

Subject: Oppose the SAVE Act – Protect Voter Rights

Dear [Representative/Senator's Name],

I am writing to urge you to oppose the SAVE Act (Safeguard American Voter Eligibility Act), which would create unnecessary barriers to voting and disproportionately impact eligible citizens—especially married women, low-income voters, and people of color.

The bill's requirement for documentary proof of citizenship in person is an unnecessary and burdensome obstacle for millions of law-abiding, eligible voters. Non-citizen voting in federal elections is already illegal, and there is no widespread evidence of fraud that justifies this measure.

If enacted, the SAVE Act could:

- Disenfranchise millions of women who have changed their last names after marriage.
- Make voter registration harder for rural, low-income, and elderly citizens who lack immediate access to passports or birth certificates.
- Harm young and transgender voters by introducing more barriers to updating their voter registration.

Voting is a fundamental right, and this bill serves no legitimate purpose other than restricting access to the ballot. Please vote NO on the SAVE Act and protect our democracy from unnecessary voter suppression tactics.

Sincerely,

[Your Name]
