ABOUT PCS

PRIORITY COMMUNICATION SYSTEMS LTD.

Priority Communication Systems Ltd

Integrated communication, security and technology solutions across **Canada**.

TECHNOLOGY SYSTEMS INTEGRATOR

Integrated communication, life safety, security, and infrastructure solutions across Canada. PCS is a Canadian company that specializes in Seniors Housing by leveraging advanced technology to enhance the living experience and care for elderly residents. Beyond this sector, we have successfully adapted our innovative solutions, including phone systems, to various industries such as healthcare, Long Term Care, hospitality, and multi-dwelling buildings. Our focus on optimizing operational efficiency and improving user engagement is evident in our ability to integrate all systems seamlessly. By providing tailored solutions that address the unique challenges faced in these diverse fields, we demonstrate the versatility and effectiveness of our technology across multiple applications.

Since 1999, PCS has been integrating systems throughout seniors communities and businesses. Our expertise and experience are our advantages, ensuring your peace of mind!

WHO WE ARE

- Priority Communication Systems Ltd. (PCS) is a Canadian systems integrator specializing in integrated technology solutions for seniors housing, healthcare, education, and commercial environments.
- Founded in 1999 and headquartered in Calgary, with additional hubs in Toronto, Vancouver, Victoria, Nanaimo, and Kelowna. Delivers end-to-end services—consultation, design, installation, integration, monitoring, and maintenance—across Canada, including major cities and regional/rural locations.
- Specializes in turning multiple low-voltage systems (life safety, security, communications, AV, and infrastructure) into one cohesive, “fit-for-purpose” platform that improves safety, security, communication, and operational efficiency.

Canada-Wide Coverage

- Canada-wide coverage: supports organizations and communities across all of Canada.
- Calgary office: #22, 6420 – 79 Avenue SE, Calgary, AB T2C 5M4; local phone 403.234.0334 and toll-free 1.833.234.0334

Technology for Seniors Communities

OUR MISSION AND VISION

Our Mission: *Integrating technology to create safer, smarter and better connected environments.*

PCS's mission is to design, integrate, install and support reliable technology systems that improve safety, security, communication and operational efficiency across senior housing, long-term care, healthcare, government and other critical environments.

We bring together life safety, security, communications and infrastructure technologies into cohesive, fit-for-purpose solutions backed by dependable service and long-term support.

Our Vision: *To set the standard for integrated life safety, security, communications and infrastructure technology in critical facilities.*

PCS's vision is to be recognised as a leading technology systems integrator for senior housing, long-term care, healthcare, government and safety-critical facilities.

We aim to create safer, smarter and better connected environments through innovative, scalable and future-ready technology that supports residents, patients, staff and organisations.

Priority Communication Systems Ltd

INTEGRATED TECHNOLOGY SOLUTIONS

Engaging audio visual experiences that inform, entertain, and bring your community together.

Safety Focused
Protecting people and property every day.

Partnership Driven
Collaborative relationships built on trust.

Future Ready
Innovative solutions that scale with your needs.

Proven Reliability
Trusted technology. Dependable results.

PRIORITY COMMUNICATION SYSTEMS LTD.

WHY CHOOSE US

- 01 Seniors Housing Specialists** – Since 1999, PCS has focused on **integrated technology for seniors housing**, assisted living, retirement living, and long-term care across Canada.
- 02 Proven Scale** – Hundreds of facilities served and **thousands of projects completed** across Canada, with deep experience in complex, multi-system environments.
- 03 Single-Point Accountability** – One partner for **consultation, design, build, integration, monitoring**, and ongoing **maintenance** across life safety, security, communications, AV, and infrastructure.
- 04 Nationwide, Local Delivery** – **National coverage** with local teams in Calgary, Edmonton, Vancouver/Victoria/Nanaimo/Kelowna, and Toronto for faster response and on-the-ground expertise.
- 05 Fit-for-Purpose Design** – **Solutions tailored to each facility's workflows**, regulatory context, and resident/staff needs, avoiding over-engineering and intimidation around new technology.
- 06 Certified, Responsive Technicians** – Timely support, remote and on-site, with certified staff, structured testing/commissioning, and formal training for your teams.

FUTURE-READY PLATFORMS

CLOUD-BASED PHONE SYSTEMS, MASS NOTIFICATION, INTEGRATED EMERGENCY CALL, ACCESS CONTROL, AND CCTV DESIGNED TO SCALE AND ADAPT AS NEEDS EVOLVE.

INTEGRATED LIFE SAFETY - RESIDENT SAFETY & SECURITY MODERN BUSINESS COMMUNICATIONS - INFRASTRUCTURE BACKBONE - COMMUNITY AV & ENGAGEMENT

HOTEL-TO-CARE FACILITY CONVERSION – SENIORS HOUSING & LIVING

Sector: Senior Housing / Healthcare

Scope: Retrofit of an existing hotel into a modern care facility with integrated communication, safety and security systems.

Challenge: Convert an older hotel building into a safe, compliant senior care environment without overhauling the entire structure.

Solution: Implemented emergency call/nurse call, door entry and access control, CCTV, mass notification, and upgraded cabling and network infrastructure to support clinical and operational systems.

Outcome: Enabled the operator to bring a new care community online quickly, with improved resident safety, staff communication, and regulatory compliance.

VERVE SENIOR LIVING – MULTI-SITE PHONE SYSTEM UPGRADE (CANADA-WIDE)

Sector: Senior Housing

Scope: Cloud-based phone system upgrade across 10 Verve buildings throughout Canada.

Challenge: Replace aging phone systems across multiple communities with a reliable, flexible, and centrally manageable solution.

Solution: Deployed modern cloud-based communication platforms, integrating with existing infrastructure and standardizing operations across sites.

Outcome: More reliable resident and staff communications, streamlined operations, and easier scalability for future additions or changes.

NORTH TRAIL HIGH SCHOOL – CALGARY, AB

Sector: Education

Scope: Communication, security, and infrastructure systems for 1,200+ students and staff.

Challenge: Replace fragmented systems with a single integrated platform for life safety, security, and day-to-day communications across a large secondary school.

Solution: Designed and installed emergency call and mass notification, CCTV and access control, business phone system, structured cabling, and Wi-Fi infrastructure, all managed from a unified operations point.

Outcome: Improved incident response times, clearer emergency communication, and simplified IT/operations management for school administration.
