SURAKSHA EYE SOLAR CAMERA

Terms of supply

SURAKSHA EYE Solar camera requires direct sunlight from morning 8am to evening 5pm

The system also requires good 4G network for optimum performance.

Customer cooperation is very much required to offer good after-sales-service.

Customer has to arrange a pipe [2.25-inch diameter / 20 feet length], sim card, concrete & helper for installation.

Installation

Customer can install the system on his own.

Our team of Customer Support Officers will help customer to install the unit, over mobile phone.

In case customer is not able to install the system on his own, he can contact the nearest Part Time technician trained & certified by our company.

Charges paid to part time technician for installation of the unit is not included in the catalog price.

After Sales Service

If problem arises during the warranty period, the customer has to send the system to our Bangalore Unit.

We will repair and send back the system to customer within 48 hours.

Customer can also contact nearest Part Time technician trained & certified by our company

Charges paid to part time technician for onsite after sales service is not included in the catalog price.
