FOSTERING CREATIVITY AND ENDLESS POSSIBILITIES

Speed

- Fastest lead times in the Architectural Partition industry with a standard 4-5 week lead time.
- Single trade install - fully trained installation experts produce fast and clean installations so clients can get into or back into their spaces faster!

Flexibility

- Demounting Option - Reuse the materials to reconfigure and accommodate most design layouts. While avoiding traditional construction and reducing the project timeline, cost, mess and disturbance to staff
- Easily integrates with existing and new construction.
- Integrates with less than ideal building conditions such as non-level floors and out-of-plumb columns.

Luxe Series

FOW - FEDERAL OFFICE WALL

Affordability

- Options available to provide new partitions at a lower cost than traditional drywall construction.
- Reduced renovation costs and instead reconfigure the glass partitions to accommodate changing business needs.

Performance

- Integrated guide allows for easy installation or removal of sliding doors.
- Soft open and Soft Close with adjustable stop for doors.
- Available with fully integrated top-hung sliding door soft close and soft open hardware for single and double sliding doors.

ADAPT TO CHANGING BUSINESS REQUIREMENTS

Luxe Series

FOW - FEDERAL OFFICE WALL

Project Initiation

- Tender/Awarding Phase - reviewing scop of work, hold job site meeting and confirm schedules.

Preliminary Set-up

- Review details of specifications, customizations, and schedules. Provide Pricing to the Client followed by shop drawings

Procurement and Fabrication

- Once we have a PO we start by site measuring each opening followed by the mobilization of materials. Finally, the installation begins! (most of our materials are kept in-stock, significantly reducing lead-times.

Monitoring & Controlling

- The project installation is tracked, any necessary adjustments are made. Full site review completed at end of the install to ensure no issues and a smooth hand-off.

Closure

- All project tasks are completed, final site review, deliverables are finalized and the project is formally handed off.
