

my weather

Integrated environmental monitoring system

my weather is a compact, portable, fully integrated, sturdy, weatherproof and independent environmental monitoring system. It measures, displays and stores timestamped the air temperature, barometric pressure, and relative humidity.

Technical specifications

Dimensions	95mm x 64mm x 48mm
Mass	175 g
Operation range	Pressure 300hPa to 1100 hPa
	Temperature -40 °C to 65 °C
	Relative humidity 0% to 100%
Full range accuracy	Pressure ± 1 hPa
	Temperature ± 0.5 °C
	Relative humidity ± 3 %
Power supply	5V DC USB external hot swap chargeable Li polymer 3.7V 150 mAh internal
Memory	8GB detachable micro SD card
Display	2" 320x240 color IPS TFT

my weather is priced at **205\$** (plus taxes and shipping), has **two weeks** manufacturing lead time and **three month** unlimited warranty (repair, replace or refund). This monitor is fully calibrated. All the profits from the sale will be used to developing new air quality monitoring instruments for personal use.
