## NEW ON TAP!

### BEER HIGHLIGHT

#### AMOREENA | SAISON

Named after the Elton John single of the same name, the Amoreena is our Saison. We take this French beer and give it an English spin.

Because Saisons don't have a formal style, it is open to interpretation. It can lean on the hoppier side or be something more wild. Farmhouse ales are typically brewed with an open top. This allows different bacteria and microflora to mix into the beer and create that wild flavor Saisons are known for.

Unlike tradition, we brew the Amoreena with a special yeast that mimics the open-top style giving it a more mild and tame flavor that's popular among our patrons. Although the mark of a Saison is a low alcohol level, more modern styles tend to have a higher ABV and the Amoreena is no different coming in at 7.2%.

Now back on tap, come get a taste of our newly brewed Saison, Amoreena. The Amoreena has an initial dryness on the tongue but is met with a very expressive yeast flavor and a rustic finish. Why don't you try a challice?

## WHAT'S A SAISON?

French for "season", *Saison* is a traditional ale that originated in the farmhouses of Wallonia, a French speaking region in Belgium. This style is characterized by low alcohol, light body, and high carbonation.
