ALPINE ACCOMMODATION

General Info

We have put the most experienced coaches together for this exciting camp, whose focus will be on snowboard progression . . The camp will be broken down into 4 groups with coaches rotating . The new Location is Myoko where we have hired out a massive newly renovated Lodge just 200m from the main Gondola. You will enjoy the close proximity of the longest run in Japan not to mention the park we will be riding that goes for 2.5km of Snowboard park heaven plus pipes rails and jumps into the soft stuff!! Our camp is by far the best value at \$500 - \$800 cheaper per week than any other Tour or Camp! Part of this Camp's appeal are the Real Riders that are up and coming, Pro Riders and top Industry names. To catch the many anticipated highlights, we have 3 filmers on this camp, together with the best team of coaches we ever had in the last 9 years of doing these popular progressive camps.

We have learned and now know, people want value for money, coaches with no egos and those Riders that can break down tricks. The best part is getting to hang with the Riders after a full day of mind blowing powder. Myoko gets 15m of snow and guaranteed powder; it's not over crowded and much steeper than Niseko . The lodge will have the ALL GIRLS camp on our top Floor running at the same time. We have our own DJ Wed - SUN . Our own bar that is locked down for the campers ONLY . All coaches and staff are under the same roof ! The value becomes possible as we have the numbers to drop the price and therefore offer the campers true value for money . The camp will be structured for more progression on this camp than we have ever done before and caters for all levels of snowboarding; you will need to be able to link turns and have basic snowboard experience.

Resort Stats
