MY WORLD SOMETIMES

COLORING PAGES

ADVENTURERS, DISCOVERERS, IMAGINERS & CREATORS!

Welcome to the Coloring Pages!

These pages were created just for you.
In our world, we notice things in our own ways.
We imagine things in our own ways.
And we create things in our own ways, too!

So grab your crayons, markers, pencils, or whatever you love to create with and make these pages YOURS.

There are no perfect colors. There is no one right way to color something. Your world gets to look the way YOU imagine it.

And keep an eye out along the way...

You might meet a few familiar faces helping you through the pages. Some are adventurous.

Some are ridiculous.

And at least one may be a very old wizard.

If you would like to share this activity booklet, please share the QR code instead. That way, your friends and family can join in the whole My World Sometimes journey, too!

PARENTS, CAREGIVERS, EDUCATORS & SPECIAL HELPERS...

This is for you, too.

Color together. Talk together. Be silly together. Ask about favorite colors, strange ideas, tiny details, Most I importantly, give your kiddo room to create a world that belongs completely to them.

Join in the adventure and visit us for more activities and resources made for people like you.

Visit often. There is always more to create!

Keep Creating,
