

CAPABILITY STATEMENT

COMPANY MISSION

We are committed to helping clients achieve their industry specific goals, by providing full spectrum business solutions.

CORE COMPETENCIES

Construction Management

PQ offers turn-key construction management services. Our experiences and qualifications give us the ability to manage projects from the beginning to end. Our professional services range from construction management, project management techniques to oversee the planning, design, and construction of a project from its beginning to its end.

Engineering Support Management

PQ offers engineering support services which include Design-Build, Business Information Modeling (BIM) services via Autodesk Revit and Navisworks. BIM technology allows us to provide our clients with futuristic visualization of their projects

Facility Management

PQ offers facility management services in the areas of infrastructure operations and management along with integrated project delivery. Our integrated project delivery services can help your organization improve their performances, by operating through the analysis of existing organizational problems and the development of plans for improvements.

Management Consulting Services

PQ provides diversified management consulting services to include value added reseller services, technology, accounting support, and program management services to the government, public, and private sector clients.

COMPANY PROFILE

PROQUA Corporation (PQ) was founded in 2002 by Gregory Williams. Until that time, Mr. Williams has worked with a family-owned business Contract Management, Inc., which was started by his father Mr. James Williams in December 1995 and even till today still partners with them on various construction projects. PQ is a business solution provider of construction management, engineering support, and management consultant services catering to our esteemed federal clientele, state & local government, and private sector clients. PQ is a one stop value added reseller solution provider for all things construction supplies.

VISION

Commitment to a Professionalism and Quality lifecycle business solutions approach to our core values:

- Promote diversity as a culture for success.
- Craft market driven packaging strategies that promote joint ventures and subcontracting opportunities.
- Serve as the premier community outreach, technical assistance, and training source for our clients.
- To provide access to professional services and quality products that solve our client's needs.
- Being a front runner in advocating green and sustainability.
