Note 2 – Summary of significant accounting policies

Basis of presentation

The accompanying unaudited annual financial statements have been prepared in accordance with generally accepted accounting principles for financial information and with the instructions to OTC Markets Alternative Reporting Standard.

Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. The management makes its best estimate of the outcome for these items based on information available when the financial statements are prepared. Actual results could differ from projections.

Subsequent Event

The Company evaluated subsequent events through the date when financial statements are issued for disclosure consideration.

Adoption of Recent Accounting Pronouncements

The Company has implemented all new accounting pronouncements that are in effect and that may impact its financial statements and does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

Note 3- Going Concern

The accompanying financial statements have been prepared assuming the continuation of the Company as a going concern. The Company has not established an ongoing source of revenues enough to cover its operating costs and is dependent on debt and equity financing to fund its operations. The accompanying financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the possible inability of the Company to continue as a going concern.

Management anticipates that the Company will be dependent, for the near future, on borrowings from related party to fund operating expenses. Considering management's efforts, there are no assurances that the Company will be successful in any of its endeavors or become financially viable and continue as a going concern. These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or amounts and classification of liabilities that might result from this uncertainty.

Note 4 – Discontinued Operations

In addition, the state of Wyoming Revised Statutes (WS 1-3-105(a)(i)) establishes a statute of limitations on enforcement of any contract, obligation or liability founded upon an instrument, to be done in writing within 10 years of establishment of such obligation or debt. To date, no written acknowledgement nor any partial payments has been delivered to the Company by a creditor within six years from the date of this annual report.

Note 5 – Related party transactions

During the three months ended June 30, 2020, the company finalized a stock transaction and brought 20,000 metric tons of gold bullion into the company as an asset base. John Bush is the signatory on this asset and the guarantees to support this asset.
