Dear Ms. Sanders:

I am pleased to write a letter supporting Alopecian Beauty Co. being honored and discovered by the Vice President at Fifth Third Bank.

A lady's hair is her glory. In the effort to provide resources to give women their glory. I concur with Alopecian Beauty Co.'s strategic plan to provide a project/program that will impact the community.

In conclusion, I support the efforts of the organization's goal to build a medical facility as they seek external funding to support medical research and literacy programs designed for Alopecia sufferers.

“Any programs that can help our hair loss community make better decisions dealing with autoimmune diseases and their hardships will benefit our children, students, and community.”
