

Battery Operated Coaxial Applicator Gun

For 380ml 10:1 Ratio Dual Component Coaxial Cartridges. Cordless dispensing solution.

Rapid charging battery powered applicator gun for 380ml size 10:1 ratio coaxial dual cartridges.

Cordless guns provide high levels of torque for handling viscous materials. They provide a more controlled flow of adhesive without air surge with pneumatic systems. The rod moves at a consistent rate of 4.5mm per second. At the end of a cycle, the rod moves back slightly to eliminate drips and oozing.

This version has a memory function that provides consistent dosing with every click. A dual rod design system for robust control over coaxial dual cartridges. A quick charging battery and drive mechanism.

No need for airline hoses used with pneumatic guns. No hand fatigue found with manual cartridge guns. Battery guns offer the benefits of both without negatives.

Supplied with a battery, charger in a professional toolbox. This product is CE approved.

Covered by a 1 year warranty.

Technical

Timer: n/a

Battery: 18 V 2 Ah Li-Ion

Speed: Up to 4.5mm/second

For Cartridge: 380ml 10:1 Ratio

Size: 550mm x 445mm x 245mm

Weight: 1.56kg

Charger Input Voltage: 110/220 V AC

Charger Time: 45/55 minutes (80%)

Warranty: 1 Year

Meets or Exceeds: CE Certified

Benefits

- Reduces hand fatigue - battery powered
- No airline hose required
- Reverse rod function eliminates oozing
- Design makes gun more compact
- Dual voltage power charger
- One handed adjustment to flow control
- Applies even thick materials
- Robust build and design with 1 year cover
- Supplied with hard case

Every gun is supplied with a hard plastic carry case, a 110/220V universal power charger, battery, and user guide.

Models:

DB2-380-50-100 380ml 10:1 Ratio
