PUPDATES FROM THE PACK

HEALTHY PUP WARRANTY

Introducing the Healthy Pup Warranty – because even the most well-behaved pups can have their "oops" moments! For just \$3 a day, this daily insurance covers any scrapes or cuts that might need veterinary attention while your dog is in daycare or boarding with us. Accidents happen – but we've got your pup's back!

BEAT THE HEAT!

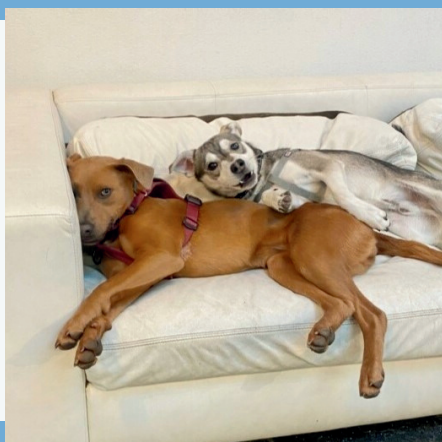

The heat is officially here, and we know how tough it can be for our furry friends to stay cool. That's why we've gone the extra mile to make sure they stay comfortable all season long! Our dog zones are fully air-conditioned to keep them chill, and we've added even more sun shades throughout the facility, creating plenty of shady spots perfect for afternoon naps and relaxation.

But that's not all – we've brought out the pools and splash pads for some extra cooling fun! Whether they're splashing around or simply lounging in the shade, your pup will stay cool, happy, and safe as the temperatures rise.

SUMMER CUTS & BATHING

It's shedding season – or is it year-round for some of you? We've got you covered! Book a spa day for de-shedding treatments and extra brush-outs to keep that fur in check.

Been on a dusty or muddy camping trip? Add a Daisy Wash to your next daycare day and we'll get your pup squeaky clean and ready to go!

PUP OF THE MONTH

MAPLE

This month, we're wagging our tails in celebration of one of our daycare darlings—Maple! This 10-month-old golden retriever has been part of the Pups-A-Daisy family since she was just a baby, and we've loved watching her grow into the lovable little land shark she is today.

Maple is the full package: sweet as syrup, polite as can be, and armed with the most endearing underbite you've ever seen. But don't let those good manners fool you—her tiny shark teeth are always on the move, usually in the form of surprise kisses that come at you fast and full of enthusiasm. She's a pro at charming the humans, winning over new pup friends, and keeping the whole pack smiling.

We're so lucky to have Maple in our crew, and we can't wait to see what adventures she takes us on next (preferably ones that include fewer sneak attacks to the nose). Congrats, Maple—you've officially earned your spot in the spotlight!
