

CORE HOMIES

Core Homies Clout Paper 1.0

Introduction

Core Homies is a new and innovative community driven NFT project minted on the Coreum Network and part of **Blockchain Homies**, a cross chain NFT project minting across four networks.

Introduced by six Founders well known on the XRPL for setting some of the highest standards of Holders rewards and art, with hand drawn digital art created by one of the most prominent digital artists in cryptocurrency. The Homies are cool, fresh, swagged out little apes bringing fun and style to Coreum, as well as rewards to the holders of these hip and trendy NFTs.

Core Homies comes under the Parent Company NFT Evolutionz. The team behind X Walkers, Core Heroes and xPirates NFT projects on the XRPL Blockchain.

Supply

Core Homies Collection

The total collection supply is 1,000 and will be released as one collection when the project launches on the Coreum Network.

With this supply, the Homies collection minted on Coreum stays very exclusive, we can also maintain a secondary market, while keeping the art fresh and unique.

Mint price - 350 Coreum

We will also have a limited supply of Special NFTs with exclusive rarity, sold via innovative and action-packed auctions held in the community Discord.

Core Homies OG H Cards

The Core Homies OG H Cards will be allocated to those who spin numbers 1-50 from the Core Homies 1k collection.

Holders of these very exclusive NFTs will benefit from a 10% discount on any remaining NFTs available from the 1k collection at the time of allocation. As well as this, the 10% discount can be used cross chain on all Homies collections.

OG H Card holders will have access to their own exclusive giveaways.

Utility

Central to the **Core Homies** takeover is Utility. The **Core Homies** community will be rewarded by simply holding their NFTs in their wallet.

10% of all funds generated go back to the community as rewards, divided by each NFT depending on rarity and NFT points held. Details of the rewards system can be found below under REWARDS.

OG H Card holders will receive an unlimited 10% discount on the **Core Homies** collection (as well as the Homies collections on other blockchains), as well as priority whitelist spots. More Utility may be added further down the roadmap for our OG H Card Holders.

10% of all funds generated when the collection sells out, will also go back to the X Walkers community as rewards paid in \$XRP.

Discord members holders club – as a discord member and verified holder of **Homies**, you will qualify for entry in raffles and giveaways, as well as contests for holders only, held in our Discord Community chat.

Rewards

Core Homies NFTs will be allocated points based on rarity. This will feed into a project Richlist that will automatically update holders' wallets to confirm points held. The Rewards pot will be divided by total points in circulation and then paid to each wallet according to their points total.

We will have a 4 Tier point system.

Tier 1 – 1 point (Original Tier – 90% of the supply – 900 in total)

Tier 2 – 2 points (Gold Tier – 7% of the supply – 70 in total)

Tier 3 – 3 points (Diamond Tier – 3% of the supply – 30 in total)

Tier 4 – 5 points (Exclusives only sold via auction – not part of the main collection supply)

Roadmap

Q2

- ✓ AMA in the NFT Evolutionz discord 19/04/2023
- ✓ Update Social Media platforms to reflect the Blockchain Homies project changes
