Anika constantly had new ideas for improving the new hire training effectiveness and worked hard to win new employees' trust and make their time spent in training a productive experience.

Former Client- Flagstar Bank

Transformative Talks

Let's Talk Leadership!

With all of the leadership content available, it's challenging to know what's right for your organization's leaders.

To succeed in today's workplace, leaders must understand how leadership works to benefit their teams and organizations and develop professionally!

This session unpacks critical leadership styles and how to leverage each leader's style to increase employee engagement, retention, team collaboration, and productivity!

Leading Change Through Effective Problem Solving

This three-part workshop invites participants to understand their preferred problem-solving style, leveraging it to connect with their teams effectively. Each participant will receive Kirton's Adaption-Innovation (KAI) Cognitive Style Assessment and attend a Feedback session in addition to the workshop. Topics include:

- Innovation in the Workplace
- Being an Agent of Change
- The Importance of Collaboration

I am Dr. Anika Davis.
My clients choose me because I'm an innovative, thought-provoking expert helping them solve the challenges they face every day.

As an award-winning strategist implementing carefully curated plans, my clients have expanded their businesses, improved employee engagement, and built sustainable cultures of excellence within their organizations.

My keynotes and workshops challenge my audiences to reinvent themselves and improve their work environments by taking an introspective look at their daily contributions.

From leaders and individual contributors to c-suite and entry-level individuals,

I have worked with small groups and large audiences (1000+) across multiple industries connecting people with their purpose.

Bring me to your organization so you too can say

"Potential Achieved!"
