LinkedIn.

This is the crazy america we are in now.

I've only asked scientific questions regarding the covid vaccine that exposes the complete lack of science behind the vaccine.

And this is the reason to restrict my account?

You should be ashamed that linked in is part of this censorship.

This is america, not China, not North Korea.

And linked in is now part of the problem.

It's this simple. If the covid vaccine results in an antibody that then bonds a covid virus before the virus can infect a lung cell, then the antibody has to have a path into the lung. Unfortunately, there is no path across the blood lung barrier, which can stop water molecules. Antibody molecules are made in the blood and can't cross this barrier because the antibody is 145,000 daltons in weight while water molecules are only 18 daltons in weight.

Purely science. Why can no scientist answer this question? Because the covid vaccine theory is pure science fiction currently.

And linked in knows nothing about science. So, why can't I ask these questions?

Did america really become this stupid?

Hi Joseph,

I'm sorry for not having a quick answer about your issue. I've forwarded your message to another group for additional review and advice. We'll be in contact with you as quickly as possible. Your issue may require additional research, which may extend your wait time.

If you can log into your account, you can update and check the status of your case on the LinkedIn Help Center Your cases page: https://www.linkedin.com/help/linkedin/cases

Please note that if you can't log in to your account, you won't be able to check the status of your case. We ask that you don't create additional cases in the meantime. We're working as quickly as possible to resolve your inquiry.

Thanks for your patience.
