ROCKWOOL COMFORTBATT

R-15 24 In. X 47 In.

Stone Wool Insulation (8-Pack)

100832

Wide range of available R-values

Noncombustible and fire resistant

Long term thermal performance

Water and moisture resistant

Easily cut with a serrated knife

Inorganic, does not promote mold growth

Rockwool Comfortbatt insulation for wood studs and joists. It is a stone wool insulation product for use in both new residential construction and renovations. This semi-rigid batt has a unique flexible edge designed to compress as the batt is inserted into walls, attics, ceilings, and floor frames. The flexible edge springs back, expanding the batt against the frame studs to give a complete fill. Rockwool Comfortbatt compensates for normal variations in stud centers caused by distortion or warping.
