Your Golfing Partner On The Golf Course

StepKick Caddy®

Great Accessory To Have In Any Golf Bag

Did You Know That An Average Golfer Bends Picking Up Clubs While Playing Golf. Can Be Up To 36 Times Or More Per Round.

- Carrying Clubs for approach shot to green to determine the best club to use – middle iron, pitching wedge, gap wedge , sand wedge, lob wedge, putter etc.
- Looking for a ball in the rough or water hazard and bringing a couple clubs to determine what club should be used for the shot.

The above two situations on a golf round. Are the most popular locations on a course where golfers leave their clubs behind.

Other Golf Experiences the StepKick Caddy Comes In Handy

- After ball lands in a sand trap near the green. It's a wet morning with frost or dew and you don't want to get your club grips wet.
- Playing a course with restricted areas because of terrain and unable to go on the fairway or green approach areas with push carts or power carts. So you have to carry extra clubs with you.
- Carrying more than one club to tee or green. Save time hanging on the StepKick Caddy a towel, ball & club washer, and an accessory bag with extra tees, balls or markers inside .

Everything a golfer may need.
