

## Sweet Pea Shih Tzus Recommended Supplies

- **High Quality Kibble and Supplements**

We use pawTree products, a holistic pet food company with real meat, veggies, fruits and healthy grains. Our dogs and puppies eat pawTree Chicken and Oatmeal kibble and they love it. We strongly encourage you to keep your puppy on this top quality food!

Please visit our pawTree page 'Supplies for Your Puppy' to order your food and other recommended supplies at least two weeks before your puppy arrives.

- **Nutrical** (High calorie gel): <https://amzn.to/4aupnSY>

- This is required to have on hand when your puppy comes home. Puppy should be given a pea size amount on the tongue 3 - 5x a day for the first 2 weeks.
- Some puppies will be nervous going to a new home and will not eat well, this gel helps to keep their sugar levels up and prevent hypoglycemia.

- **Teething:** Our puppies love most toys, but these teething toys are a favorite! <https://amzn.to/4esNzX3>

- **Food bowls and/or water bottle:**

- Stainless Steel Bowls - <https://amzn.to/3i0r3as>

- **Sleeping:** I recommend using an Iris pen for the first few months. They should be setup with a potty pad on one side, food and bed on the other side.
