ANNI'S ARMY FOUNDATION

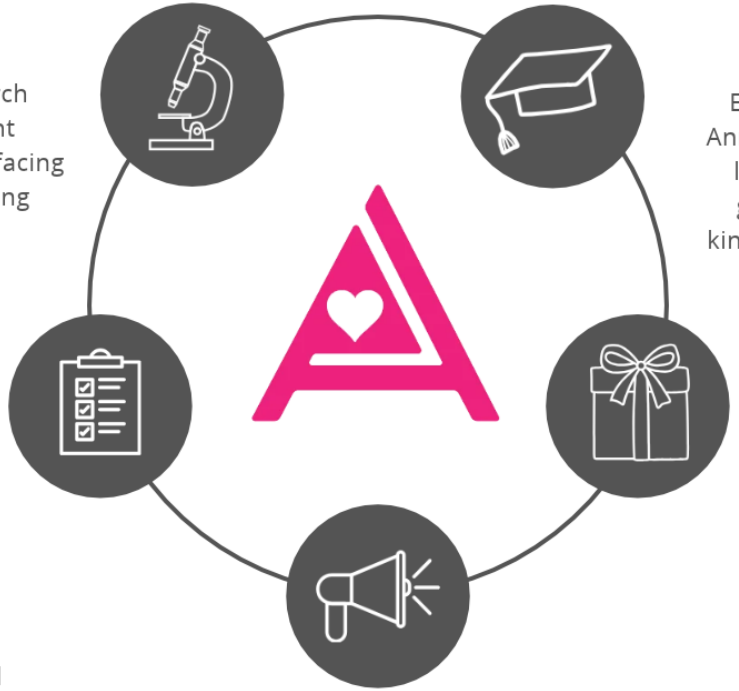

WHAT WE DO

Fund Innovative Research

We invest in innovative pediatric cancer research focused on prevention, less invasive treatment options, and improved quality of life for children facing the most difficult-to-treat brain tumors, including medulloblastoma.

Support Hospital-Based Programs

Each year, we support hospital-based programs through financial aid and thoughtful donations—including rolling carts, gift cards, wagons, and comfort bags—that encourage and comfort pediatric cancer patients. These contributions benefit the Pediatric Oncology Resource Team (PORT) and the Adolescent and Young Adult (AYA) Cancer Program at Helen DeVos Children's Hospital.

Raise Awareness

We elevate awareness of pediatric brain cancer while building a community of supporters united by belonging, connection, and shared purpose through meaningful fundraising efforts.

Grant Scholarships

Established in 2026, the Anni's Army Foundation Annika Meier Memorial Scholarship honors Annika's legacy by recognizing two Rockford High School graduating seniors who demonstrate diligence, kindness, perseverance, empathy, and a meaningful commitment to serving others.

Provide Financial Assistance via Anni's Gift

Through Anni's Gift, we provide direct financial assistance to families of children battling pediatric brain cancer at four Michigan hospitals: C.S. Mott Children's Hospital, Children's Hospital of Michigan, Corewell Health East/Beaumont Children's, and Helen DeVos Children's Hospital. This support helps ease the financial strain of a diagnosis so families can focus on what matters most: caring for their child.
