Services & Technical

SUPERNOVA pride themselves on being flexible to the requirements of their clients and venues. Throughout the planning, pre-event, event day and post-event stages, we will wherever possible, go above and beyond expectations to ensure that an event will meet all of our clients objectives. We will also work with you to drive ticket sales and create audio, video and digital content to help market and promote your event.

Typically, we offer a 90-minute set performance which can be a full run through or a "2 x 45min" to allow for a mid-set interval. We will however always work around your plans to make sure our set meets your specific requirements. There is no "one size fits all" when it comes to event planning, so we respect that and are always flexible.

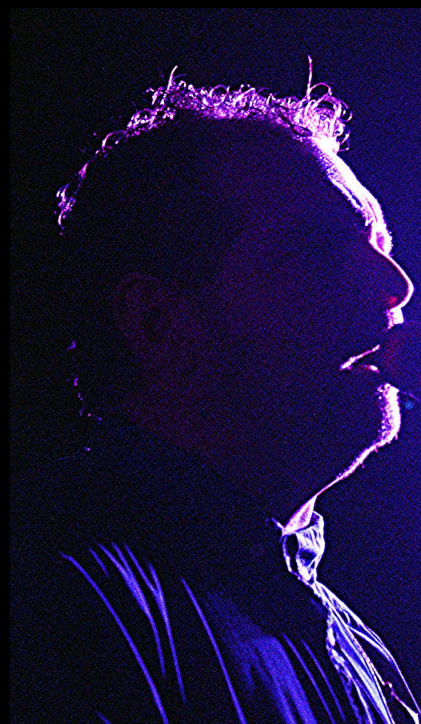

"Tech-Spec" & Equipment

We are able to provide a full Professional Audio, Lighting and Monitoring rig capable of entertaining 350 - 500 guests at both indoor and outdoor events. Of course, we also have an industry standard full back line and technical specification which can be supplied to on-site audio and staging contractors.

Pricing / Fees

Our booking fees are a reflection of a number of factors including but not limited to travel, equipment requirements, time on site, date, venue / event and performance time.

To discuss your event or to find out more, please contact our management team on 0121 517 0898 or email hello@supernovaoasis.co.uk

The background of the entire image shows the silhouettes of four band members performing outdoors at sunset. From left to right: a person partially visible, a person singing into a microphone, a person playing a guitar, and a person playing a bass guitar. The sky is a mix of orange, yellow, and grey clouds.
