

# HBAR HOMIES

Hbar Homies Cloutpaper 2.5

## Introduction

**Hbar Homies** is a new and innovative community driven NFT project on the Hedera Network and part of **Blockchain Homies**, a cross chain NFT project minting across multiple networks. Introduced by five Founders well known on the XRPL for setting some of the highest standards of Holders rewards and art, with hand drawn digital art created by one of the most prominent digital artists in cryptocurrency. The Homies are cool, fresh, swaggered out little apes bringing fun and style to Hedera, as well as rewards to the holders of these hip and trendy NFTs.

**Hbar Homies** comes under the Parent Company NFT Evolutionz. The team behind X Walkers, Core Heroes and xPirates NFT projects on the XRPL Blockchain.

## Supply

### Hbar Homies OG H Cards

The project launches with 250 NFTs minted as OG H Cards. Mint price on the OG H Cards is 1250 **Hbar**. Holders of these very exclusive NFTs will receive the first OG drop for free. The first drop will be 250 **Homies** minted as **Gold Tiers** for H Card Holders only. H Card Holders will also have a direct whitelist spot on all future collections at a 10% discount.

OG H Card holders will have access to their own exclusive giveaways on a monthly basis as well as an additional rewards pot accrued from use of the **Hbar Homies** affiliate link to Loco Lizards online Poker site.

### Hbar Homies Collection

The total collection supply is 4,000 released in batches.

With this supply, we can focus on maintaining a secondary market as active as possible, while keeping the art fresh and unique with each drop.

Mint price – TBA when our batches are going live.

We will also have a limited supply of Special NFTs with exclusive rarity, sold via innovative and action-packed auctions held in the community Discord.

## Utility

Central to the **Hbar Homies** takeover is the art. With these stunning art pieces comes added utility. The **Hbar Homies** community will be rewarded by simply holding their NFTs in their wallet.

10% of all funds generated go back to the community as rewards, divided by each NFT depending on rarity and NFT points held. Details of the rewards system can be found below under REWARDS. Rewards will be airdropped at the end of each month once the H Cards and first Gold drops are SOLD OUT.

OG H Card holders will receive an unlimited 10% discount on all drops (as well as the Homies collections on other blockchains), plus priority whitelist spots. More Utility may be added further down the roadmap for our OG H Card Holders.

10% of all funds generated will also go back to the X Walkers community as rewards paid in \$XRP.

Discord members holders club – as a discord member and verified holder of **Hbar Homies**, you will qualify for entry in raffles and giveaways, as well as contests for H Card holders only, held in our Discord Community chat.

## Rewards

**Hbar Homies NFTs** will be allocated points based on rarity. This will feed into a project Richlist that will automatically update holders' wallets to confirm points held. The monthly Rewards pot will be divided by total points in circulation and then paid to each wallet according to their points total.

We will have a 4 Tier point system.

Tier 1 – 1 point (Original Tier – 90% of the supply – 3600 total)

Tier 2 – 2 points (Gold Tier – 7% of the supply – 280 total)

Tier 3 – 3 points (Diamond Tier – 3% of the supply – 120 total)

Tier 4 – 5 points (Exclusives only sold via auction – not part of the main collection supply)
