

OFF TO PERU—Loading one of the steel boxes made at Butler Armco for the first leg of their journey to Peru are Dr. Tom Pozorski, left, and Dr. Shelia Pozorski. The Pozorski's, both assistant curators at the Carnegie Museum of Natural History, will conduct archaeological studies

in the Casma Valley of Peru to learn more about the diet and cultural development of that country between the years 1000 and 2000 B.C. In August, Ed Dlutowski, right, Armco Electrical Engineer, will join them for a month to help with survey and excavation in Peru.
