For Immediate Release:

YOU, PAID FOR LIFE!

Imagine not only being paid handsomely for your own work - but profiting from your fellow writer's work as well, even if you never wrote another word.

At Last! [Worldwide Publishers LTD's](http://WorldwidePublishersLTD.com) much anticipated "**PRIVATE STOCK PLACEMENT**" means Writers, Reporters, Journalists, Editors, Literary Agents, Copywriters, Artists, Experts, Authorities, Marketers and Investors will own this first and only world class publishing and marketing company with a huge competitive offshore tax advantage and almost assuredly secure their financial futures.

[Worldwide Publishers LTD](http://WorldwidePublishersLTD.com) - a privately held publishing and marketing company will shatter the traditional mold of publishing by partnering with it's authors, writers, experts and content providers, offering up to a 50%-50% split in profits with it's partners, in a bold new marketing and publishing concept that will break the backs of fat cat, greedy publishers called "**PARTNERSHIP PUBLISHING**".

[Worldwide Publishers LTD](http://WorldwidePublishersLTD.com) Founder & CEO Ron Schmidt is planning to offer a private stock placement, selling ownership in this newly established offshore publishing and marketing company using the same powerful business strategies that Jerry Yang used to build Yahoo! and Wayne Huizenga used to build Waste Management, Blockbuster Video, Republic Industries and Auto Nation.

To more easily reach untapped U.S. and international markets and increase profits, [Worldwide Publishers LTD](http://WorldwidePublishersLTD.com) will begin offering selected authors, experts, writers, marketers equity ownership in the company, an opportunity never before seen in the history of publishing, where fat cat publishers typically got wealthy, while writers and authors got the short end of the financial rewards.

"Imagine getting paid for not only your own - but everyone else's work as well. This bold new "**PARTNERSHIP PUBLISHING**" Publishing and Marketing Company concept is sure to do extremely well as savvy literary agents will get their writers, authors and content providers on board now before the public IPO to get an ownership stake in this dynamic new company and a much bigger piece of the publishing pie." - Bill Smith, Editor WritersNewsYouCanUse.com
