Tammy... thought you should see a success story! Can you believe Lily, Peanut and my sister-in-law's puppy Bear sharing treats! They moved here a few days ago and are staying with us and the dogs are eating together, going out potty and yes... even sharing treats! I just can't thank you enough... it's because of you training me to be the leader... my dogs have benefited... now are we good on everything? No, but this is a huge step. Peanut is doing fine...Lily is having some serious health issues which we are dealing with. Just wanted you to see...

Just wanted you to know we lost our little Lily...Peanut seems a little lost... she died here at home next to Peanut... Thank you for all you did and their lives were much improved because you came into their leaders life. 🐾

Thank you... you forever changed our lives in a positive way. Words can't express our gratitude. On a lighter note, if... that is if we ever decide to get another animal, we will be looking you up for people training again! You were awesome!
