# **R4+ MOBILE STRETCH WRAPPING ROBOT**

# Features

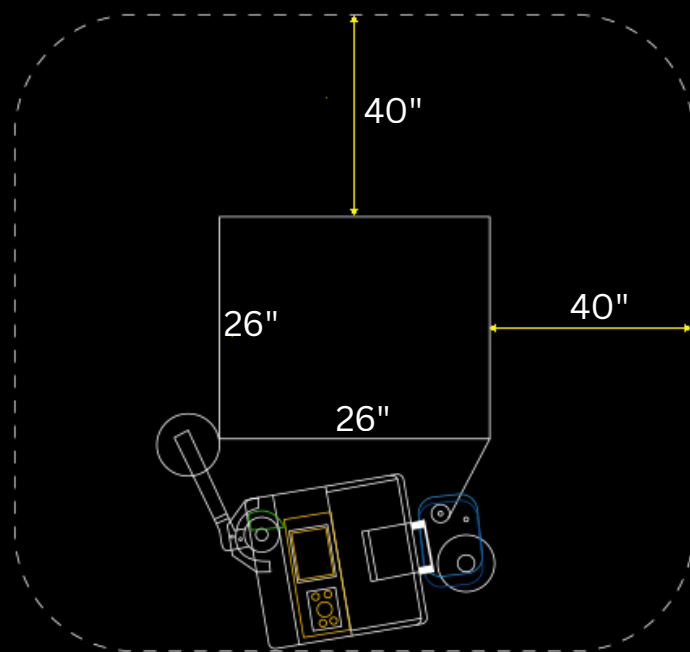

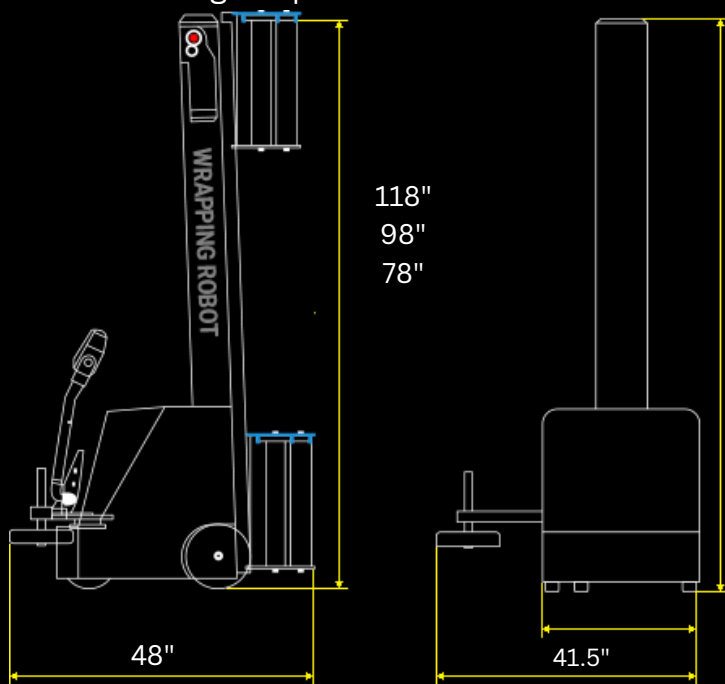

- Makes the wrapping process easier while reducing the manpower needed to complete the task
- Mobile wrapping means no more need to move pallets
- Automate and Standardize pallet wrapping
- Deploy extra units when needed, quickly
- Ability to change the programming to allow for a variety of different uses
- Consistent tension = fewer damaged goods

## Safety.

- Ultrasonic sensors allow the machine to stop if something were to get in the way
- The body of the machine is equipped with multiple emergency stop buttons
  - this allows you to start or stop the machine at any moment
- Equipped with a warning light while in motion to ensure a safe workplace for you and others around you

### 3 Height Options

#### **i How much room is needed to run the wrapper?**

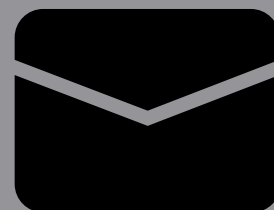

A minimum of 40" of clearance is required to complete a job. More room is always suggested in case there is significant foot traffic.

#### **i Can you adjust the height of the guide wheel?**

No, because we have designed this machine with a bigger wheel so that it would not need to be adjusted.

#### **i What kind of batteries does the R4+ Wrapping Robot require?**

It takes two 12V AGM 100AH batteries.
