Beginning January 1, 2026, the following WST system components become mandatory across all NSC trusts:

Each NSC trust must be registered within the new WST Global Registry system, including:

- alignment with 2026 policy requirements

## **C. Unified Governance & Reporting Structure**

All NSC trusts will adopt:

## **2. Trustee & Officer Compliance Deadline — *January 1, 2026***

All current Trustees, Officers, and designated fiduciaries **must complete the new compliance process no later than:**

**January 1, 2026 (Final Deadline)**

Failure to comply will result in:

- temporary suspension of authority
- restriction of access to WST systems, databases, and resources
- potential reassignment of fiduciary duties
- review by the Executive Trustee's Office

### **Compliance requirements include:**

1. Updated Trustee Declaration (2026 version)

All Series Trusts remain autonomous internally, but oversight, audit, and governance functions will now fall under the WST global structure.

#### **B. Standardization of Documents and Procedures**

All prior versions of forms, agreements, templates, and operational manuals are superseded. Only the 2026 PMA/WST editions are authorized.

Trustees must:

- ensure compliance of all subordinate officers
- transition local documents into WST formats
- implement the unified risk management and reporting system
- maintain communication with regional WST coordinators

#### **D. Rule of Law & Jurisdictional Clarification**

All NSC trusts are reaffirmed as:
