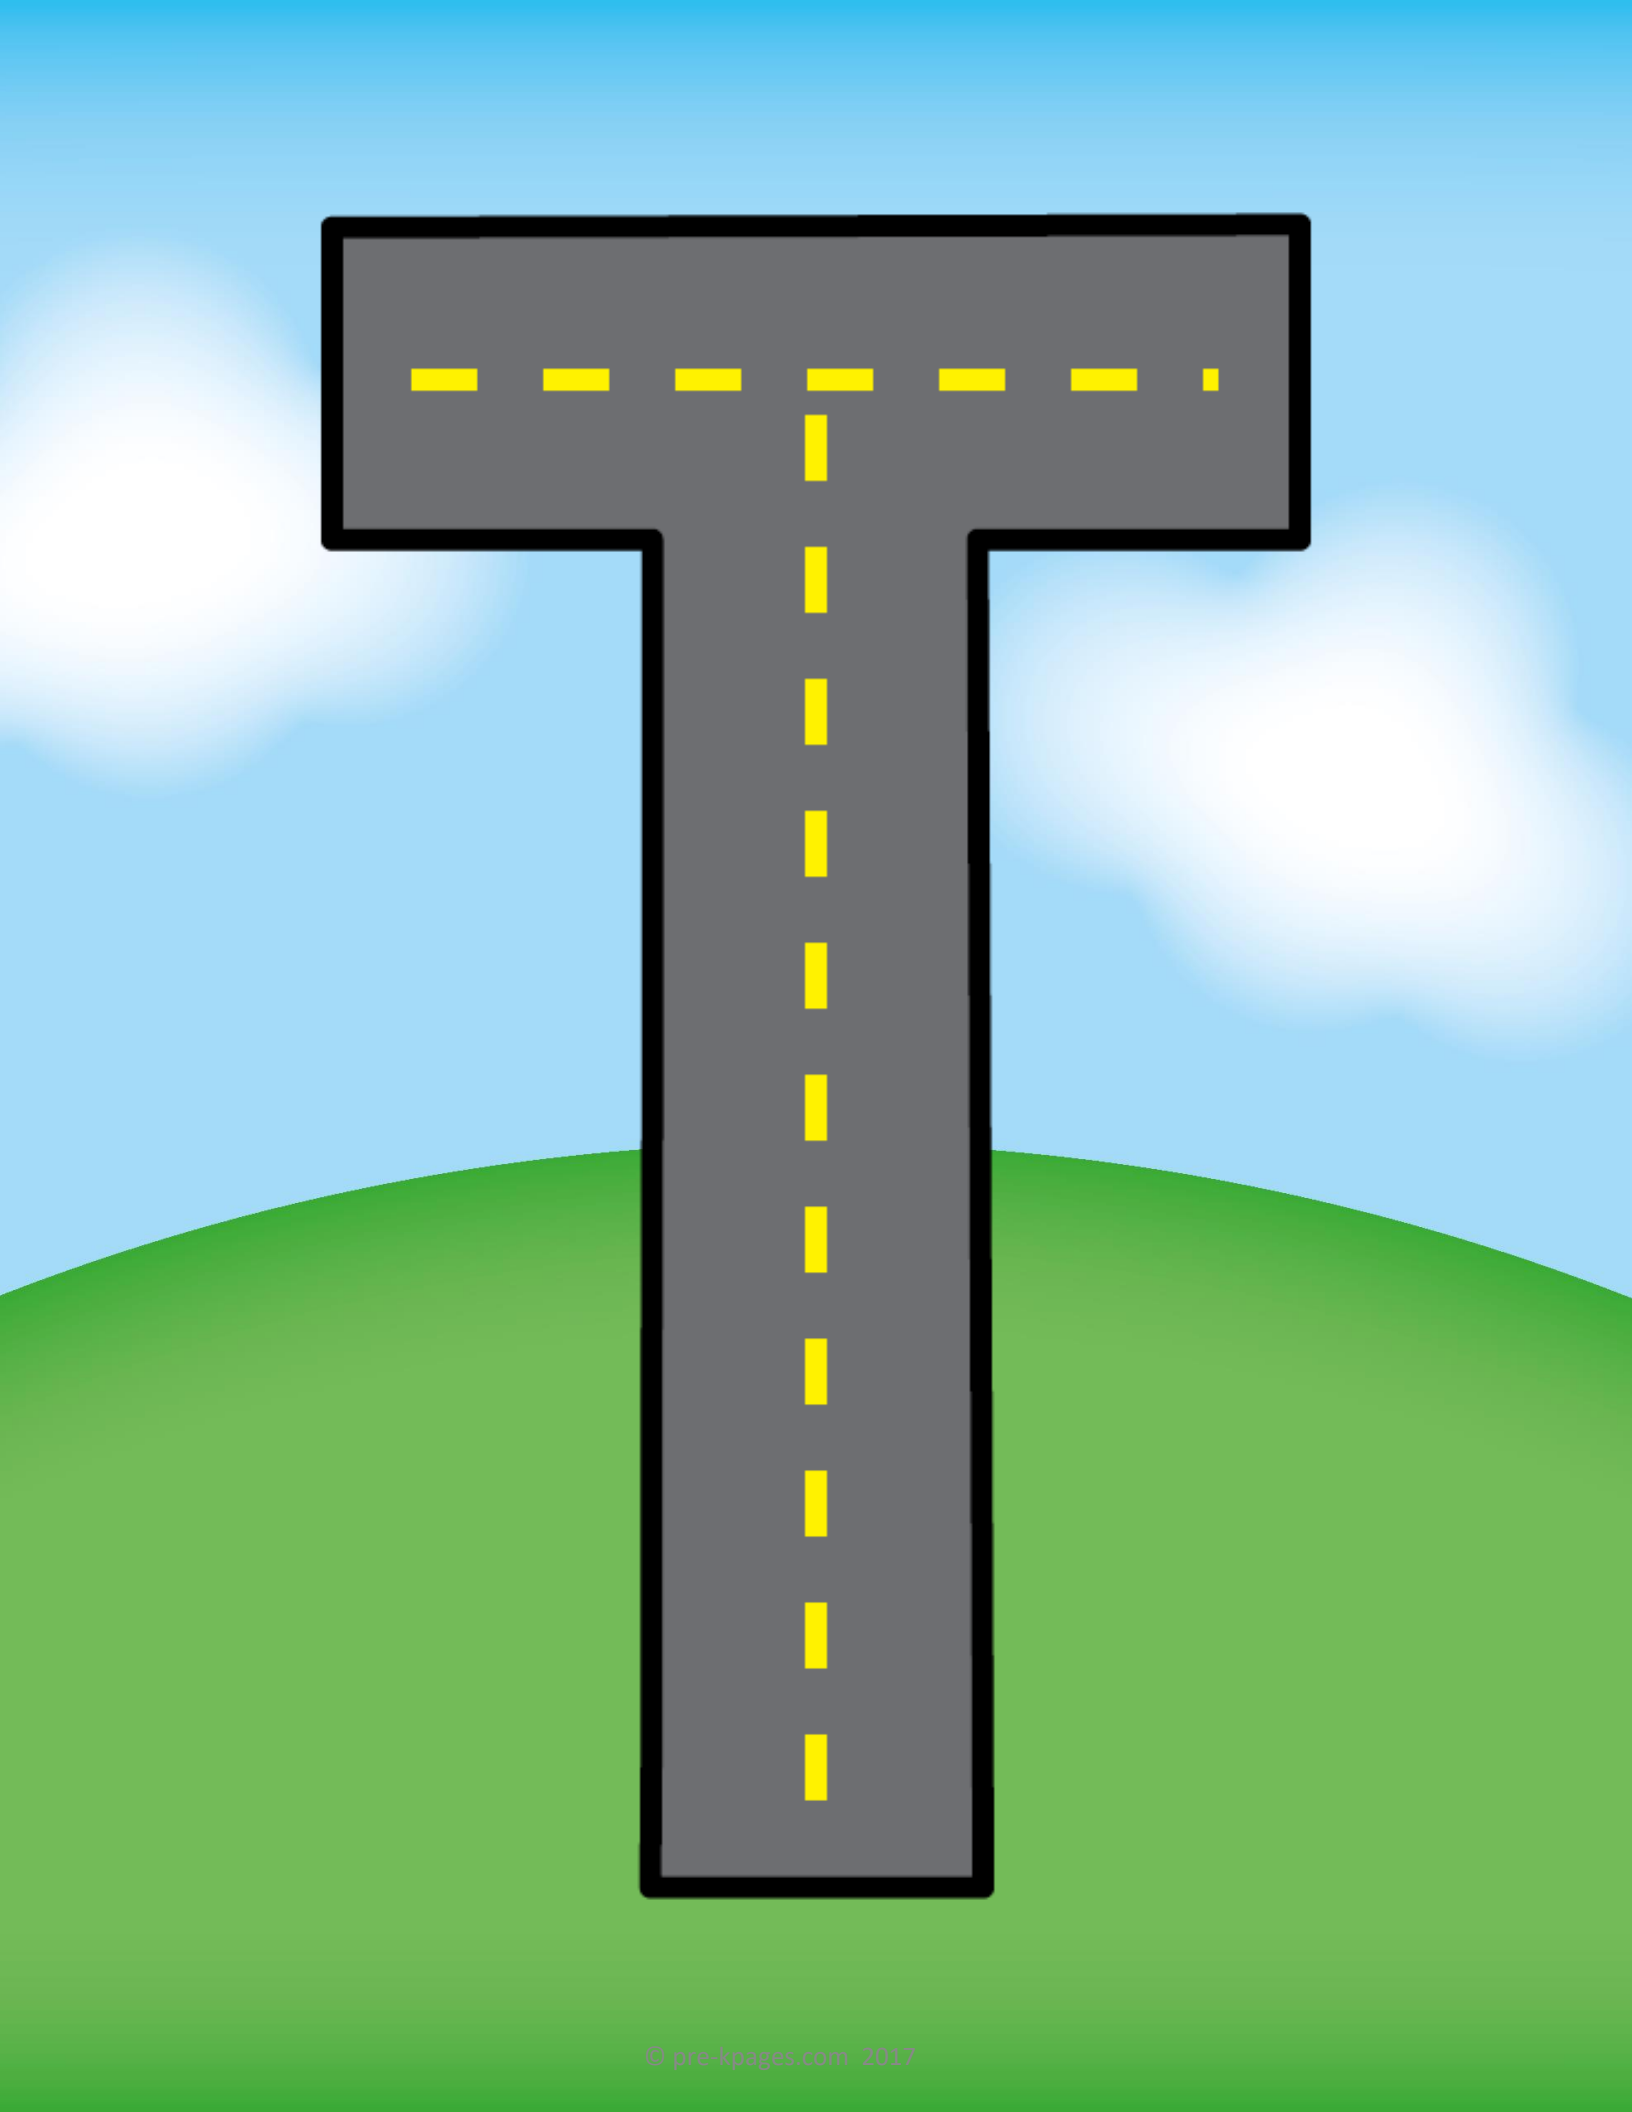

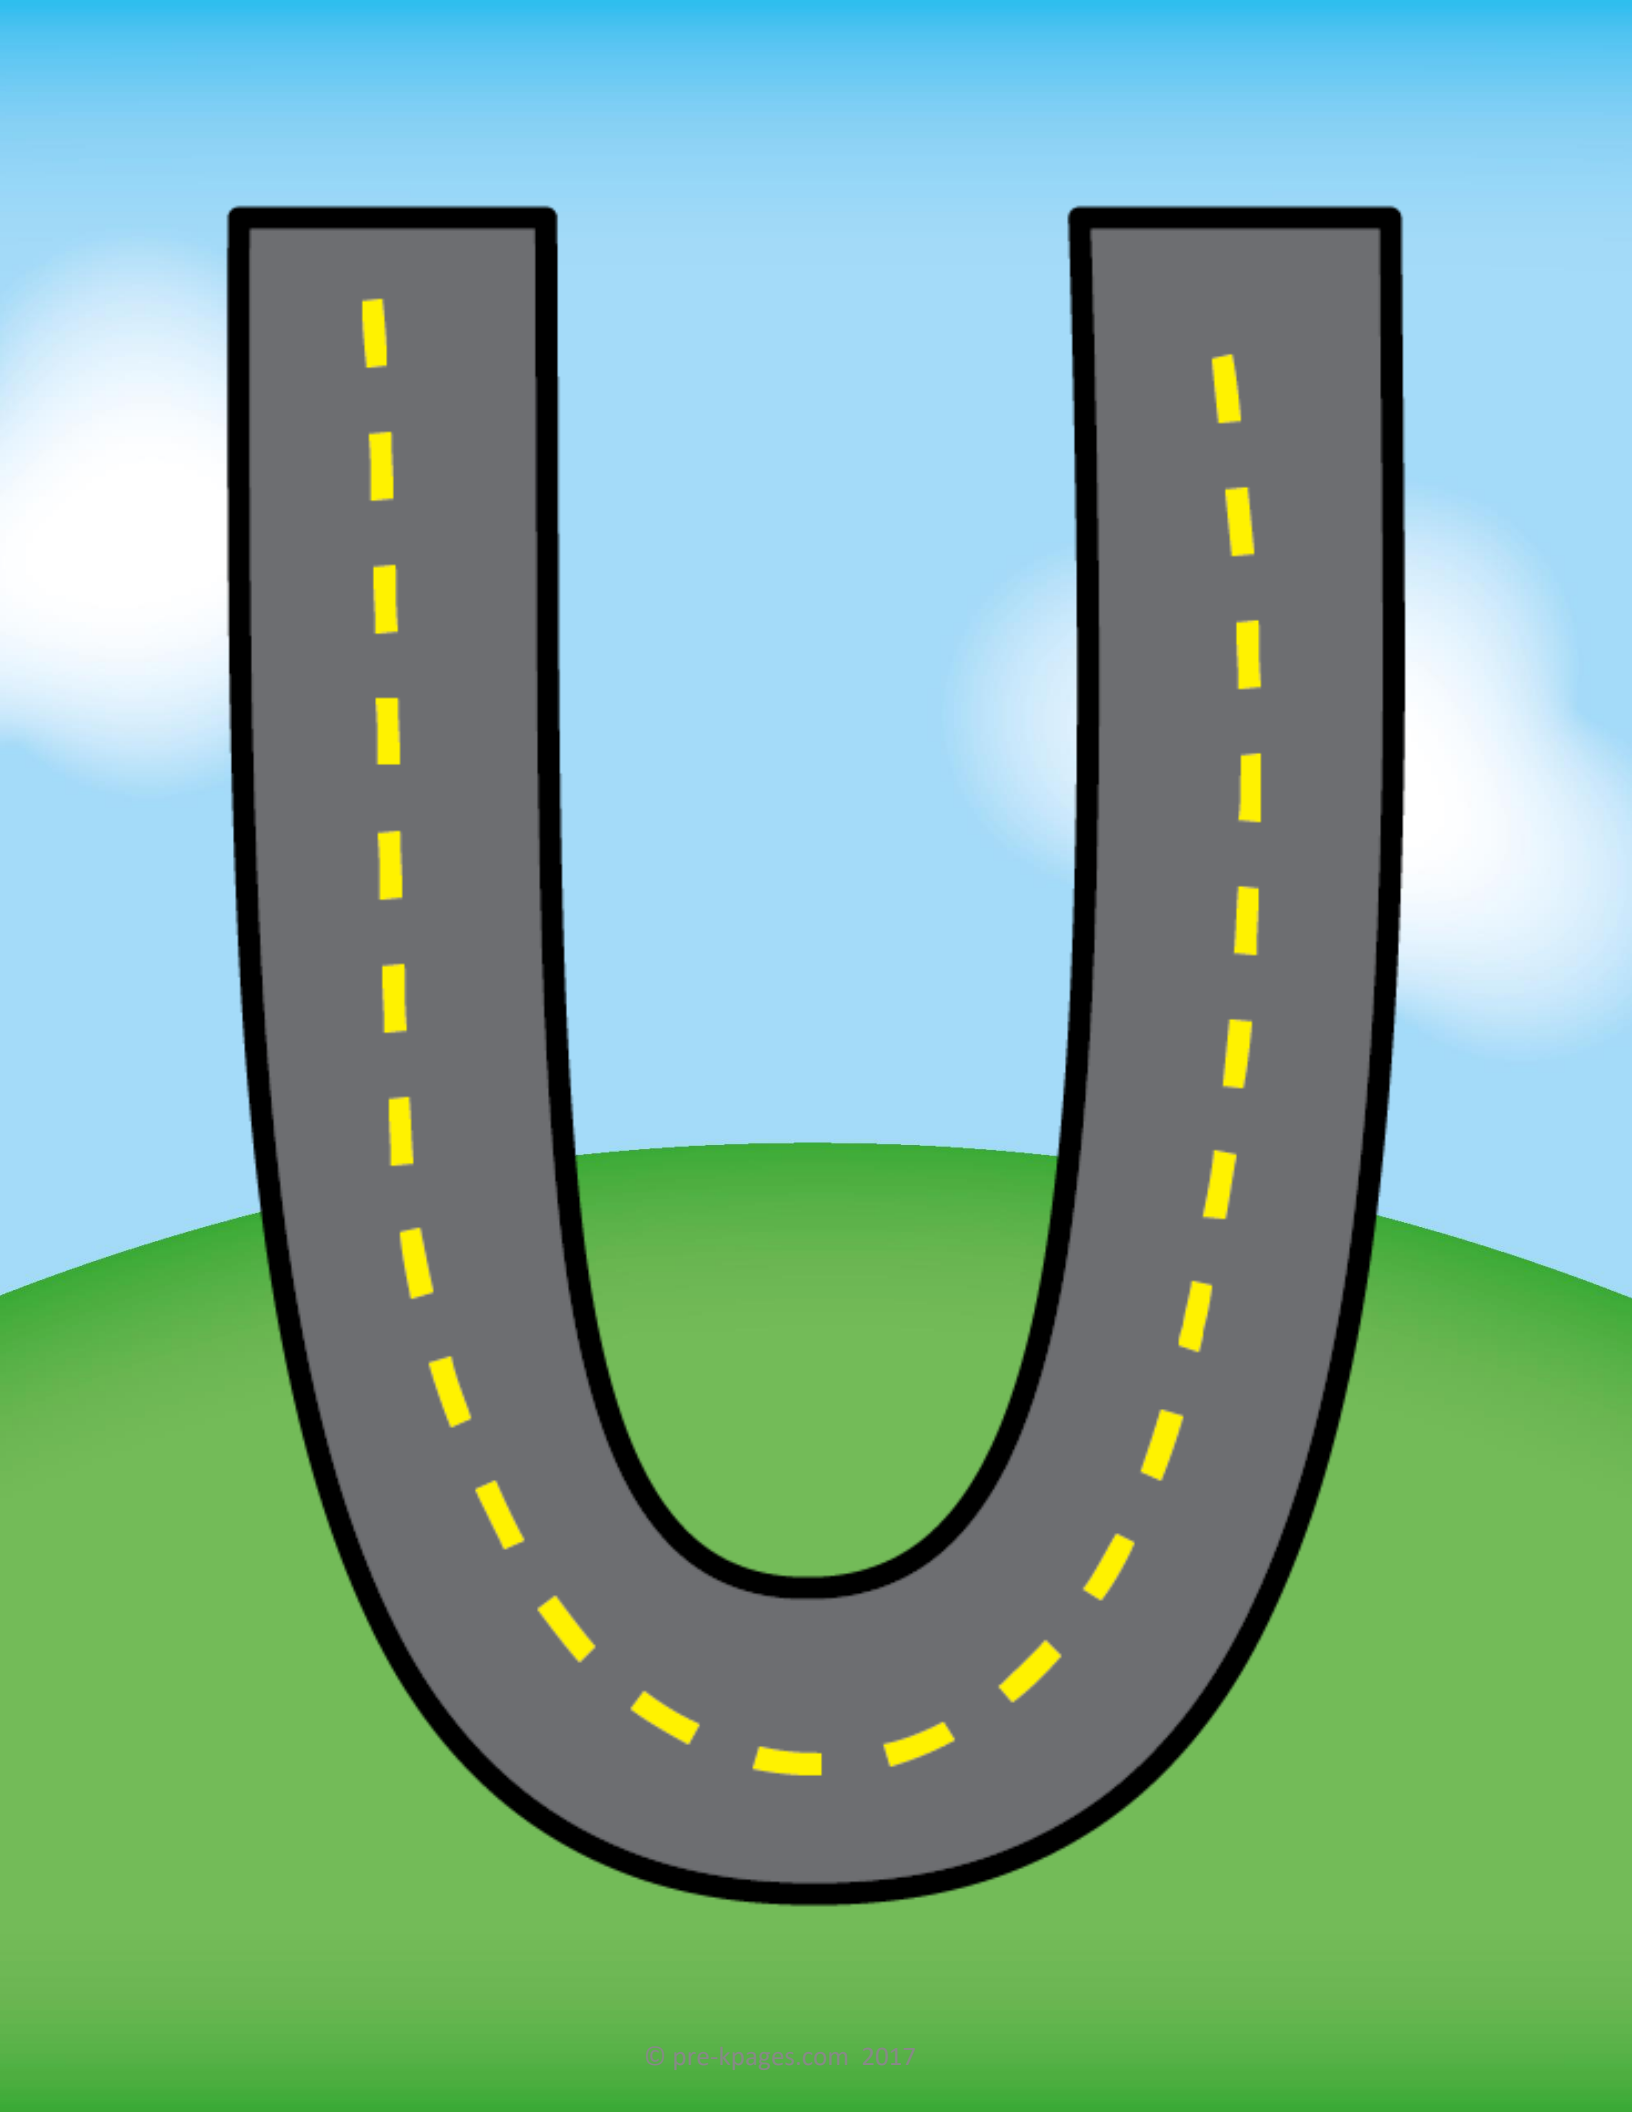

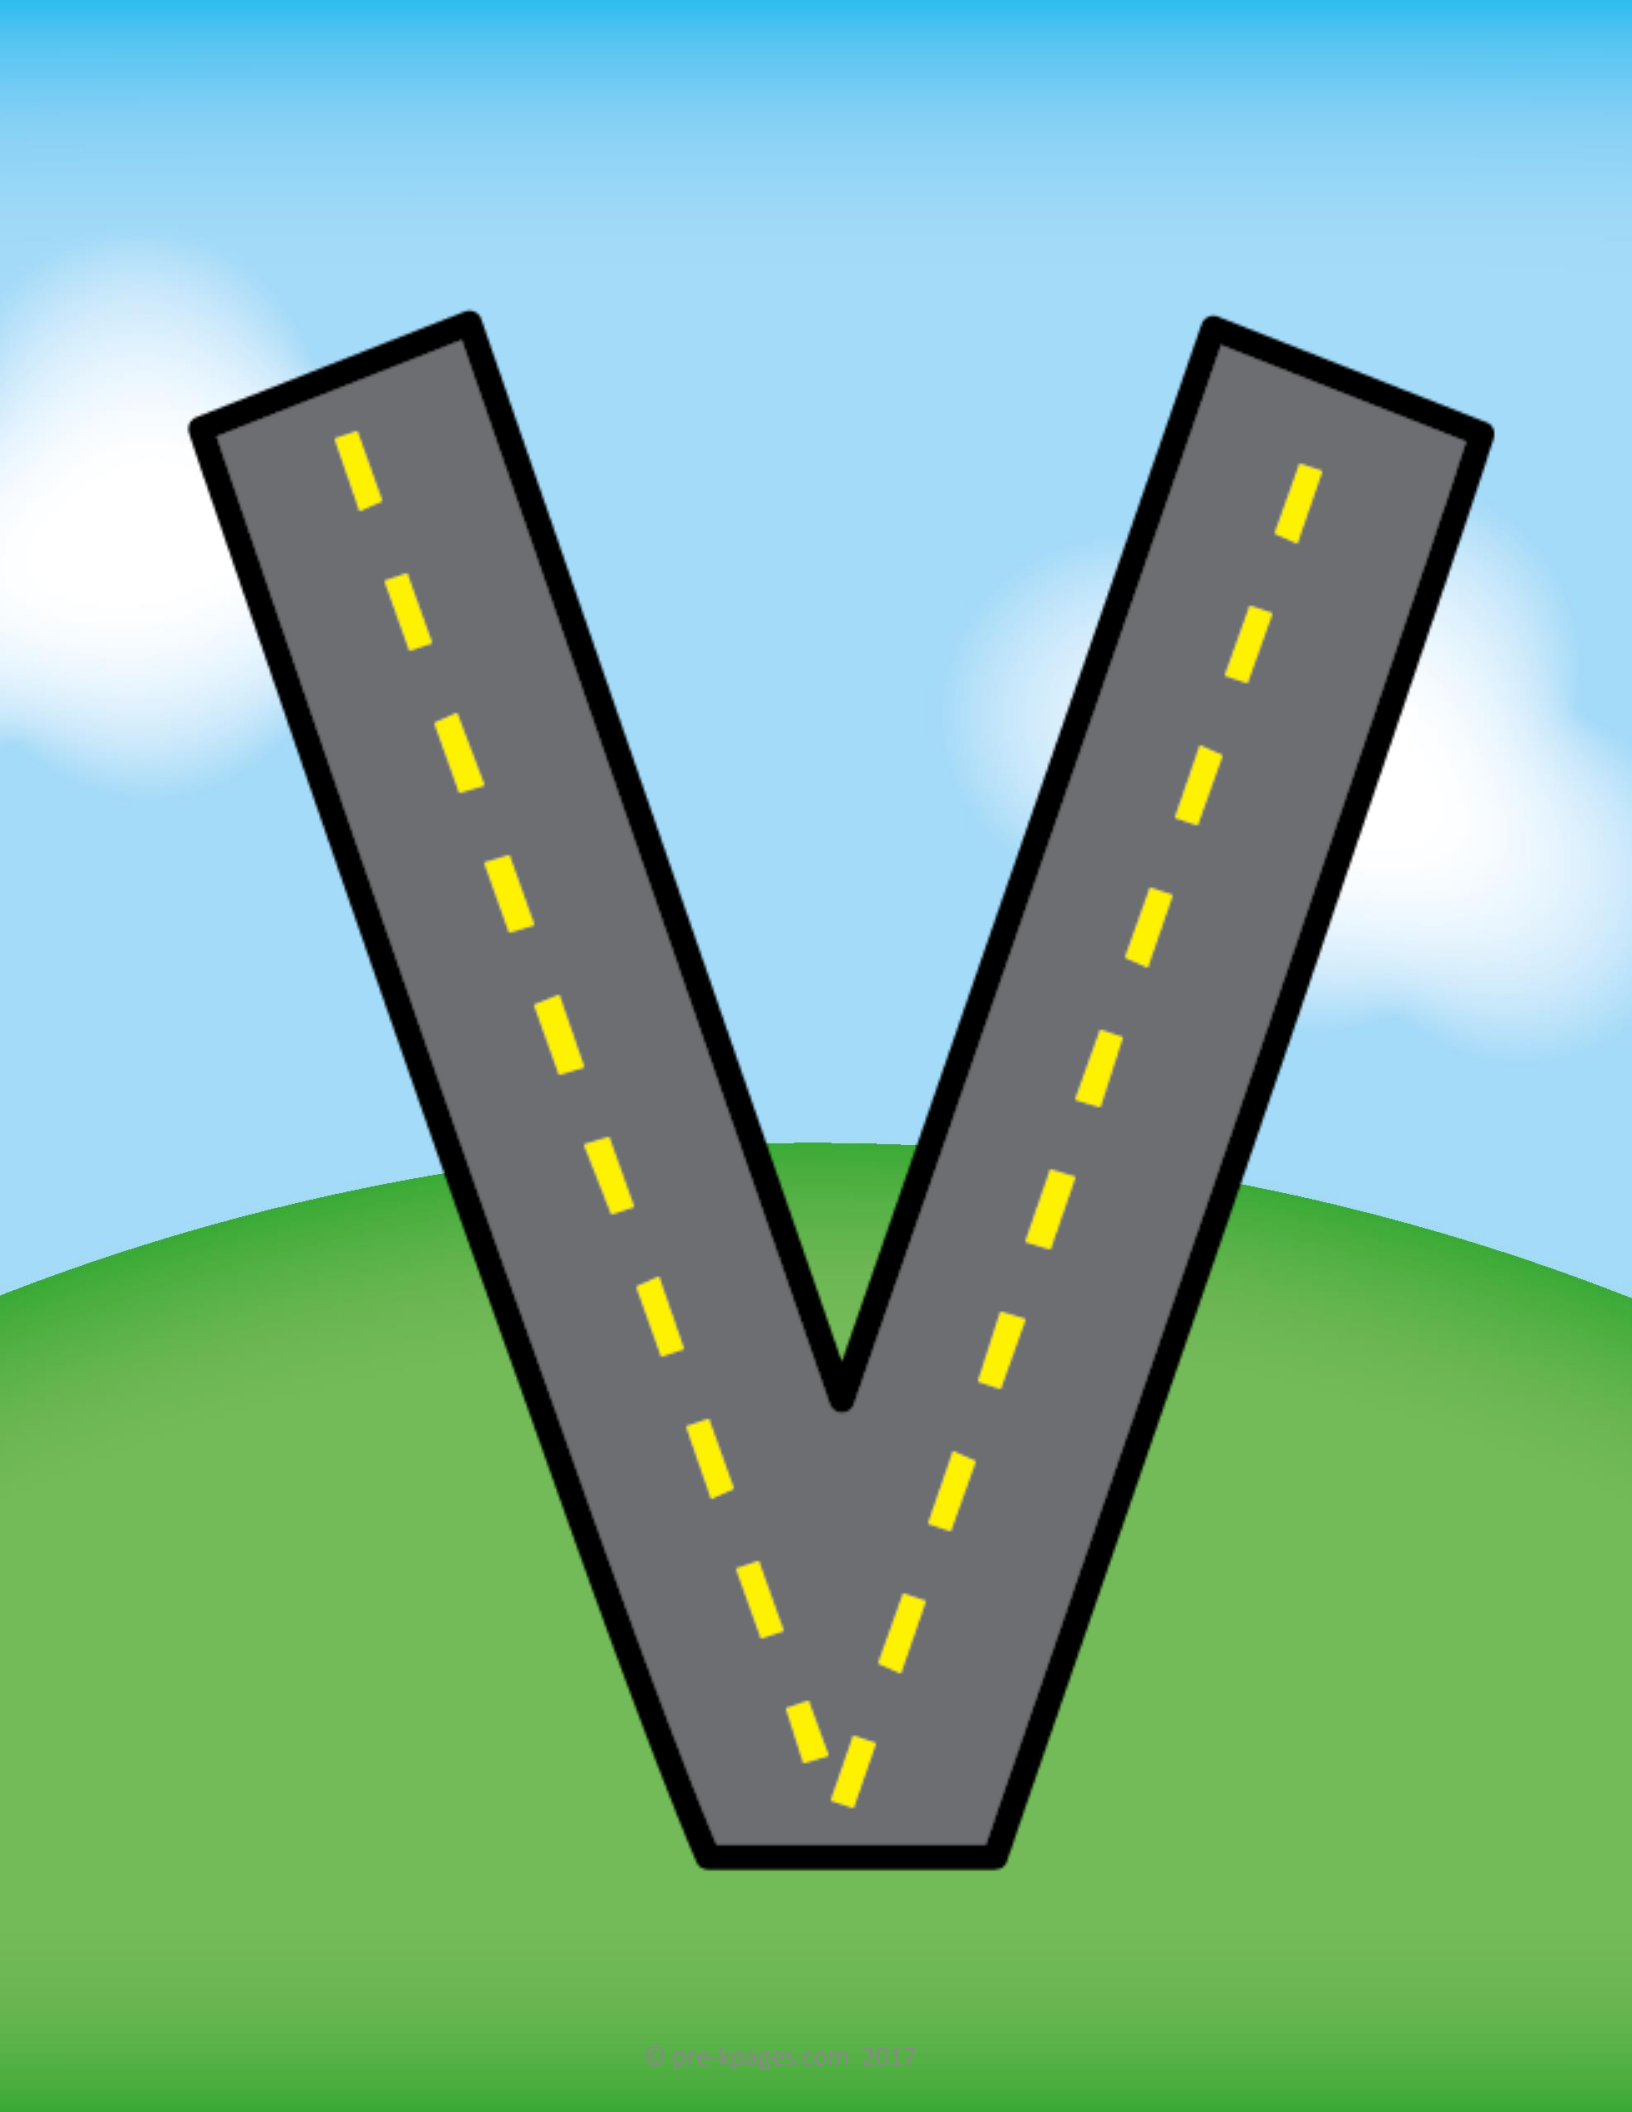

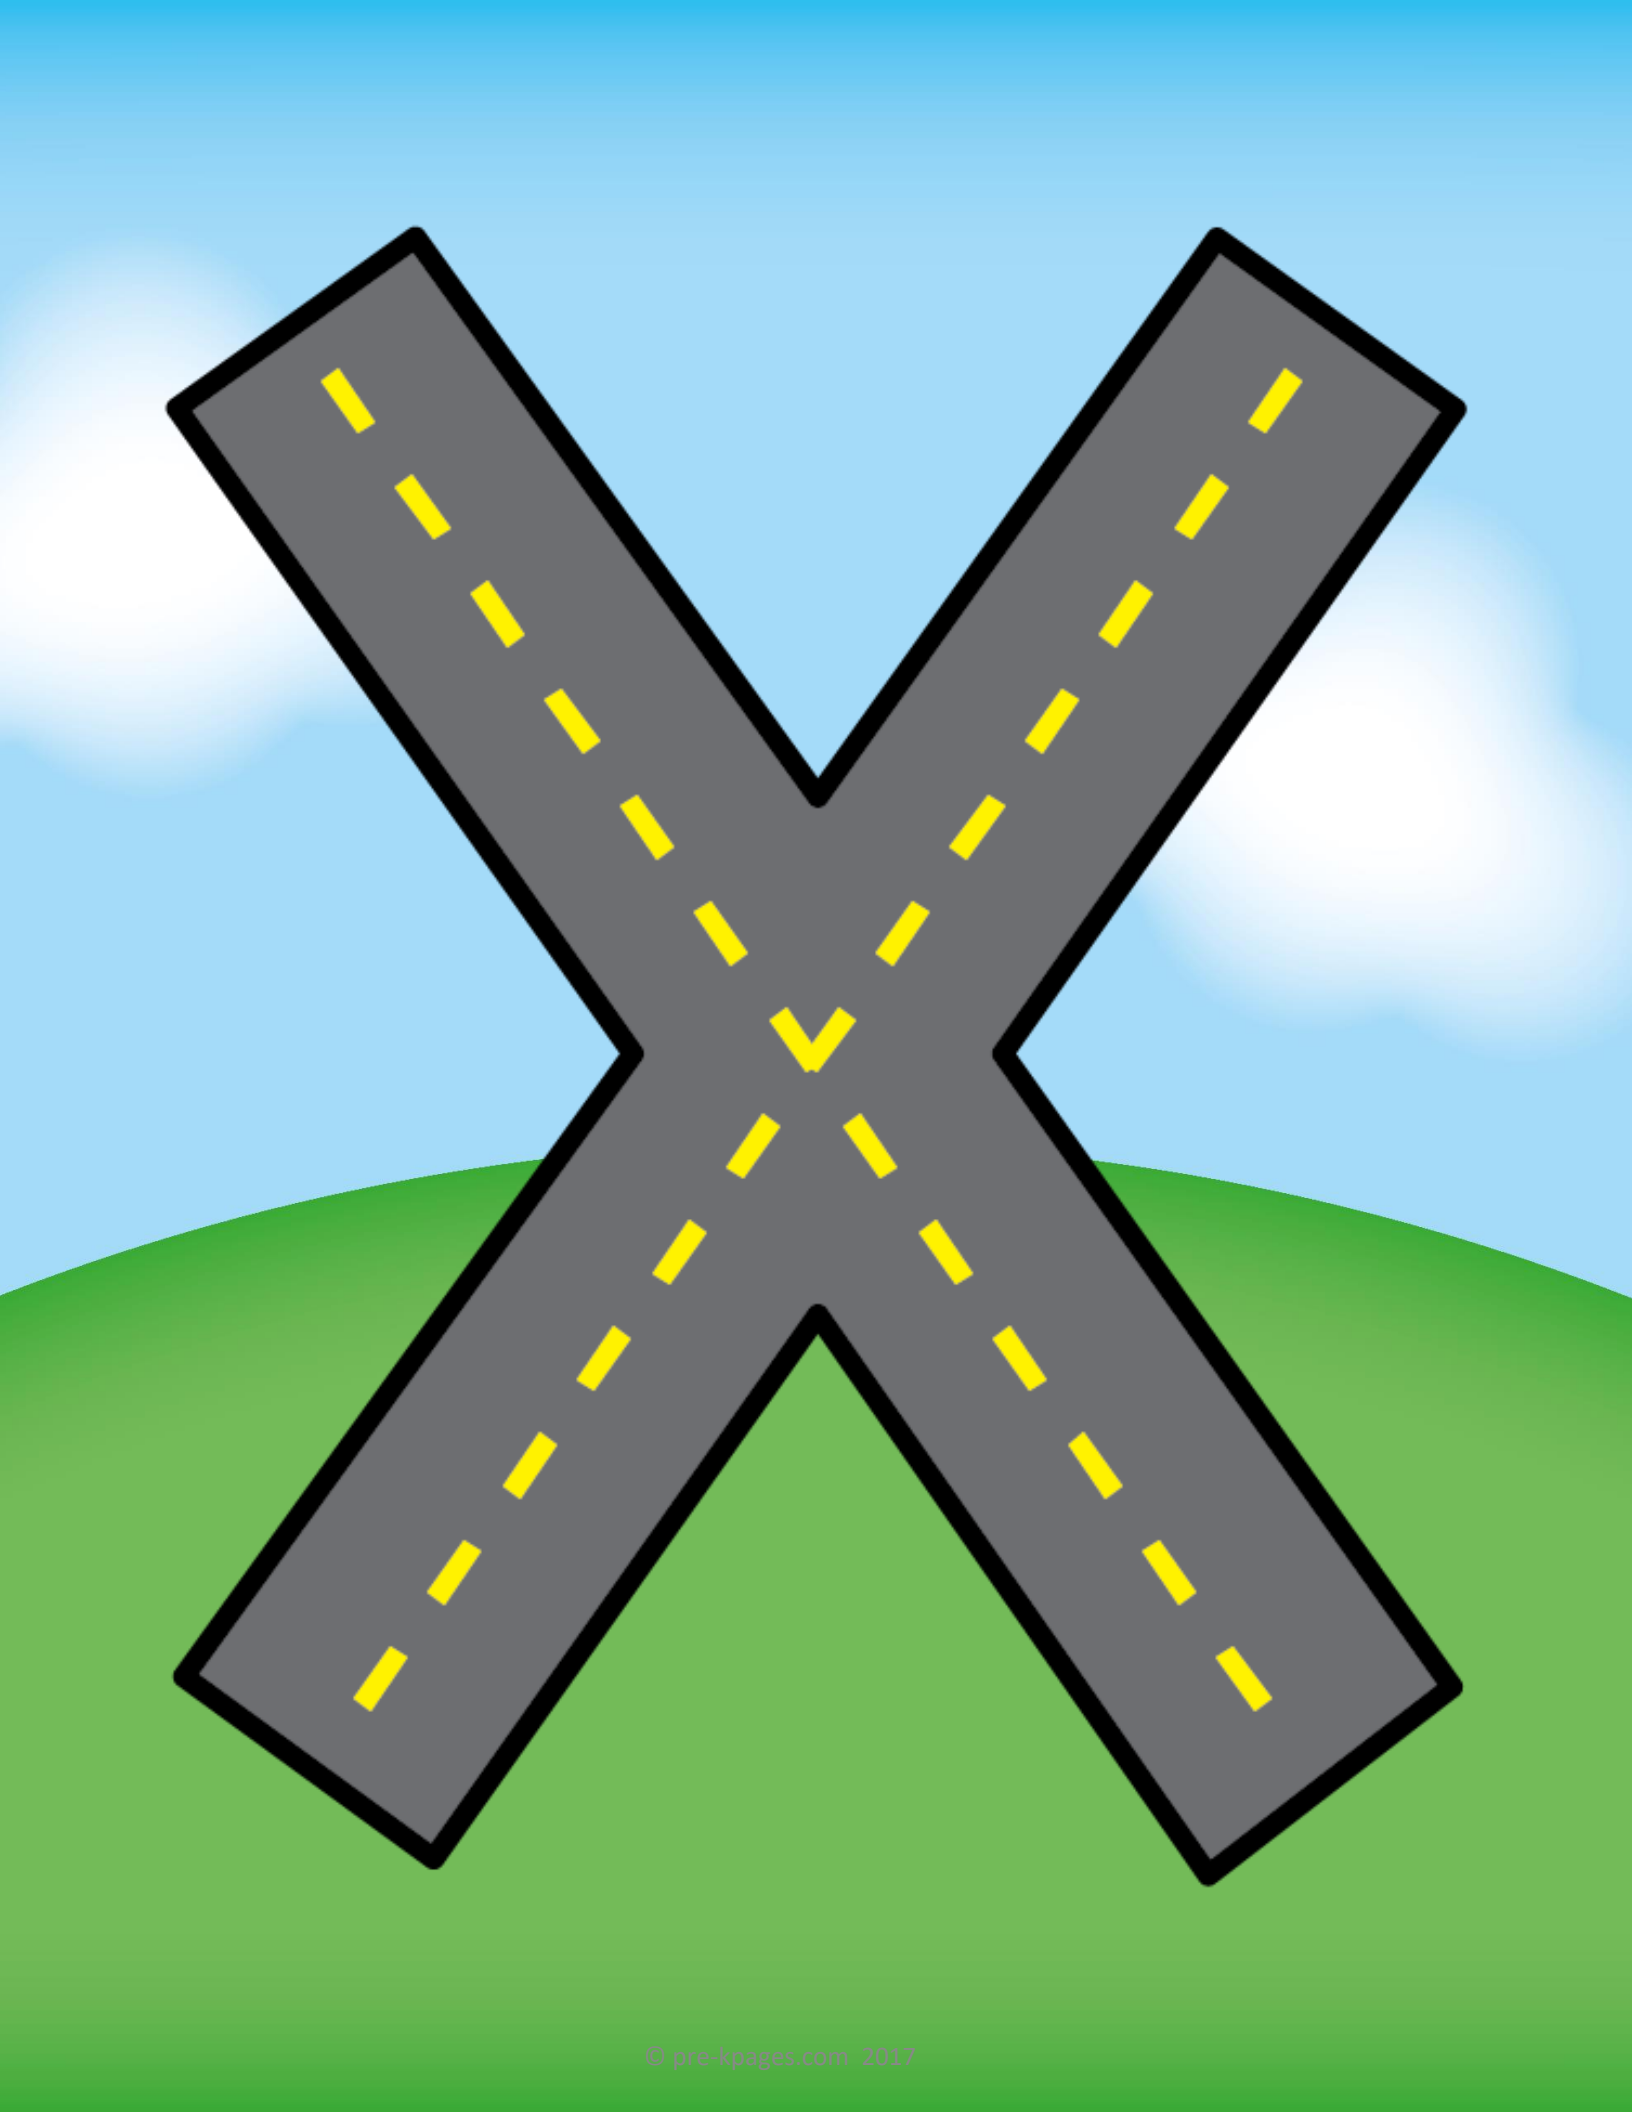

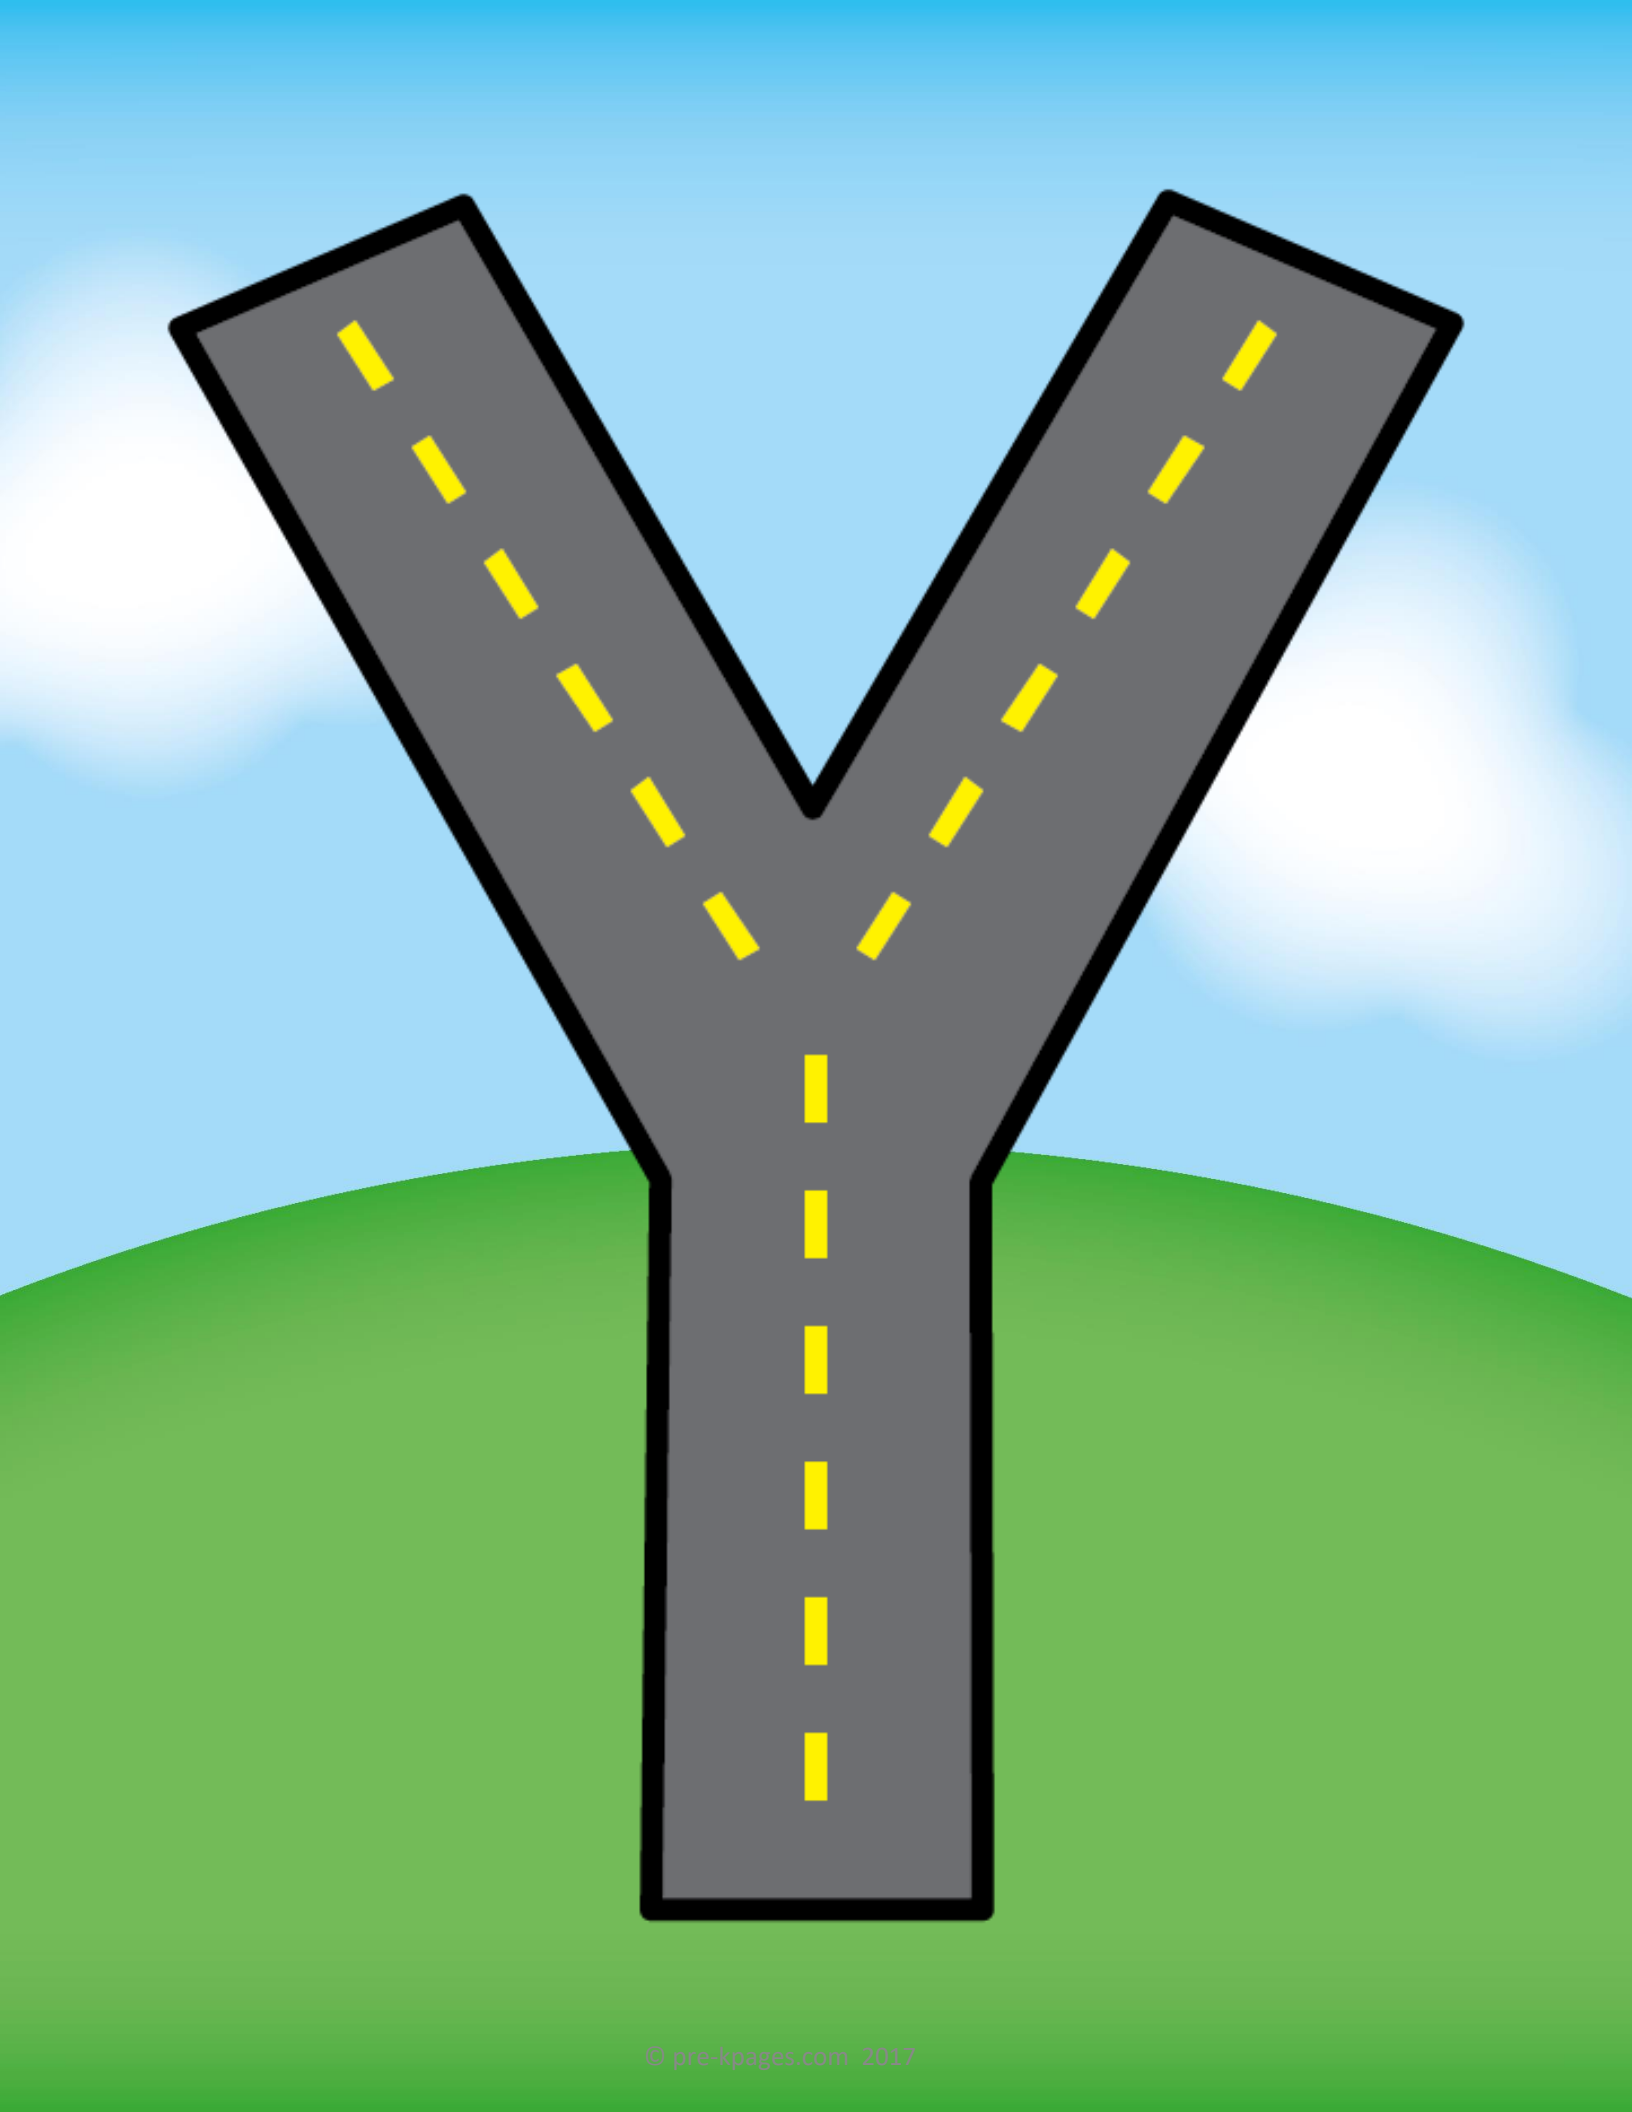

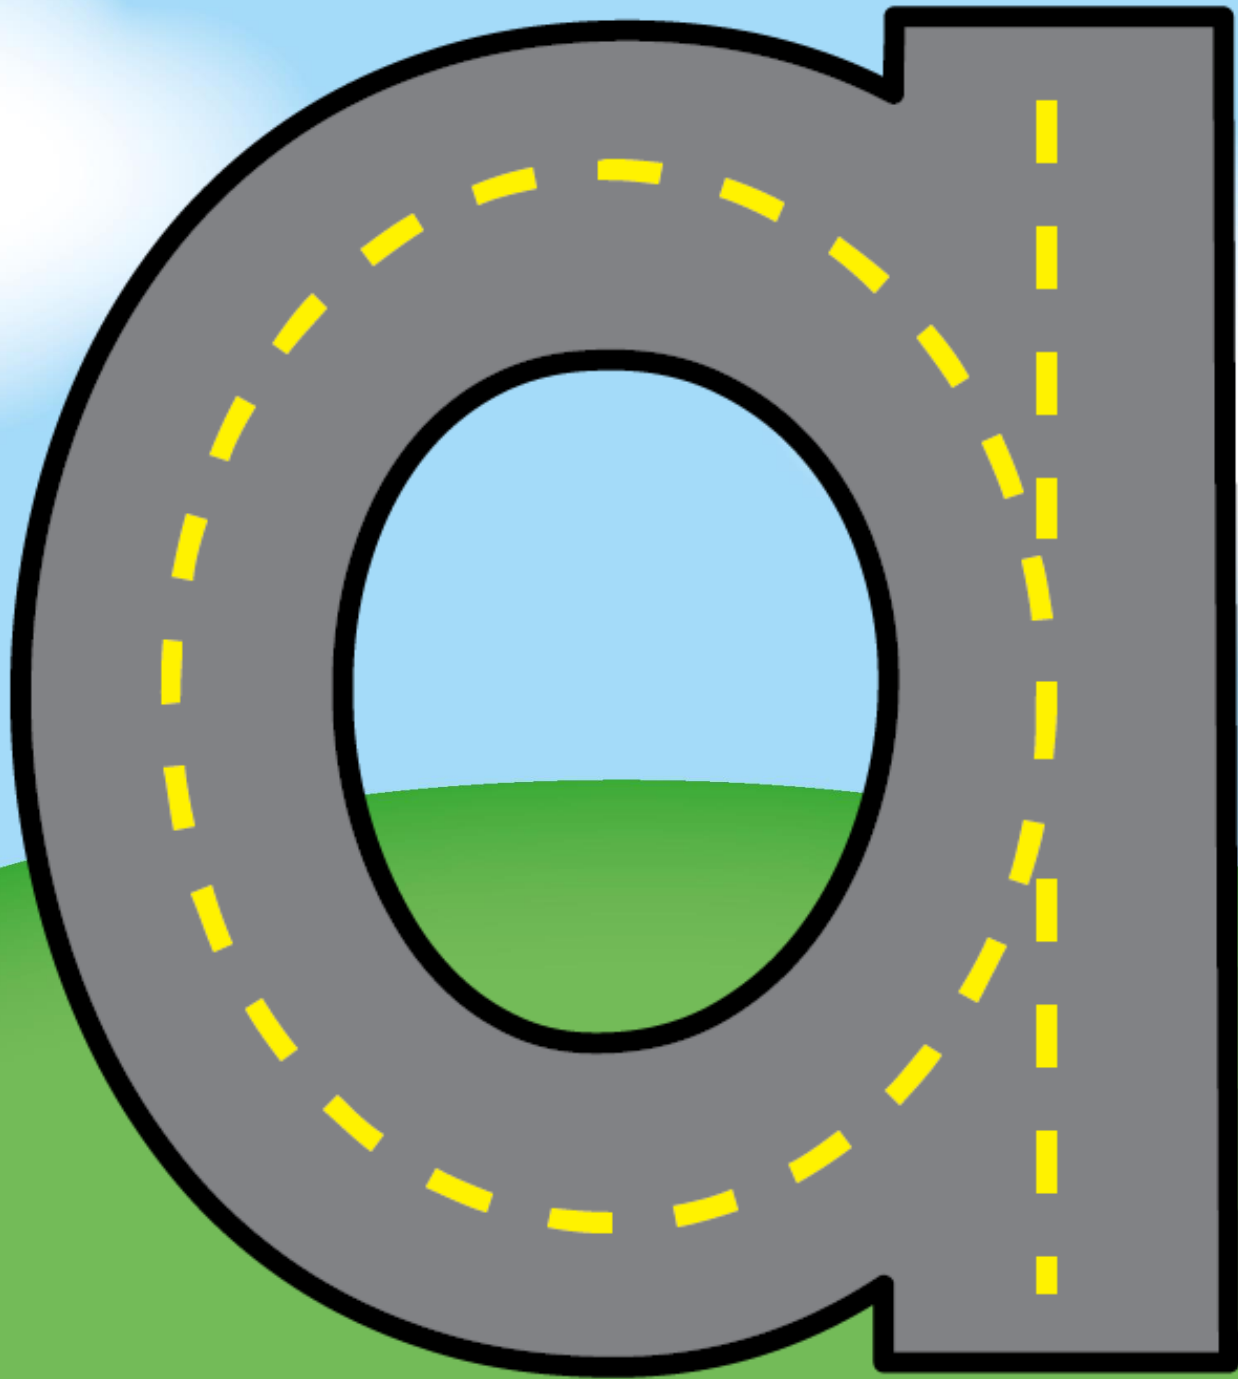

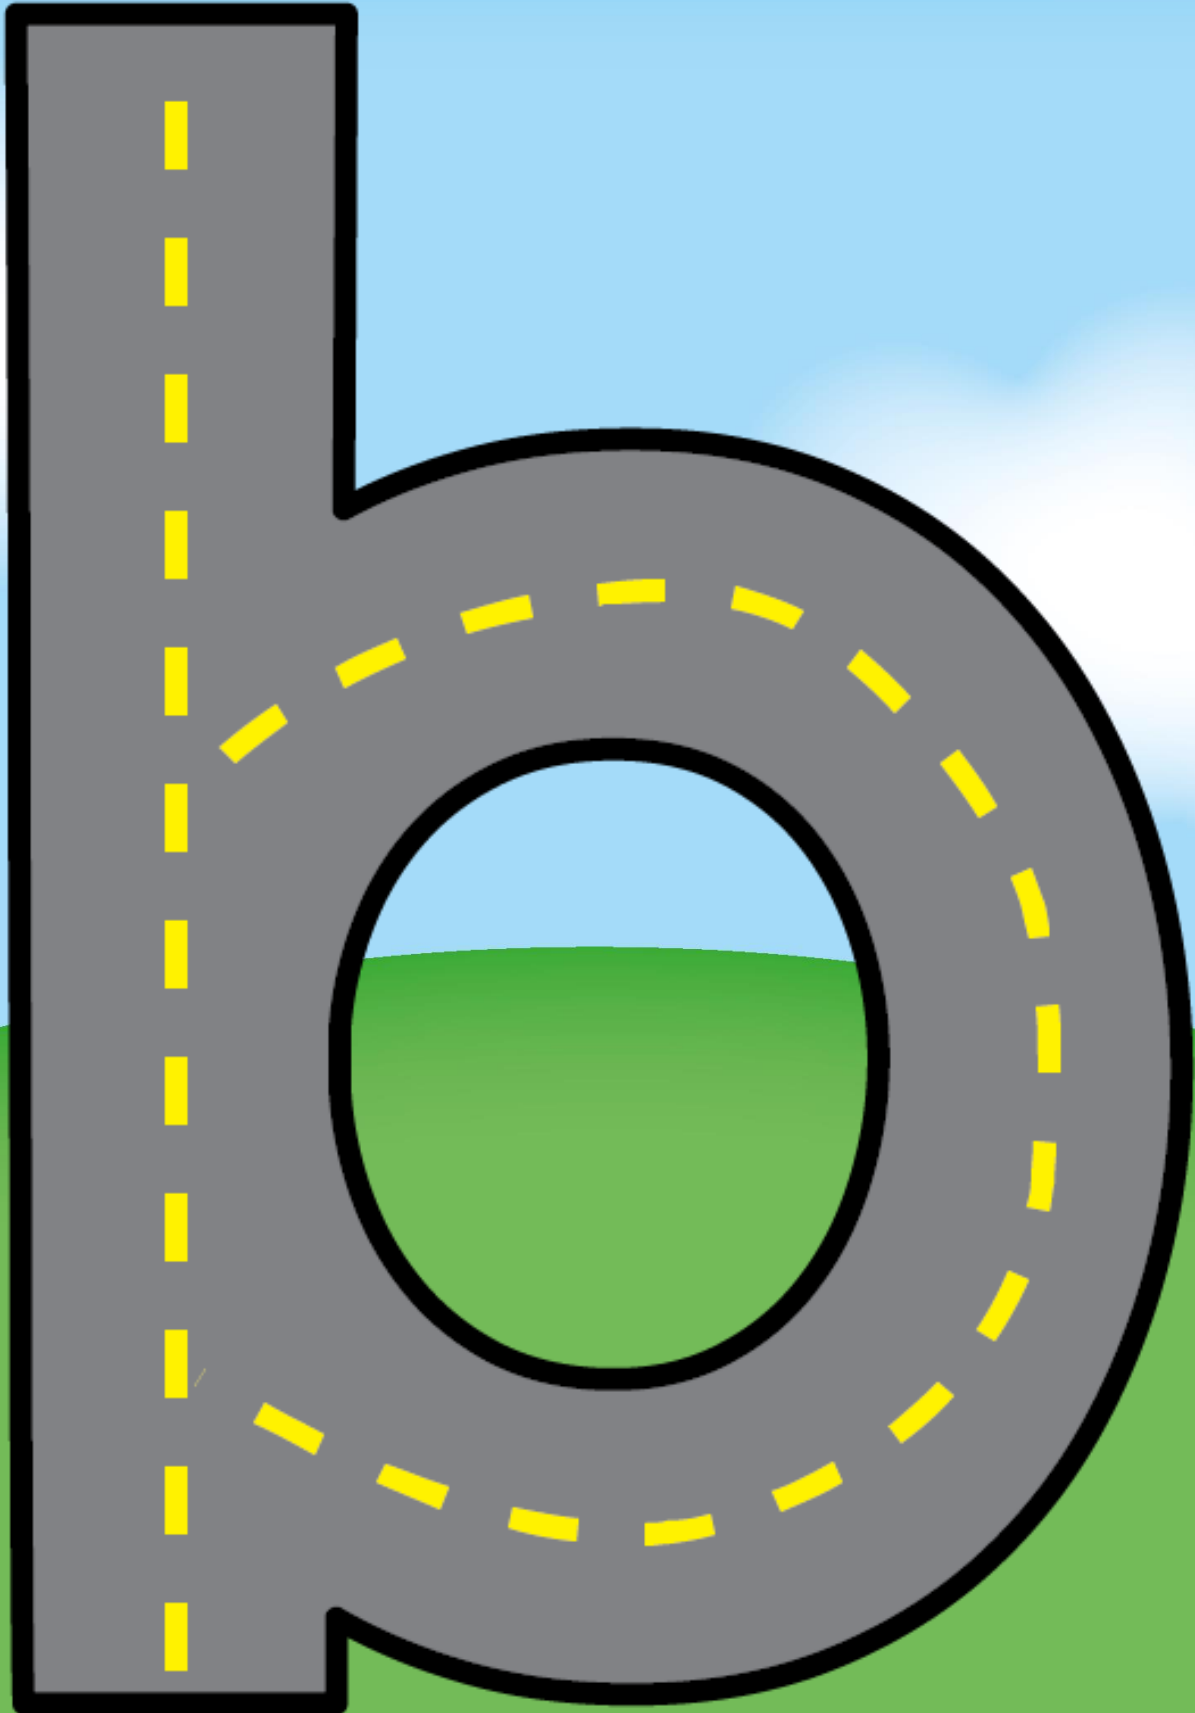

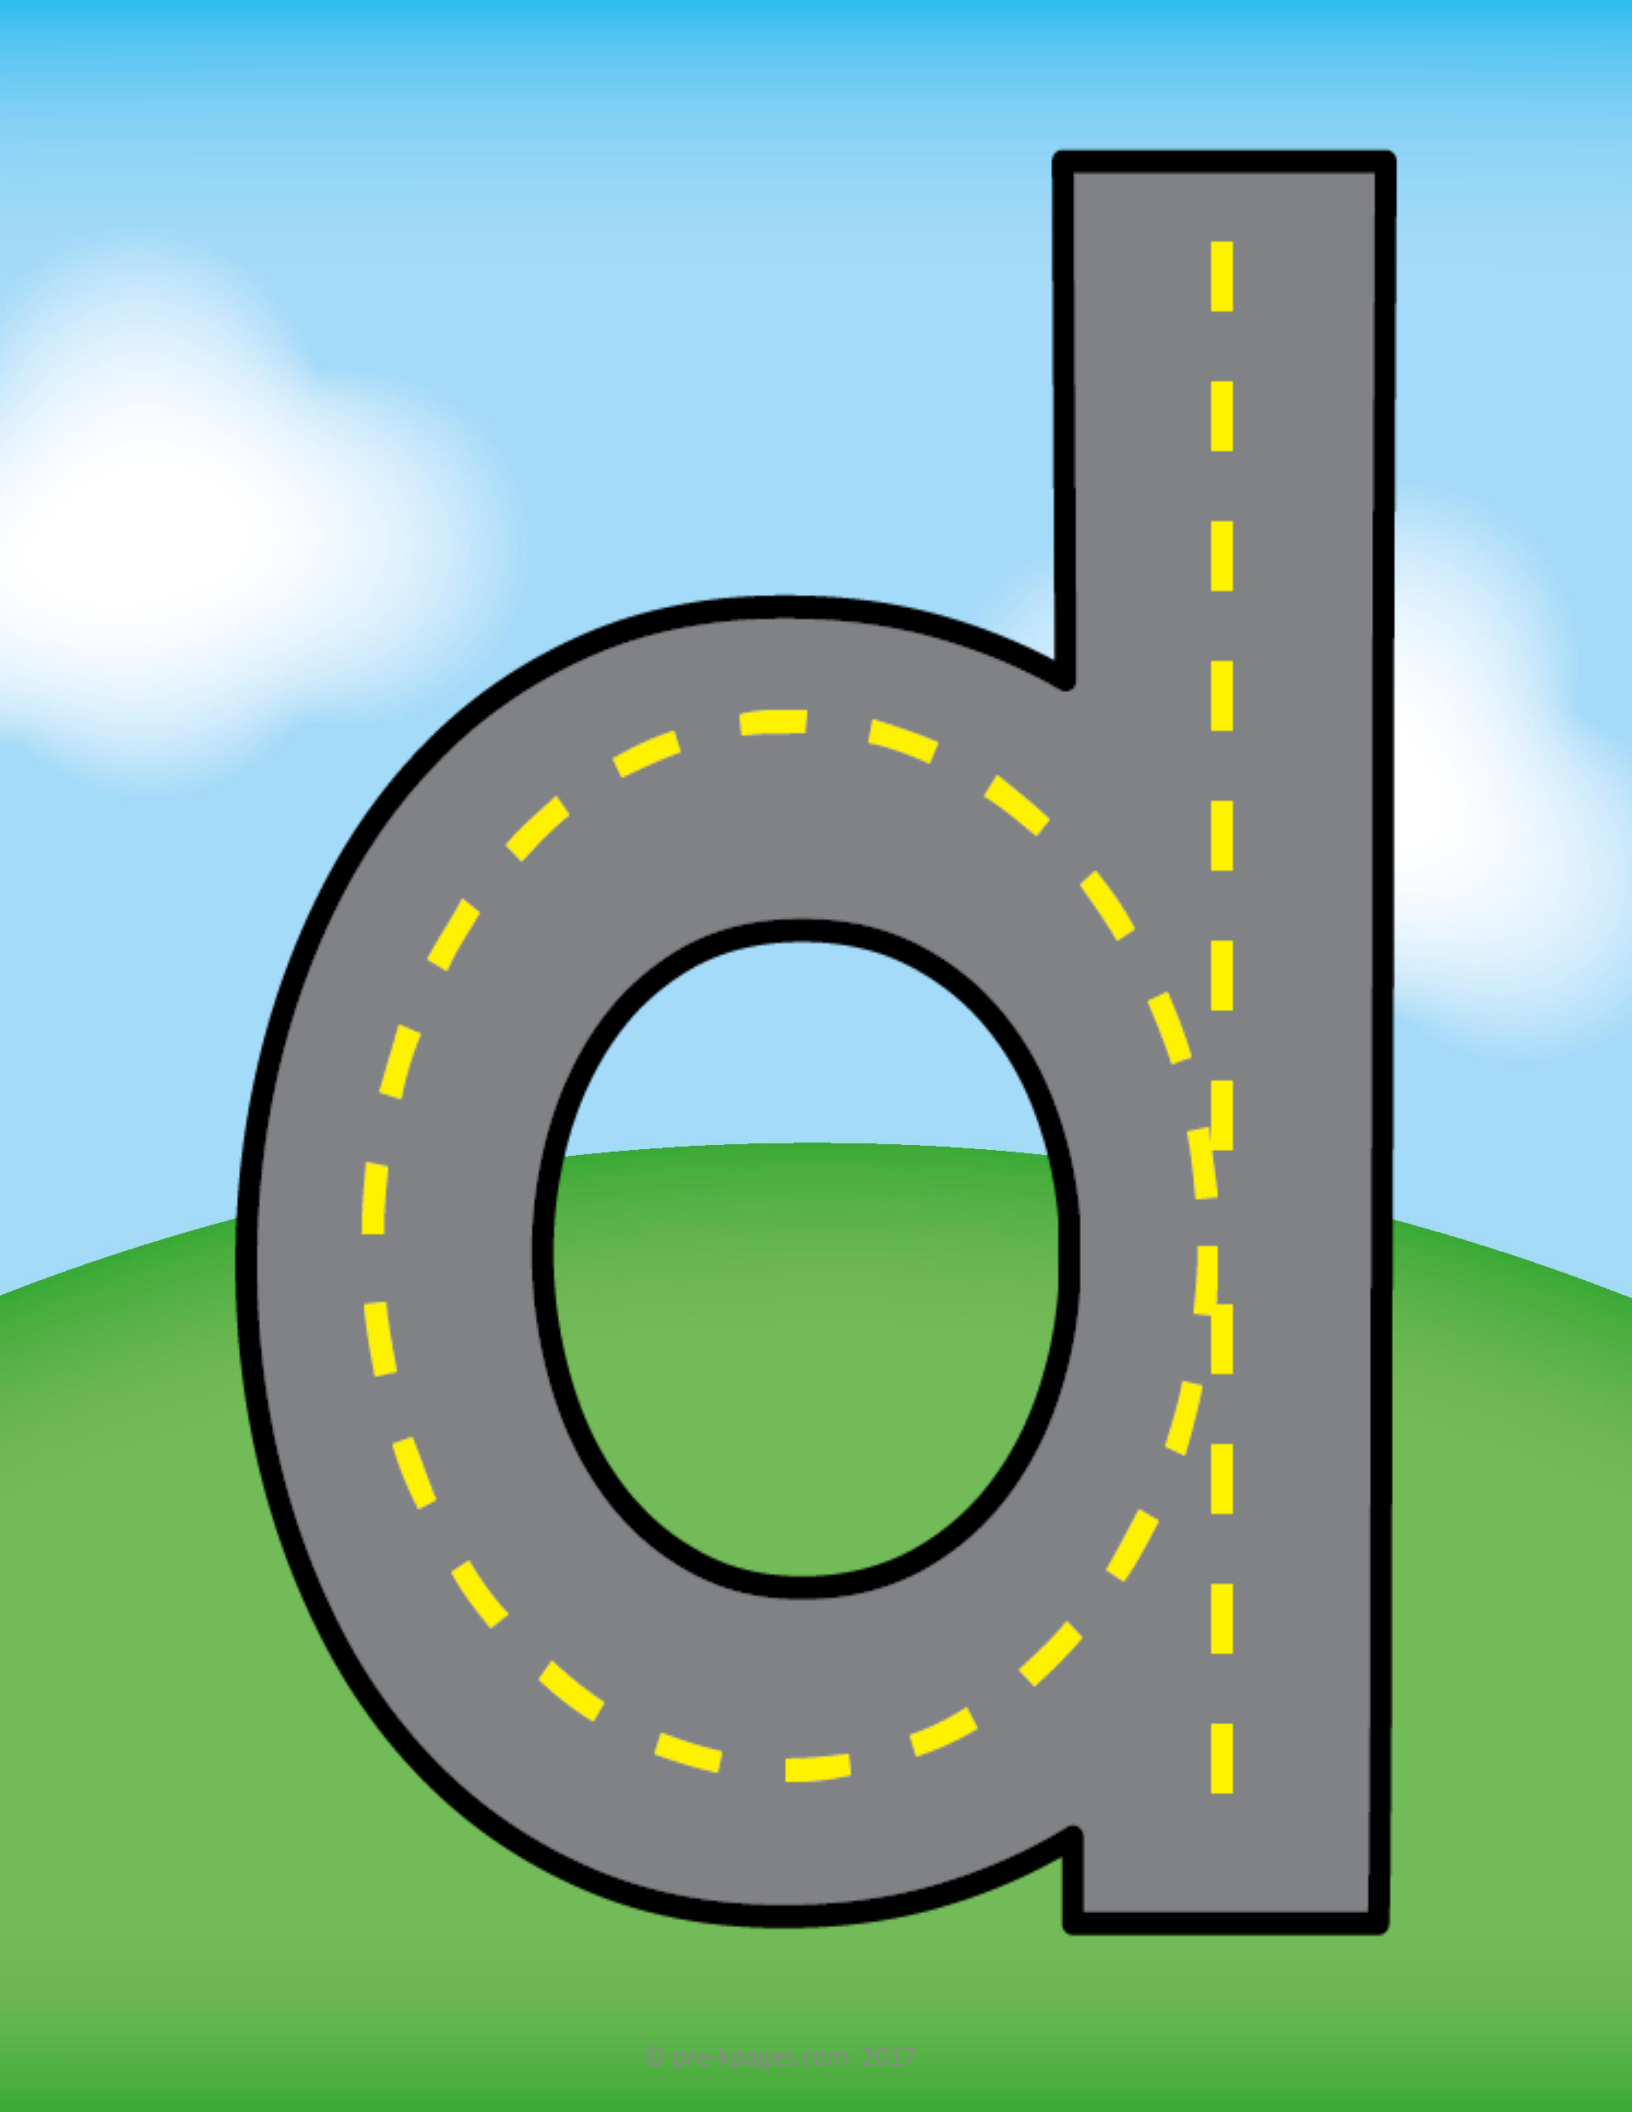

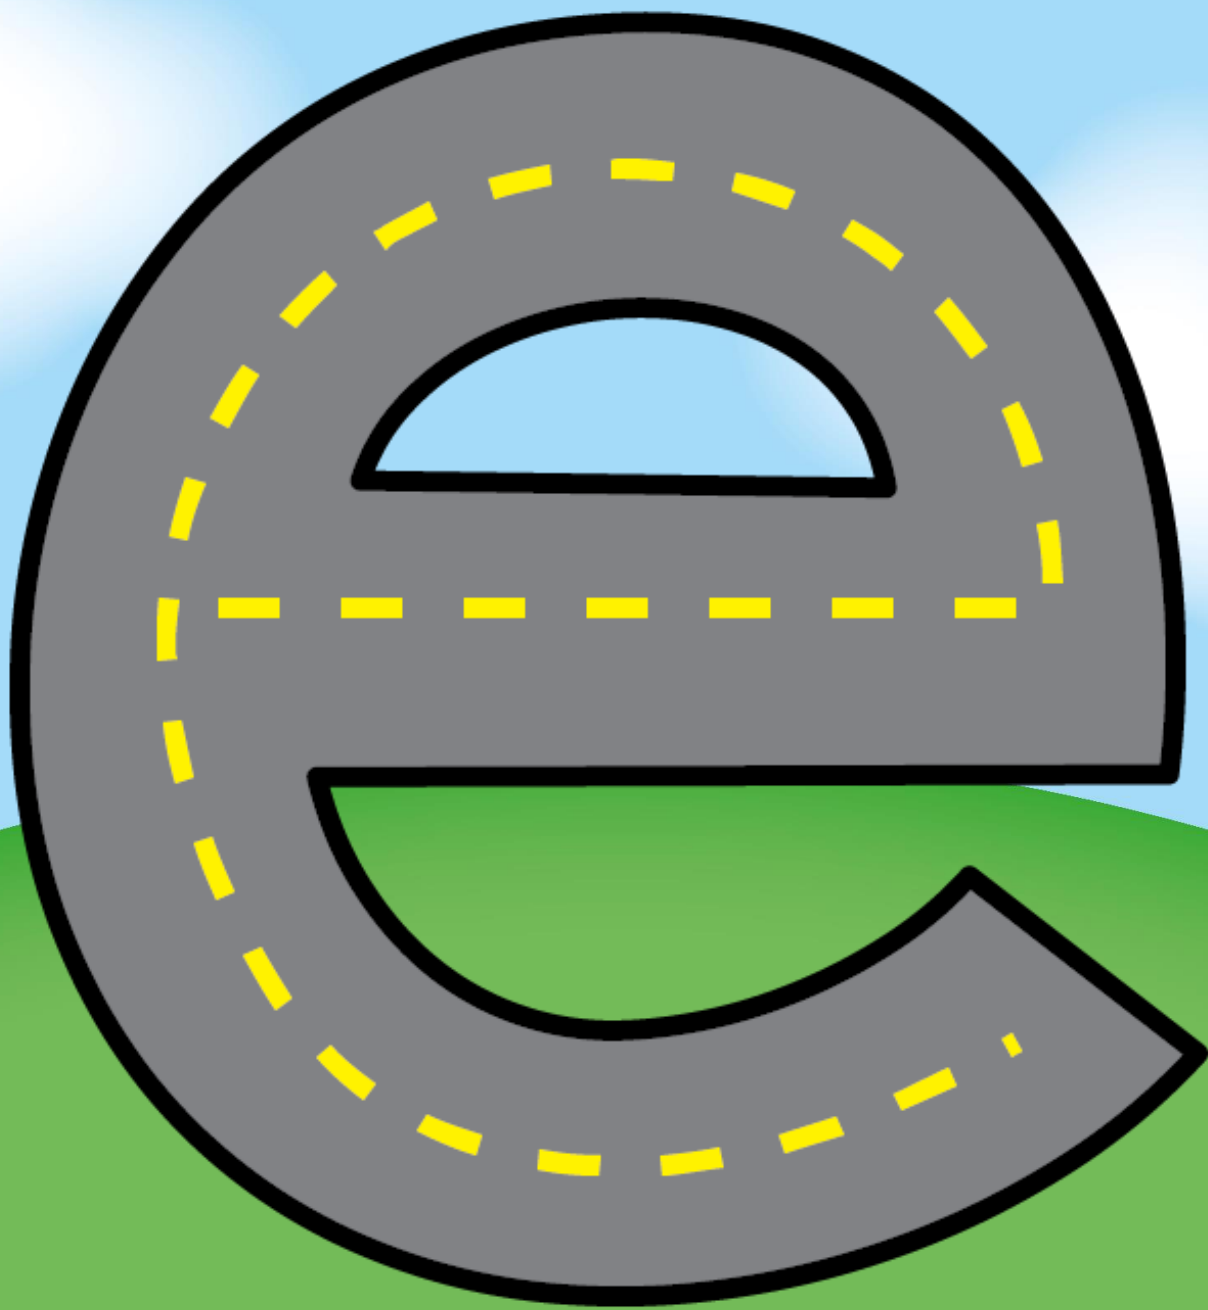

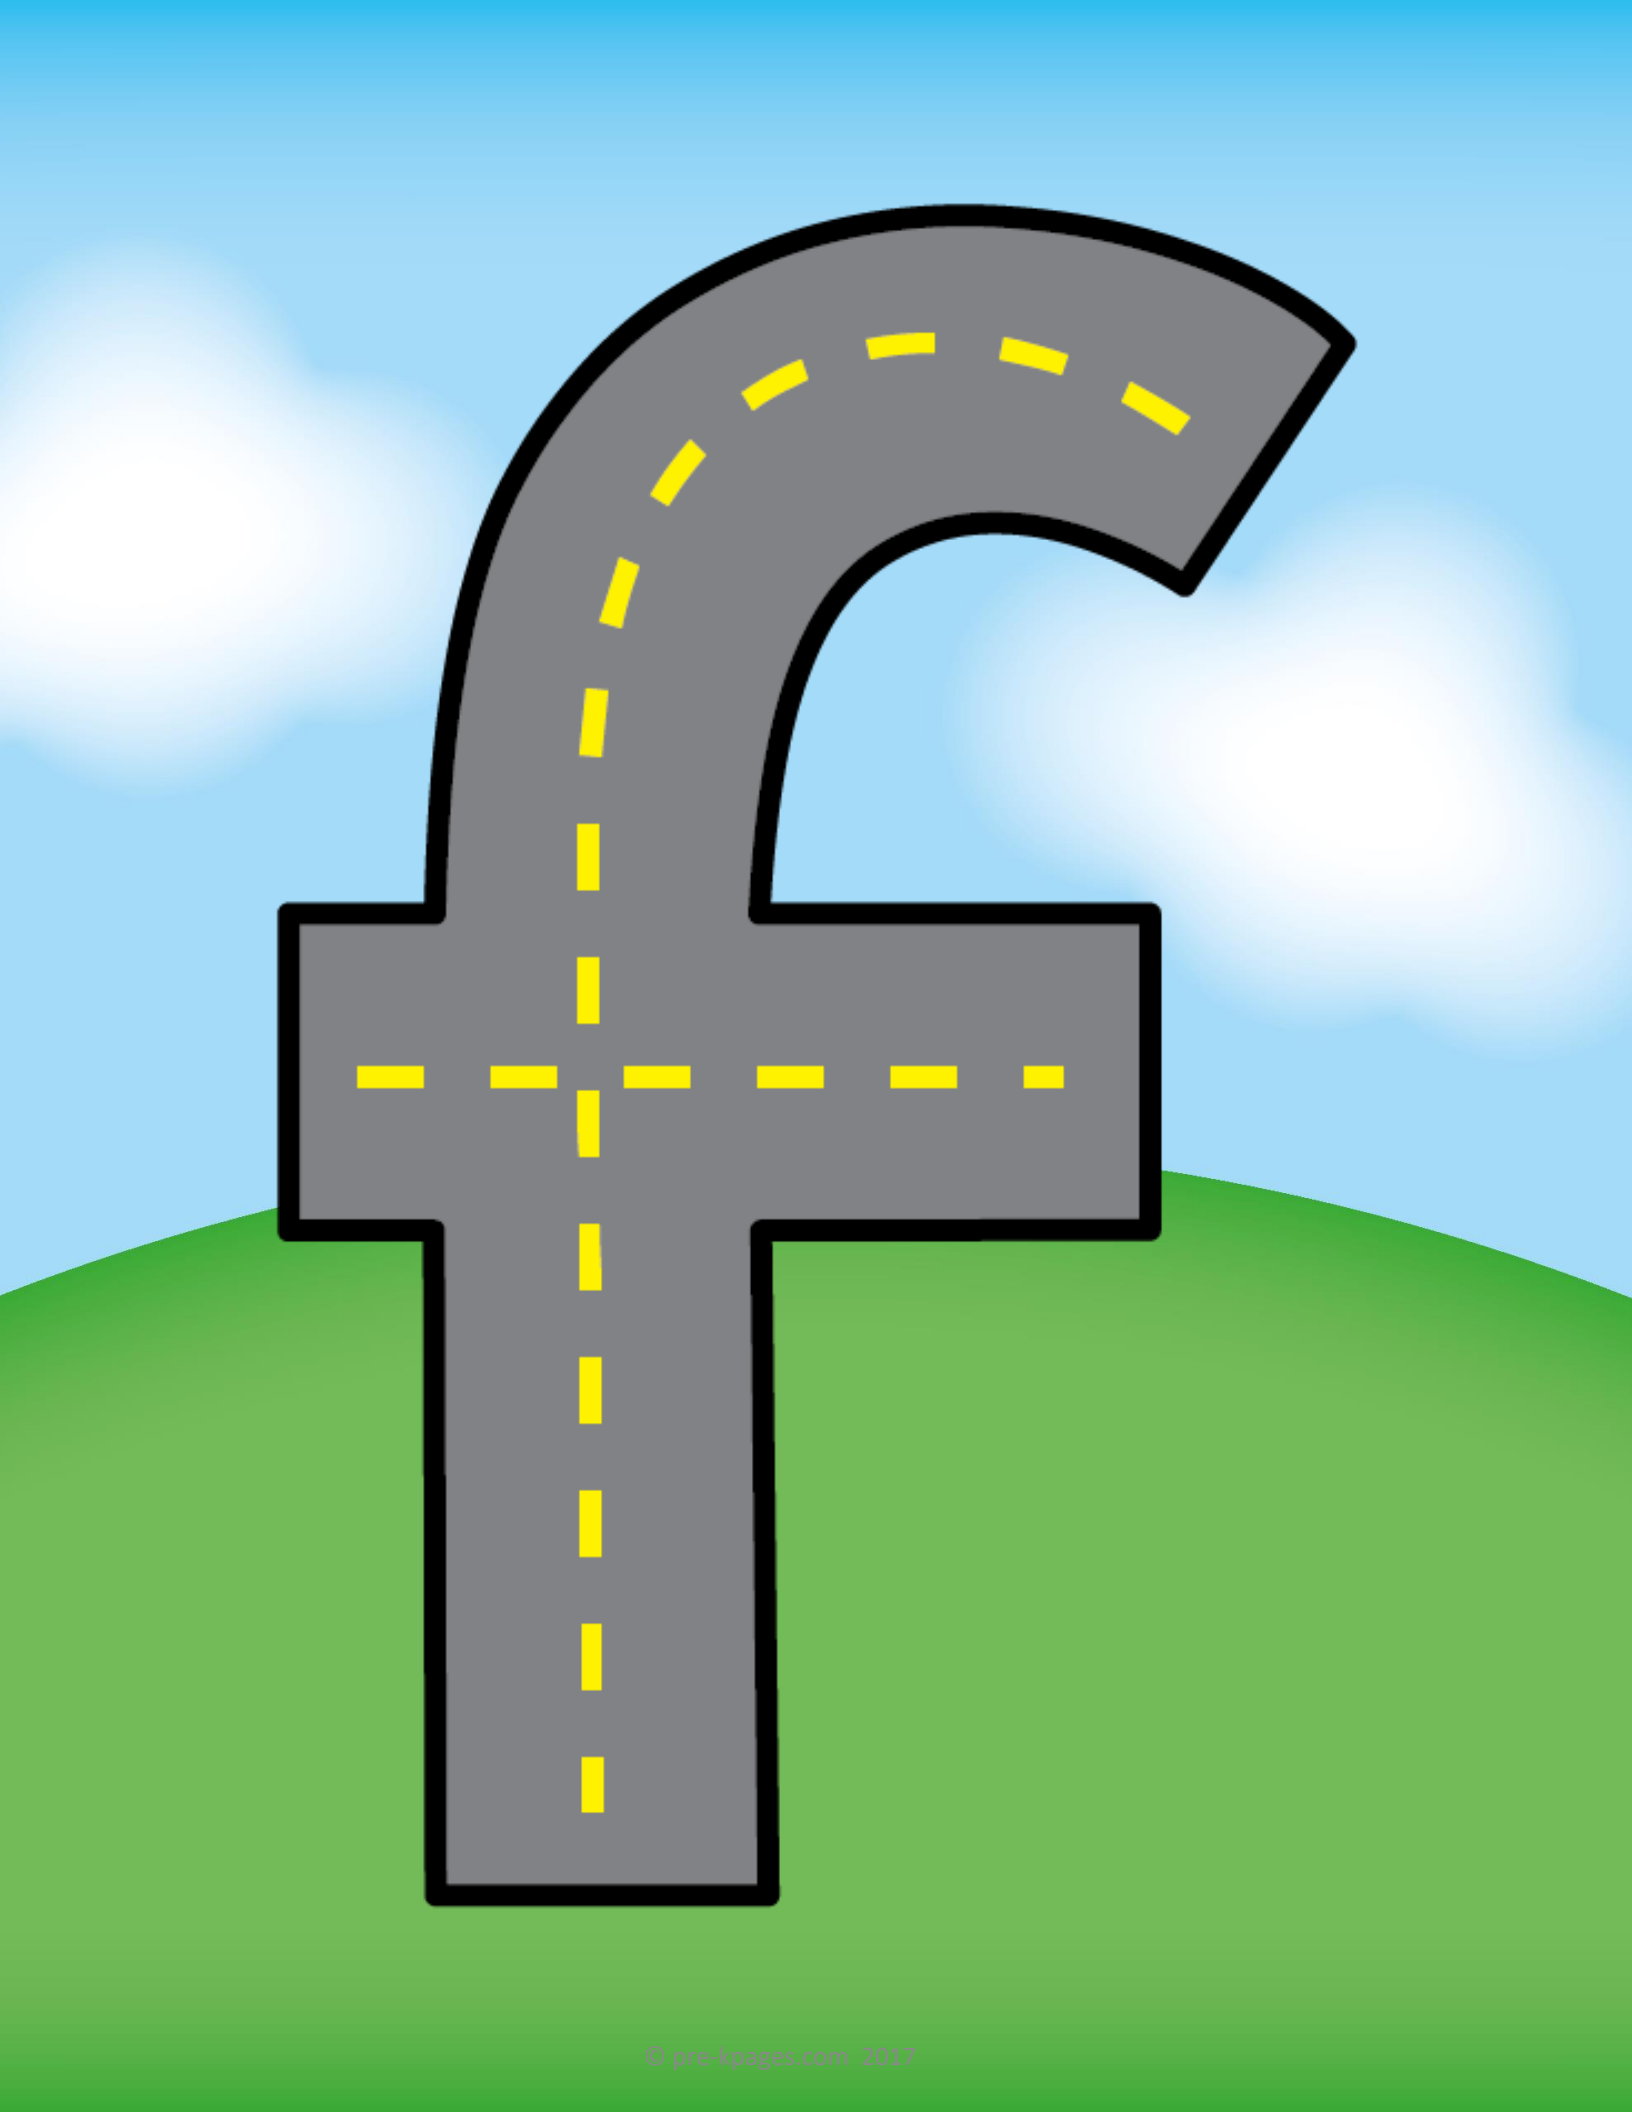

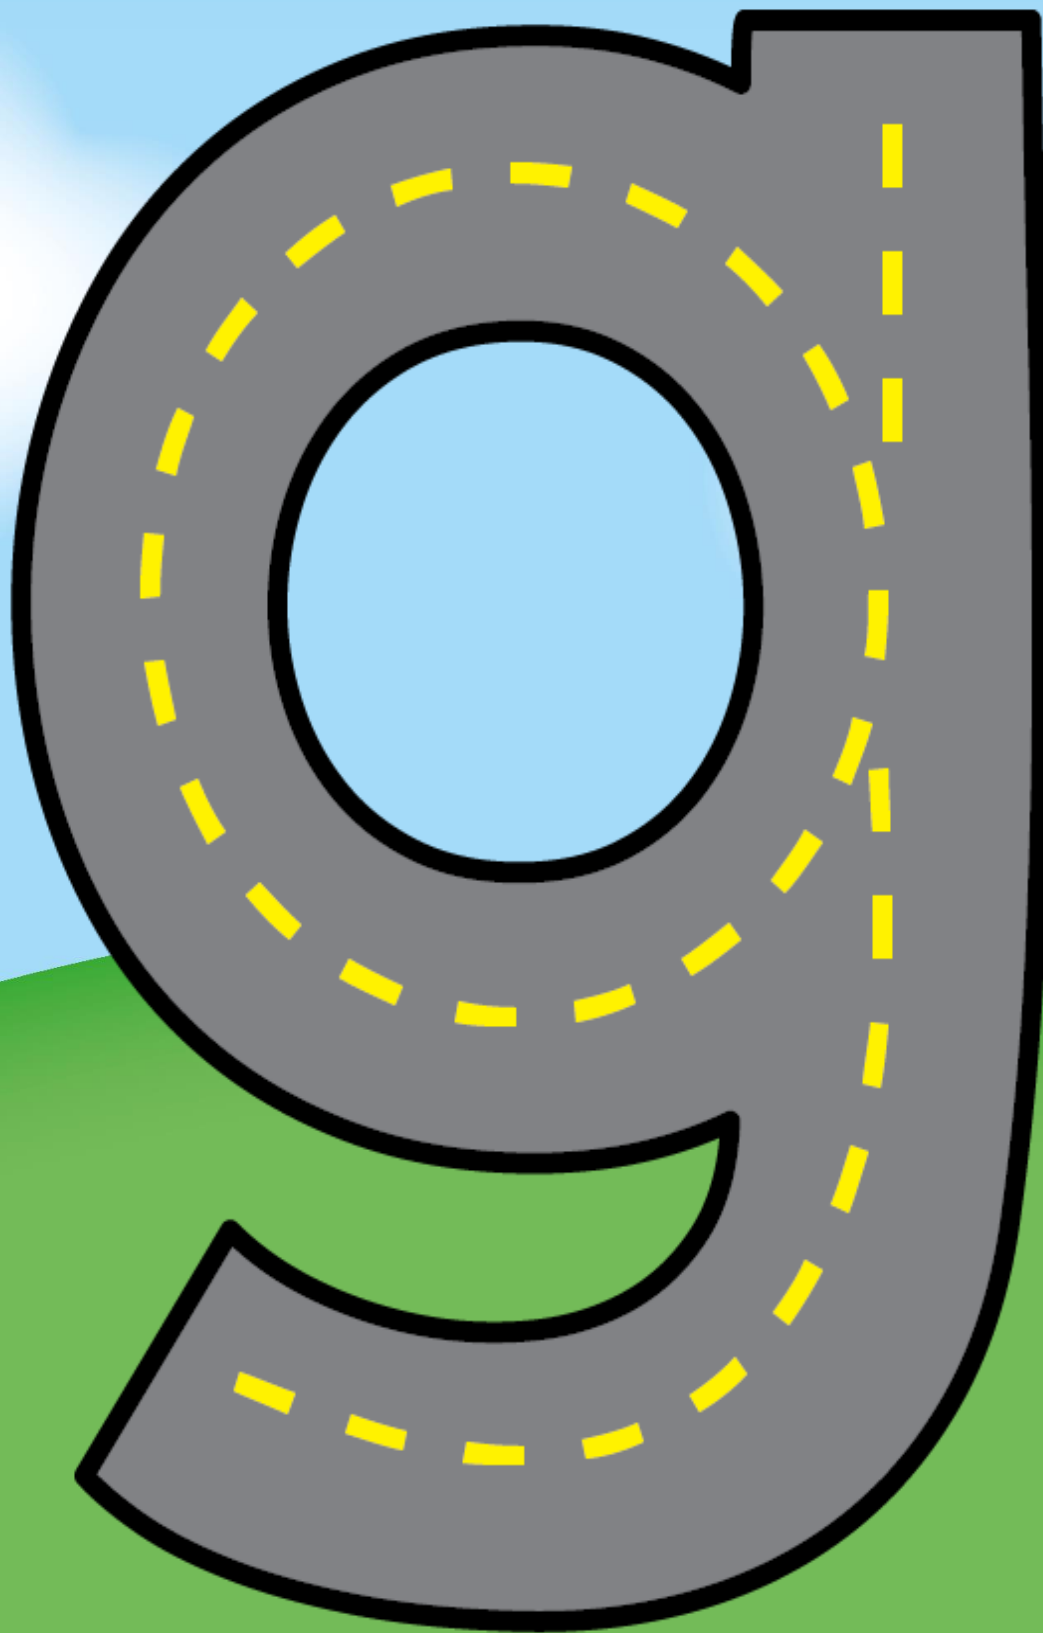

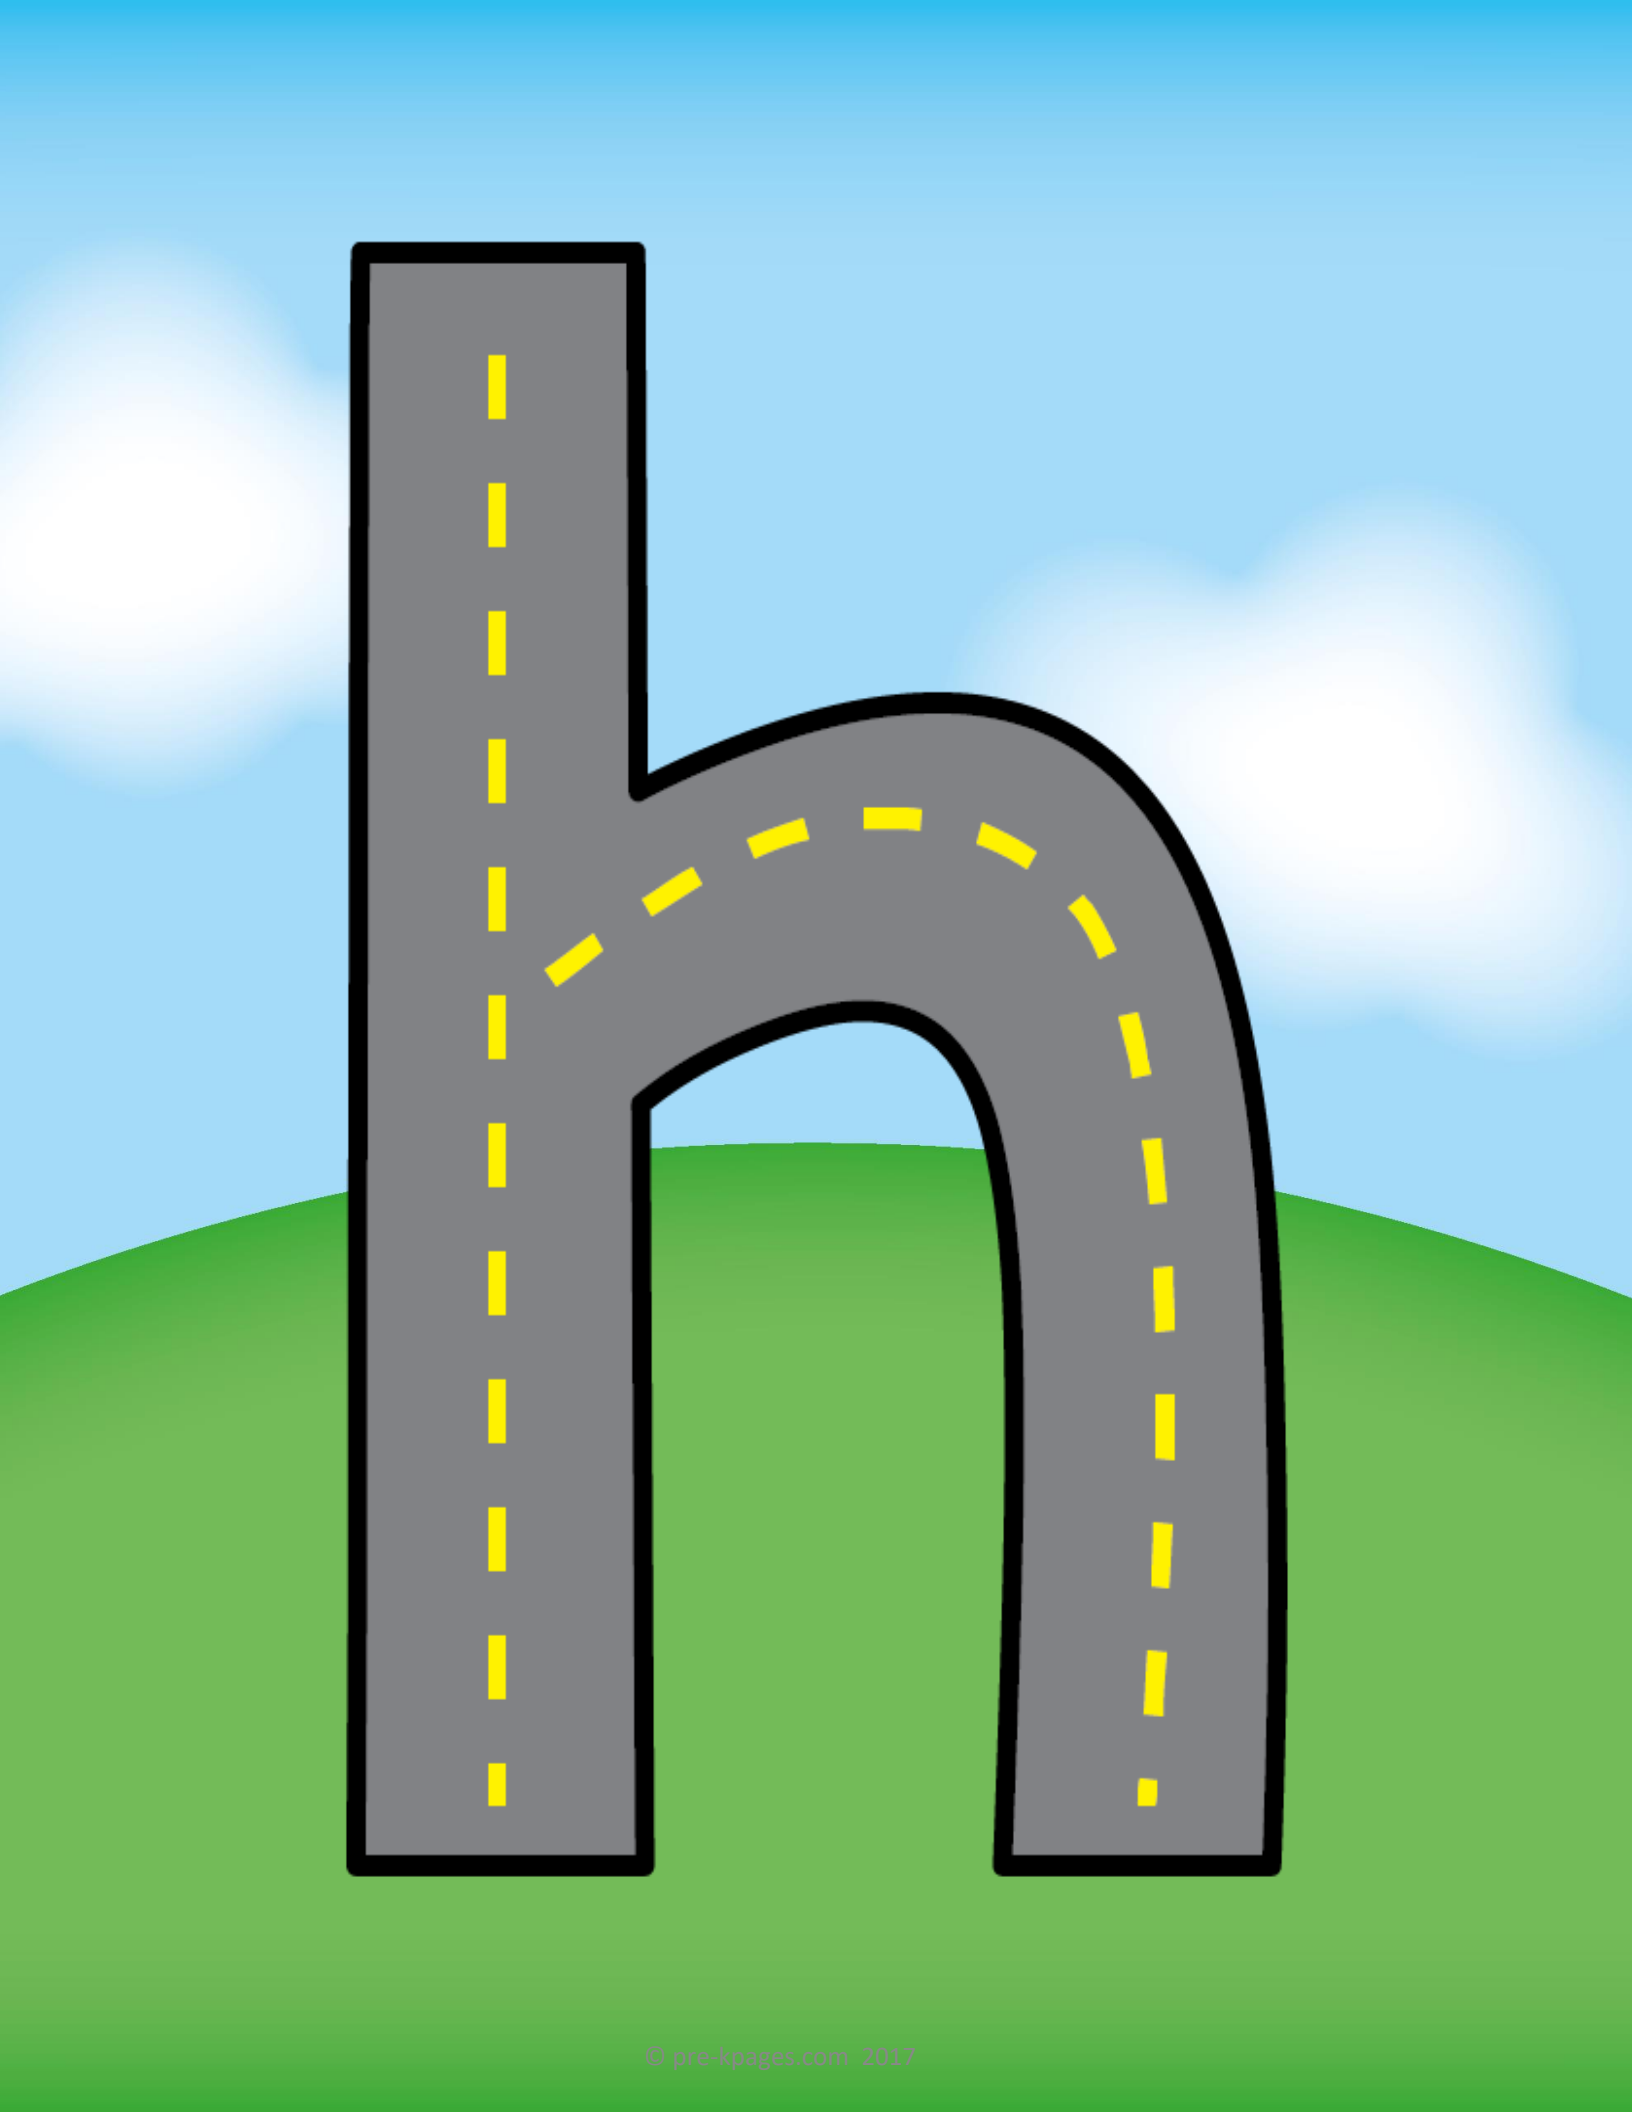

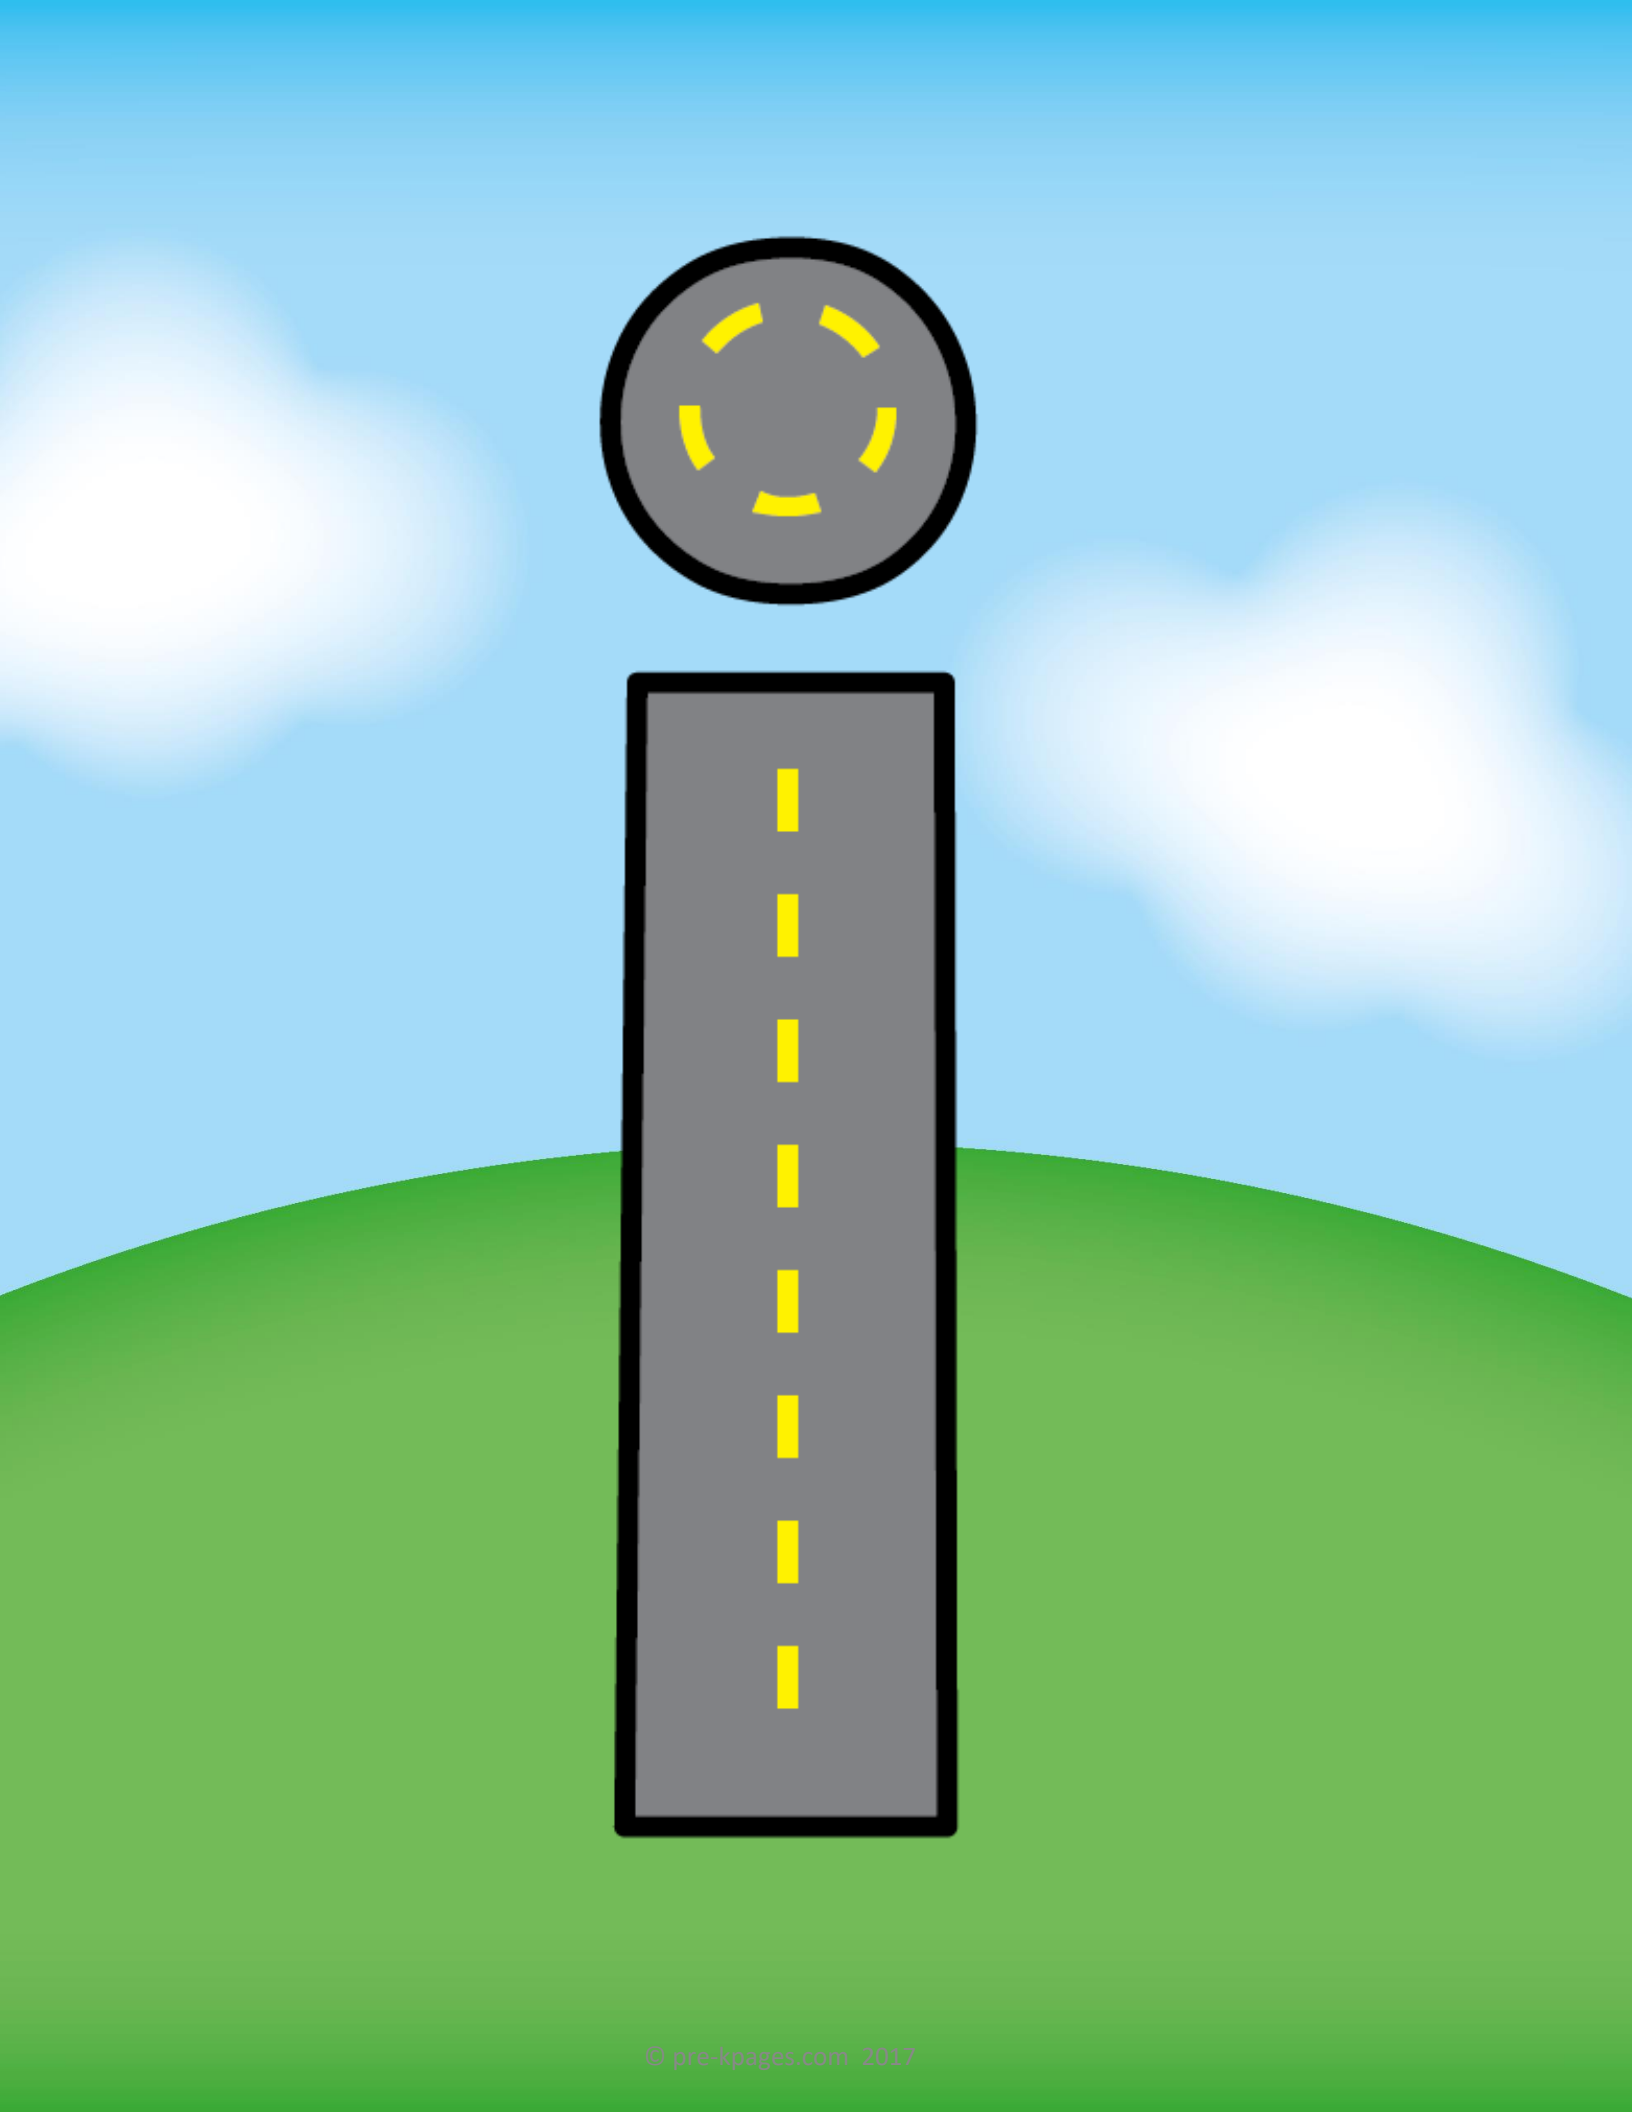

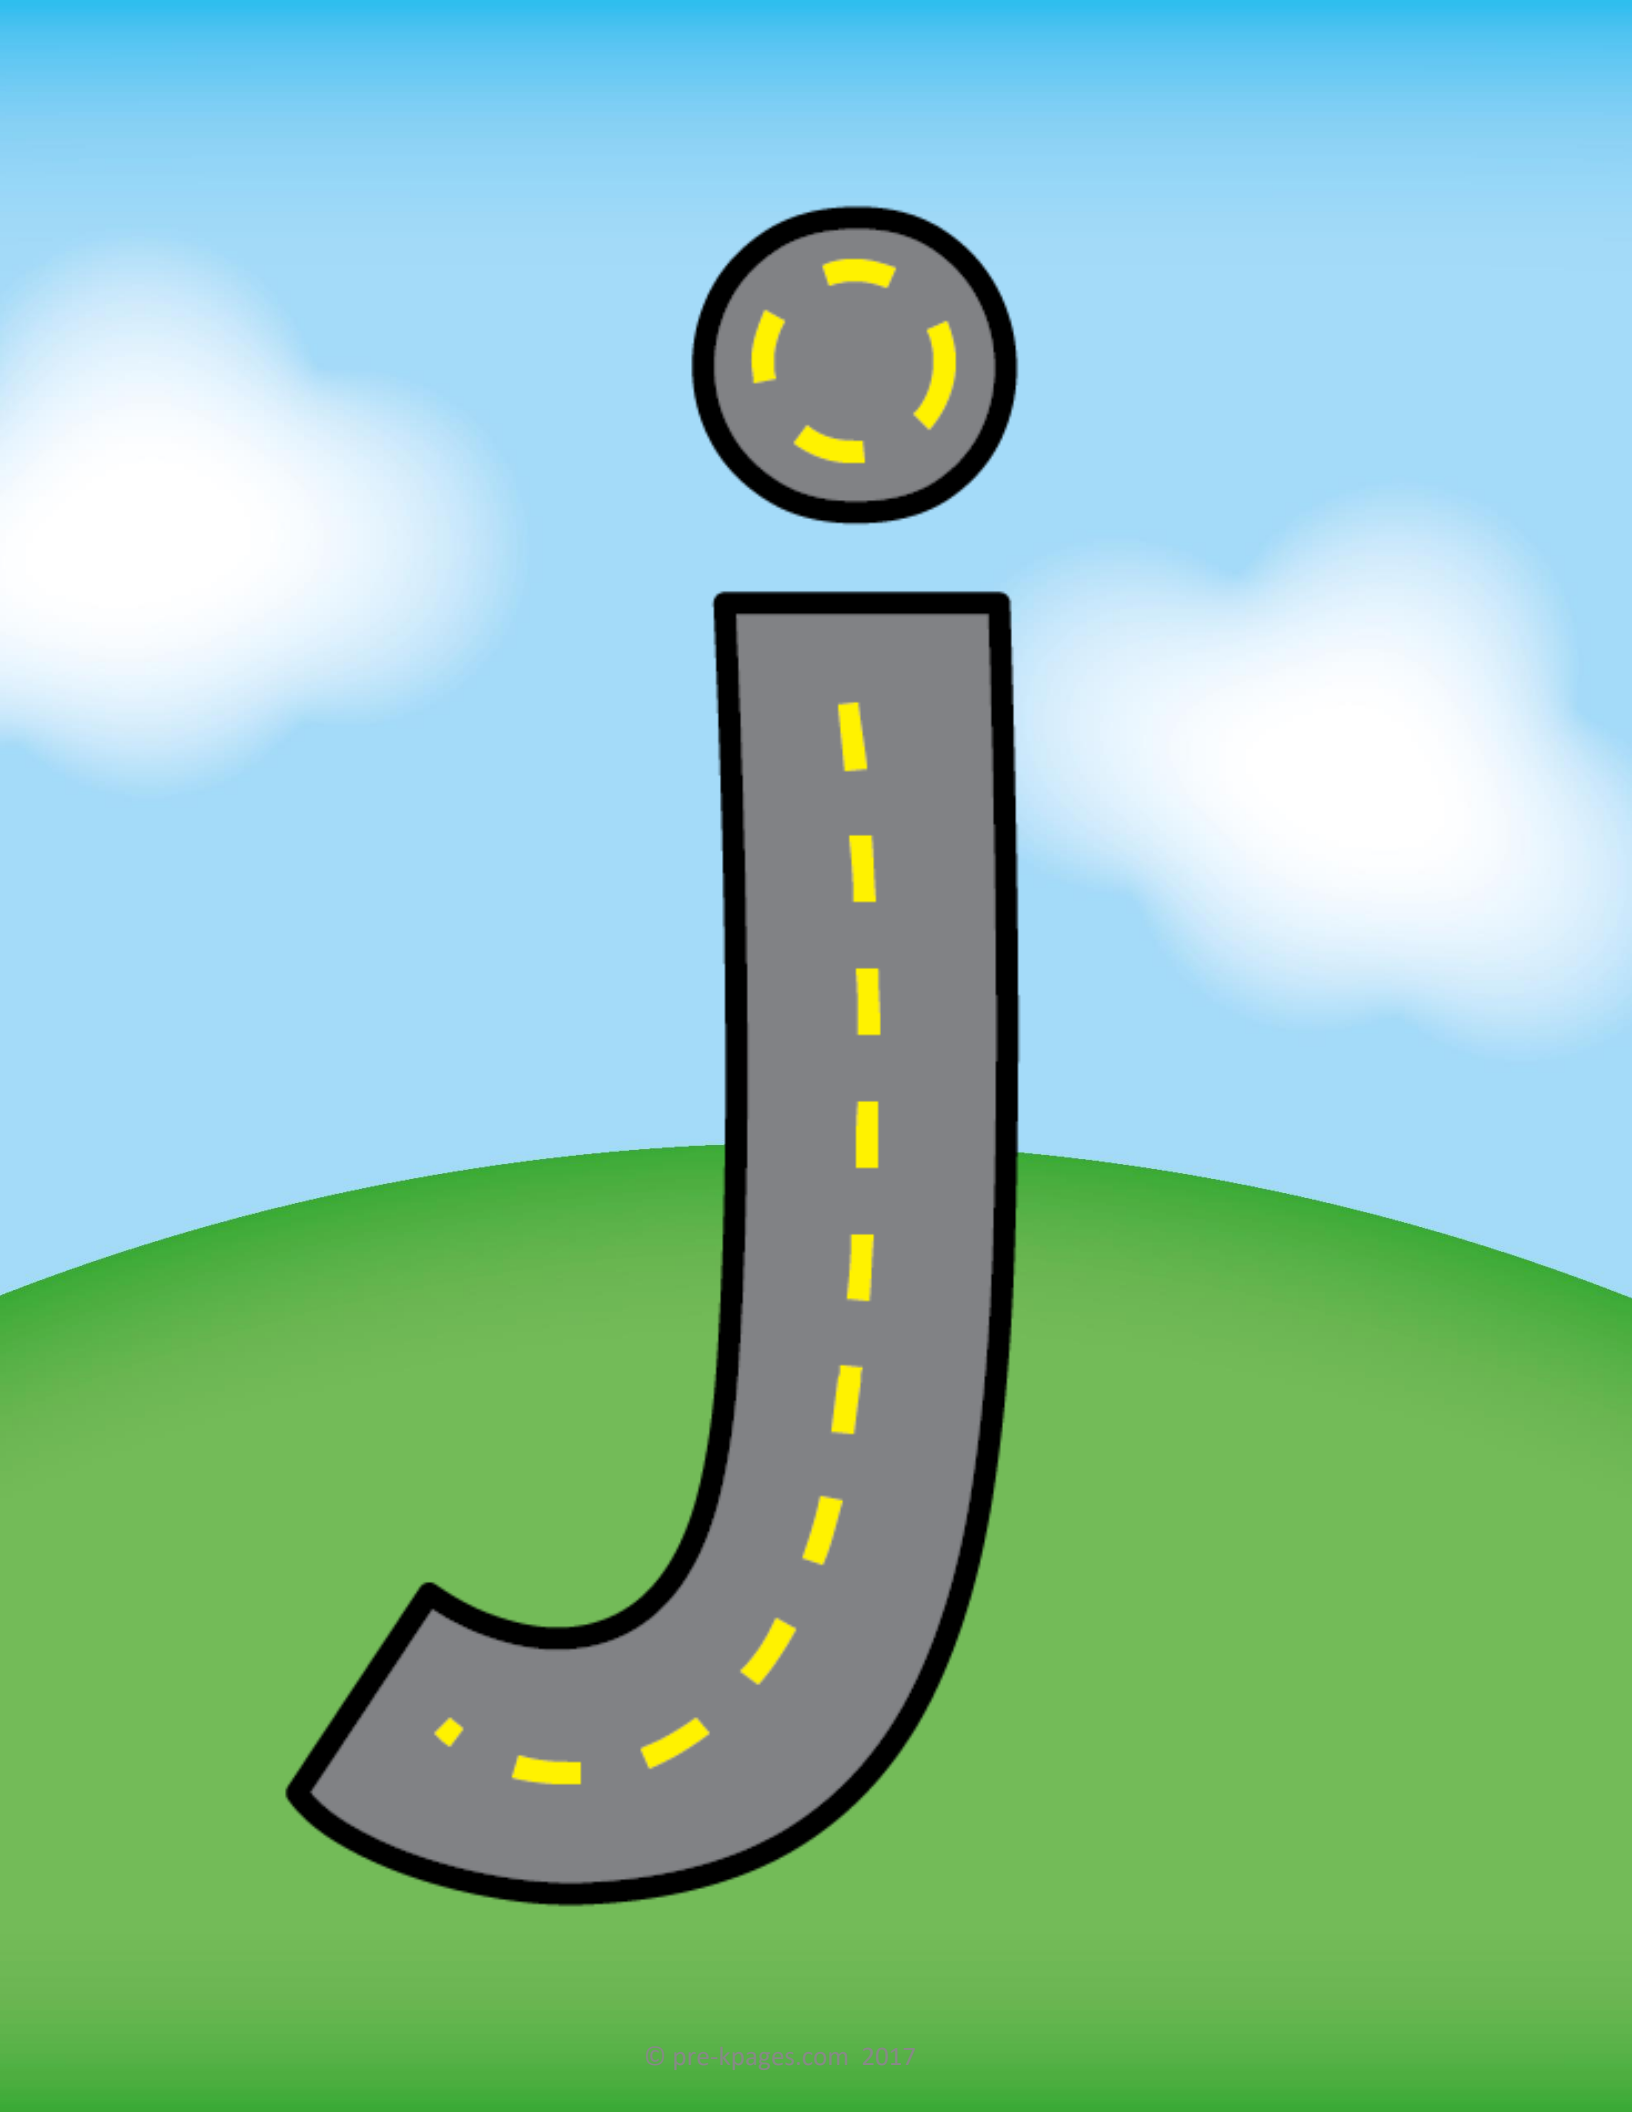

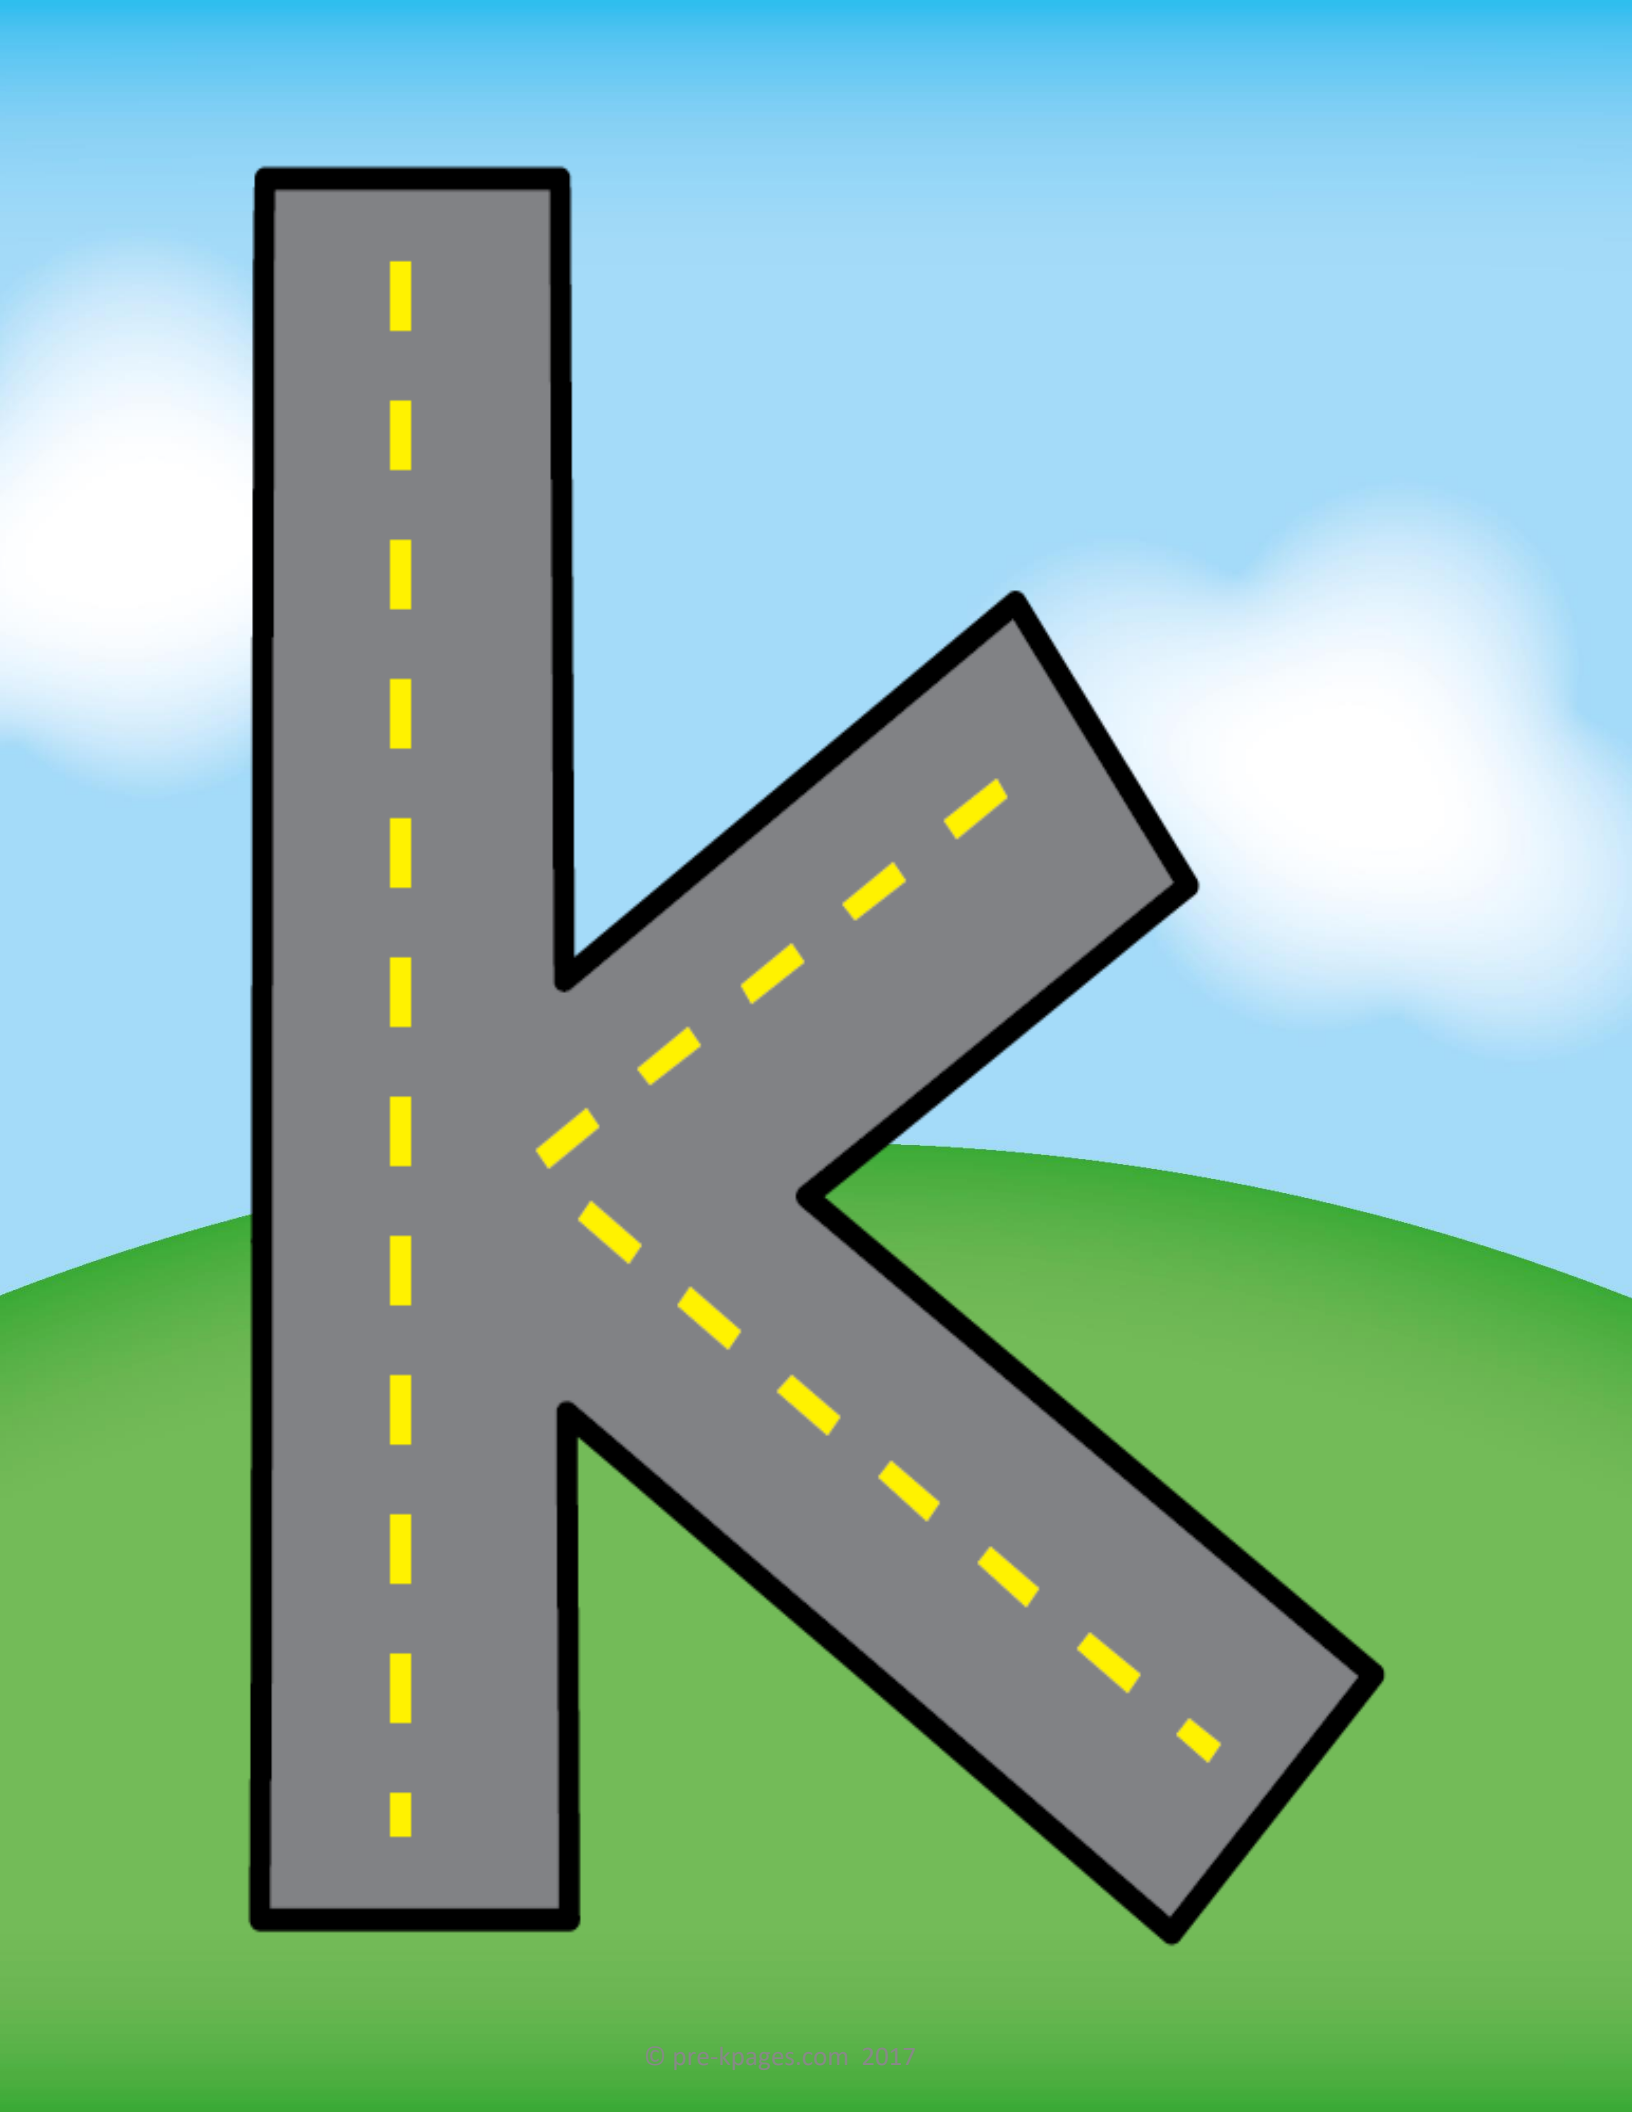

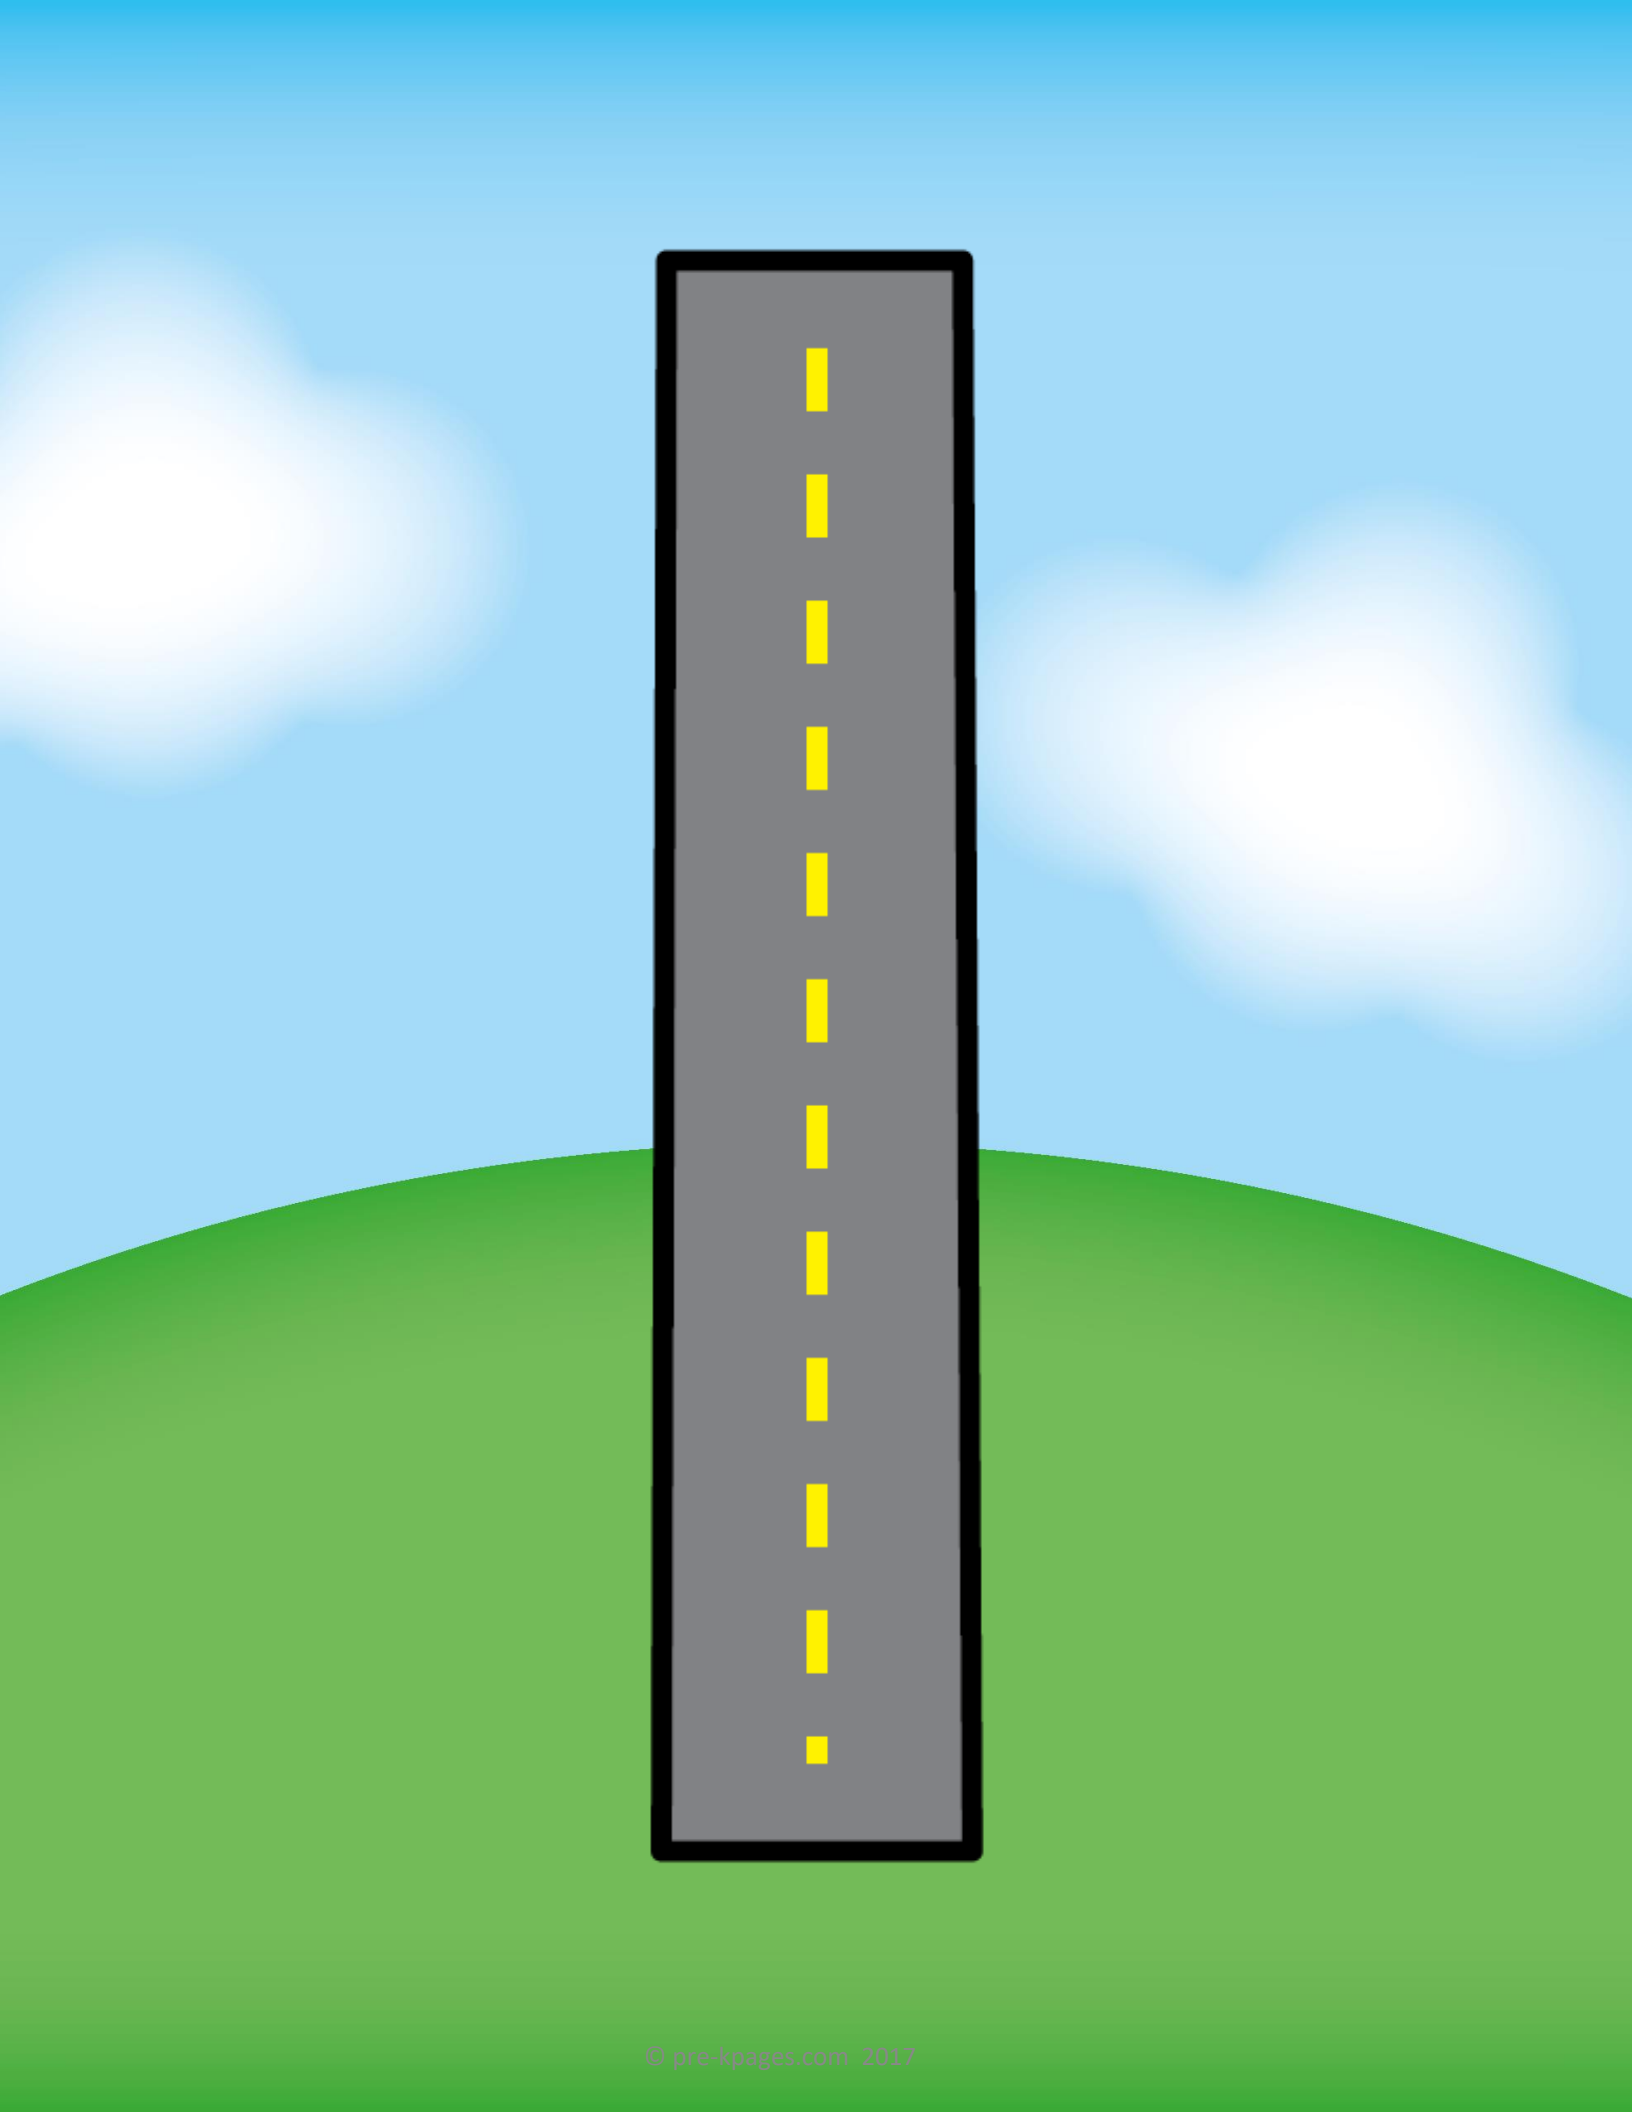

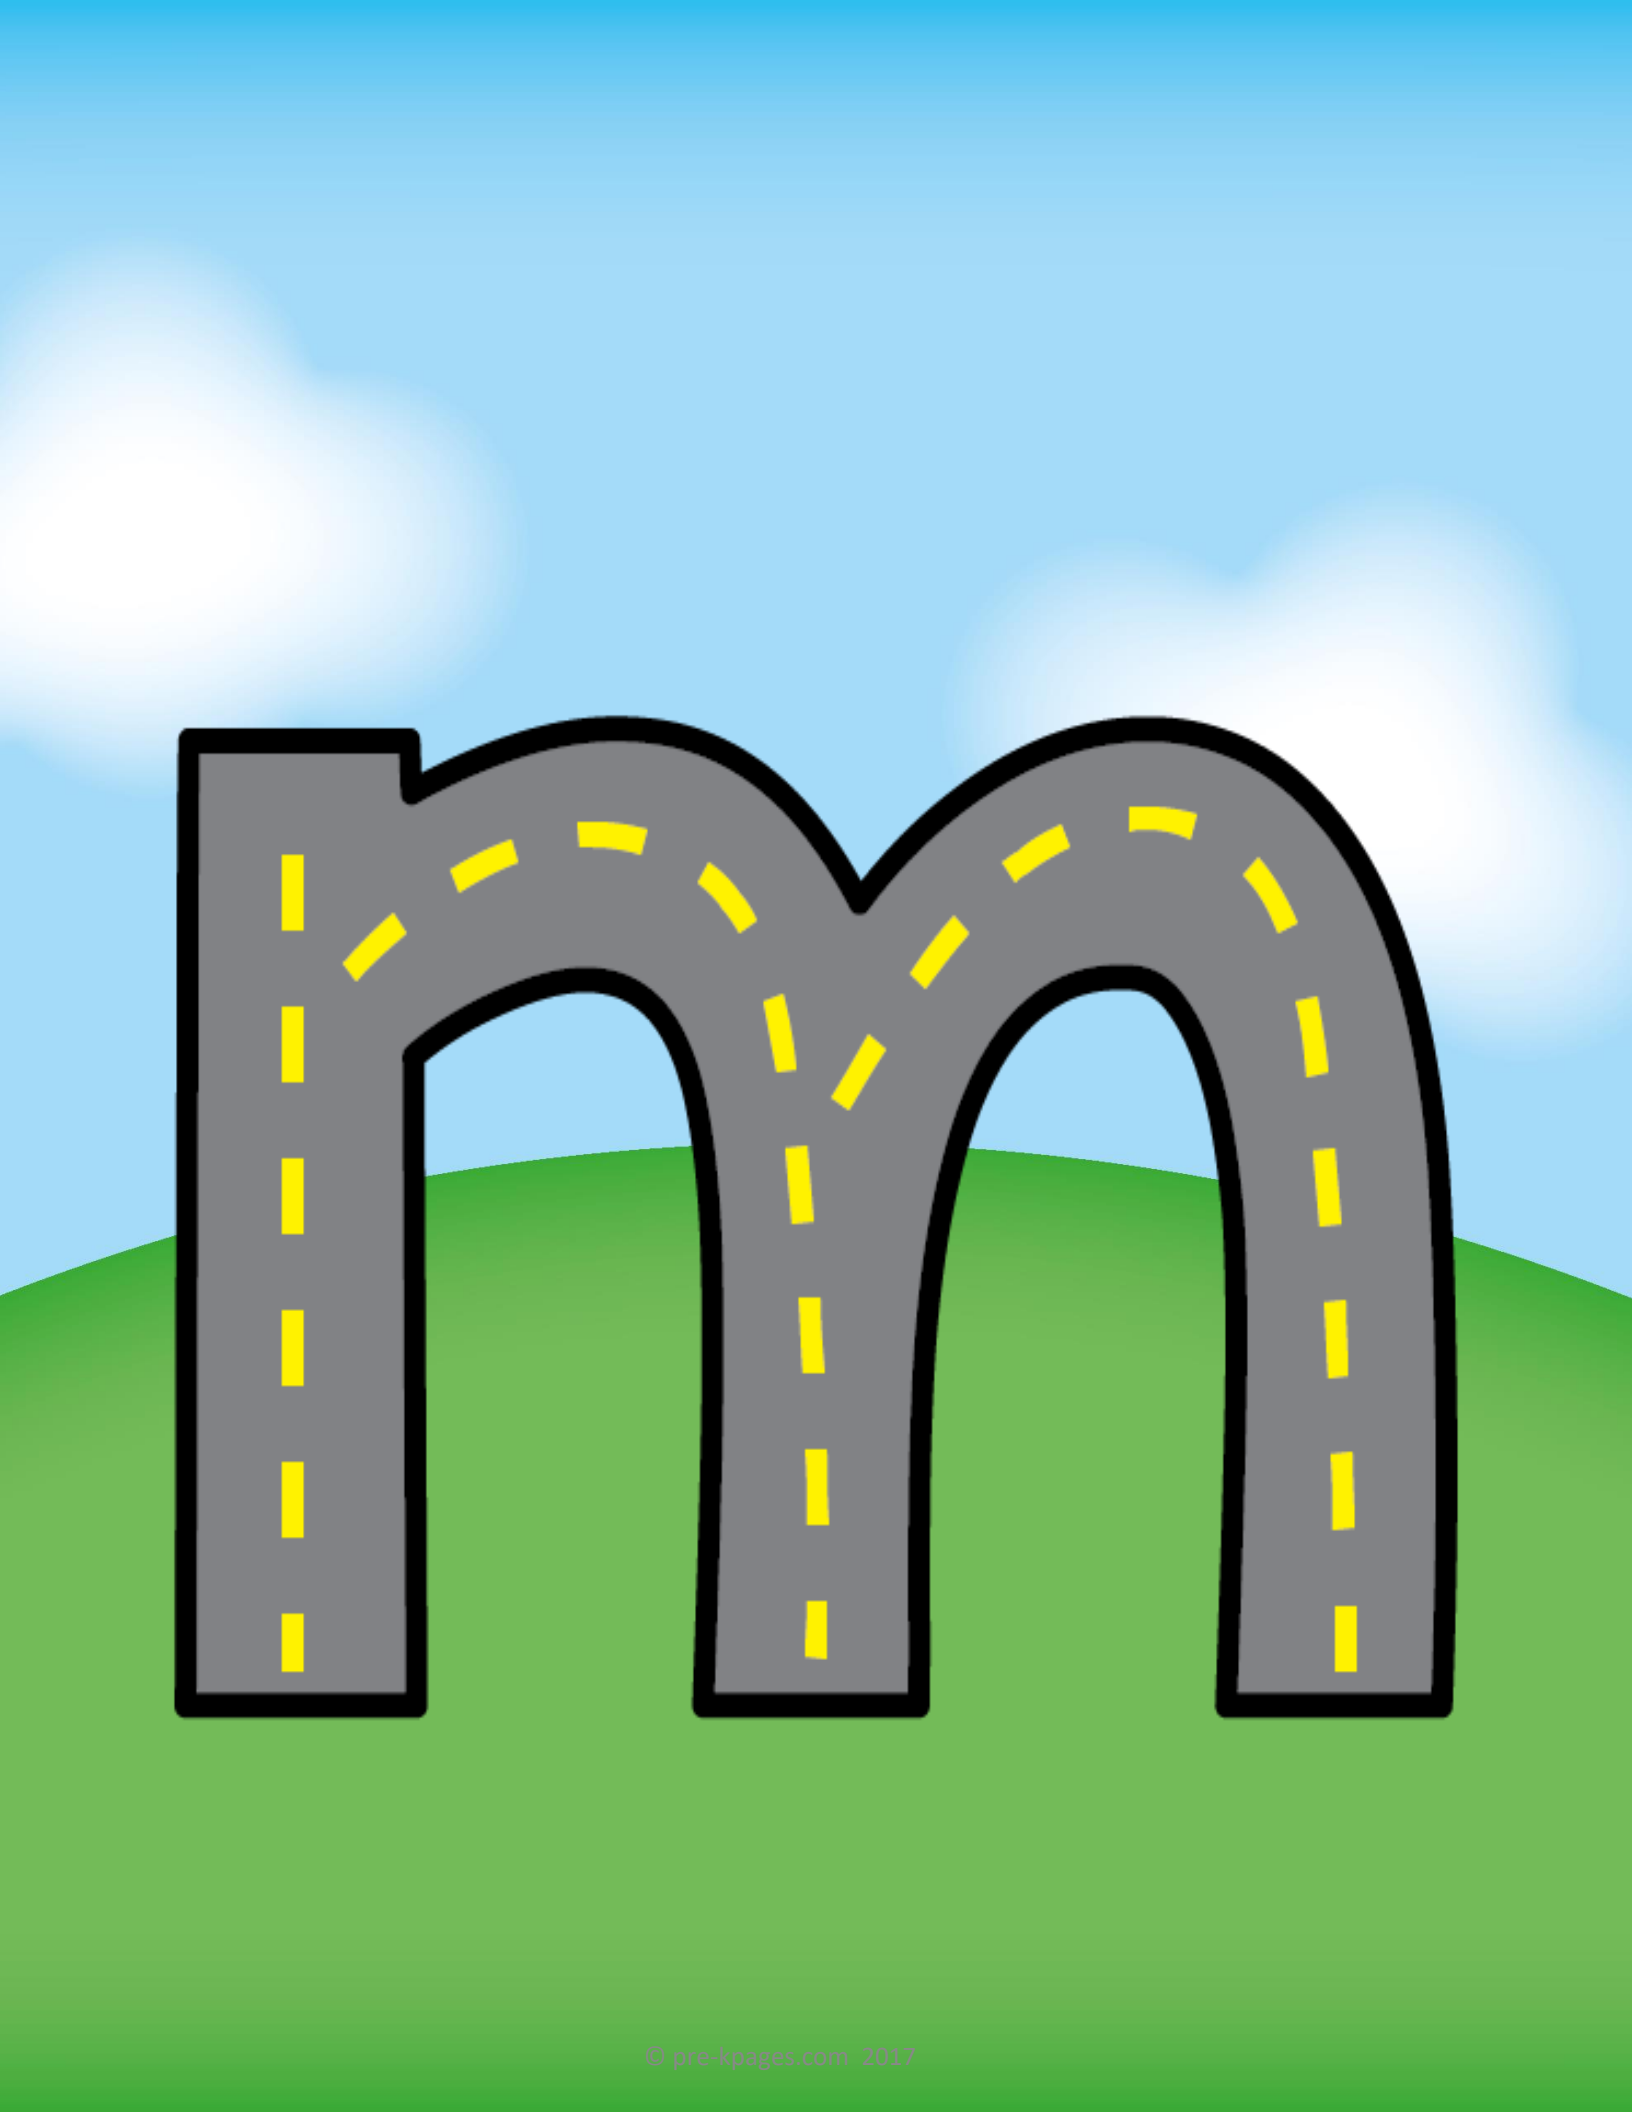

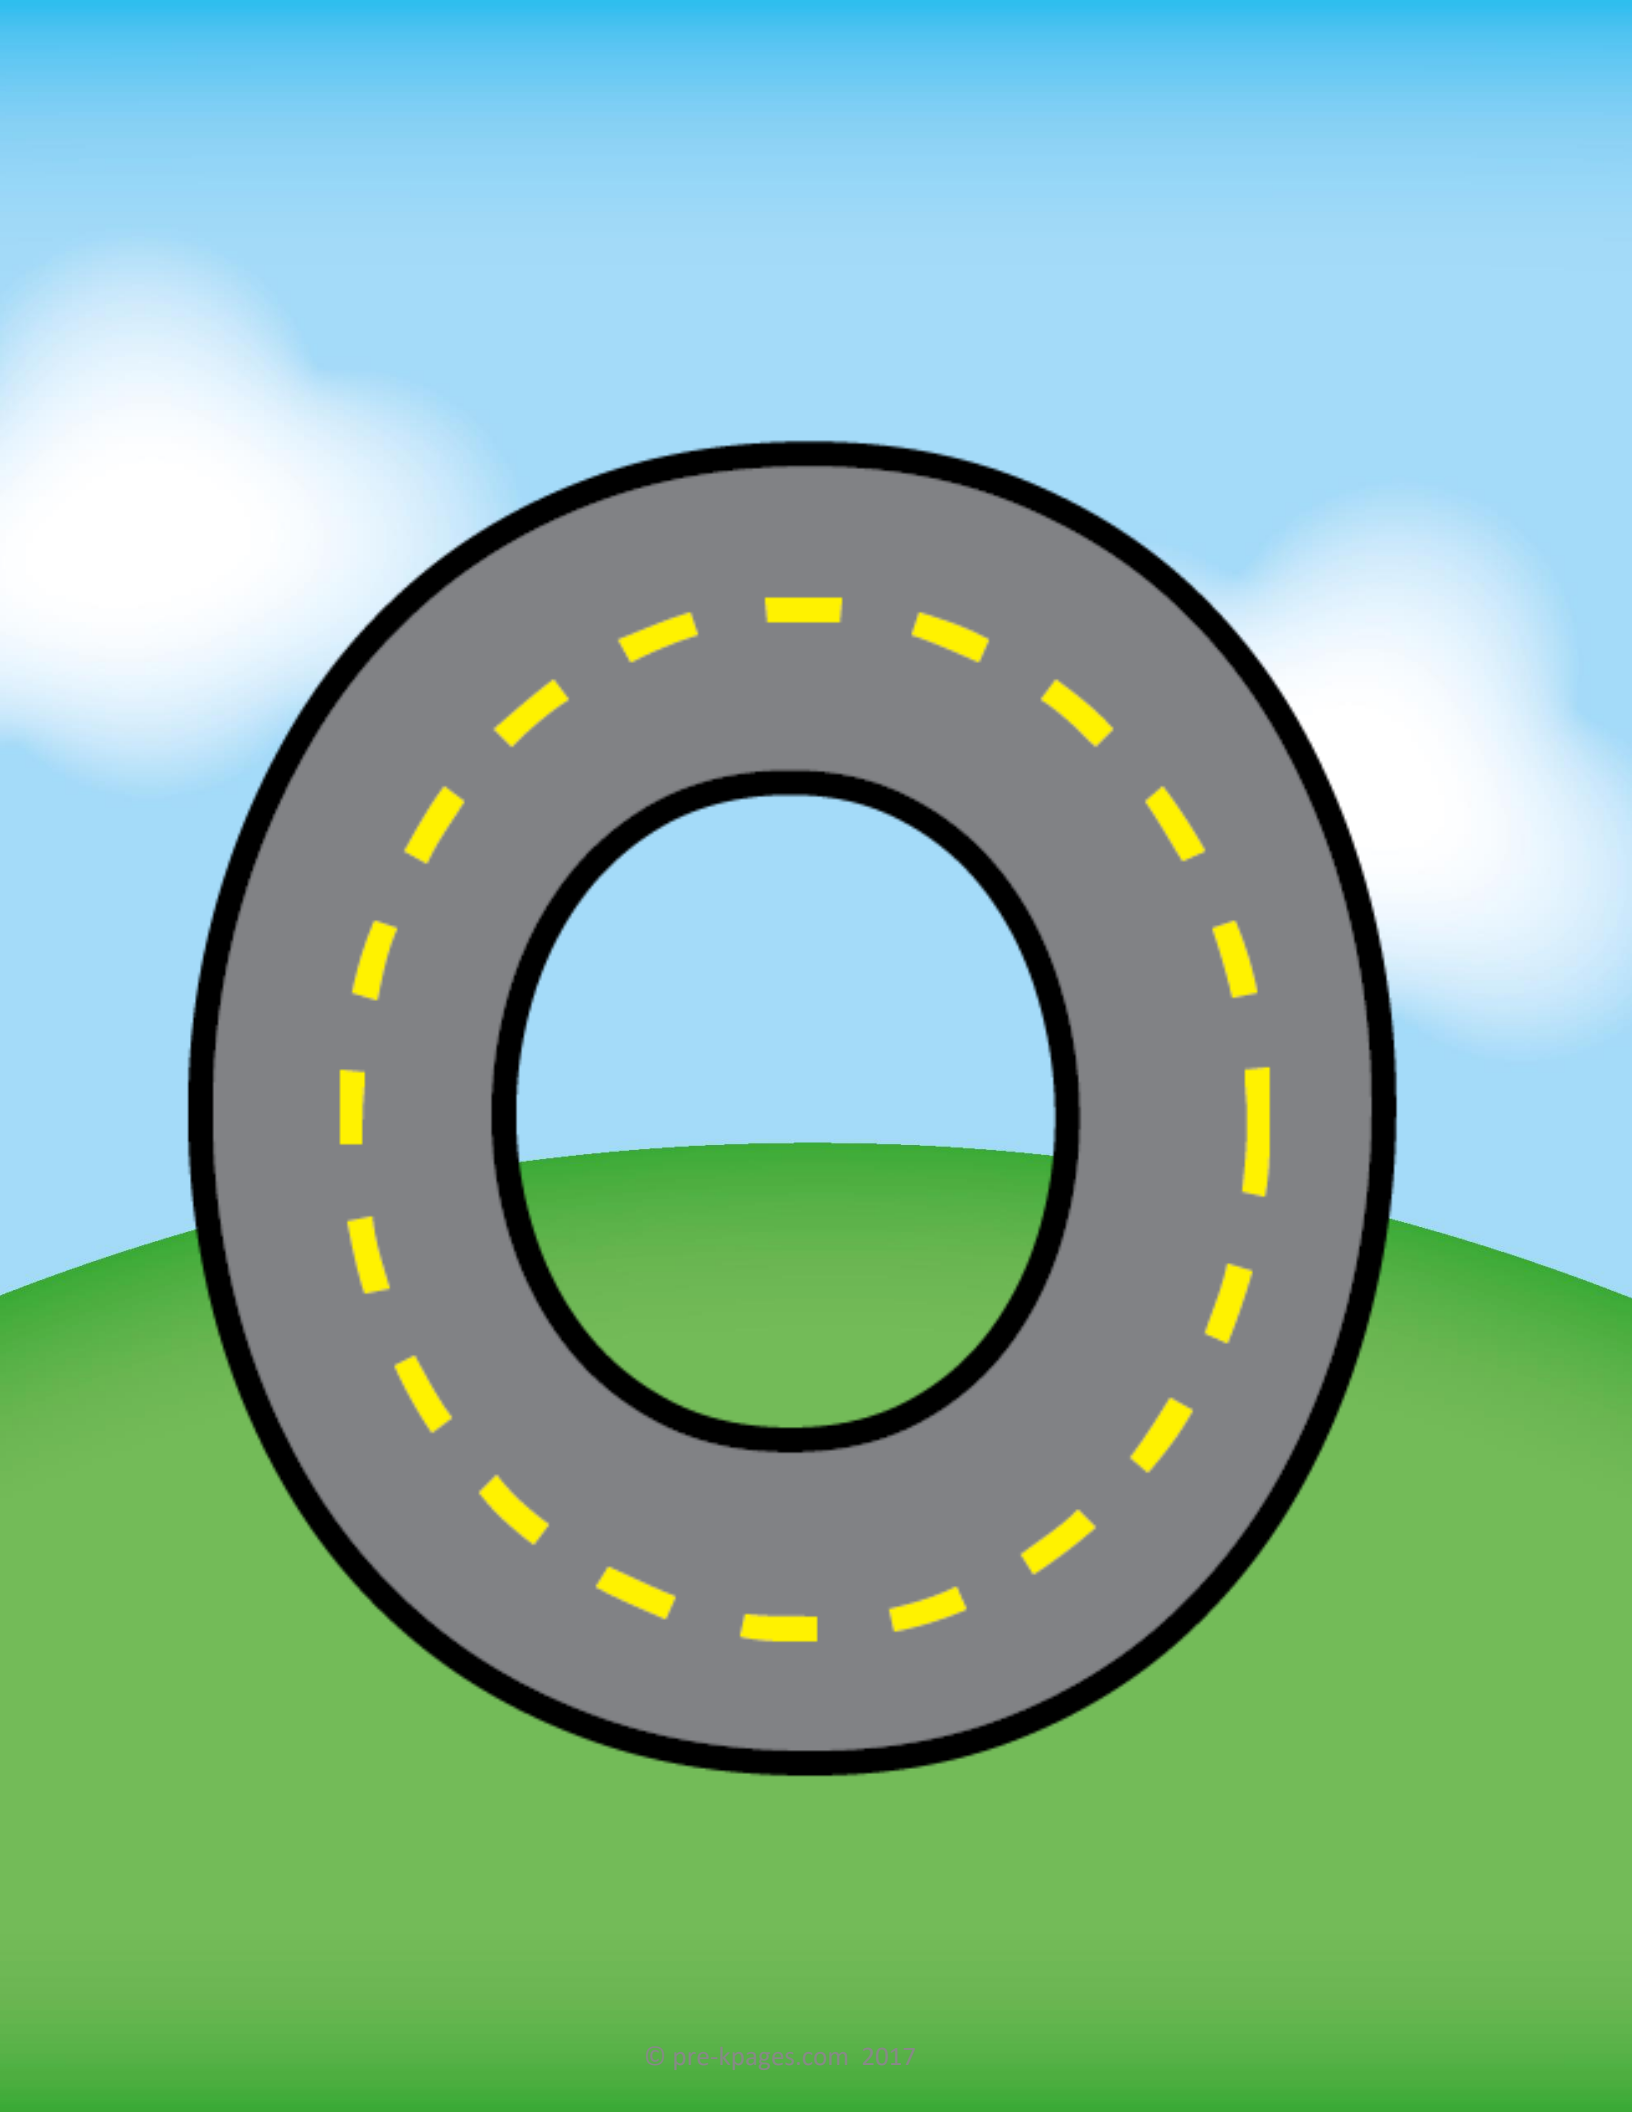

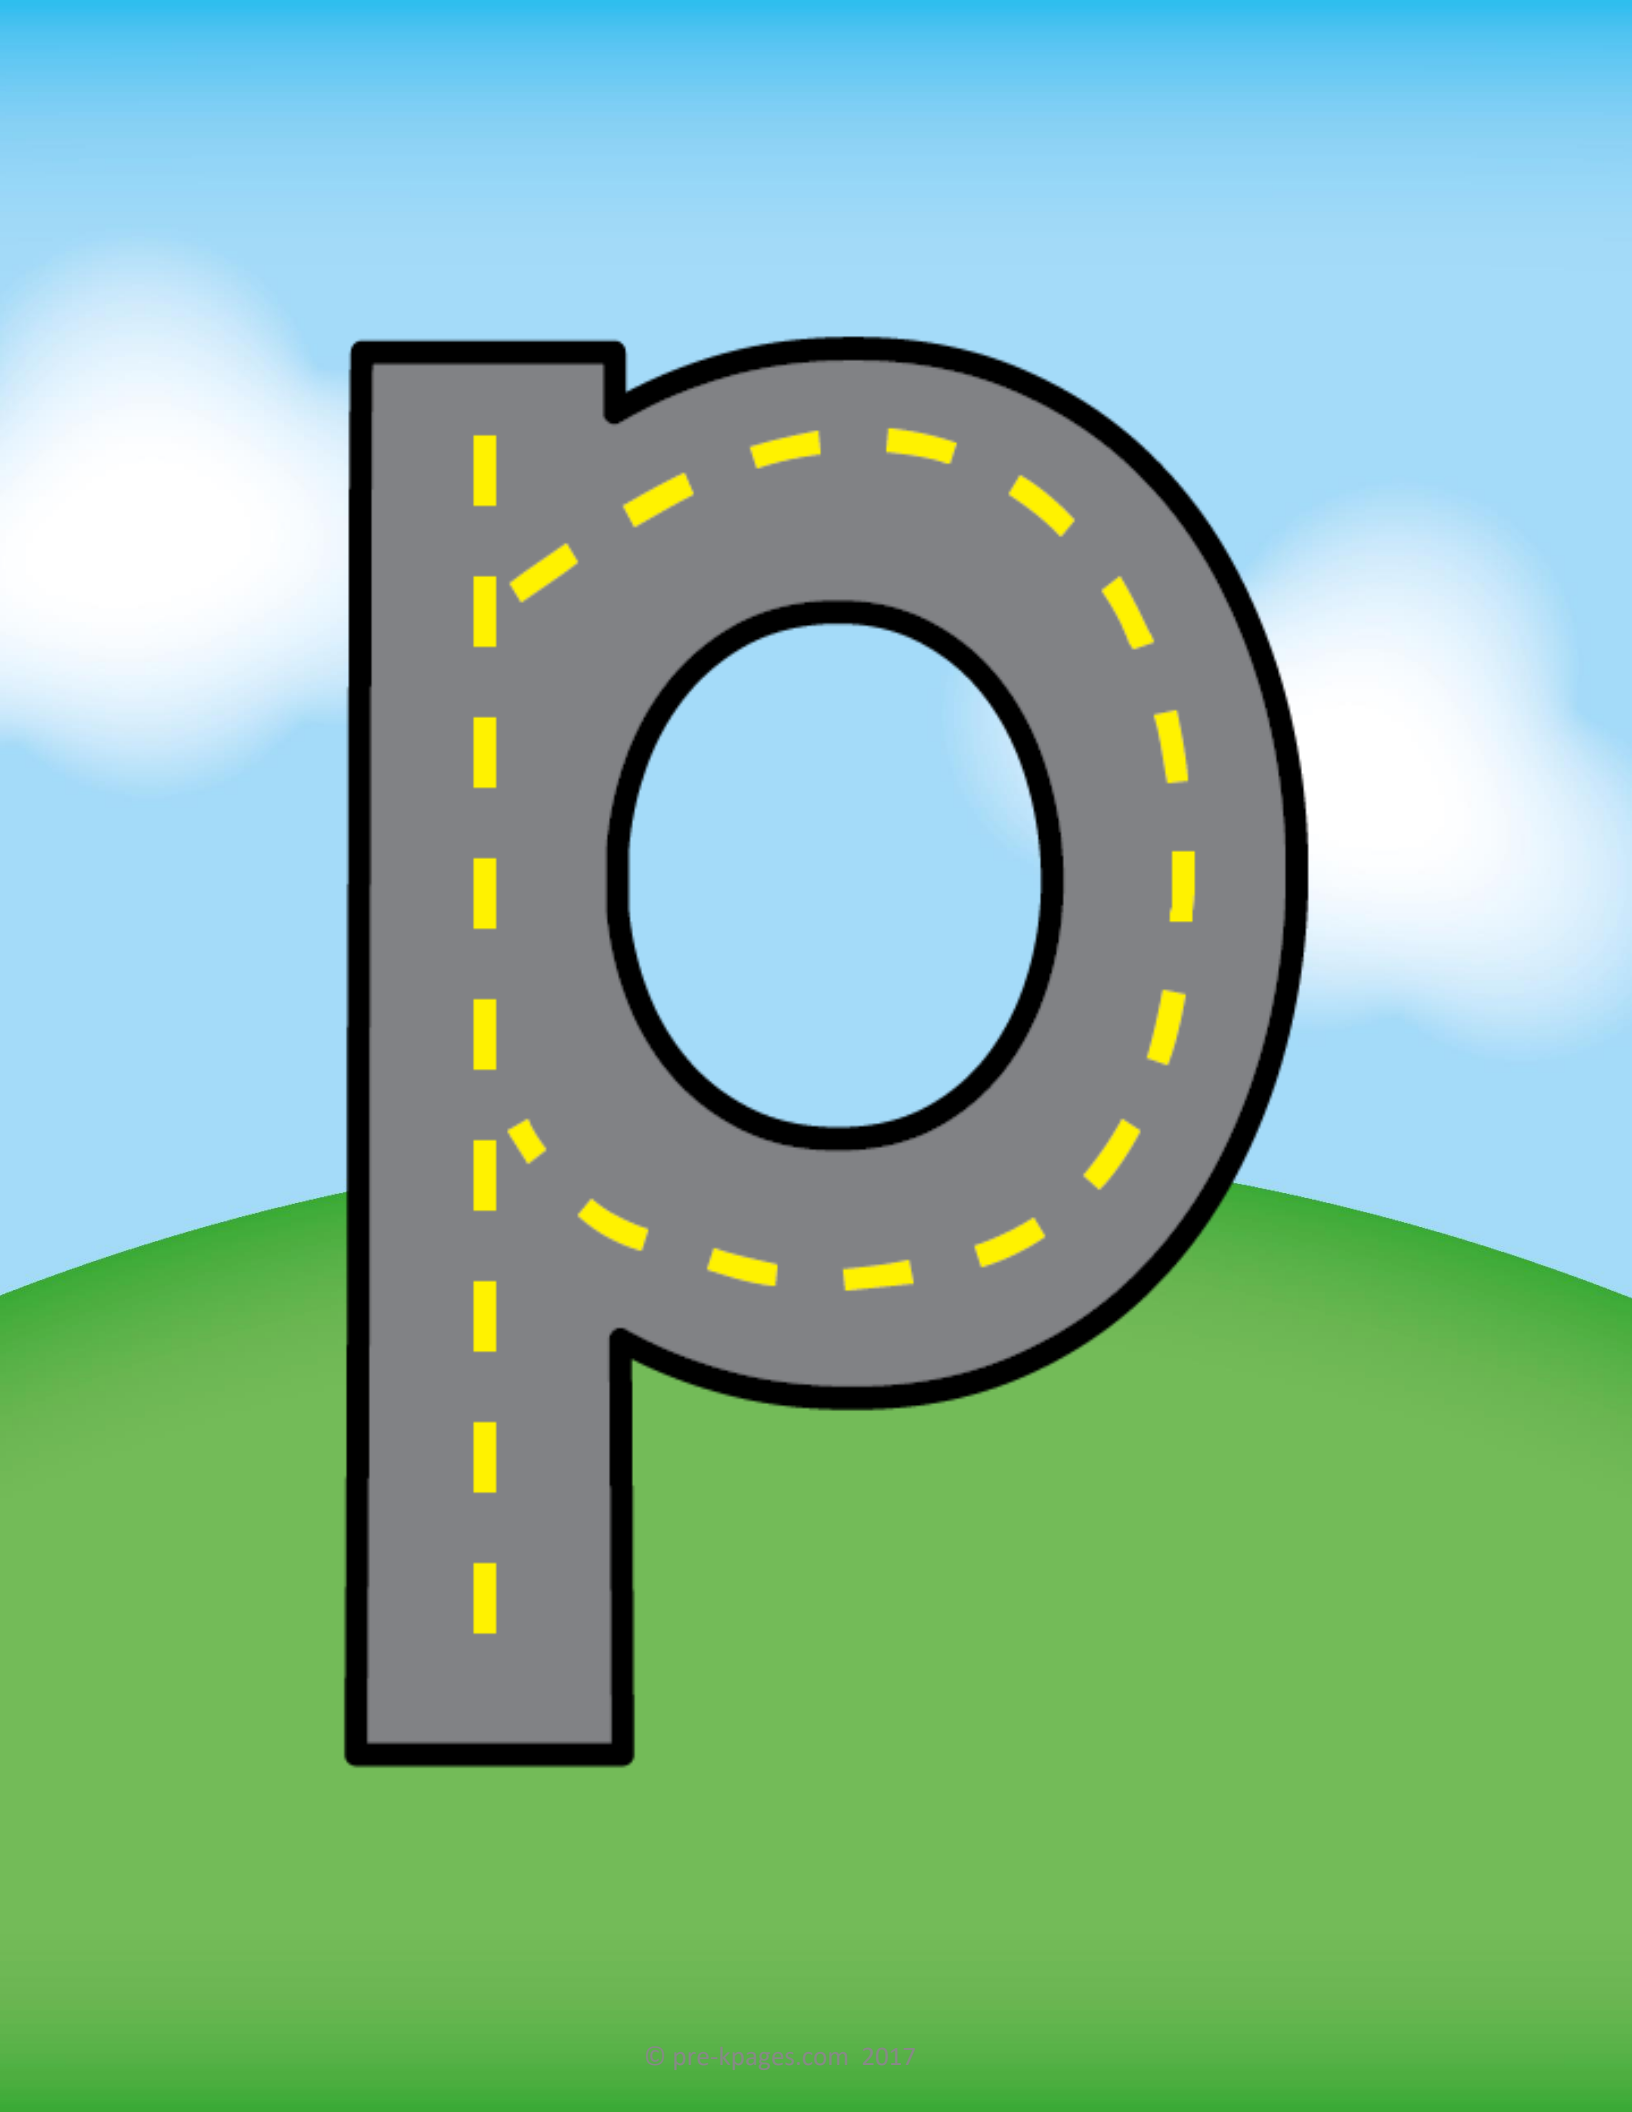

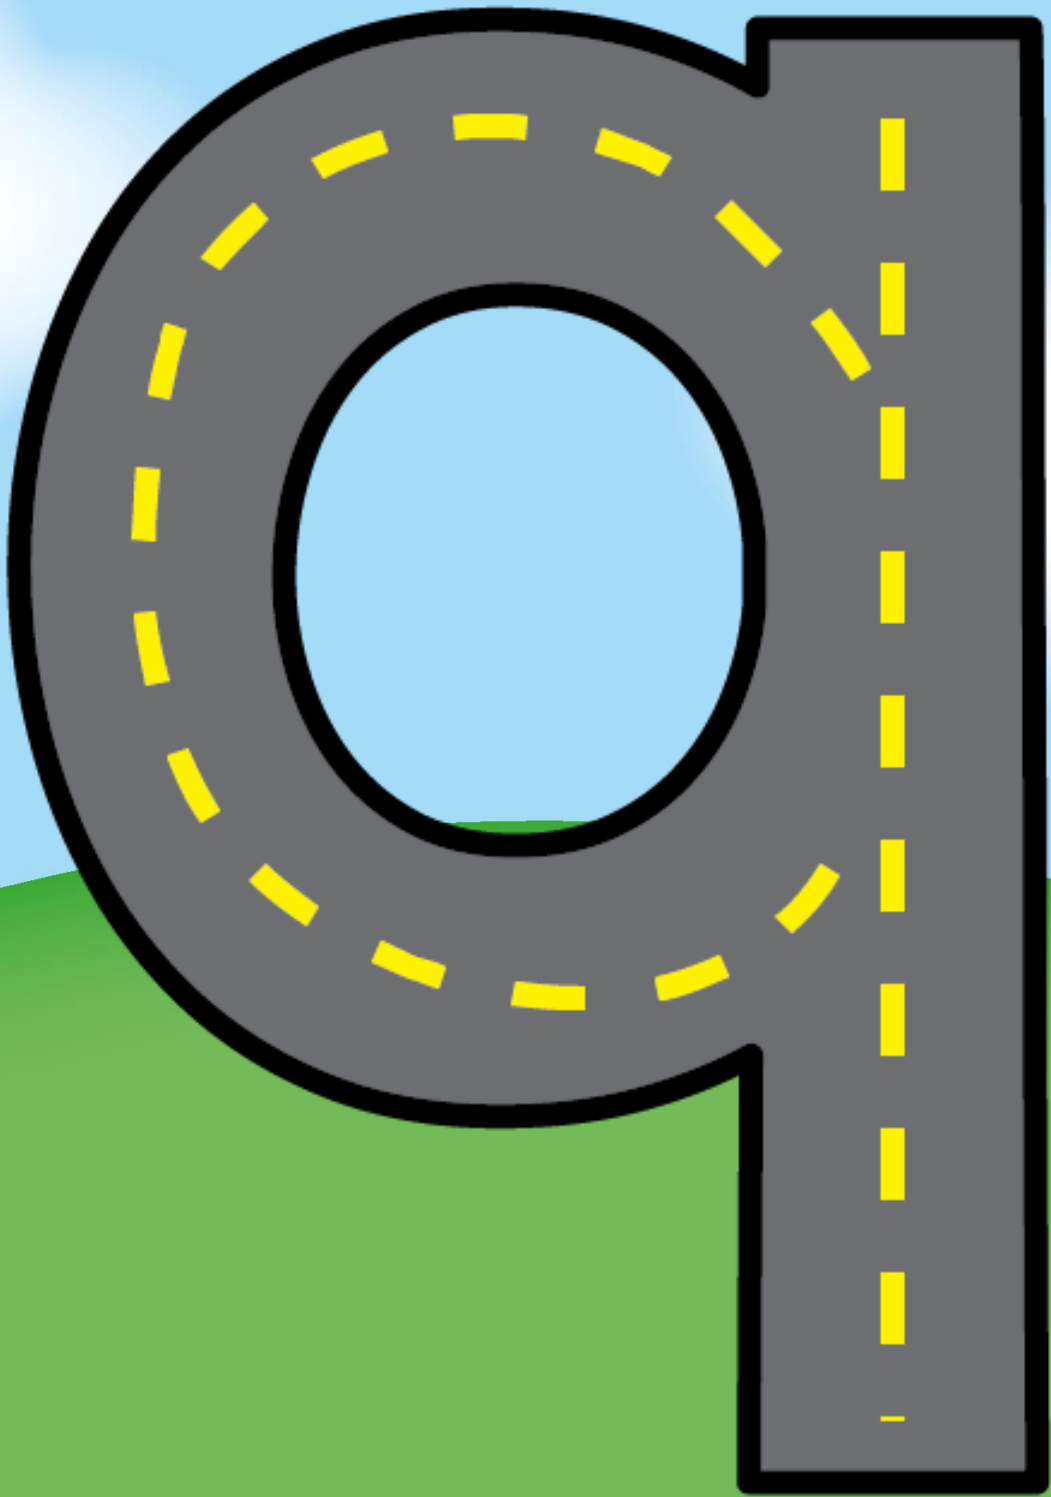

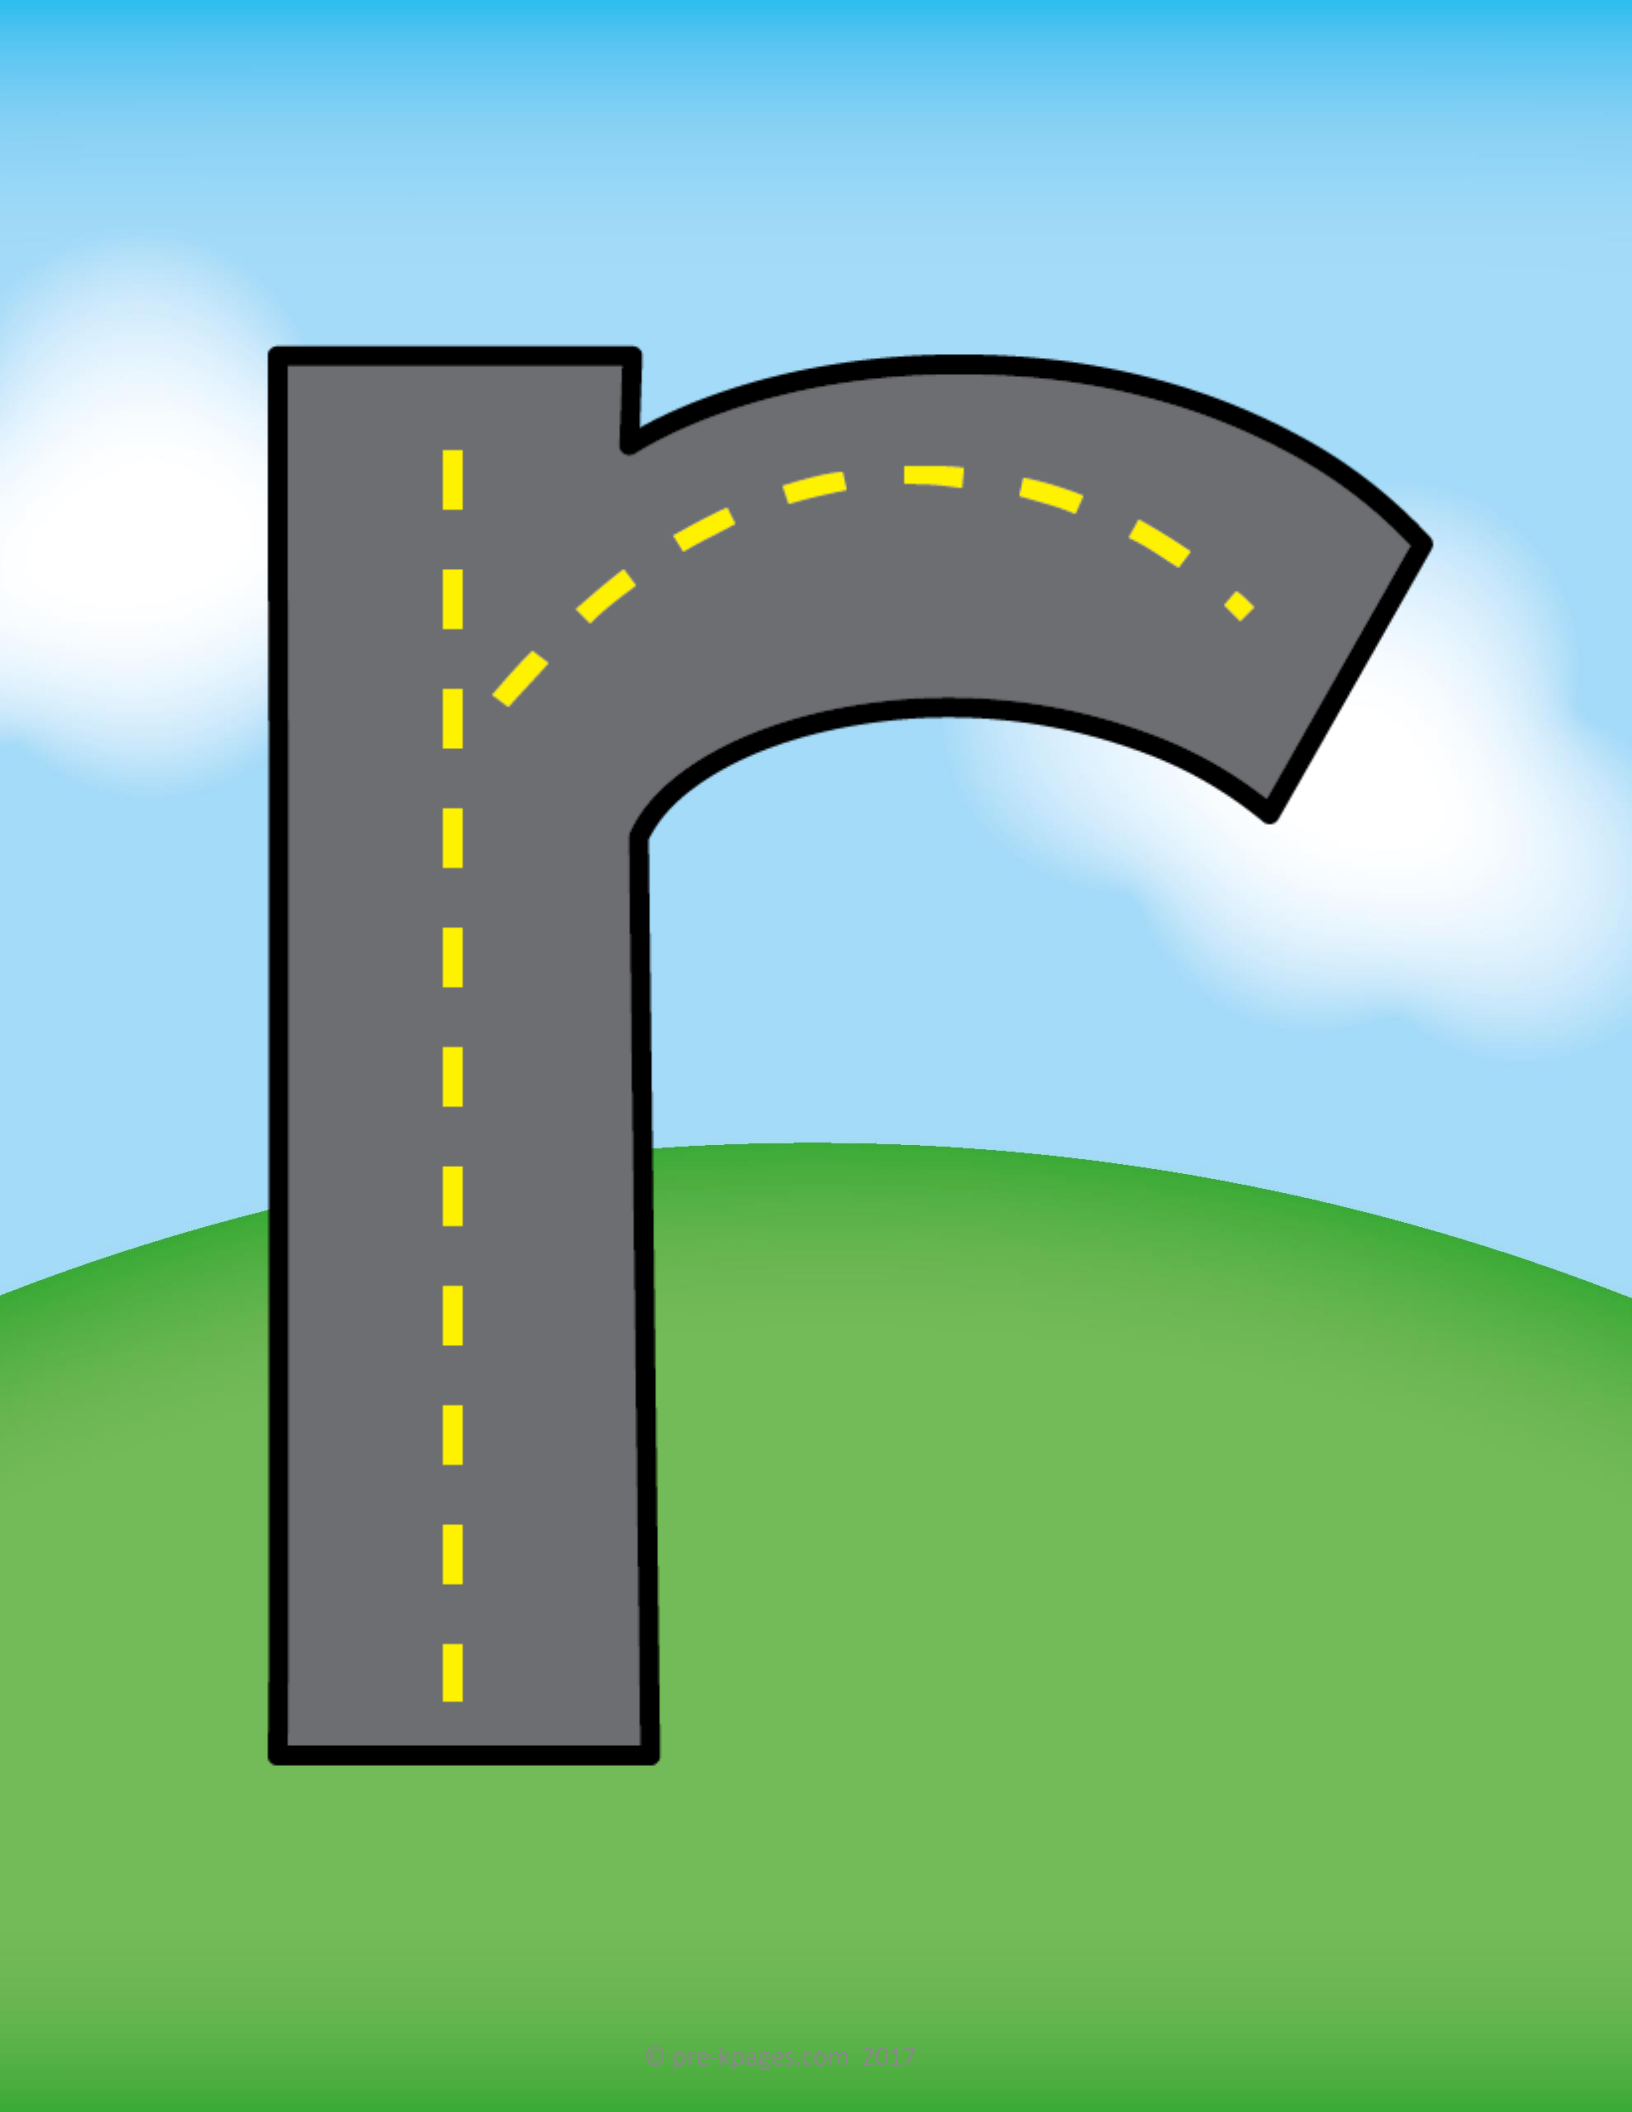

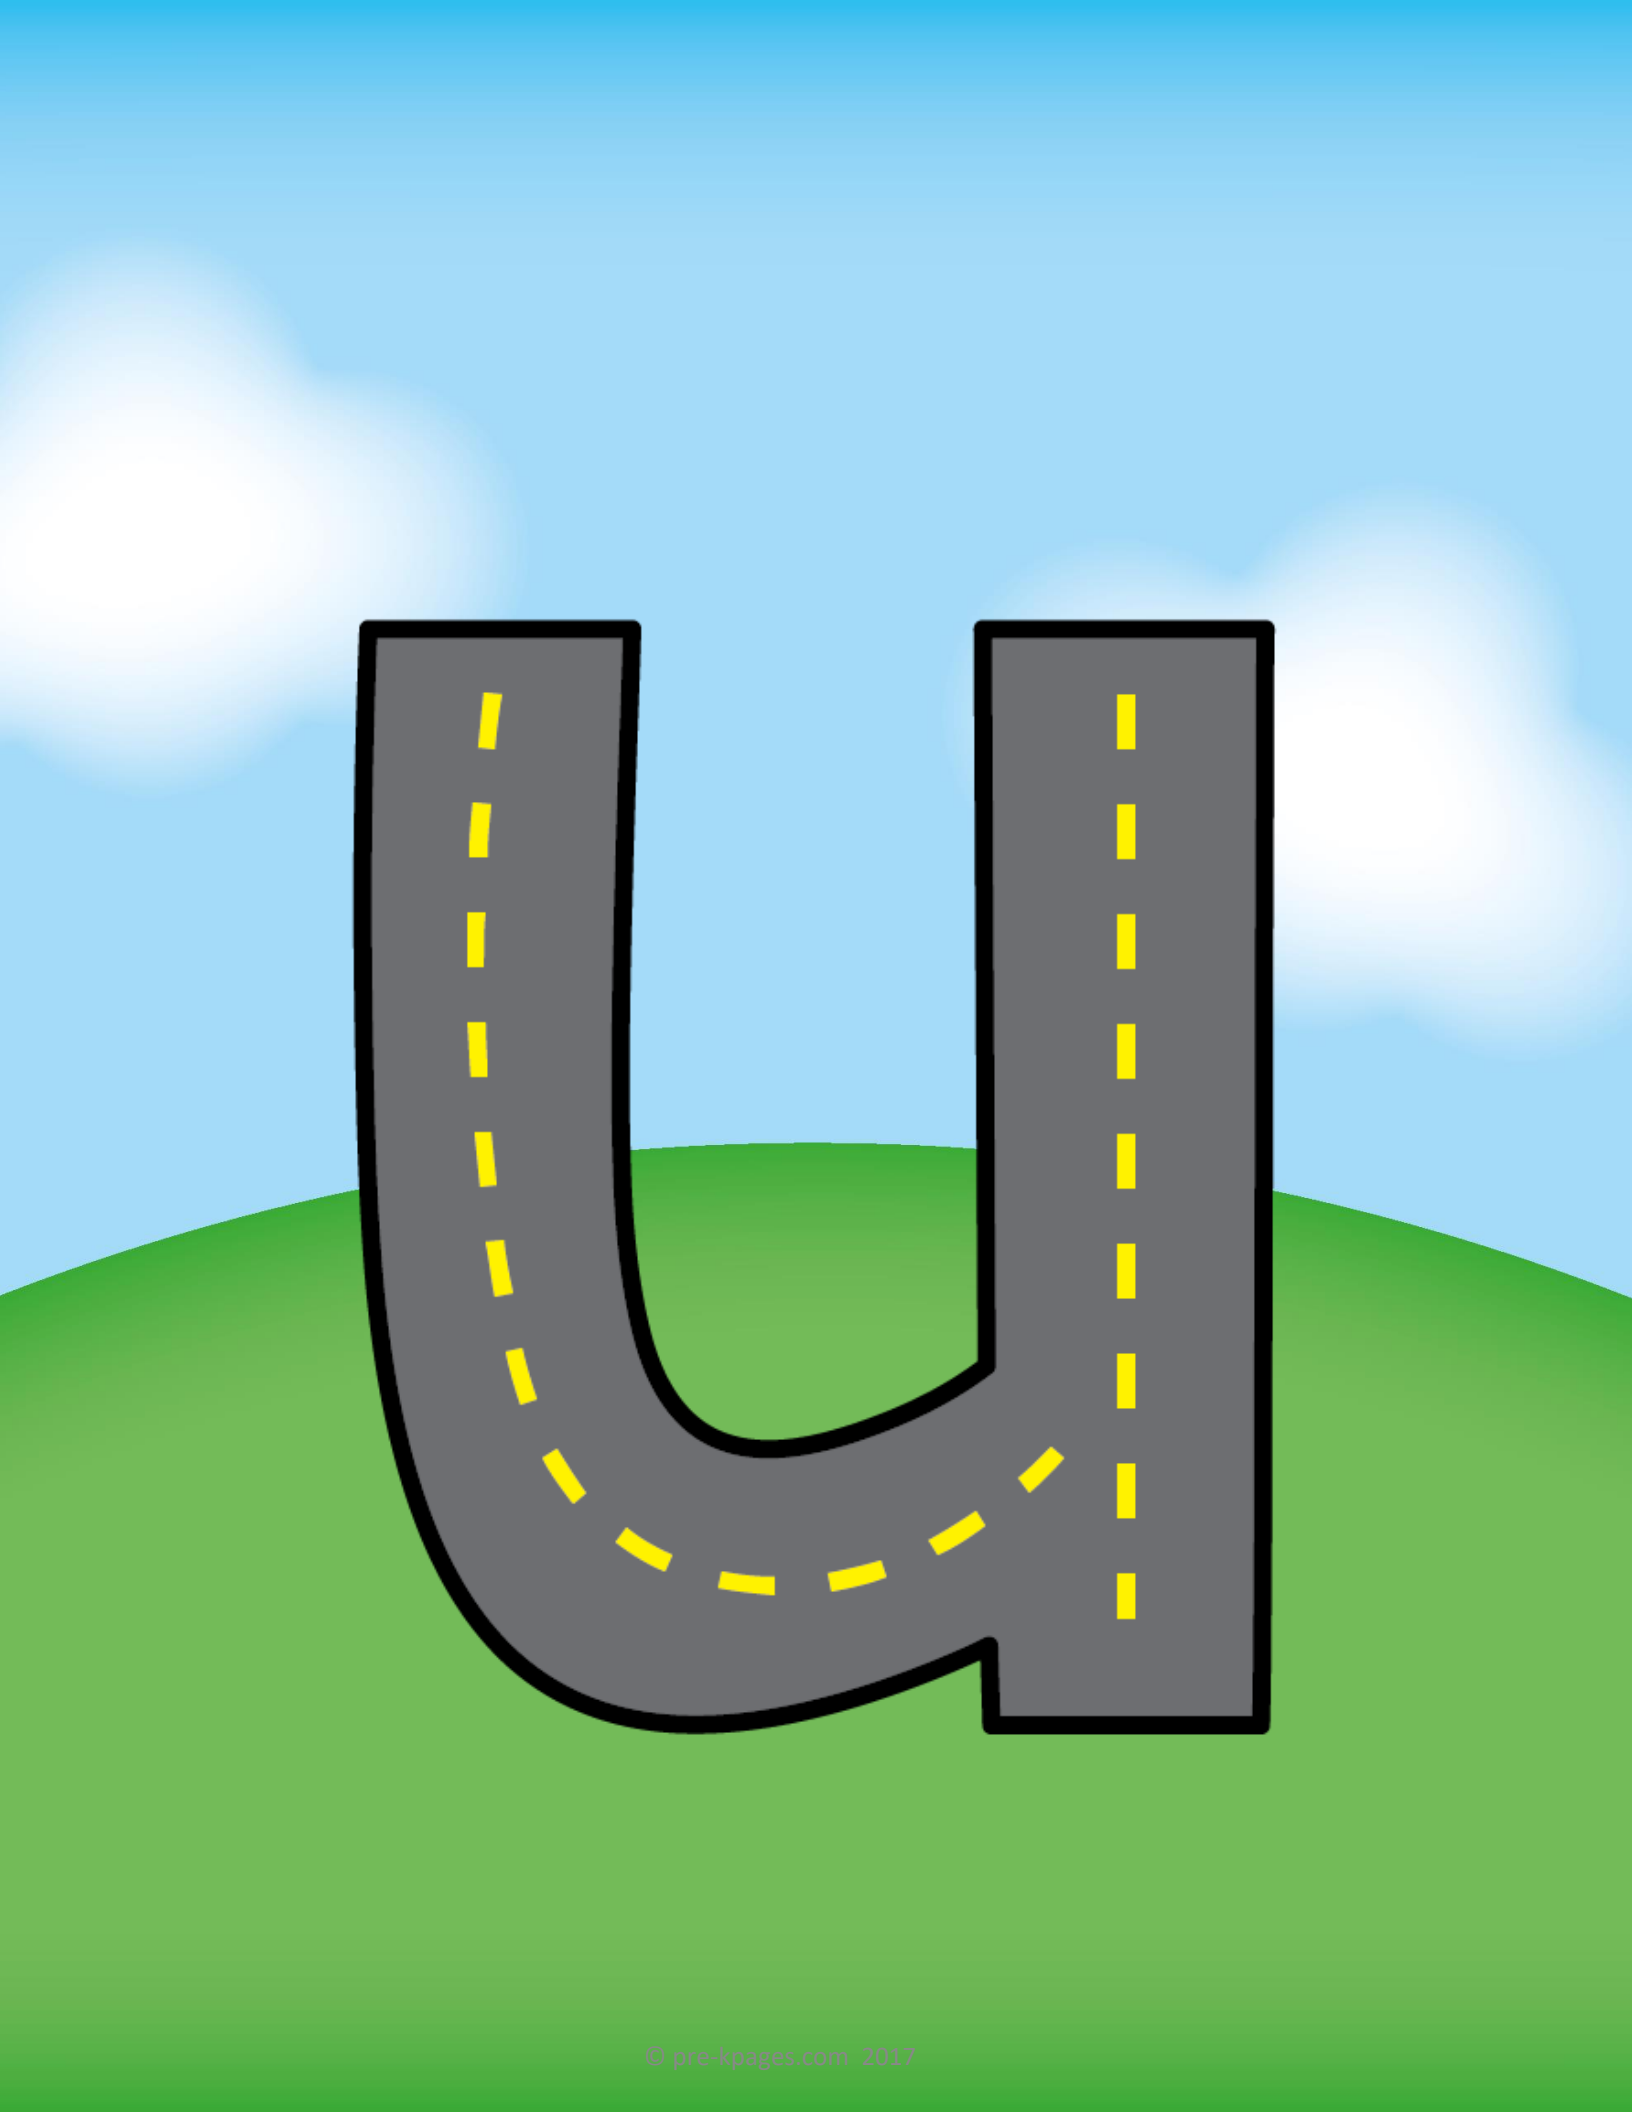

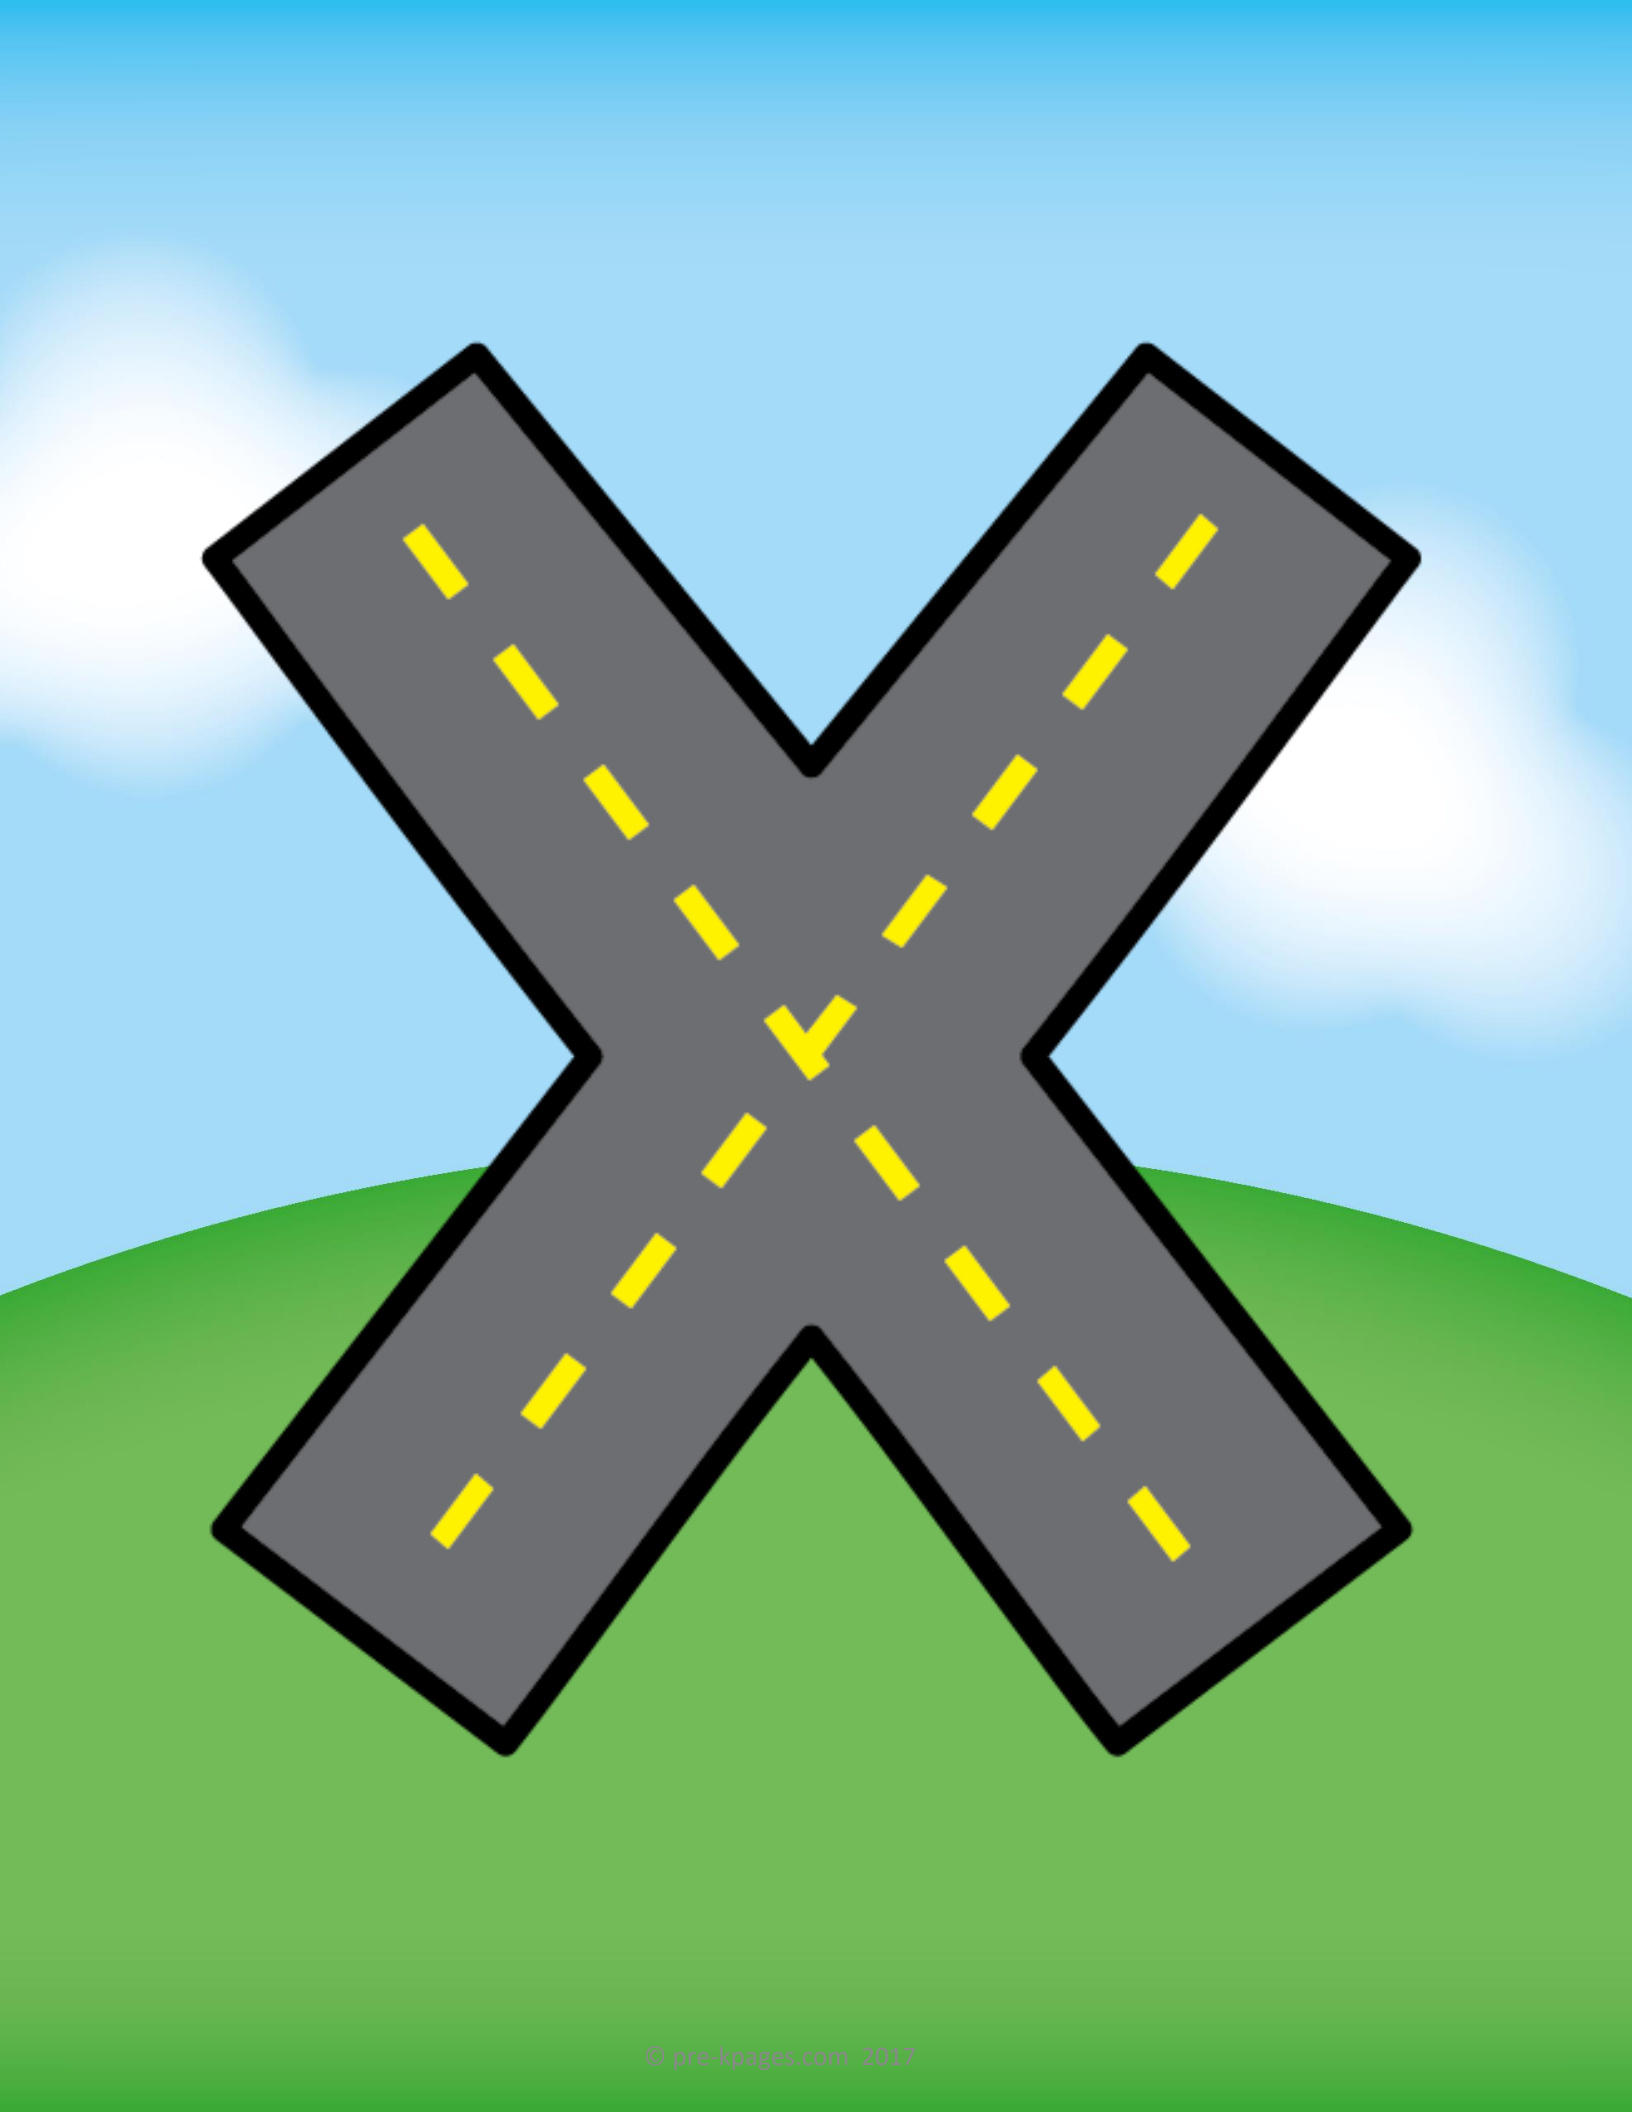

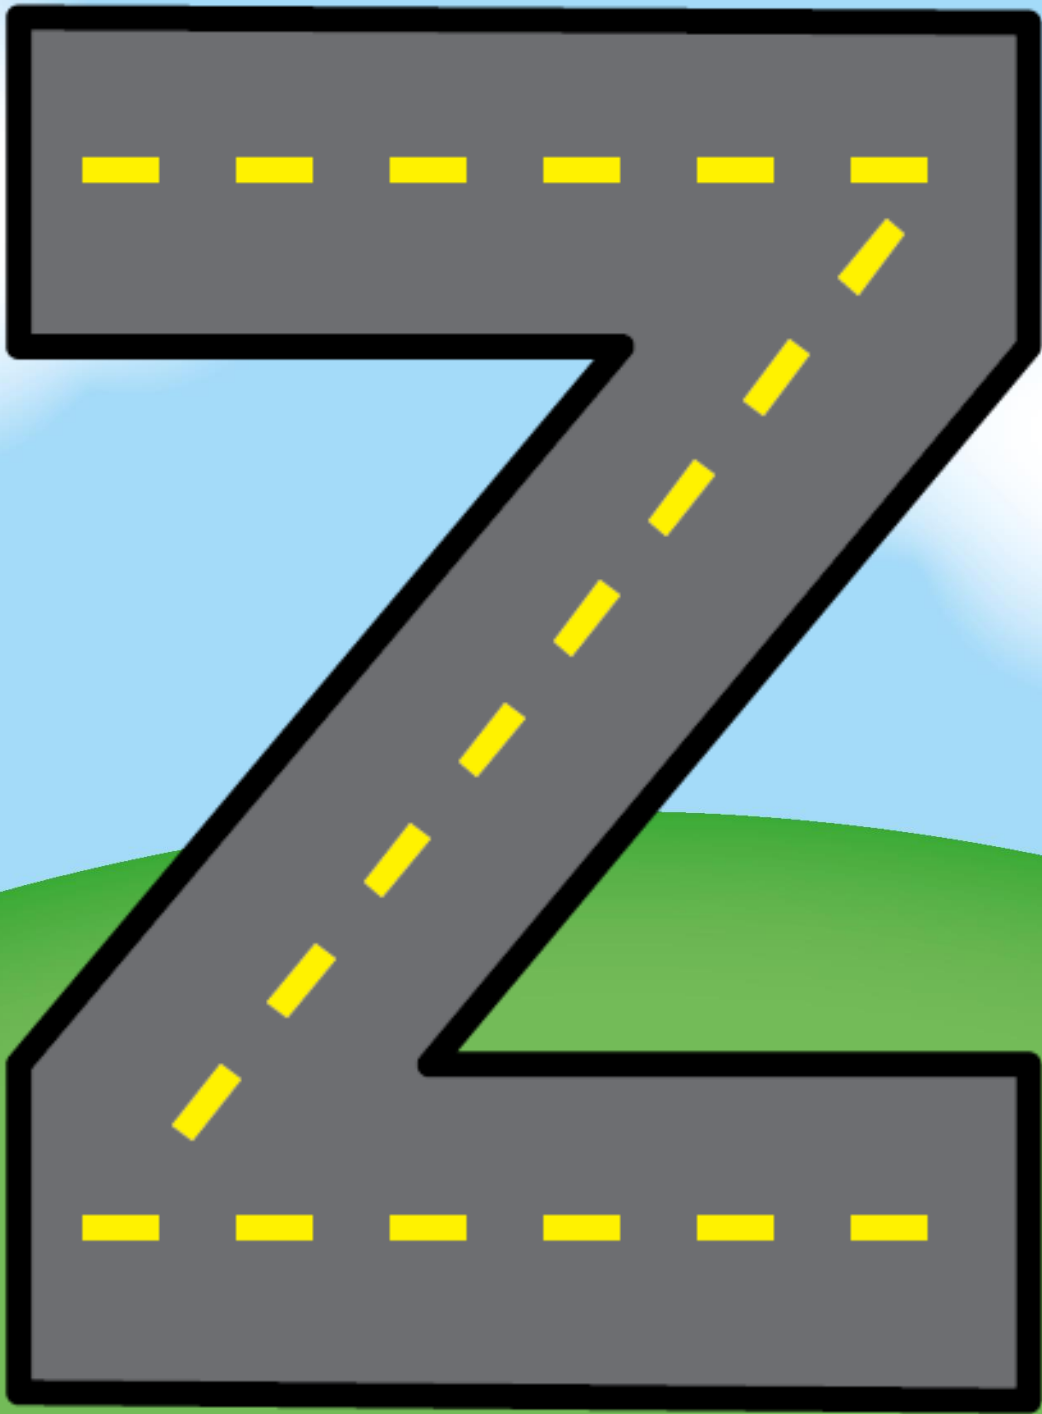

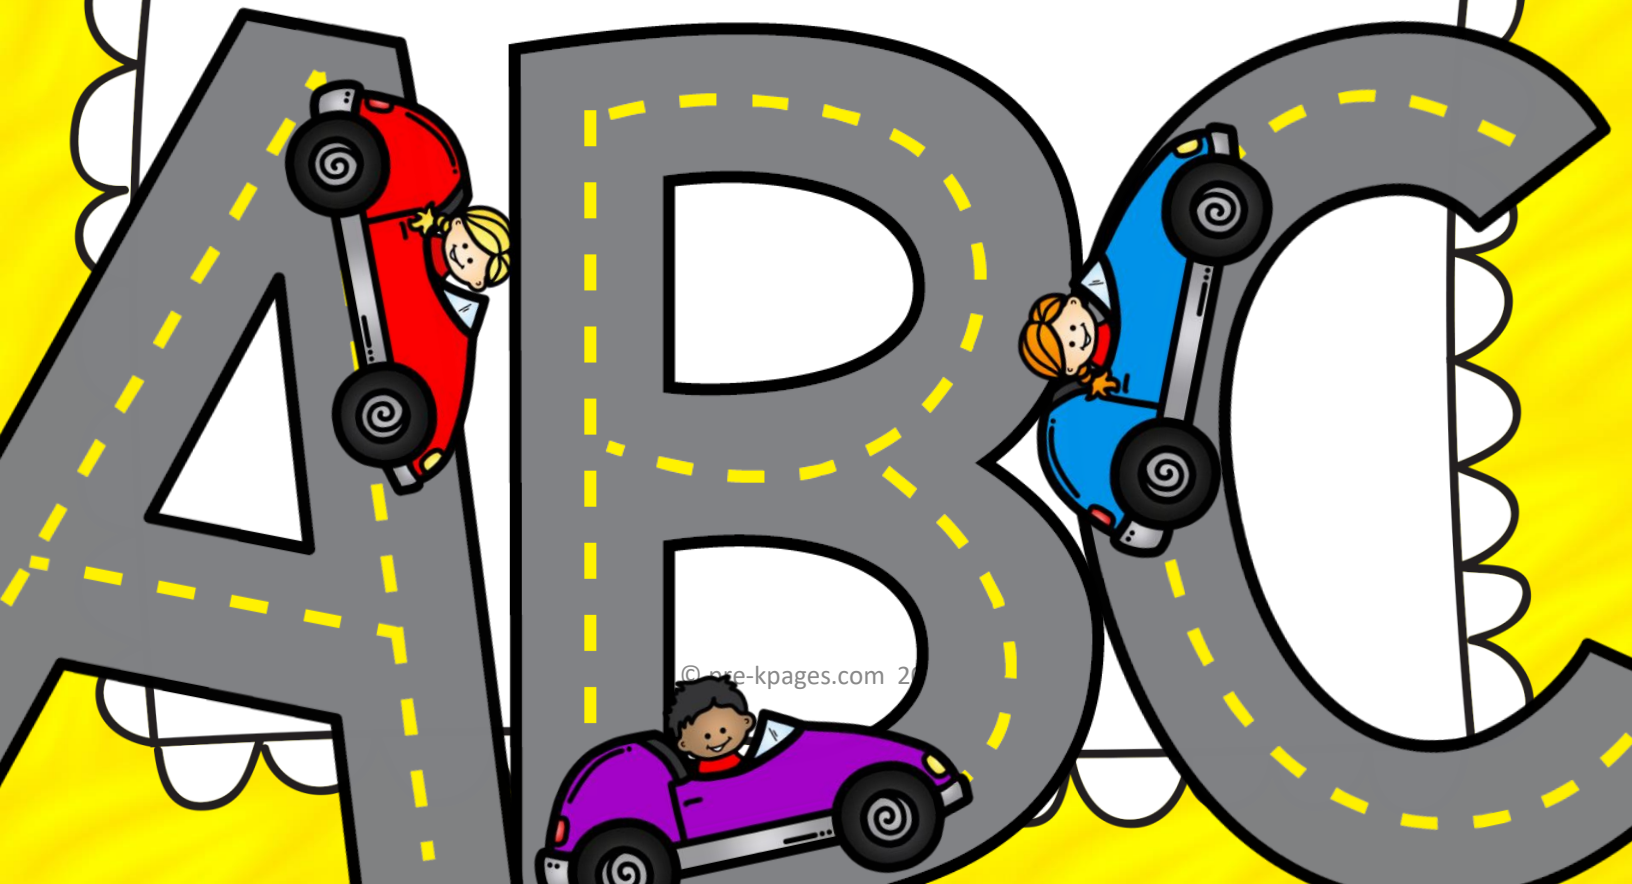

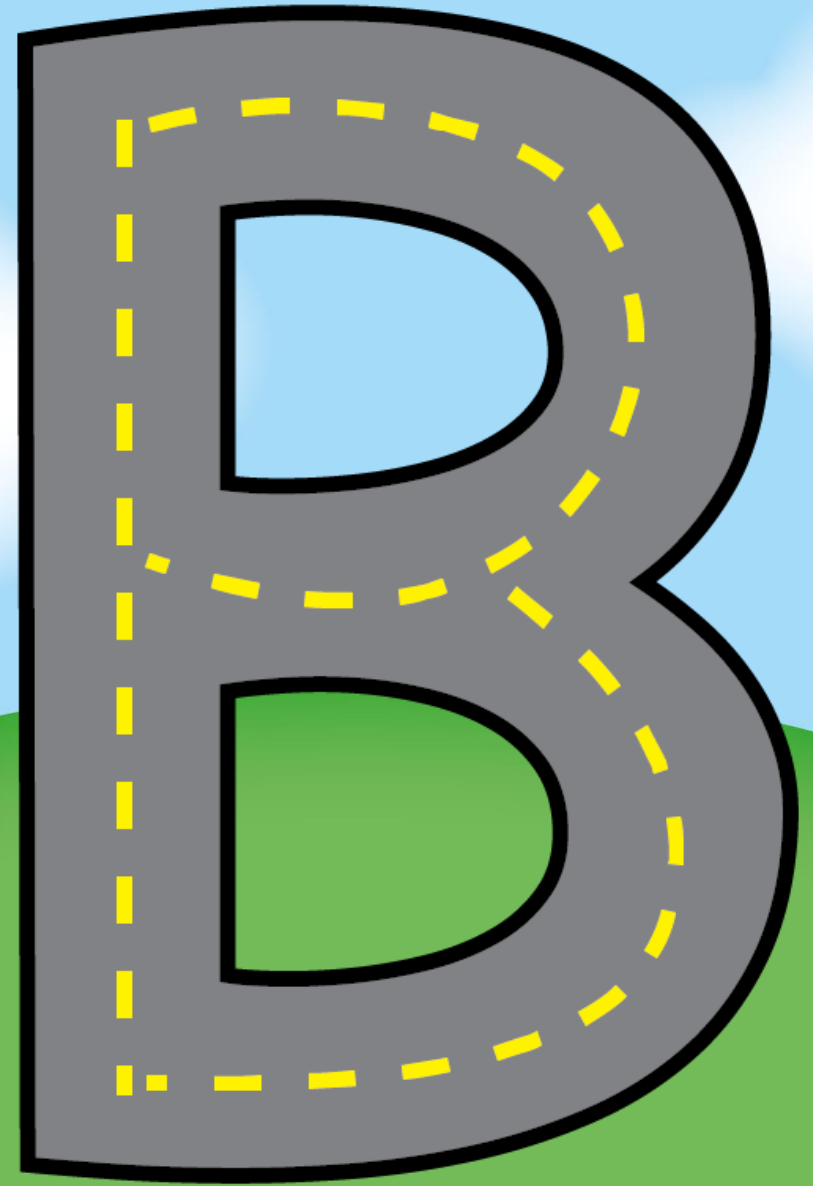

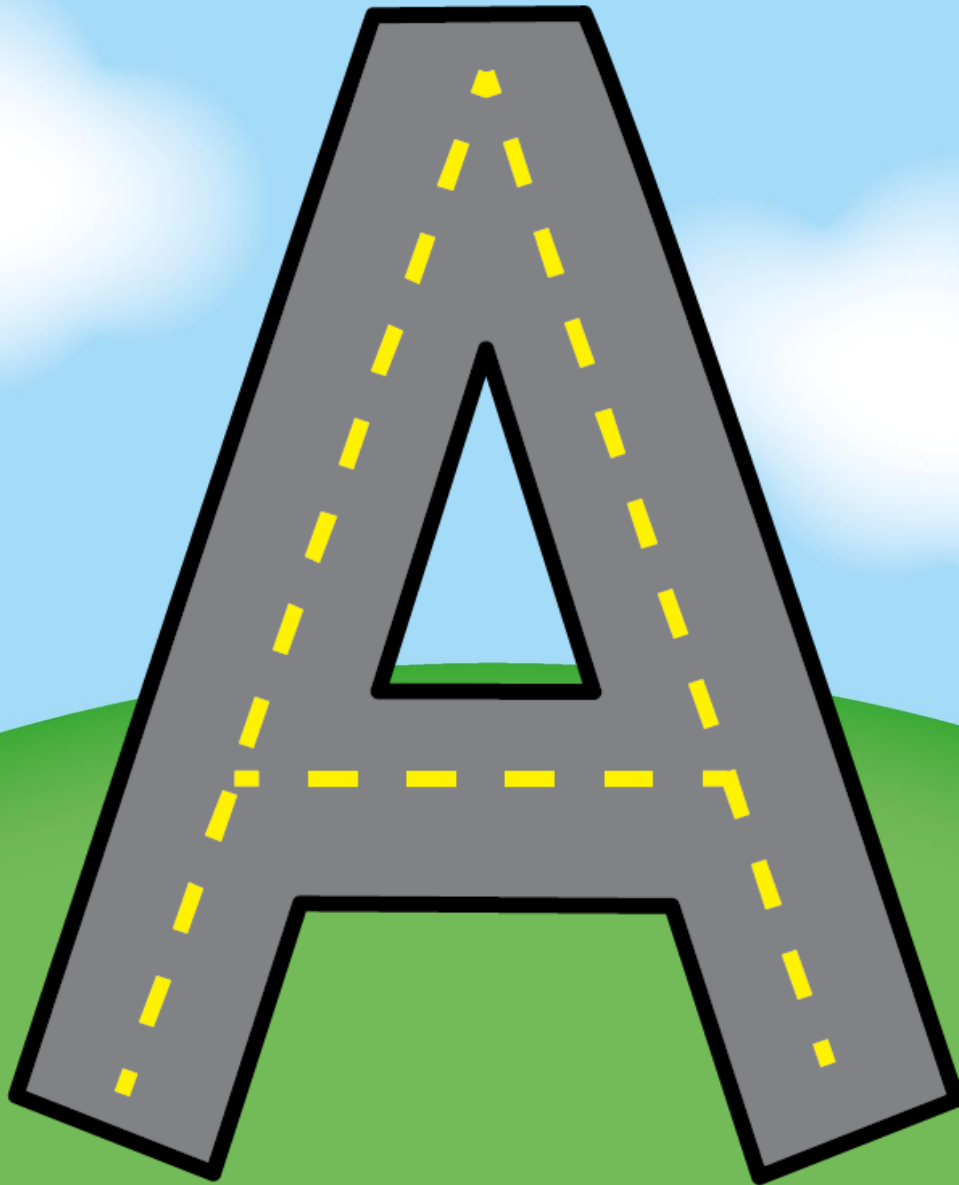

ALPHABET ROAD CARDS

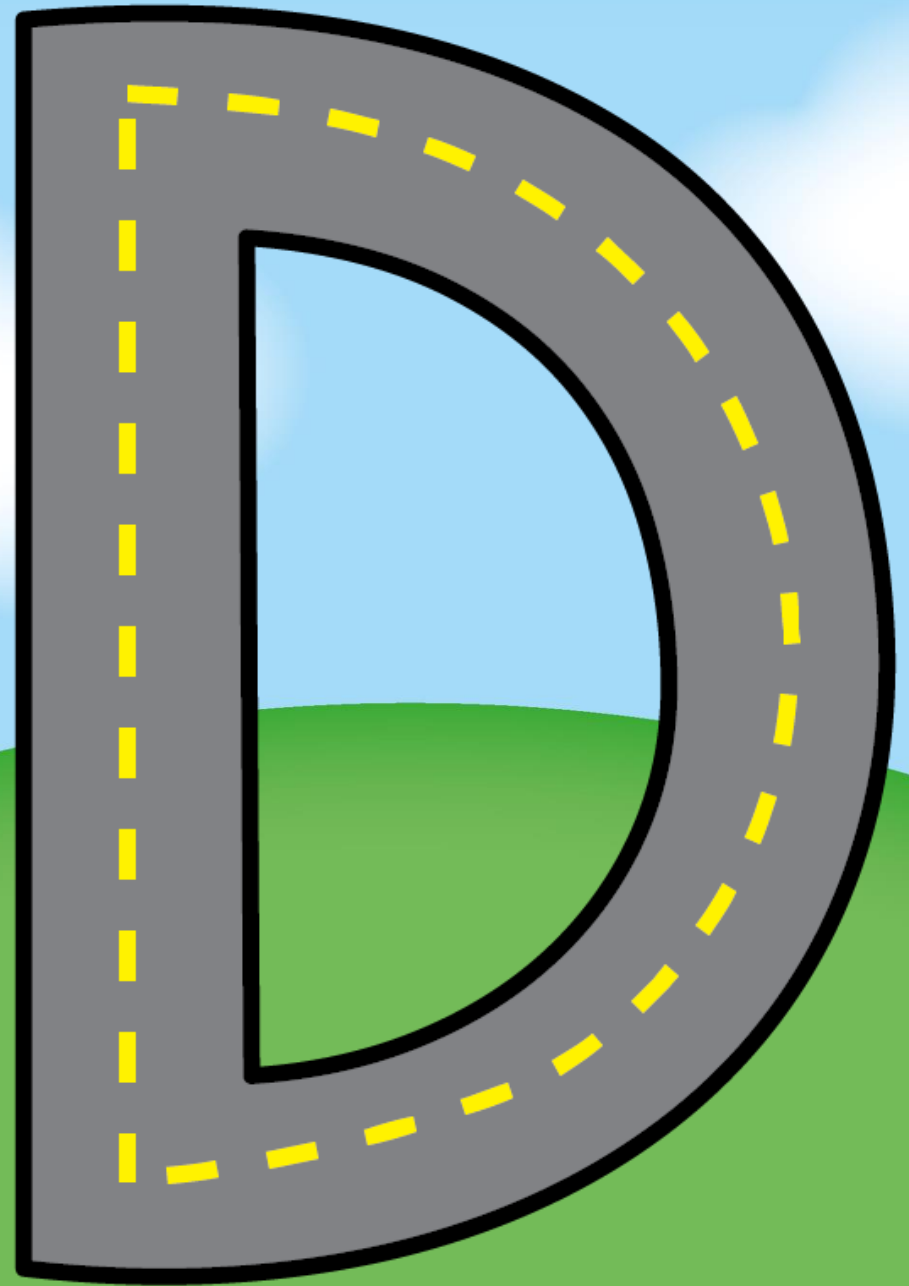

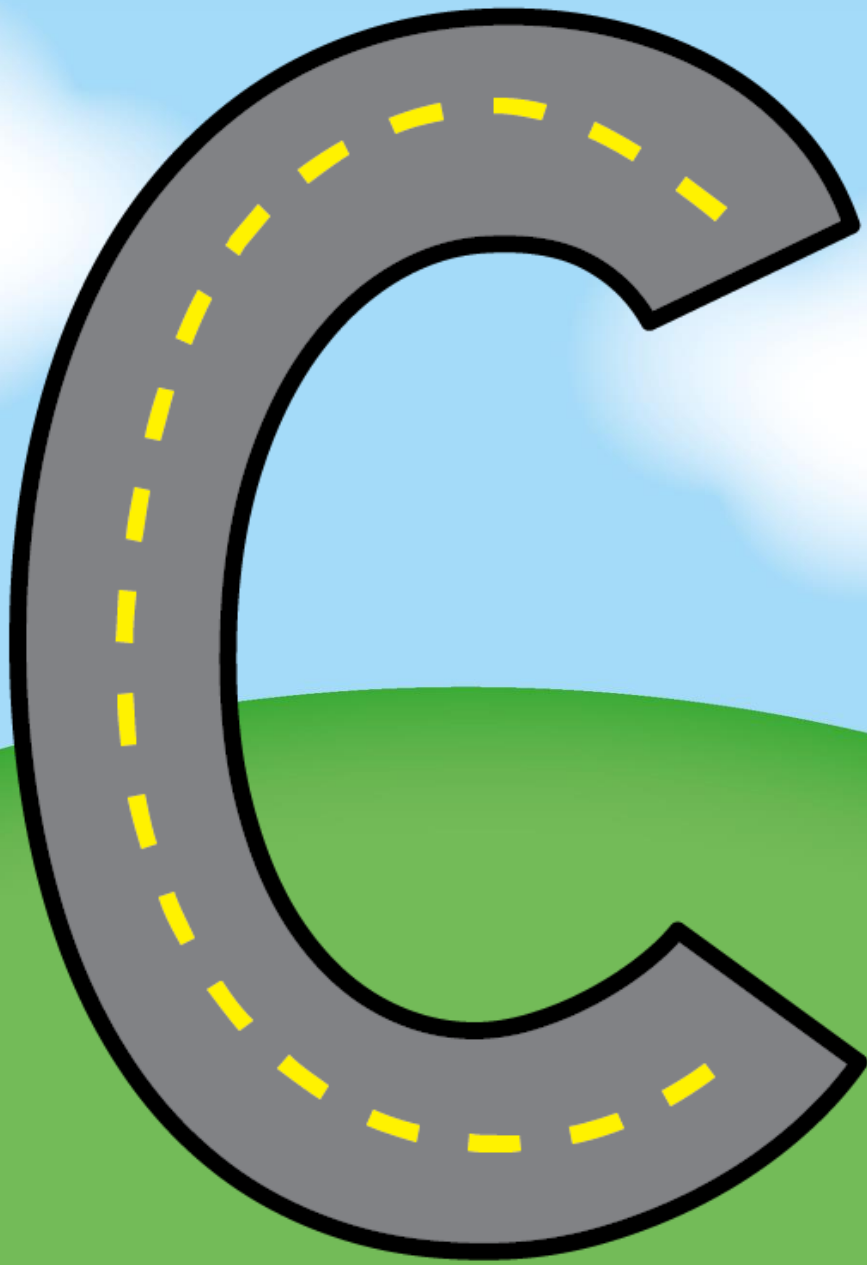

On the following pages you will find the alphabet roads in half-page size.

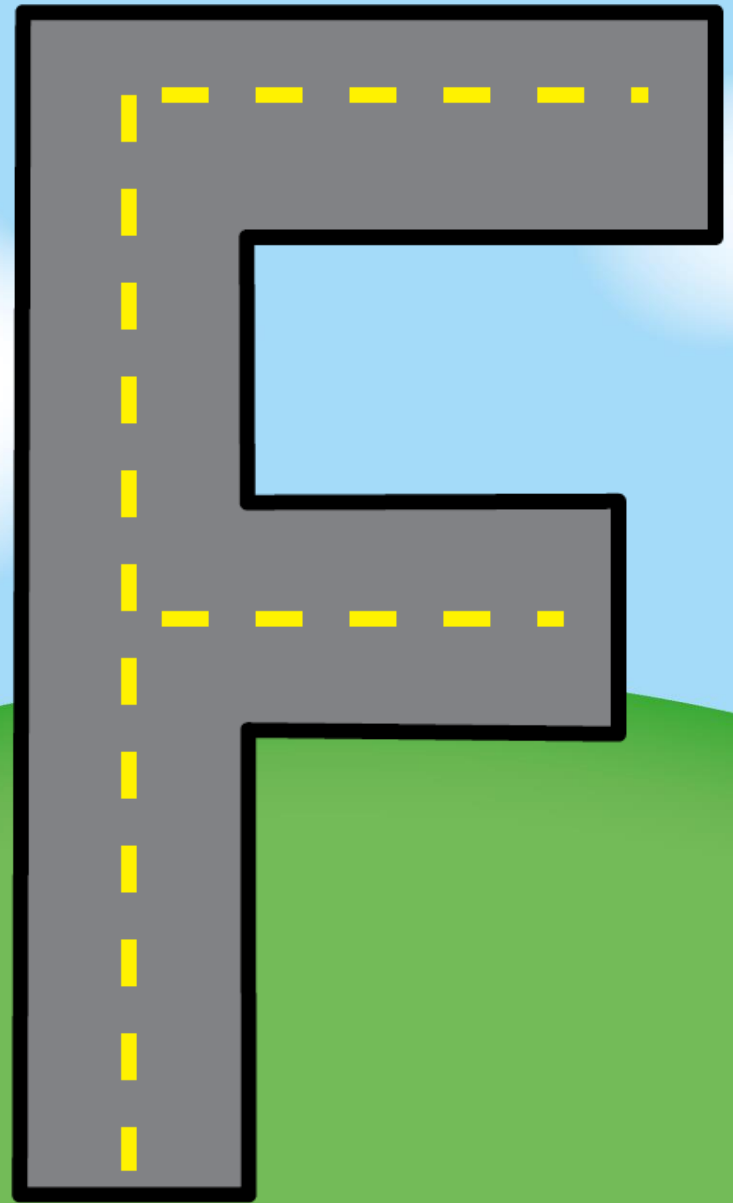

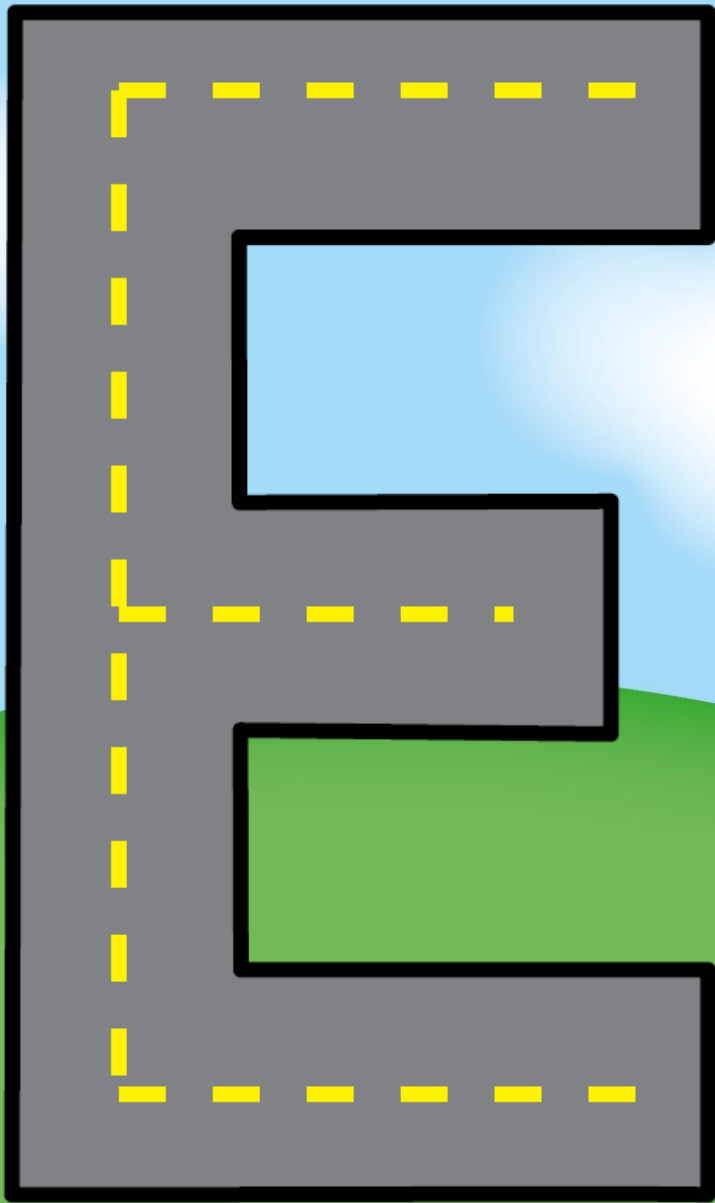

You can use these cards to save ink or space.

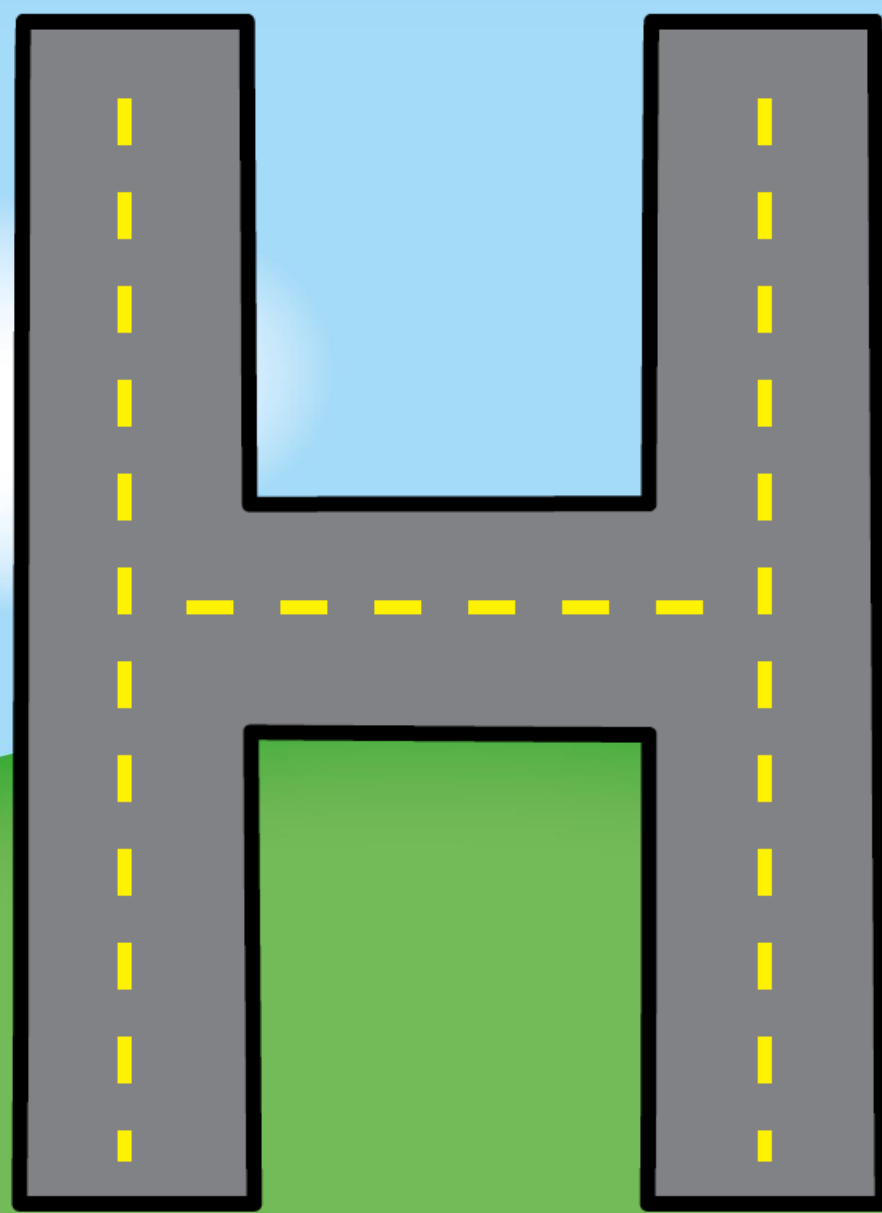

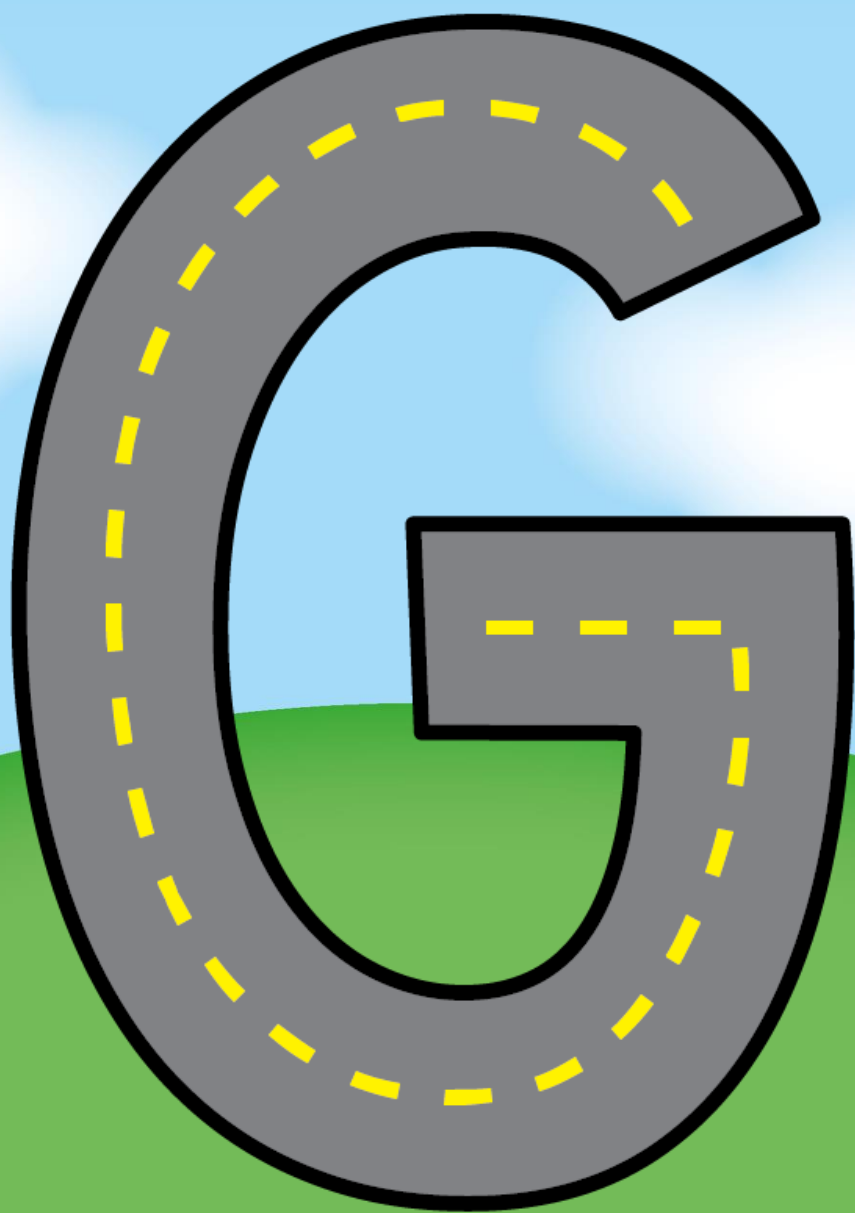

Just print, laminate, and cut in the middle.
