ABOUT US

Global Code Bridge is a young team and we have already achieved significant success in the IT field. Understanding the advantages and disadvantages of IT outstaffing, we saw an opportunity to provide a solution that offers flexibility, cost-effectiveness, and access to highly skilled programmers.

We have developed a comprehensive recruitment process that allows us to identify the most talented and skilled programmers in Central Asia. Our recruitment team, composed of experienced professionals, ensures that all candidates are thoroughly vetted and possess the required qualifications and experience.

Global Code Bridge is excited to be part of this growing industry, and we look forward to building strong partnerships, delivering outstanding results, and making a positive impact in the world of programming and technology.

Connecting Talent, Powering Success.

- Quality and Expertise
- Talent Acquisition and Retention
- Flexibility and Scalability
- Client-Centric Approach
- Technological Innovation
- Geographic Reach and Cultural Alignment
- Strong Partner Network
- Proven Processes and Methodologies
- Thought Leadership and Industry Recognition
- Cost-effectiveness

OUR VISION

CONNECTING TALENT, POWERING SUCCESS

At Global Code Bridge, we offer a range of key products and services aimed at meeting the programming and IT needs of our clients.

By working together, our team ensures that Global Code Bridge remains at the forefront of the outstaffing industry, providing exceptional service and delivering results that exceed our clients' expectations.

MESSAGE FROM OUR FOUNDER

While I founded the company and oversee its operations, I am supported by a dedicated team of professionals who contribute their expertise and skills to make our vision a reality.

Umut Muratbekova, Founder and CEO of Global Code Bridge

OUR SERVICES

Global Code Bridge is able to provide programmers for both long-term and short-term engagements. This means that whether a client requires a programmer for a specific project or for an ongoing role, Global Code Bridge can provide the right candidate. This flexibility allows clients to choose the most suitable engagement for their business needs.

Outstaffed Programmers

We provide highly-qualified middle and senior programmers from Central Asia.

Our recruitment process ensures that we identify and vet the most suitable candidates who possess the necessary qualifications and experience for each project.

Clients can choose from a diverse pool of programmers with expertise in various programming languages, frameworks, and technologies.

Development of Programs and IT Products

Our outstaffing services offer flexibility, allowing clients to engage programmers for both long-term and short-term projects based on their specific requirements.

The prices for outstaff programmers are acceptable, practical economic solutions compared to the use of outsourcing options.
