Garden Harvest Was Bountiful

Harvest numbers were average to higher this year. Canning potatoes brought our garden harvest to an end. It is nice to have vegetables all canned up and ready for the table! The garden spot is cleaned out now, and it will rest (summer fallow) until 2027. We will plant tomatoes in the greenhouse for 2026. Hoping they do better than they did this year. I freshened the soil this year, and it seemed the tomato plants did not appreciate it.

Annual Pumpkin Carving FUN

Family Fall crafting and carving fun was had by all. We ate chips, pizza & candy (for dessert) then got busy carving the pumpkins. The pumpkins grew in our garden and in the Tatarka garden.

Halloween "Trick or Treat"

Grandkids had a lot of fun on Halloween and their costumes were great! Xena had to lift her head to show her eyes in her Dinosaur costume. Kreston was the Grimm Reaper, Mia was Scooby Doo and Aila was a Cowgirl (horse girl to her).

Tranan, Ilda, Mia and Juan Carlos visited the Capitol Building kid event.

We did take a quick Fall trip to ZooMT in Billings. Dolly wanted to see the bears before they went to sleep. While there we found out that their bears get lazy in the winter, but they don't really hibernate. We highly recommend it to all. The motorized tour was very affordable, informative and comfortable.

Hunting Season started out with a Bang!

Tranan bagged a very nice antelope. It is a 'wall hanger' and currently at the taxidermist. His elk mount on the wall will have 'company' soon. Way to Go Tranan!

Take Care!
