

I am honored to be writing this letter of recommendation on behalf of Monee Sanders. Monee has identified the need for individuals suffering from alopecia, cancer, and lupus to live their best lives and she has molded, shaped, and fashioned a vision to help these individuals. I have had the pleasure of learning more about her vision to create medical centers to not only treat alopecia, cancer, and lupus but also attending to the mental health of these patients.

This is a huge undertaking and Monee has shown that she is ready for the challenge and has already produced amazing outcomes. At the young age of 19, Monee became the first Black woman in history to become the CEO of a non-profit corporation regarding auto immune diseases. She has a unique vibrancy about her that exudes positive energy, and she is authentically committed to this work.

In conclusion, I fully support Ms. Sanders and the Alopecia Beauty Co. as they seek external funding to support a program designed to change lives. Please contribute to this worthy cause and remember "forward ever, backwards never". Let's move forward by supporting the Alopecia Beauty Co. so that they can begin to alleviate the suffering of millions of our fellow citizens.

A handwritten signature in cursive script, reading "Michael Andrews", followed by a horizontal line extending to the right.

Sincerely,
Michael Martin Andrews, Ed.D
