RE: National Security Breach by Trump Administration Officials

Dear Representative/Senator [Last Name],

As your constituent, I am writing to express my outrage and deep concern over the reckless disclosure of classified military plans by senior Trump administration officials—an incident in which a journalist was accidentally included in a Signal group chat discussing active war operations in Yemen.

This isn't just a "misstep." It's a **colossal failure of national security** that endangered lives, violated federal protocols, and further exposed the staggering incompetence and carelessness of those entrusted with war powers.

You and your colleagues have enabled this behavior for far too long. Your silence, your deflection, and your unwillingness to hold members of your party accountable have helped create the conditions where national security is treated like a group chat.

This was not a leak. This was self-inflicted sabotage.

As someone who claims to support the troops, how do you justify allowing political operatives to jeopardize their safety through digital recklessness?

I am demanding, as a voter and as a citizen, that you:

- Publicly condemn this breach of security
- Support a full, bipartisan investigation
- Advocate for consequences—real ones—for those responsible

If you refuse to do even that, then you've made your priorities clear: protecting power, not protecting the country.

I expect your response.

Sincerely,
[Your Name]
[Your City, State]
