## PANORAMA MOUNTAIN RESORT INFORMATION

### About Panorama Mountain Resort-

Panorama is the most complete ski-in/ ski-out resort in the Canadian Rockies. Panorama Mountain rises 4,000 vertical feet above the true slope-side lodging and giant hot-pools, but it's not until you reach the summit that the real scale of the terrain becomes apparent. Below are Canada's longest groomed fall-line cruisers and legendary 'backcountry style' riding. You're here to ski but there is so much more.

### Top reasons for visiting Panorama –

- Complete ski-in/ski-out resort in Canadian Rockies
- Intimate village – everything in walking distance from accommodation.
- Panorama Spring Pools – Canada's largest slope-side hot pools.

### Resort Facts –

- Terrain; 20% beginner, 55% intermediate, 25% advanced
- 10 lifts
- Over 129 trails
- Top elevation – 2450 m – Vertical drop 1300m
- Longest run – 6.5kms

### Activities/Events-

Make the most of it in Panorama with snowshoeing with your kids along the snow covered Valley Trail or speed to Paradise on a snowmobile. Rent skis at the Greywolf Nordic Centre and skate towards to Hale Hut or mush your own dog sled team through a forest of giant Christmas trees. Want some adventure? Try night skiing, heli-skiing or mountain tours. If skiing isn't your thing, in the village you can spend your days shopping, eating at the restaurants and getting pampered at the Day Spas.

### Getting Around-

At the entrance of the village, you'll find a convenient check-in for all Panorama Mountain Village lodgings. Panorama is intimate by design and easy to get around. Most of the village is compact and within walking distance.
