Languages

Spanish - native language

English – fluent

Portuguese-limited working proficiency

Education

Ph.D. Student, Texas Tech University, Lubbock, TX.

Major: Agricultural and Applied Economics (expected graduation date: July 2024).

M.Sc. Texas Tech University, Lubbock, TX, 2020

Major: Agricultural and Applied Economics

Thesis: Mexican Consumers' Preferences for U.S. and Texas Beef.

B.Sc. Zamorano University, Honduras, 2015

Major: Environment and Rural Development

Thesis: Food Security in Guatemala using the 2011 Living Conditions Survey (Latin American and Caribbean Food Security Scale and Household Expenditure Survey components).

Research Interests

Agricultural Extension, Agribusiness Data Analytics, Consumer Demand, Non-market Valuation, International Trade, and Production Economics.

Professional Experience

October 2023- December 2023, CATIE-Costa Rica, Remote.

Agricultural consultancy

Conducted quantitative research among cocoa farmers in the Dominican Republic and Puerto Rico to determine government incentives for adopting agricultural practices that prevent the *Moniliophthora roreri*. Developed digital surveys using Qualtrics, analyzed data, and wrote periodic reports.

August 2022- May 2023, Texas Tech University.

Graduate Student Instructor

Instructed the undergraduate course "*Introduction to Agricultural Economics.*" Employed diverse techniques such as lectures, discussions, and practical study cases. We focused on the understanding of economic principles and their real-world applications.

August 2018- Present, Texas Tech University.

Graduate Research Assistant

Conducted research in international trade, non-market valuation, marketing analysis, and consumer demand using primary and secondary data. I used Python, R, STATA, SQL, SAS statistical packages, and Tableau for large database management, analysis, and visualization. Use of Qualtrics and MTurk software for survey development and deployment. Design of choice experiments. Collaborated with other researchers in the design and development of choice experiments.

January 2016- June 2018, Zamorano University.

Extension Agent in the Department of Environment and Rural Development

I was a laboratory instructor for the agroecology course. I also managed the Zamorano agroecological farm, where we trained over 500 second-year students in sustainable agricultural practices. Additionally, I was a member of the Zamorano Agricultural Extension and food security program, where we trained more than 100 medium and small-scale farmers in sustainable agricultural systems throughout the Dry Corridor of Honduras, Nicaragua, and Guatemala. Lastly, I was part of a climate change and disaster reduction risk project.

January 2015 – April 2015, Texas Tech University.

Visiting Scholar/Intern

Assisted in research projects related to agricultural e-marketing and food security. Conducted literature reviews and data management and analyses.

March 2009- December 2011, Pantaleon Sugar Holdings, Guatemala.

Agricultural Production Manager

I managed the cultivation of 4,000 acres of sugar cane. I managed over 500 workers annually, responsible for activities including crop planning, harvest schedules, yield projections, and budgeting. I supervised field activities and coordinated with other agricultural departments.
